

RACE TO BE HUMAN

RACE to Be Human: Film Screening & Discussion

RACE to Be Human is a 45-minute documentary that explores racism, its impact on the mental health of children and adults, and what can be done to change it. Created for schools, communities, and corporations, *RACE to Be Human* addresses the apprehension and confusion so many of us feel when it comes to talking about race and racism. The film examines micro-aggressions, allyship, and the role of social media. It also shares how we can participate and build empathy through conversations at home, work, and school. The program includes strategies and tips to check ourselves and others while inspiring self-reflection so that as individuals we are more aware, and as communities, we can move forward more equitably. The movie screenings will be followed by a discussion led by Scilla Andreen and Jason Craige Harris. (90 minutes) [Watch the trailer here](#).
