1. Introduction

This Corporate Procurement Policy Summary has been prepared to assist the Vendor community in understanding how to do business with the World Bank Group (“Bank Group”).

The Bank Group is one of the largest providers of financial and technical assistance to developing countries around the world.

It is made up of five international organizations headquartered in Washington, D.C., with country offices worldwide. The Bank Group includes the International Bank for Reconstruction and Development (IBRD), the International Development Association (IDA), the International Finance Corporation (IFC), the Multilateral Investment Guarantee Agency (MIGA) and the International Centre for Settlement of Investment Disputes (ICSID). The largest member of the Bank Group is IBRD/IDA, more commonly known as the World Bank.

2. World Bank Group Corporate Procurement Unit

The Bank Group spends nearly two billion dollars annually for goods, services, works and consulting services for its own requirements and for requirements of donor trust funds that go to support the Bank Group’s lending operations. Most of the Bank Group’s procurement is handled directly by the Corporate Procurement Unit (“Corporate Procurement”).

The goal of Corporate Procurement is to obtain the best overall value for the Bank Group through sound business and procurement decisions representing good value for money in a process that is fair and transparent. Corporate Procurement works with risk partners to set out steps to assess, mitigate, and monitor risks that arise out of contractual relationships with Vendors. Depending on the needs of the Bank Group, Corporate Procurement formally solicits bids and proposals from Vendors, or in the case of small purchases, issues purchase orders without formal competition.

The Bank Group’s procurement process reflects its commitment to sustainability through environmental, social and supplier diversity and inclusion. The Bank Group has established directives and procedures that govern all procurements made for, or on behalf of, the Bank Group.

3. Authorities

Corporate Procurement sets policies, procedures, and standards designed to provide an appropriate balance between the institutional requirements and the needs of the business managers.

Corporate Procurement staff have the delegated authority to sign on behalf of the Bank Group contracts, purchase orders, agreements and other instruments associated with the purchase, sale or disposal of goods, services (including works) and consulting services.

No work may be commenced, nor goods supplied by a Vendor before the Vendor is registered and provided with an official Bank Group Purchase Order or Contract. Any commencement of work, service or goods provided by a Vendor prior to the issuance of a Bank Group authorized Purchase Order or Contract will be at the Vendor’s own risk.
4. Vendor Registration

Prospective Vendors must submit registration applications through the WBGeProcure Supplier Self-Registration (SSR) process to be eligible to participate in Bank Group business opportunities. Bank Group Staff may invite prospective Vendors to submit registration applications, or prospective Vendors may submit spontaneous registration applications without prior invitation.

Only registered Vendors can be awarded a Bank Group contract. Completion of a Vendor registration application does not guarantee registration as a Bank Group Vendor. To become a registered Bank Group Vendor, you must meet all Vendor eligibility requirements (detailed below) and provide any required supporting documentation. Corporate Procurement reviews whether Vendors meet the Vendor eligibility requirements only where a need for specified Vendor goods/services has been defined by the Bank Group. Vendors that have successfully completed the registration process will receive a notification from the Bank Group with their Vendor Identification Number (VIN).

Bank Group Vendors comprise of Businesses and Sole Proprietors/Independent Contractors, which the Bank Group defines as follows:

a. A Business is an organization that has been incorporated, or registered as a company (corporation, company/limited, partnership) that has been established to offer goods and/or services for profit. An organization registered as “not-for profit” (e.g., university, hospital, NGO, and UN Agency) are also considered a business.

b. A Sole Proprietor/ Independent Contractor is a person engaged in a business as either a ‘self-employed individual’ (an individual in business for himself or herself and is self-employed), or as a ‘sole proprietor’ (an individual in business for himself or herself and who is the only owner of the unincorporated trade or business).

5. Vendor Eligibility

The Bank Group’s policies, standards and procedures for determining whether a Vendor is excluded, either permanently or for a specific period of time, from receiving Contract awards from the Bank Group are found in the World Bank Vendor Eligibility Policy posted on the Bank Group’s website at https://www.worldbank.org/vendorkiosk.

Vendor applications are reviewed against the following Vendor Eligibility Criteria:

a. The Vendor can demonstrate that it has been and is offering goods/services under the business name for a period not less than one year.

b. The Vendor has multiple business clients and the financial capacity to provide the goods and/or services. The financial capacity will be assessed by comparing the Vendor’s revenues to the value of the proposed contract(s).

c. The Vendor can legally conduct business in the country/countries for which it is registering and where work is to be performed or goods delivered.

d. Consistent with the Bank Group’s policy on anti-money laundering/combating the financing of terrorists, companies listed on the UN 1267 sanctions list are ineligible to be Bank Group Vendors and to receive Bank Group contract awards. Vendor sanctions screening includes owners, officers, beneficial owners (25% or more of control), politically exposed persons (PEP), and third parties
(consultants, agents, subcontractors) of World Bank, Multilateral Development Banks and other sanctions lists.

e. Ineligibility due to integrity risks identified by Integrity Due Diligence (IDD) based on the IDD Procedure for Finance, Administrative and Corporate Activities. Vendor IDD screening includes owners, officers, beneficial owners (25% or more of control), politically exposed persons (PEP), and third parties (consultants, agents, subcontractors) and extends to, among other things, negative news (criminal activities and civil proceedings), and political influence.

Bank Group Policy Restrictions Related to Current and Former Bank Group Staff and their Close Relatives

a. The Bank Group’s policies apply to current and former Bank Group staff, including but not limited to Short Term Consultant (STC), Short Term Temporary (STT), Extended Term Consultant (ETC), Extended Term Temporary (ETT), Local Staff, Regular, Open-Ended, Term, Executive Director Advisor and Special Assignment appointments. These policies provide certain restrictions related to Vendor eligibility and the eligibility of current and former Bank Group staff from performing services for the Bank Group. Vendors are required to notify the Bank Group of any current or former Bank Group staff that they are proposing to provide services under a contract with the Bank Group.

b. Current or former Bank Group staff are ineligible to be Bank Group Vendors or subcontractors to Bank Group Vendors, whether as sole proprietors or independent contractors, during their appointment and for a period of twelve months (“Cooling Off Period”) from the termination date of their Bank Group appointment. In addition, this Cooling Off Period applies to companies in which a current or former Bank Group staff member is an owner, principal, director or officer, or holds a financial interest. The Cooling Off Period also applies to companies with which close relatives (spouses/domestic partners, parents, full and half siblings, children, aunts, nieces, and nephews) of current or former Bank Group staff are owners, principals, directors or officers, or hold a financial interest. In the context of the Cooling Off Period, “financial interest” does not include negligible stock holdings in entities listed on the S&P Global 1200.

c. The Bank Group also imposes a restriction on all current and former Bank Group staff that for two years after termination of service with the Bank Group, they may not seek or accept work for other entities or persons related to activities where the Bank Group has an interest or is a party and where they had direct involvement during their Bank Group service, except with the Bank Group’s prior written consent. In addition, Bank Group policies restrict close relatives of Bank Group staff from being hired either directly or through its suppliers.

d. Vendors are required to notify Corporate Procurement of any real or perceived conflicts of interest, including affiliations with current or former Bank Group staff and their close relatives.

Once a Vendor is approved and deemed responsible, it is added to the Bank Group’s Vendor Master File as a “Registered Vendor”. Registered Vendors will be expected to maintain and update their Vendor Registration file at least every two years and advise the Bank Group of any significant business changes, including beneficial owners and subcontracting relationships relating to a Bank Group contract. Registered Vendors may be asked to submit updated and/or provide additional information that may be used in determining the Vendor’s ability to participate in specific requests for proposals for major procurements, where additional qualification criteria, specific to the requirement, have been determined.
The Bank Group, at its sole discretion, reserves the right to remove a Vendor from the Master File. Reasons for removing a Vendor from the Master File could include but not limited to:

a. Vendor no longer meets the Vendor Eligibility Criteria
b. Vendor Master File is inactive or information is out of date
c. Vendor’s unsatisfactory performance under a Bank Group contract

Only responsible Vendors are eligible to receive Bank Group contracts. Vendors found to be not responsible may be terminated/excluded from current and future contract awards.

6. Business Ethics

The Bank Group’s procurement activities are conducted in a manner above reproach, with complete impartiality and with no preferential treatment. Bank Group staff will not solicit or accept, directly or indirectly, any gratuity, gift, favor, entertainment, loan, or anything of monetary value from anyone who: (a) has or is seeking to obtain Bank Group business; or (b) has interests that may be substantially affected by a procurement award.

The Bank Group’s Vendors and their employees are expected to abide by the highest ethical, legal and moral standards in all business relationships. As such, all Vendors are obliged to respect the Bank Group’s policy and refrain from placing Bank staff in an ethical dilemma by offering entertainment, hospitality or gifts.

7. Vendor Integrity Policies

Vendors must comply with the following integrity documents, available on the Bank Group’s website (https://www.worldbank.org/vendorkiosk):

i. Vendor Eligibility Policy
ii. Vendors Code of Conduct
iii. Restrictions on Current and Former WBG staff
iv. Code of Conduct for On-site Vendor Employees
v. Information Security Policy for Contractors
vi. Security, Fire and Safety Regulations for WBG Contract Employees

Vendors are responsible for monitoring the Bank Group website: https://www.worldbank.org/corporateprocurement in order to stay abreast of compliance requirements and changes to, or the introduction of, applicable policies.

8. Environmental & Social Governance

Environmental Conduct

To contribute to waste reduction, energy efficiency, and reduction of greenhouse gas emissions, and to increase the development and awareness of environmentally sound purchasing, wherever possible, Vendors will perform work for the WBG by using energy efficient and durable products, reusable products, and products (including those used in services) that contain the maximum level of post-consumer waste, post-industrial and/or recyclable content, without significantly affecting the intended use of the goods or services. Vendors will perform the work utilizing energy efficient practices that reduce the emissions of
greenhouse gases, whether the services are performed on WBG premises or in another location. Vendors will choose low carbon methods of travel when carrying out the work, including the use of public transportation, train travel, and other techniques to reduce carbon emissions related to Vendor employees’ behavior. Vendors will report to the WBG on the greenhouse gas emissions attributable to the work at a minimum on an annual basis.

Vendors will utilize, in carrying out the work, information technology products that meet high standards of energy-efficiency and resource responsibility, which at a minimum, meet EPEAT Silver (or equivalent) specifications. Vendors are encouraged to dispose of information technology equipment in a manner meeting both data privacy and environmental responsibility requirements. All recycling of electronic equipment should be done in accordance with the eStewards (or equivalent) standard.

Pollution prevention and resource reduction

Vendors will utilize strategies to deliver the product or service that minimizes the emissions and discharges of pollutants and generation of waste. Vendors should strive to conserve scarce natural resources, including water, fossil fuels, minerals, and virgin forest products.

Environmental Permits and Reporting

Vendors must obtain, maintain, and keep current all environmental permits, approvals, and registrations.

Hazardous Substances

Vendors will adhere to all applicable laws and regulations regarding the restriction of specific substances in products and manufacturing and will take particular care to restrict and/or avoid the use of the hazardous handful chemicals in products.

Conflict Minerals

Vendors shall, wherever possible, take commercially reasonable efforts to eliminate Conflict Minerals from any product supplied to the WBG, or products used to carry-out the work.

“Conflict Minerals” means columbite-tantalite (coltan), cassiterite, gold, wolframite, or their derivatives, which originate in the Democratic Republic of the Congo or other country the exploitation and trade of which is determined by the United States to be financing conflict in the Democratic Republic of the Congo or other country.

Labor

Vendors must not engage in forced or compulsory labor, human trafficking, or slavery in all its forms. Vendors must not employ: (a) children below 14 years of age or, if higher than that age, the minimum age of employment permitted by the law of the country or countries where the performance, in whole or in part, of a contract takes place, or the age of the end of compulsory schooling in that country or countries, whichever is higher; and (b) persons under the age of 18 for work that, by its nature or the circumstances in which it is carried out, is likely to harm the health, safety or morals of such persons. Vendors must establish processes, procedures, investigations, and compliance systems to ensure that forced or compulsory labor, human trafficking, and slavery are avoided at all times in their supply chains.

Vendors must ensure the payment of wages in legal tender, at regular intervals no longer than one month, in full and directly to the employees concerned. Vendors should keep an appropriate record of such payments. Deductions from wages are permitted only under conditions and to the extent prescribed by the applicable law, regulations or collective agreement, and Vendors should inform the employees concerned
of such deductions at the time of each payment. The wages, hours of work and other conditions of work provided by Vendors should be not less favorable than the conditions prevailing locally (i.e., as contained in: (i) collective agreements covering a substantial proportion of employers and employees; (ii) arbitration awards; or (iii) applicable laws or regulations), for work of the same character performed in the trade or industry concerned in the area where work is carried out.

Harassment

Vendors and their employees must not engage in any form of harassment, including sexual harassment, mental or physical coercion, or verbal abuse of WBG staff, other contractors and their employees.

Vendors and their employees shall take all appropriate measures to prevent sexual harassment, exploitation, or abuse of any kind and in any form, by its officers, directors, employees and agents, subcontractors, or any other persons engaged and controlled by Vendors to perform any service or work for the WBG. For these purposes, sexual activity with any person less than eighteen years of age, regardless of any laws relating to consent, shall constitute the sexual abuse of such person. In addition, Vendors shall refrain from, and shall take all reasonable and appropriate measures to prohibit its employees or other persons engaged and controlled by Vendors from exchanging any money, goods, services, or other things of value, for sexual favors or activities, or from engaging any sexual activities that are exploitive or degrading to any person.

Vendors and their employees should report allegations of harassment or sexual harassment by WBG staff to the WBG’s Ethics and Business Conduct Department (EBC). The reporting can be anonymous. Vendors must not dissuade or penalize their employees from reporting harassment or sexual harassment allegations to EBC. Reports can be made by email to ethics_helpline@worldbank.org, by phone at +12024730279, by calling a 24/7 hotline at +18002617497, or online at http://www.worldbank.org/en/about/unit/reporting-sexualmisconduct

Non-discrimination, diversity, equity, and inclusion

Vendors will not engage in unlawful discrimination based on race, color, age, gender, sexual orientation, gender identity and expression, ethnicity or national origin, disability, pregnancy, religion, political affiliation, union membership, protected genetic information or marital status in hiring and employment practices such as wages, promotions, rewards, and access to training. Vendors will implement policies and practices that ensure a diverse, inclusive, and equitable workplace for all individuals, including minorities, women, LGBTQ, and disabled persons.

9. Health & Safety Conduct

Vendors, whenever possible, will provide a safe and hazard-free work environment, will provide adequate occupational safety training for employees, and will identify, assess and control potential exposure to health and safety hazards. Personal protective equipment and educational materials will be provided where hazards cannot be adequately controlled.

10. Source Selection

The Bank Group promotes open competition through its procurement process using a variety of traditional solicitation tools such as Request for Quotation (RFQ), Invitation for Bid (IFB), Request for Proposal (RFP), etc.

The Bank Group uses both manual and electronic tools for solicitations. Electronic tools include email, secured fax, and other e-tendering solutions. Electronic commerce with suppliers significantly enables
efficiency and reduction in transaction costs. Corporate Procurement will automate the procurement process — particularly from order placement to disposal — as much as possible. Inherent in this principle is an expectation that Bank Group suppliers will become capable of conducting business electronically. New suppliers will be enabled by electronic requirements, purchase order, and invoice and payment processes whenever an electronic business solution is available.

The Bank Group’s contract terms and conditions are posted on the Bank Group’s website at https://www.worldbank.org/vendorkiosk. It is the Vendor’s responsibility to review the terms and conditions prior to bidding, accepting an order, rendering services or shipping goods to the Bank Group.

11. Solicitation Process

Best Value

The Bank Group bases procurement decisions on best value, defined as the outcome that provides the optimal combination of elements such as lowest total cost of ownership; technology, innovation and efficiency; assurance of supply; quality; and other factors relative to the Bank Group’s needs. Solicitation Procedures and Types.

The Procurement Officer prepares and distributes, by invitation or advertisement, a solicitation to prospective Vendors. The solicitation may include, based on the goods and services being acquired, specifications, an SOW, a TOR, or a Performance Work Statement (PWS), price sheet, questionnaire, proposed contract terms and conditions, evaluation criteria, and any other necessary information. Solicitations may require respondents to submit financial statements for the previous two years, so that respondents’ financial status/stability can be determined. All requirements must be clearly stated in the body of the solicitation, and all must be specifically addressed by the bidder/offeror in their bid/proposal, or the bid/proposal may be deemed as not responsive.

Business Opportunities

Bank Group procurements are open to competition from Vendors in all countries, subject to the competitors being eligible and legally able to conduct business in the country of performance/delivery. Opportunities may be by invitation to a sufficient number of Vendors to ensure adequate competition, or through advertisement on the Bank Group’s website at https://www.worldbank.org/en/about/corporate-procurement/businessopportunities, in local newspapers or in periodicals. Advertisement might not always be appropriate taking into consideration the various market and local conditions the Bank Group operates in, or risks involved by advertising proprietary information.

Exceptions to Competition

It is the Bank Group’s policy to procure goods or services through a competitive process to the maximum extent possible. However, instances arise when a noncompetitive procurement selection is justified.

12. Bids and Proposals

Submission of quotations/bids/proposals is to be in accordance with the instructions contained in the solicitation document. The Bank Group at its sole discretion reserves the right to reject any quotation, bid or proposal without recourse. Quotations/bids/proposals may be rejected for the following reasons:

a. Quotations/bids/proposals were received past the due date and time as specified in the solicitation document.
b. The Procurement Officer determines the total quotation/bid/proposal price or prices for individual line items to be unreasonable or unbalanced.

c. When a bid guarantee is required and the bidder fails to furnish the guarantee in accordance with the bid requirements.

d. Quotations/bids/proposals received are not responsive to the content of the solicitation.

e. The solicitation has been cancelled for Bank Group business reasons.

The Bank Group, at its sole discretion, reserves the right to request substantiation or clarification for any or all information received, and to ask for interviews with the management staff of bidders/offerors when necessary.

The Bank Group, at its sole discretion, reserves the right to cancel a solicitation without recourse, at any time during the solicitation and evaluation process and prior to contract award.

13. Socially Responsible Procurement

As a socially responsible organization, the Bank Group, through its corporate procurement practices, endeavors to integrate socially responsible suppliers into its supply chain. To this end, for contracts where labor services are provided directly to the Bank Group, Bank Group procurement policy addresses supplier activities under the categories of diversity, wages and benefits, health and safety, and accessibility (equipment and facilities).

Wages and Benefits, Health and Safety

Bank Group solicitations and contracts for labor services will specify measures to be implemented to address service employees’ wages and their health and welfare fringe benefits, and will also specify criteria that address the need for contractors to provide their service employees with safe working conditions and fair and equitable work practices.

The Bank Group’s policy on socially responsible procurement will be reflected in solicitations for the provision of labor services as determined appropriate by Corporate Procurement. If appropriate, applicable evaluation criteria will be included in the technical evaluation and considered in the cost analysis of all quotations, bids, and proposals received in determining the successful bidders or offerors.

Supplier Diversity

Bank Group procurement practices will provide opportunities for access to Minority, Women and Disabled Owned Business Enterprises (MWDBEs). An objective of Corporate Procurement’s Vendor diversity initiative is to increase the participation of MWDBEs in Bank Group contracts in the United States, both by direct contracting and by working with Bank Group prime contractors (first-tier Vendors) to help them expand their subcontracting of Bank Group related business to MWDBE firms (second-tier).

14. Environmentally Responsible Procurement

To increase the development and awareness of environmentally responsible procurement (ERP), the acquisitions of goods and services will ensure that, wherever possible, specifications are written to provide for the expanded use of environmentally preferred products such as: durable products, reusable products, energy-efficient products, low-pollution products, products (including those used in services) that contain the maximum level of post-consumer waste and/or recyclable content, and products that in any other way have a minimal harmful impact on the environment.
The Bank Group’s policy on Environmentally Responsible Procurement will be reflected in solicitations issued by Corporate Procurement as determined appropriate by Corporate Procurement. Applicable evaluation criteria will be included in the technical evaluation and considered in the cost analysis of all quotations, bids, and proposals received in determining the successful bidders/offerors.

It is recognized that cost analysis is required to ensure that the products are made available at competitive prices, and that the environmental benefits provided by a product or service do not undermine its overall performance. Given that many environmentally preferred products and services can produce a variety of tangible benefits, full consideration should be given to the long-term and complete costs and benefits of environmentally responsible procurement.

15. **Contract Award**

**Basis for Award**

Following a selection process, the Vendor is selected in accordance with the basis for the award as specified in the solicitation, and as described below:

a. A Procurement Officer determines whether the Vendor selected for award is responsible. A responsible Vendor is defined as one with the operational capacity, capability, and willingness to successfully complete the contract. In making this determination, the Procurement Officer considers various elements including service and Vendor risks and mitigations, financial stability, financial ratios, the location and operating capacity of the Vendor's plant and personnel, and the effect of other financial and resource commitments, as well as the Vendor's experience, past performance, and history of adherence to ethical business practices.

b. A Procurement Officer determines, based on reasonable knowledge of the commodity and market conditions, that the price quote/offer is fair, reasonable, and balanced. Reasonable pricing will be determined by comparison of the proposed bid/proposal price with: recent previous purchases; current price lists; catalogues; advertisements; and similar industry benchmarks.

**Notice of Award**

The selected bidder/offeror will receive notice of the award and the Bank Group contract will be issued in accordance with the solicitation requirements. Subject to the exceptions of the respective information disclosure policies, for any contract award valued at and over US $250,000, the World Bank Group will publicly disclose contract award information – specifically, the name of the Vendor receiving the award, a brief description of the contract goods or services, and the contract award amount. Vendor’s proposal and contractual documents will remain confidential and therefore not subject to disclosure.

**Contracting Instruments**

Bank Group purchase obligations are executed in the form of written agreements that establish binding legal relationships obligating the Vendor/contractor to furnish goods, works, services, or data and obligating the Bank Group to pay for them. Examples of contracting instruments used by the Bank Group are as follows:

a. **Purchase Orders**: a template form contract that is issued subject to the Bank Group’s commodity specific General Terms and Conditions available online at [www.worldbank.org/corporateprocurement](http://www.worldbank.org/corporateprocurement/).

b. **Contracts**: written commitments between the Bank Group and Vendors based on a set of agreed upon terms and conditions.
Acceptance
The acceptance of the contract or purchase order by the Vendor is the Vendor’s consent to proceed with performance. The Bank Group’s regulations do not permit oral contracts, therefore Vendors are not permitted to proceed with deliveries or begin work before the issuance of a written electronically transmitted Bank Group-authorized contract or purchase order. Furthermore, all contract changes or modifications must be in writing and fully executed by both parties.

16. Award Debriefing and Protest Procedures

Award Debriefing and Protests procedures are available only to offerors/bidders who participated in a Bank Group competitive solicitation and who were not awarded a purchase order or contract. Award Debriefing and Award Protest procedures are not available to Vendors who did not participate in the solicitation; non-responsive or late offerors/bidders; or when the solicitation was cancelled by Bank Group.

Debriefing Procedures
The Bank Group does not routinely debrief unsuccessful offerors. However, in the case of highly technical or complex awards, a debriefing may be conducted upon written request from an unsuccessful offeror. The scope of the debriefing is to identify the technical deficiencies or weaknesses of the offeror’s proposal. Debriefings do not discuss the following:

a. Trade secrets or other proprietary information including the methodology or approach of other offerors;
b. Financial or cost information about other offerors;
c. Evaluation scoring or the ranking of the offerors; or
d. Other offerors’ proposals.

Protest Procedures
The Bank Group’s response to all protests, regardless of who they are addressed to, is always prepared and executed by Corporate Procurement. An unsuccessful offeror/bidder that wishes to submit a protest must inform the Chief, Corporate Procurement in writing to explain the basis of the protest within 10 business days (the “Notice Period”) of the Bank Group’s issuance of the solicitation, addendum, notice of award or other action of the Bank Group related to the solicitation. Protest notifications must include the following information:

a. The protestor’s name, address, telephone number, fax number, and email address
b. The Bank Group solicitation number
c. A detailed statement of all factual and legal grounds for the protest and an explanation of how the protestor was prejudiced
d. Copies or relevant documents supporting the protestor’s statement

Protest notifications that are submitted after the 10-day Notice Period or that do not indicate a basis for the protest are not entertained.

Upon receipt of a written protest from an unsuccessful bidder/offeror, the Chief, Corporate Procurement does the following:

a. Provides the protestor with a written acknowledgement;
b. Initiates a review of the protestors’s allegations; and

c. Following the conclusion of the review, provides the protestor with formal written notification of the
decision and the basis upon which it was made.

A decision will be final and conclusive unless, within 10 business days from the date of receipt of the
decision, the protestor files a written appeal with the Chief, Corporate Procurement. The determination by
the Chief, Corporate Procurement will be final and conclusive.

17. **Contract Administration**

The Bank Group Contract Manager has the responsibility to monitor contractor performance through
meetings, reports, and inspection in order to ensure contract compliance. The Contract Manager must also
require deliverables for all services and document contractor performance.

Contract changes become effective only after a written contract modification or change order has been
issued by the Procurement Officer and executed by the Vendor.

Payment to Vendors

Vendors shall promptly submit invoices to the Bank Group in accordance with the instructions in the
contract. Upon receipt of proper invoices, the Bank Group will pay Vendors at the prices/rates stipulated in
the contract, for goods delivered and accepted or services delivered or rendered and accepted, minus any
deductions or discounts provided for in the contract. The Bank Group’s standard payment terms are Net 30
(payment within 30 days of receipt of an accurate invoice). Should a Vendor be interested in a prompt
invoice payment and are willing to offer a prompt payment discount, they should contact Corporate
Procurement to discuss. The Bank Group operates a Purchasing Card (PCard) and Event Card programs
which allow authorized card holders to purchase low-dollar-value goods and services for Bank Group
business use.

Any questions regarding the Corporate Procurement Policy Summary should be directed to
CorporateProcurement@worldbank.org.
