

Partnership for Economic Inclusion

IE Collaborative

Framing - Scalable Delivery
Modalities for Economic Inclusion

Framing Thoughts - Learning about Scalable Delivery Modalities for Economic Inclusion

What is the optimal bundle of interventions for different groups?

Balance between addressing constraints and ensuring cost-effectiveness and sufficient capacity of government systems to deliver

Delivery through in-house government or NGOs?

Individual vs. group-based provision?

How do **alternative delivery modalities** that enhance scalability affect program impact and cost-effectiveness?

Duration and intensity of support?

Digital vs. face-to-face provision?

Impact Evaluation Designs: Scalable Delivery Modalities for Economic Inclusion
