**Section III – Scope**

1. PforR Financing aims to promote sustainable development and improve the efficiency and effectiveness of expenditures by:

   (a) financing the expenditures of specific development PforR Programs;

   (b) disbursing on the basis of the achievement of key results (including prior results) under such PforR Programs;

   (c) using and, as appropriate, strengthening the PforR Program Systems to provide assurance that PforR Program funds are used appropriately and that environmental and social impacts are adequately addressed by such PforR Programs; and

   (d) strengthening, where appropriate, the institutional capacity necessary for such PforR Programs to achieve their intended results.

2. The PforR Programs have expenditures, activities, and defined results, and promote sustainable development. The PforR Programs may be: (a) new or already under implementation; (b) national, subnational, multisectoral, sectoral, or sub-sectoral in scope; (c) part of broader, longer-term, or geographically larger programs; and/or (d) carried out by governmental and/or nongovernmental parties.

3. Subject to the other applicable requirements of this Policy, the PforR Financing may be extended to any type of expenditures, provided the PforR Program is productive and PforR Program oversight arrangements, including the fiduciary arrangements, provide reasonable assurance that the PforR Financing proceeds will be used for the purposes for which the Financing is granted, with due consideration of economy and efficiency. The amount of PforR Financing is equal to or less than the total PforR Program expenditures. If by the end of the PforR Program, the PforR Financing amount disbursed exceeds the total amount of PforR Program expenditures, the Borrower refunds the difference to the Bank.

4. Subject to the other applicable provisions of this Policy, the PforR Financing proceeds are disbursed upon the achievement of verified results specified as disbursement-linked indicators. Such disbursements are not dependent upon or attributable to individual transactions or expenditures. Under appropriate circumstances, such as to provide the Borrower with resources to allow the PforR Program to start or to facilitate the achievement of disbursement-linked indicators, the Bank may agree to disburse a portion of the PforR Financing proceeds as an advance for disbursement-linked indicators that have not yet been achieved.
5. PforR Financing may support an MPA Program.

**Considerations for PforR Financing**

6. The Bank’s assessment of a proposed PforR Program, and, when applicable, the MPA Program, is based on various country and PforR Program-specific strategic, technical, and risk considerations. These include the PforR Program’s strategic relevance, technical soundness, expenditure analysis, economic rationale, results framework, fiduciary and environmental and social systems and risks. The assessments evaluate the relevant risks and the scope for improvements and managing such risks, including proposed institution strengthening activities to be undertaken before, if deemed appropriate, and during the PforR Program implementation.

7. The *technical assessment* considers, among other things, the PforR Program’s rationale and its development objectives, taking into account consistency with the Bank’s overall assistance strategy for the member country in question; the Borrower’s commitment; relevant institutional and implementation arrangements; the PforR Program’s activities and expenditures framework; the degree to which the PforR Program aims to achieve specific, measurable, and verifiable results; the monitoring and evaluation arrangements; and the general policy, legal, regulatory, and institutional frameworks relevant to the PforR Program.

8. The *fiduciary systems assessment* considers whether the PforR Program Systems provide reasonable assurance that the Financing proceeds will be used for intended purposes, with due attention to the principles of economy, efficiency, effectiveness, transparency, and accountability. The PforR Program procurement systems are assessed as to the degree to which the planning, bidding, evaluation, contract award, and contract administration arrangements and practices provide reasonable assurance that the PforR Program will achieve intended results through its procurement processes and procedures. The PforR Program financial management systems are assessed as to the degree to which the relevant planning, budgeting, accounting, internal controls, funds flow, financial reporting, and auditing arrangements provide reasonable assurance on the appropriate use of PforR Program funds and safeguarding of its assets. The fiduciary assessment also considers how PforR Program Systems handle the risks of fraud and corruption, including by providing complaint mechanisms, and how such risks are managed and/or mitigated.

9. The *environmental and social systems assessment* considers, as may be applicable or relevant in a particular country, sector, or PforR Program circumstances, to what degree the PforR Program Systems:

   (a) promote environmental and social sustainability in the PforR Program design; avoid, minimize, or mitigate adverse impacts, and promote informed decision-making relating to the PforR Program’s environmental and social impacts;

   (b) avoid, minimize, or mitigate adverse impacts on natural habitats and physical cultural resources resulting from the PforR Program;

   (c) protect public and worker safety against the potential risks associated with: (i) construction and/or operations of facilities or other operational practices under the PforR Program; (ii) exposure to toxic chemicals, hazardous wastes, and other
dangerous materials under the PforR Program; and (iii) reconstruction or rehabilitation of infrastructure located in areas prone to natural hazards;

(d) manage land acquisition and loss of access to natural resources in a way that avoids or minimizes displacement, and assist the affected people in improving, or at the minimum restoring, their livelihoods and living standards;

(e) give due consideration to the cultural appropriateness of, and equitable access to, PforR Program benefits, giving special attention to the rights and interests of the Indigenous Peoples and to the needs or concerns of vulnerable groups; and

(f) avoid exacerbating social conflict, especially in fragile states, post-conflict areas, or areas subject to territorial disputes.

10. Activities that are judged to be likely to have significant adverse impacts that are sensitive, diverse, or unprecedented on the environment and/or affected people are not eligible for the PforR Financing, and are excluded from the PforR Program. Activities that involve procurement of works, goods, and services under contracts whose estimated value exceeds specified monetary amounts (high-value contracts)\(^1\) are normally not eligible for the PforR Financing, and are excluded from the PforR Program. However, such contracts may be included in the PforR Program if they are deemed to be important to the integrity of the PforR Program and their monetary value in relation to the overall PforR Program is modest.\(^2\)

11. The PforR Program integrated risk assessment considers key risks to achieving the PforR Program’s results and development objectives. The integrated risk assessment is informed by the results of the technical, fiduciary, and environmental and social systems assessments and provides a key input into the Bank’s decision to provide the PforR Financing. This decision takes into account country/sector/multisector-specific circumstances, potential benefits of the PforR Program, the needs and capacity of the Borrower, and the degree to which the Financing and implementation support will contribute to the overall PforR Program objectives and results.

Borrower and Bank Roles and Responsibilities in PforR Program

12. The Borrower is responsible for preparing and implementing the PforR Program. The PforR Program’s scope and objectives and the Borrower’s contractual obligations to the Bank are set out in the legal agreements with the Bank. These obligations include the requirement to carry out the PforR Program with due diligence, and to maintain appropriate monitoring and evaluation arrangements (including credible disbursement-linked indicator verification protocols), fiduciary and environmental and social PforR Program Systems, and governance arrangements. The Borrower is expected to deal in a timely and effective manner with actual or alleged problems or violations (individual or systemic) in these areas.

\(^1\) See paragraph 6 of Section II of Bank Directive, “PforR Financing”.
\(^2\) See paragraph 6 of Section III of Bank Directive, “PforR Financing”.
13. The Bank assesses and appraises the PforR Program, and, when applicable, the MPA Program, in accordance with this Policy, and other applicable policy, technical, operational, and procedural requirements. In relation to the environmental and social systems assessment, the Bank consults with the PforR Program stakeholders and discloses the results and recommendations of its assessment. As appropriate, the Bank agrees with the Borrower on specific actions to be taken and arrangements to be maintained during the period of the PforR Program, including measures to address identified weaknesses and risks and to strengthen institutional capacity.

14. The Bank provides implementation support to the Borrower by reviewing implementation progress, achievement of the PforR Program results and disbursement-linked indicators, and associated PforR Program risks. The Bank monitors the Borrower’s compliance with its contractual obligations, including actions to strengthen institutional capacity.

Recourse, Remedies, and Sanctions

15. If the Borrower does not comply with its contractual obligations, the Bank consults with the Borrower, and requires the Borrower to take timely and appropriate corrective measures. The Bank’s legal remedies are specified in the relevant legal agreements and include the right to suspend disbursement and to cancel the PforR Financing. The Bank exercises such remedies when warranted and as it deems appropriate, taking into account, among other things, country-, sector-, and PforR Program-specific circumstances, the extent of and possible harm caused by circumstances giving rise to the remedy, and the Borrower’s commitment and actions to address the identified problems. However, the Bank takes a graduated approach to suspension for non-payment, and when an IBRD loan or IDA credit payment from the Borrower to the Bank is overdue by 60 days, the Bank suspends all financings to or guaranteed by the country concerned.

16. The Borrower is responsible, among other things, for taking appropriate measures to prevent, detect, and respond to fraud and corruption or allegations of fraud and corruption in the PforR Program. The Bank has the right to investigate allegations of fraud and corruption in the PforR Program and to sanction parties that engage in sanctionable practices.

Managing PforR Financing

17. Approval. The Board decides whether to approve the IBRD and IDA PforR Financing proposals, except that in the case of the MPA Program, the Board decides whether to approve the IBRD and IDA MPA Financing proposal. Except for IDA grants and trust-fund-financed grants explicitly requiring approval by the Board, all other grants are approved by Management.

18. Signing. Signing of legal agreements for the PforR Financing takes place after all required authorizations have been issued; and provided there are no payments on IBRD loans or IDA credits to the Borrower, or to or guaranteed by the member country, that are overdue by 30 days or more, unless, in exceptional circumstances, Management approves the signing and reports such information to the Board. In the case of an MPA Program, when a PforR Program introduces a new disbursement linked indicator(s), prior to signing of the legal agreement(s), Management seeks the approval of the Board.
19. **Restructuring.** During the implementation of the PforR Program, and as part of Bank implementation support, the PforR Program may, with the agreement of the Bank and the Borrower, be restructured to strengthen its development impact, modify its development objectives or disbursement-linked indicators, improve PforR Program performance, address risks and problems that have arisen during implementation, make appropriate use of undisbursed financing, cancel unwithdrawn amounts prior to the Closing Date, extend the Closing Date, or otherwise respond to changed circumstances. A restructuring involving, under the MPA Program, (i) a substantive or significant change to the MPA Program development objectives, (ii) the addition of a new Borrower(s), or (iii) the addition of a new disbursement linked indicator(s), is referred to as a Level One restructuring and is submitted for approval by the Board (or by Management, when the approval authority for the original PforR Financing or MPA Financing, as the case may be, resides with Management). A restructuring involving any other modification of the PforR Program is referred to as a Level Two restructuring. The authority to approve Level Two restructuring is delegated by the Board to Management. Management periodically informs the Board of Level Two restructurings.

20. **Closing Date.** The Closing Date is not extended: (a) for the PforR Financing subject to suspension of disbursements; or (b) for the PforR Financing with any outstanding audit reports or with audit reports which are not satisfactory to the Bank, unless the Borrower and the Bank have agreed on actions to address the deficiencies. Exceptionally, retroactive extensions of a Closing Date may be approved by Management.

**Additional PforR Financing**

21. The Bank may agree to provide additional financing to an ongoing PforR Program to meet: (a) unanticipated significant changes to expenditures parameters required to achieve the original PforR Program results or disbursement-linked indicators; or (b) new or modified results, to be reflected in new or modified disbursement-linked indicators, that aim to scale up the impact or development effectiveness of the original PforR Program. The Bank provides the additional financing if it is satisfied with the overall implementation of the original (or restructured) PforR Program. The Bank considers the proposed additional financing based on, as necessary, updated or additional technical, fiduciary, environmental and social impacts, and integrated risk assessments. The additional financing is separate and distinct from the original financing, and is submitted for approval by the Board or Management, as appropriate.

22. The Bank may agree to provide additional financing to an ongoing MPA Program if it is satisfied with the overall implementation of the MPA Program. A proposal for additional MPA Financing is submitted for approval by the Board or Management, as appropriate, considering the source of such financing. Additional financing for an individual PforR Program within the MPA Program is committed by Management if the overall Bank financing for the MPA Program does not exceed the MPA Financing approved by the Board.
