| 1   | Environmental Services Project (P130492|FY15): support sustainable land management practices and increase communities’ monetary and non-monetary benefits in targeted Project areas which are mainly in erosion prone rural upland areas. | Albania | 27 | Agriculture, Fishing & Forestry | ● 7,500 ha where sustainable land mgt. practices were adopted.  
● 1,000 people in targeted communes with increased monetary or non-monetary benefits from agricultural lands, 500 of which are female.  
● 114,000 ha of forest pought under management plans. | 10.0 | 50% | 6.5 |      |
| 2   | Water Resources and Irrigation Project (P121186|FY13): establish the strategic framework to manage water resources at the national level and at the level of the Drin-Bura and Semani River basins; and improve irrigation service delivery in Selected Irrigation Systems. | Albania | 32 | Agriculture, Fishing & Forestry | ● 35,000 water users provided with new/improved irrigation and drainage services, 4,000 of which are female.  
● 40,000 ha provided with new irrigation or drainage services. | 67.2 | 93% | 46.7 |      |
| 3   | Smallholder Agriculture Development and Commercialization Project (P154447|FY17): increase smallholder agriculture productivity, production and marketing for selected crops in the Project areas. | Angola | 24 | Agriculture, Fishing & Forestry | ● 40% increase in the proportion of production marketed.  
● 175,600 project beneficiaries, 50% of which are female.  
● 1,000 ha provided with irrigation and drainage services | 70.0 | 74% | 41.0 |      |
| 4   | Integrated Risk Management in the Rural Agroindustrial System (P162316|FY18): improve the management of agricultural risks by eligible beneficiaries and selected public institutions. | Argentina | 40 | Agriculture, Fishing & Forestry | ● 9,000 additional users accessing new and/or improved agricultural risk information systems.  
● 12,000 farmers with access to improved infrastructure for agricultural risk mitigation and natural resources management, 2,400 of which are female.  
● 5,300 farmers adopting improved agricultural technology, 1,060 of which are female.  
● 6,350 farmers covered under an improved agricultural emergency mechanism, 1,470 of which are female. | 150.0 | 80% | 0.9 |      |
| 5   | Salado Integrated River Basin Management Support Project (P161789|FY17): enhance flood protection and strengthen the capacity of the responsible institutions for integrated water resources monitoring and management in the Salado River Basin. | Argentina | 34 | Agriculture, Fishing & Forestry | ● 75,000 people benefitting from reduced flood risk.  
● 435 km² under enhanced flood protection  
● 34 km of river hydraulically enhanced.  
● 57 hydromet stations installed and operational. | 300.0 | 80% | 36.8 |      |
| 6   | Forests and Community (P132846|FY15): improve forest management; and increase access to markets and basic services by small forest producers including indigenous and campesinos in selected Northern Provinces of Argentina. | Argentina | 40 | Agriculture, Fishing & Forestry | ● 105,000 direct project beneficiaries, 52,500 of which are female.  
● 50% of targeted households with access to basic services and 2,000 small forest producers reporting improved access to markets. | 20.8 | 96% | 12.2 |      |
| 7   | Second Community Agriculture Resource Management and Competitiveness Project (P133705|FY14): improve pasture-based livestock management in targeted alpine grasslands areas. | Armenia | 25 | Agriculture, Fishing & Forestry | ● At least 10,000 pasture users benefit through their membership in Pasture Users’ Cooperatives.  
● 110,000 ha of land managed with sustainable practices. | 23.0 | 54% | 11.3 |      |

● 3 recommended border regulations adopted.  
● Average time to import and export decreased, respectively, to 27 hours and to 25 hours.  
● 600 firms benefit from reformed customs/border services.                                                                                                               | 90.0          | 100%          | 2.4                                          | SDG 2  
SDG 3  
SDG 9 |
| 251| Integrated Land Administration System (P122219|FY12): modernize the land administration and management system to improve the efficiency, transparency and cost effectiveness of government services. | Croatia       | 13           | Information & Communications Technology | ● Reduced transaction processing times in land registry and cadastral databases by 36 and 20 days respectively for LROs (Land Registry Offices) and COs (Cadastre Offices).  
● 20% increase in percentage of customers lodging requests online.  
● 24 government agencies/ministries using shared spatial data.  
● 4,150 SGA (State Geodetic Administration) staff trained.  
● 542,893 cadastral parcels harmonized and transferred to the LDB.                                                                                                           | 47.9          | 95%           | 23.2                                 | SDG 2  
SDG 3  
SDG 9 |
| 252| Pacific Regional Connectivity Program: Phase 3B, Fiji Connectivity Project (P159297|FY17): reduce the cost and increase the availability of internet services in the Northern Division of the Borrower’s territory. | Fiji          | 23           | Information & Communications Technology | ● 25 additional subscribers (per 100 people) to Internet Services.  
● 32% decrease in Wholesale Internet bandwidth price at point of interconnection (equivalent to 35 USD/Mbps/month reduction).  
● 8.5 Gbps increase in available internet bandwidth for the Northern Division.  
● Regulatory framework supports open access and nondiscriminatory pricing.  
● 80,000 project beneficiaries.  
● 95 km of Fiber Optic Network Built.                                                                                                                                         | 6.0           | 94%           | 4.3                                           | SDG 2  
SDG 3  
SDG 9 |
| 253| eGabon (P132824|FY16): improve the timeliness and availability of information to support the delivery and management of public health services; and to foster the development and roll-out of health applications and services, and Information and Communication Technology (ICT) services more generally. | Gabon         | 25           | Information & Communications Technology | ● 1,820,000 direct project beneficiaries.  
● Increase by 60% in prescriptions transmitted electronically.  
● 70% of health workers reporting that they regularly use and update the patients’ electronic medical record during clinical consultations.                                                                                                                          | 56.0          | 97%           | 20.6                                         | SDG 2  
SDG 3  
SDG 9 |
| 254| Central African Backbone - APL4 - Gabon (P122776|FY12): contribute to increase geographical reach and usage of regional broadband network services and reduce their prices in the territory of the Republic of Gabon. | Gabon         | 25           | Information & Communications Technology | ● Access to Internet Services increase by 53 subscribers (per 100 people).  
● Decrease by more than 50% in the average cost of mobile call.  
● 1.561 km of Fiber Optic Network Built.  
● 27 additional localities with broadband Internet access (256Kbps).                                                                                                               | 79.2          | 60%           | 78.8                                         | SDG 2

| 414 | East-West Highway Corridor Improvement (P149952) [FY16]: reduce road user costs along the East-West Highway Corridor section upgraded under the project; and strengthen the capacity of the Roads Department and the Ministry of Economy and Sustainable Development to respectively manage the road network and provide an enabling environment to improve logistics services. | Georgia | 39 | Transportation | • National Logistics Program adopted by the Ministry of Economy and Sustainable Development.  
• Travel time from Zemo Osiauri to Khivi reduced by 25% (equivalent to 4.5 minutes).  
• 10% decrease in cars’ Operating Costs from Zemo Osiauri to Khivi.  
• 19 km of non-rural roads constructed. | 160.0 | 98 | 33.7 | SDG 11, SDG 3 |
| 415 | Secondary Road Asset Management Project (P149953) [FY16]: improve road user’s access to social services and markets on the project roads in a sustainable manner, and to enhance road asset management for the secondary roads network in Georgia. | Georgia | 39 | Transportation | • Increase by 5% in the share of the secondary road network in good and fair condition.  
• 540 km of project roads managed under innovative practices (OPRC and design-build) as part of the Five-Year Rolling Program.  
• 20% decrease in travel time to socio-economic centers or district centers on Guria OPRC roads (equivalent to 65 hours). | 40.0 | 83 | 20.7 | SDG 6, SDG 7 |
| 416 | Uttarakhand Disaster Recovery Project (P146653) [FY14]: restore housing, rural connectivity and build resilience of communities in Uttarakhand and increase the technical capacity of the State entities to respond promptly and effectively to an eligible crisis or emergency. | India | 20 | Transportation | • 100% increase in targeted affected HHs with multi-hazard resilient housing and in targeted affected villages with restored connectivity.  
• 2,500 resilient houses reconstructed.  
• 1,600 km of village roads/other district roads restored.  
• 26 public buildings reconstructed.  
• 140 bridle bridges restored. | 96.0 | 38 | 9.1 | SDG 3, SDG 5, SDG 17 |
| 417 | Assam Inland Water Transport Project (P157929) [FY20]: improve passenger ferry infrastructure and service in Assam, and improve the institutional capacity and framework for inland water transport in Assam. | India | 20 | Transportation | • Ferry service available increased to 16 hours per day.  
• Improved access to climate/weather information and night navigation support available on project supported routes.  
• Transport Department has approved/adopted an Intra-State Water Transport Strategy.  
• More than 200 private sector country boats made safer and efficient.  
• 7 modern, floating and engineered ferry terminals with improved access and socially inclusive design. | 88.0 | 80 | 2.3 | SDG 3, SDG 5, SDG 6, SDG 17, SDG 11 |
| 418 | Madhya Pradesh Rural Connectivity Project (P157504) [FY18]: improve durability and enhance resilience to climate changes of the gravel surfaced rural roads in Madhya Pradesh while building the capacity of the state to manage its rural road network and road safety. | India | 30 | Transportation | • 25% decrease in annual maintenance cost (equivalent to US$250 per km).  
• Maintenance network investment plan prioritized  
• 100% of state highway network covered under Road Accident Data Management System.  
• 10,510 km of rural roads constructed.  
• 1,500,000 rural population connected by all weather paved roads. | 210.0 | 42 | 114.0 | SDG 3, SDG 6, SDG 17, SDG 11, SDG 15 |
| 419 | Rajasthan State Highways Development Program II (P157141) [FY19]: build capacity for better management of state highways and to improve traffic flows on selected state highways in the state of Rajasthan. | India | 30 | Transportation | • 10,000 km of State Highways actively managed by the Rajasthan State Highway Authority.  
• 50% increase in State Road Fund resources earmarked for State Highways.  
• 766 km of roads rehabilitated.  
• 4 e-PMS developed and operational.  
• Speed Management Program implemented for 100 km.  
• Road safety strategy developed and adopted. | 250.0 | 59 | 0.6 | SDG 17, SDG 5, SDG 8 |

● 100,000 people provided with access to improved sewerage systems.  
● Flood risk management system developed and implemented.  
● 1,073 metric tons of BOD pollution loads removed by the completion of sewer system annually.  
● 68 km of river rehabilitated to improve flood risk management and prevent water pollution.  
● 16 km of sewer pipeline constructed.  
● 4 water quality monitoring stations constructed and operational. | 150.0 | 42% | 12.0 |       |
| 469 | Liaoning Safe and Sustainable Urban Water Supply Project (P158713| FY18): improve water quality and operational efficiency of selected water supply utilities in the project areas. | China | 32 | Water, Sanitation & Waste Management | ● 5,690,600 project beneficiaries, 49% of which are female.  
● 67% increase in compliance with water quality Health Standards (in Shenyang, Fushun, Anshan, Fuxin and Gaizhou).  
● 16% average decrease in energy consumption by the water utilities in each project city (equivalent to an average of 0.10 KWh/m³).  
● 300 km of new or rehabilitated main pipelines for water supply. | 250.0 | 65% | 10.6 |       |
| 470 | Jiangxi Integrated Rural and Urban Water Supply and Wastewater Management Project (P158760| FY19): increase access to and improve operating efficiency of water supply services, and to pilot provision of improved wastewater management, in selected counties in Jiangxi Province. | China | 35 | Water, Sanitation & Waste Management | ● 584,198 people with new access to piped water supply  
● Non-revenue water decrease by 10%.  
● Operation and Maintenance unit cost of water supply system decreased by 22% (equivalent to 0.141 RMB/m³).  
● 28,000 people with new connections to sewerage systems.  
● 16 km of sewerage pipelines completed or rehabilitated.  
● 83% decrease in BOD in pilot wastewater treatment plant (equivalent to 73 tons).  
● 1,880 km of water supply pipelines newly constructed and rehabilitated. | 200.0 | 55% | 7.5 |       |
| 471 | Ma’anshan Chiu River Basin Improvement Project (P126813| FY13): improve drainage and flood protection capacity in urban areas of Ma’anshan Municipality. | China | 35 | Water, Sanitation & Waste Management | ● 314,000 people benefitting from improved drainage.  
● 160 km² provided drainage services.  
● 14.7 km of river channel rehabilitated.  
● 5 pumping stations upgraded or rehabilitated.  
● 190,000 m³ of water detention capacity created. | 100.0 | 48% | 80.1 |       |
| 472 | Huainan Mining Area Rehabilitation Project (P133000| FY15): remediate and create a public space at the JuDa mining site in Huainan city. | China | 40 | Water, Sanitation & Waste Management | ● 39 ha of contaminated land managed or dump sites closed.  
● 393 ha of total public space created (public park, flower market, bonsai area).  
● 20,000 project beneficiaries.  
● 410 ha remediated with improved vegetation coverage.  
● 8.3 km of road rehabilitated/constructed. | 100.0 | 59% | 34.0 |       |
| 473 | Fujian Fishing Ports Project (P129791| FY14): reduce the vulnerability of fishing communities to extreme weather events. | China | 27 | Water, Sanitation & Waste Management | ● 11,000 fishermen and their families (total 64,000 people) benefit.  
● 3,000 fishing vessels protected in ports.  
● Improved effectiveness of early warning and emergency systems. | 60.0 | 58% | 7.2 |       |

• 5 bridges constructed/ rehabilitated.  
• 8,257 tons of BOD pollution loads removed by the treatment plants annually. | 46.0 | 17% | 3.9 | |

Notes:
- Amounts may not add up due to rounding.
- Project Life generally indicates the financial life of the project, intended as the sum of the project’s loan term and its grace period.
- Target results are expected results based on estimates developed at the time of project approval and expected to materialize at the end of the project implementation period (5 years in most cases). The indicators shown are normally a subset of the development impacts contained in project documentation available in the World Bank project website ([http://www.worldbank.org/projects](http://www.worldbank.org/projects)). Results reported are based on the entire project, with the percent shown next to the loan amount corresponding to the proportion of the total financing that is financed by World Bank loans. Actual impacts may be different from these estimates and do not represent the actual results in a specific year. Quantitative estimates are intended to be indicative of the scale of impacts and qualitative results aim to inform about the nature of changes that will be achieved as a result of projects once they are completed and at full capacity.
- The committed amount is the World Bank loan net of cancellations reported in equivalent US$ millions. Loans denominated in other currencies are converted to US$ equivalents using the exchange rate as of the month end prior to the negotiation date. Similarly, cancellations of loans denominated in other currencies are converted to US$ equivalents using the exchange rate on the value date of the cancellation.
- The percentage shows the share of the total financing that is provided by World Bank loans. When a project is co-financed, this share could be used to apportion total results to the World Bank.
- The allocated amount is the amount of World Bank bond proceeds allocated to support the financing of disbursements to eligible projects reported in equivalent US$ millions. Disbursements of loans denominated in other currencies are converted to US$ equivalents using the exchange rate on the value date of the transactions under the loan.
- The SDGs noted in the table represent the first three SDGs according to highest frequency of mapping the SDGs to the 100 projects added to the SDB project portfolio in FY20. A more detailed mapping is available in the "Project-Level Mapping of the FY20 World Bank Portfolio to the SDGs" also in the Project-by-Project Reporting section of this document, developed in collaboration with SEI. The selected SDGs are only indicative of how the project contributes to the SDGs and are not meant to provide an exhaustive explanation of the broader impact that a project may have on other SDGs.

\(^a\) Project Life generally indicates the financial life of the project, intended as the sum of the project’s loan term and its grace period.
\(^b\) Target results are expected results based on estimates developed at the time of project approval and expected to materialize at the end of the project implementation period (5 years in most cases). The indicators shown are normally a subset of the development impacts contained in project documentation available in the World Bank project website ([http://www.worldbank.org/projects](http://www.worldbank.org/projects)). Results reported are based on the entire project, with the percent shown next to the loan amount corresponding to the proportion of the total financing that is financed by World Bank loans. Actual impacts may be different from these estimates and do not represent the actual results in a specific year. Quantitative estimates are intended to be indicative of the scale of impacts and qualitative results aim to inform about the nature of changes that will be achieved as a result of projects once they are completed and at full capacity.
\(^c\) The committed amount is the World Bank loan net of cancellations reported in equivalent US$ millions. Loans denominated in other currencies are converted to US$ equivalents using the exchange rate as of the month end prior to the negotiation date. Similarly, cancellations of loans denominated in other currencies are converted to US$ equivalents using the exchange rate on the value date of the cancellation.
\(^d\) The percentage shows the share of the total financing that is provided by World Bank loans. When a project is co-financed, this share could be used to apportion total results to the World Bank.
\(^e\) The allocated amount is the amount of World Bank bond proceeds allocated to support the financing of disbursements to eligible projects reported in equivalent US$ millions. Disbursements of loans denominated in other currencies are converted to US$ equivalents using the exchange rate on the value date of the transactions under the loan.
\(^f\) The SDGs noted in the table represent the first three SDGs according to highest frequency of mapping the SDGs to the 100 projects added to the SDB project portfolio in FY20. A more detailed mapping is available in the "Project-Level Mapping of the FY20 World Bank Portfolio to the SDGs" also in the Project-by-Project Reporting section of this document, developed in collaboration with SEI. The selected SDGs are only indicative of how the project contributes to the SDGs and are not meant to provide an exhaustive explanation of the broader impact that a project may have on other SDGs.

\(^\ast\) Discrepancies between committed and allocated amounts may be due to the different exchange rates used to convert loans denominated in other currencies to US$ equivalents.

| 64 | Road Rehabilitation and Maintenance Program (P125803 | FY13): improve the condition of the Uruguay National Road network and enhance road sector management. | Uruguay | 36 | Transportation | • 60% of the Uruguay National Road network in good or very good condition.  
• 75% of the Program Action Plan actions completed.  
• 1,854 km rehabilitated on the National Road Network.  
• 3,637 km of the National Road Network maintained through performance-based contracts.  
• A study to assess which areas of the National Road Network are subject to climatic risks has been completed.  
• A contingency plan for catastrophic climate related events has been developed.  
Updated for actual results at project completion. | 134.5 | 13% | 133.5 |
| 65 | Pap-Angren Railway (P146328 | FY15): reduce transport costs and to increase transport capacity and reliability through the construction of a rail link between the Uzbek part of the Ferghana Valley and the rest of Uzbekistan. | Uzbekistan | 30 | Transportation | • 2 pairs of passenger trains per day and 8 pairs of freight trains per day.  
• Signaling System is commissioned.  
• The power distribution line is commissioned.  
• 611,740 project beneficiaries.  
Project Completed. | 70.8 | 12% | 60.8 |
| 66 | Water Sector Improvement Project (P102733 | FY14): improve the quality of water and wastewater services in the Durres Water Utility Service Area; and(ii) improve the financial performance of Durres Water Utility. | Albania | 33 | Water, Sanitation & Waste Management | • 68,100 beneficiaries from improved wastewater collection and transportation facilities.  
• 185,624 project beneficiaries.  
• 1,905,000 m³ of additional annual volume of wastewater that is appropriately collected, treated and disposed.  
• 3,074 new household sewer connections constructed and 87,885 piped household water connections benefiting from rehabilitation works.  
Updated for actual results at project completion. | 85.3 | 99% | 72.5 |
| 67 | Water Supply and Sanitation Project (P101190 | FY09): increase access to water supply services and to improve the quality of water supply and wastewater services in selected urban areas in all six (6) oblasts of the Borrower. | Belarus | 22 | Water, Sanitation & Waste Management | • 7,390 people, in urban area, provided with access to improved water sources.  
• 611,766 people benefitting from improved quality of water supplied.  
• 47,520 people provided with access to improved sanitation facilities.  
• 215 tones of Phosphorus pollution loads removed by the treatment plants annually.  
• 13,613 tones of BOD pollution loads removed by the treatment plants annually.  
• 154 km of transmission and distribution pipelines and 96 km of wastewater collectors laid/replaced.  
• 32 water utilities supported by the project.  
Updated for actual results at project completion. | 150.0 | 100% | 149.6 |

| 68 | Sergipe Water (P112074| FY12): promote the efficient and sustainable use of water in the Sergipe River Basin, by strengthening the State’s sector management, enhancing land management practices and improving water quality. | Brazil | 30 | Water, Sanitation & Waste Management | • Integrated procedures and tools for environmental licensing and water rights implemented.  
• 868 ha of agricultural area with improved efficiency irrigation techniques.  
• 5,343 tons of BOD discharged by the municipalities targeted by the Project’s wastewater investments, reduced annually.  
• 459,075 people provided with access to improved sanitation services.  
• 266 ha of protected area in water supply reservoirs, in the Sergipe River Basin, with demarcation, preservation, conservation and recovery.  
• 2 water utilities supported by the project.  
• 593 farmers benefited from improved irrigation system.  
Updated for actual results at project completion. | 70.3 | 60% | 61.2 |
| 69 | Pernambuco Sustainable Water (P108654|FY10): improve sustainable water supply and sanitation services for the population residing in the Capibaribe river basin and in the Metropolitan Region of Recife. | Brazil | 35 | Water, Sanitation & Waste Management | • Reduction in the percentage of population subject to water rationing in the Metropolitan Region of Recife from 88% in 2008 to 10% in 2015.  
• Reduction in the pollution load of 3.160 tons of BOD/year discharged by the municipalities targeted by the project’s wastewater investments by 2015.  
• Water losses in the areas targeted by the project’s nonrevenue water program are reduced from 975 liters per connection per day in 2008 to 565 liters per connection per day in 2015.  
• Number of residential connections to wastewater collection services increased from 8,169 in 2008 to 33,060 in 2015 in the municipalities of the Capibaribe river basin targeted by the project.  
• State water regulatory agency (APAC) is fully operational.  
Project Completed. | 190.0 | 46% | 190.0 |
| 70 | Municipal Infrastructure Development (P099895|FY10): improve bulk potable water provision in target areas, and assist municipalities to improve investment-planning capacity. | Bulgaria | 26 | Water, Sanitation & Waste Management | • 2,022,560 m$^3$ of additional potable water produced by the dams and Water Treatment Plants annually.  
• 51 water utilities supported by the project.  
• 19,616 project beneficiaries.  
Updated for actual results at project completion. | 102.6 | 80% | 64.9 |
| 71 | Ningbo Municipal Solid Waste Minimization and Recycling Project (P123323|FY13): assist selected districts in Ningbo Municipality to increase the volume and proportion of municipal solid waste recycled with processes for waste separation at source and recycling. | China | 35 | Water, Sanitation & Waste Management | • 17.5% residential waste separated.  
• 193,200 tones of separated kitchen waste collected every year.  
• 71,600 tones of recycling materials separated at sorting centers every year.  
• 905,000 households practicing waste separation at source.  
• Waste sorting center entered operation.  
• 187 tones of hazardous waste delivered to hazardous waste processing facilities every year.  
Updated for actual results at project completion. | 80.0 | 32% | 80.0 |
| 72 | Guangxi Beiben Water Environment Project (P126817|FY13): reduce flood risks and improve drainage in selected areas of Beiben city. | China | 35 | Water, Sanitation & Waste Management | • 199,000 project beneficiaries, 127,500 of which benefitting from improved drainage facilities.  
• 4 km of urban area serviced by exclusive and improved drainage system.  
• 12 km of of newly constructed drainage pipelines.  
• 16 km of newly constructed sewage pipelines.  
Updated for actual results at project completion. | 66.0 | 63% | 62.8 |

Notes:
Amounts may not add up due to rounding.

/a Project Life generally indicates the financial life of the project, intended as the sum of the project’s loan term and its grace period.
/b “Project Completed” refers to a closed project for which its Implementation Completion Report (ICR) is not available yet. “Updated for actual results at project completion” refers to a closed project where ICR is available, and target results are updated accordingly.
/c The committed amount is the World Bank loan net of cancellations reported in equivalent US$ millions. Loans denominated in other currencies are converted to US$ equivalents using the exchange rate as of the month end prior to the negotiation date. Similarly, cancellations of loans denominated in other currencies are converted to US$ equivalents using the exchange rate as of the cancellation date.
/d The percentage shows the share of the total financing that is provided by World Bank loans. When a project is co-financed, this share could be used to apportion total results to the World Bank.
/e The allocated amount is the amount of World Bank bond proceeds allocated to support the financing of disbursements to eligible projects reported in equivalent US$ millions. Disbursements of loans denominated in other currencies are converted to US$ equivalents using the exchange rate at the time of the transaction under the loan.

* Discrepancies between committed and allocated amounts may be due to the different exchange rates used to convert loans denominated in other currencies to US$ equivalents.
