The United Kingdom and the International Development Association (IDA)

In December 2021, the global community renewed its strong support for IDA through a successful 20th replenishment. Development partners agreed to a record package of US$93 billion for IDA20 (July 2022 – June 2025), scaling up the resources available to boost resilient recovery from the impacts of the COVID-19 pandemic and build a greener, more resilient, and inclusive future. This could not have been achieved without the United Kingdom’s support which made the 3rd largest contribution to IDA20 at US$1,965 million. Its contribution will help IDA20 deliver its policy commitments on human capital; jobs and economic transformation; fragility, conflict and violence; climate change; gender and development; and crisis preparedness. IDA20 offers excellent value for money, with every US$1 in total partner contributions resulting in almost US$4 in financing to client countries.
