- c. Extent to which the project will meet its development objective (see OD 13.05, Annex D2, *Preparation of Implementation Summary [Form 590]*).
- d. Assessment of overall performance of the project based on the ratings given to individual aspects of project implementation (e.g., management, availability of funds, compliance with legal covenants) and to development objectives (see OD 13.05, Annex D2, *Preparation of Implementation Summary [Form 590]*). The overall status is not given a better rating than that given to project development objectives.
- e. Ratio of disbursements during the year to the undisbursed balance of the Bank's portfolio at the beginning of the year: investment projects only.
- f. For all projects comprising the Bank's country portfolio, the percentage difference between actual cumulative disbursements and the cumulative disbursement estimates as given in the "Original SAR/PR Forecast" or, if the loan amounts have been modified, in the "Revised Forecast." The country portfolio disbursement lag is effectively the weighted average of disbursement lags for projects comprising the Bank's country portfolio, where the weights used are the respective project shares in the total cumulative disbursement estimates.
- g. Supervision resources data, by location, is only available starting in fiscal year 1996.
