## Note on data in this presentation:

Theme categories are not mutually exclusive; therefore, shares may sum to more than 100 percent of project financing and cannot be represented as a pie chart.

As a result of rounding, numbers in the following figures may not add to totals, and percentages in figures may not add to 100.

All dollar amounts reported are current U.S. dollars.

As of fiscal 2017, new theme categories have replaced the previous taxonomy as part of an internal data modernization effort. Because lending commitments for individual operations can be applied to multiple theme categories, figures organized by theme do not add up to fiscal year commitment totals, and therefore cannot be represented as a pie chart.
