Cooperative Programs

Has the Legal Department been asked to consider whether the changes contemplated in the Bank/WHO CP, to de-emphasize water supply and sewerage and to direct attention to health/nutrition, require any action with respect to the Cooperative Program agreement? If not, I'd suggest that the Department be consulted. It might be advisable to consider the question in respect of the changes in the other Programs too, to the extent that there may be a change in orientation, rather than merely a reduction in the number of posts in the CP unit. Perhaps this consultation has already occurred.

Shirley Boskey, Director, IRD

Cooperative Programs

1. When we spoke the other day about the possibility that Saouma might say something to you at the ACC about our proposal to cut back on the FAO/Bank Cooperative Program, I said I would give you a note on where these efforts stood.
2. Stern sent a note to the CPS Directors, asking them to be in touch with the C/Ps to warn them of our need to retrench because of staff and resource constraints. For some of the C/Ps, a review of the direction or emphasis of the work programs was already under way for quality reasons.
3. As far as concerns FAO, the head of the C/P, Cedric Fernando, was in Washington last week, to talk with our agriculture people about what is contemplated. Saouma has been and will be fully informed of the discussions, via Fernando. Our people (including Baum and Yudelman) and Fernando feel that nothing should be said to Saouma formally until there is a clearer idea of just what is in fact going to be proposed, i.e., whether just a freezing of unfilled positions (most likely) or something more, and if only the former, whether that means a shift in some posts to assure that the necessary disciplines remain available. (If, for example, all forestry posts were vacant at the moment, although it is necessary that at least one forester be among the C/P staff.) There is going to be less agricultural financing on the part of the Bank, so some reduction is inevitable. As you know, the work programs are agreed each year, so a conclusion will have to be reached before long.
4. As for the WHO program, John Evans and John Kalbermatten were in Geneva the week before last, and met with Dr. Mahler to talk about the C/P. The issue here, while including a need to cut back because of constraints, also extends to de-emphasizing water/sanitation in favor of greater cooperation in the field of health. Since the C/P agreement relates only to water/sanitation, this implies phasing down, and perhaps out, the C/P itself, although there would continue to be Bank/WHO cooperation in the water/sanitation field in any event. All of this is under active discussion and seems likely to have an outcome satisfactory or at least acceptable to WHO. As Dr. Mahler is fully involved in the discussions, there is no need to write him at this stage.
5. The new head of the Bank/Unesco C/P, Kobayashi, was in Washington last week for talks with Aklilu and the regional education staff (and with me). Hultin went to Unesco earlier in the month with draft terms of reference for a review of the C/P which would be likely to result in some cut-back as well as a reorientation of the Program. He met with Assistant Director General Najman, who is responsible for

March 22, 1982

Unesco's external relations, although the C/P is administratively under another D/G. We had expected Kobayashi to come here with Unesco comments on the draft terms of reference but at almost the last moment before he left Paris he was told that he should not, and that we would not have comments until May. Aklilu is concerned that these may be delaying tactics, but would not want anything done at this stage. He thinks a letter from AWC to MBow might prove useful if the process seems to need jogging.

6. The UNIDO C/P was some months ago the subject of a meeting here between Khane and Stern (I was present), and a reorientation of that program was agreed. No further review is contemplated just now.

7. I spoke with Warren about all this. He suggested that he be asked just before your departure for Rome whether there have been any further developments of which you might usefully be informed. I have asked Peter Chatenay to call him to this end before you leave.

cc: Mr. Chatenay ✓

January 4, 1982

Dr. B. Dieterich  
Director  
Division of Environmental Health  
World Health Organization  
1211 Geneva 27  
Switzerland

Dear Dr. Dieterich:

Following your visit to the Bank and in light of our discussions with various CPS departments about a reorientation of the Cooperative Program, we are in the process of formulating some possible alternatives.

I am writing you today to let you know that at the same time we are reviewing possible reductions in Cooperative Program activities. I am sure you are aware that IDA funds are available at a greatly reduced level only. It is likely that the Bank will limit its project preparatory activities. Reductions in project preparatory activities would of course affect our Cooperative Program. You should therefore be aware that Cooperative Program funding might be substantially reduced.

I will write to you again as soon as our review has progressed further. In the meantime, I remain with my best wishes for the new year,

Yours sincerely,

John M. Kalbermatten  
Senior Adviser  
Water and Wastes Advisory Staff  
Transportation, Water and Telecommunications Department

John M. Kalbermatten, TWTWW

Discussion on WHO/WB CP with Dr. B. Dieterich, WHO

1. The Bank Regional Managers and WHO are not satisfied with the CP. WHO feels that the emphasis on lending program support, particularly the staff budgeting, prevents activities of interest to WHO. Those activities are national planning and programming in the health sector at large (not just water supply and sanitation), information exchange, general support to governments, TCDC promotion, i.e., noninvestment-oriented activities. Bank staff is opposed precisely to nonlending-oriented activities and is concerned (as is WHO to a lesser extent) about the inherent inefficiencies of the CP "joint" management.

2. WHO would like to use the CP for a range of activities (such as those described above) without being tied to a budget related to the Bank lending program. I suspect they would like to expand the CP, keeping what they have in Geneva and adding new staff to the regional offices.

3. I believe WHO would be interested in the approach described in the SSSP, namely to undertake health impact analysis, design of health-related project components, health education and training of community workers (see attached paras. 3.10 and 3.11 of SSSP).

4. I met Dr. Dieterich recently in Pakistan and informed him of our recommendation in the SSSP to either change the CP or eliminate it. He stated that he is of the same opinion and has so informed his management though he made it clear he does not believe the CP can be abandoned.

WHO/IBRD COOPERATIVE PROGRAMME  
QUARTERLY STATUS REPORT ON CP ACTIVITIES  
(APRIL-JUNE 1981)

GENERALWORKPLAN

A new workplan dated 17 February 1981 was issued covering the three periods January-June 1981, July-December 1981 and January-June 1982, and sent to you with our letter of 23 February 1981. This Quarterly Report reflects changes up to 17 March 1981.

RECRUITMENT OF MR AJDARI

Mr Ajdari's recruitment has been officially completed and the Government of Mali has cleared his assignment in Bamako. Mr Ajdari visited the World Bank from 19 January to 13 February for general briefing and explanations on the Bank's methods of work, and spent ten days in Geneva for briefing on Cooperative Programme and on other Interregional Projects (UNDP, SIDA, GTZ). As his first mission (Cameroon), scheduled to start on 16 March 1981, has been postponed, he visited AFRO for one week and then joined his duty station.

RECRUITMENT OF A FINANCIAL ANALYST FOR AMRO

Mr Ringskog, CP Financial Analyst outposted to AMRO, left the Organization end-February. A vacancy notice issued by Personnel for this post was sent to different individuals and institutes which might be in a position to suggest names of potential candidates. The closing date for the applications was 12 March 1981.

REPLACEMENT OF MR HEYLAND

As Mr Heyland confirmed his decision to leave WHO/SEARO end-June 1980, a vacancy notice has just been issued for his replacement.

PUBLIC STANDPOST WATER SUPPLY SYSTEMS

It was agreed by the Bank that a CP input of 4 man/weeks (2 weeks of engineer, 1 week of economist and 1 week of financial analyst) would be devoted to review/revision of the Public Standpost Testing Project. As shown in the workplan of 17 February, Mr Jackson, who will act as coordinator for this activity, has been assigned for two weeks (PSWS, 4-15 May), Dr Becher for one week (4-8 May) and Mr Nur for one week (4-8 May). We should be grateful if you would let us know which code it should be shown.

FINANCIAL/ECONOMIC WORKSHOP

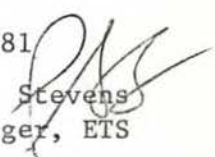

As you have probably noted in the 17 February workplan, a provision of one week for each staff present in Geneva has been earmarked for the above-mentioned activity (FW, week of 27 April 1981). Mr Laugeri will conduct this workshop, which has two main objectives: (i) to achieve a common understanding of economic

and financial sector problems in the context of the Decade; (ii) to provide all ETS staff with an in-depth knowledge of the Terrania Case Study, so that they can later on conduct similar workshops or participate as facilitators; four inter-country workshops are planned to take place in 1981, and they are expected to be followed by number of national workshops.

SEMINAR - ENVIRONMENTALLY CAUSED HEALTH CONDITIONS

As you have probably noted, a provision of one week for each staff member present in Geneva has been earmarked in the 17 February workplan for the above activity (S, week of 23 March 1981). The purposes of this meeting are to give a basic indoctrination to ETS staff in epidemiological methods and to enable staff of the Unit to orient the technical advice and other output they are producing so that it will contribute to solving major health problems.

P.A. Stevens  
Manager, ETS

WHO/IBRD COOPERATIVE PROGRAMME  
QUARTERLY STATUS REPORT ON CP ACTIVITIES  
(APRIL-JUNE 1981)

REGION: EASTERN AFRICA

BURUNDI

Health Education Study - Resp. Off.: AFRO Specialist - Code: SWØ 2BUIW

Provision: FY1981 - 4 man/weeks

The amended version of the terms of reference was translated into French at AFRO's request and sent to them on 16 January 1981. The mission report is now awaited.

DJIBOUTI

Sector Review and Project Identification - Resp. Off.: Mr Bishara - Code: \_\_\_\_\_

Provision: FY1981 - 9 man/weeks

The mini mission requested by the Bank between 8 and 13 January 1981 was postponed at the Government's request firstly to 1-13 February and then, because of a sectoral review meeting scheduled by UNDP for the period 23 to 26 February, to the first or second week of March. Mr Bishara participated in the above sectoral review meeting on behalf of EMRO. We advised the RR/UNDP that March might be inconvenient for re-scheduling the mission in view of prior commitments and suggested the period of 30 March to 10 April 1981, to which he agreed. Mr Bishara, team leader, will be accompanied by Mr Nur.

LESOTHO, SWAZILAND, BOTSWANA\*

Manpower Development Study - Resp. Off.: Mr Redekopp - Code: \_\_\_\_\_

Provision: FY1981 - 5 man/weeks

Manpower and training subcommittees were established in Swaziland, Lesotho and Botswana as part of the National Steering/Action Groups for Decade Planning. Arrangements are being made to support the work of these subcommittees by training consultants sponsored by the WHO/SIDA Cooperation Project. Brief manpower and training reports in a form of back-to-office reports were prepared and attached to Mr Redekopp's Duty Travel Report dated 19 December 1980; these summarized the information available to the mission at that time.

RWANDA

Health Education Study - Resp. Off.: AFRO Specialist - Code: SWØ 2RWAW

Provision: FY1981 - 5 man/weeks

The amended version of the terms of reference was translated into French at AFRO's request and sent to the Regional Office on 16 January 1981. The field mission was scheduled to be undertaken immediately after the Burundi one and we are now awaiting the mission report.

\* WHO-initiated activities

SEYCHELLES<sup>\*</sup>

UNDP Project Document preparation  
for water supply and sanitation - Resp. Off.: Dr Duncan - Code:

Provision: FY1981 - 7 man/weeks

During the WHO/IBRD Cooperative Programme Planning Meeting held in Brazzaville from 1 to 10 October, Dr Duncan reported on his negotiations with UNDP for Project Document preparation for water supply and sanitation for the Seychelles. He proposed a mission which would include Mr Laugeri, Mr Vogel and himself working in the country from 11 to 24 May 1981. Up to now, we have not received further details from AFRO or Dr Duncan about this mission. However as it has not been officially cancelled, we maintained it in the current workplan.

ZIMBABWE<sup>\*</sup>

Rapid Assessment + Health  
Sector Development - Resp. Off.: Mr Vogel - Code:

Provision: FY1981 - 5 man/weeks

After discussions in Geneva with the RR/UNDP Zimbabwe, representatives of AFRO and of HQ, a WHO mission took place in February 1981, to prepare, in association with Government officials, a position paper for consideration at the March Conference as a basis for mobilizing resources for the health sector. The inclusion of a sanitary engineer in the above mission was decided, to prepare a rapid assessment report and also to serve as reconnaissance mission for the full sector study. A provision of 4 man/weeks (+ 1 week for finalization of report) of Mr Vogel's time was earmarked in the 17 February workplan for this activity. The Bank agreed to this mission, which was carried out from 23 February to 6 March.

WHO/IBRD COOPERATIVE PROGRAMME  
QUARTERLY STATUS REPORT ON CP ACTIVITIES  
(APRIL-JUNE 1981)

REGION: WESTERN AFRICA

CAMEROON

Rural Sector Study - Resp. Off.: Mr Ajdari - Code: SWØ 3CAMW

Health Education - Resp. Off.: Dr Ballance - Code: SWØ 3CAME

Provision: Total FY1981 - 16 man/weeks

Form 700

Because of the late recruitment of Mr Ajdari and his briefing at the World Bank and WHO, the mission was postponed up to 16 March 1981. Terms of reference prepared by the Bank were brought back from Washington by Mr Ajdari. As it seemed that there was a misunderstanding with AFRO concerning the dates and exact purpose of the mission, we cabled them on 19 February proposing that: (i) Messrs Romain and Ajdari carry out a reconnaissance mission in Yaoundé from 9 to 12 March, covering the points alpha, beta and gamma of the Bank's terms of reference; definite terms of reference and composition of full sector study mission would be discussed with Government on 13 March, and (ii) the full mission takes place from 16 March to 3 April, of which two weeks visit inside the country and one week for preparation and presentation of summary and preliminary conclusions of the mission to the Government officials, and two to three weeks in Brazzaville for report writing. The full mission would consist of Messrs Ajdari, Ballance and Romain, plus a rural water supply specialist, either recruited by AFRO on the advice of the Bank, or preferably a national suggested by Mr Ngassam, Director, Génie rural, plus if possible participation of Mr Godart from SNEC. We are awaiting AFRO's reaction to this proposal.

CAPE VERDE\*

Sector Study - Resp. Off.: Mr Carrié, AFRO Engineer - Code: SWØ WHO 3CAPW

Provision: FY1981 - 12 man/weeks

This mission has been postponed, the Government clearance having not been obtained on time because of confusion over mission dates. We have now proposed CP input by Mr Pinto, but since Mr Carrié is on sick leave, this activity final dates have not been fixed.

GAMBIA

Rural Sub-sector Study - Resp. Off.: Mr Jackson - Code: SWØ 3GAMW

Provision: FY1981 - 16 man/weeks

Form 700

The mission took place as scheduled. Messrs Jackson and Nur are now back in Geneva and are preparing the first draft of the mission report.

\* WHO-initiated activities

TOGOLomé Pre-Appraisal Mission - Resp. Off.: Mr Vogel - Code: PRE PN 3TOGWU02Provision: FY1981 - 4 man/weeks

The Bank requested that Mr Vogel's mission, originally scheduled as from 16 March, be postponed until after engineering consultants' arrival in April. The mission should be postponed at least till May 1981. The provision earmarked in the 17 February workplan will be modified accordingly in the following version.

NIGERIA - BENIN STATESector Study - Resp. Off.: Mr Steele - Code: SRA 3NIRWWSY1Provision: FY1981 - Total for Nigeria: 28 man/weeks

Form 700

A mission to Nigeria is scheduled from 11 May to 19 June, including field mission plus report writing. This mission will be staffed by Mr Steele, ETS and a consultant to be hired by AFRO. Thus, in order to enable WHO to proceed with the recruitment of the short-term consultant, we would appreciate receiving from you terms of reference.

SENEGALRural Sub-sector Study - Resp. Off.: Mr Ajdari - Code: \_\_\_\_\_Provision: FY1981 - 16 man/weeks

Form 700

During the October Planning Meeting at the World Bank, it was decided to keep this activity in the current workplan; the Bank's suggested dates are May-June 1981. According to this request, we have scheduled a mission staffed by Mr Ajdari and Mr Vogel, plus Dr Ballance for the health education component, from 4 May to 12 June 1981, including report writing. Terms of reference and confirmation of dates are awaited from the Bank.

WHO/IBRD COOPERATIVE PROGRAMME  
QUARTERLY STATUS REPORT ON CP ACTIVITIES  
(APRIL-JUNE 1981)

REGION: EMENA

ALGERIA

Sector Review and Updating - Resp. Off.: Dr Becher - Code: SRA 5ALGWWSB2

Provision: FY1981 - 20 man/weeks

Form 700

This sector mission scheduled for beginning January 1981 was postponed at the Government's request. Mr Giroult from EURO visited Algeria recently and discussed new dates for the mission, which will also include a health education specialist. The purpose of this mission is to review the status of the sector by using the document developed during the previous mission and entitled "Enquête nationale sur l'Approvisionnement en Eau potable et l'Assainissement". EURO proposes some additional terms of reference which we shall take up with you shortly. The mission report should be decision-oriented and should include a five to ten page executive summary. We will keep you informed of the new dates as soon as communicated by EURO.

MOROCCO\*

Sector Brief and Project  
Identification and Formulation - Resp. Off.: Mr Laugeri - Code: SWØ WHO 5MYCW

Provision: FY1981 - 20 man/weeks

The first draft of the Morocco report was sent to EURO in November and detailed comments were received mid-December 1980. The final draft of the report was issued in February 1981 and discussed with World Bank's representatives in Geneva. The draft of the report, incorporating all the comments received from EURO, the Bank and Mr Zeribi, was discussed with the Government during the week of 4-6 March. The National Action Committee will decide on the final version and inform WHO within four weeks. A provision of 3 man/weeks has been earmarked in the current workplan for follow-up activities by Mr Laugeri in June 1981.

TURKEY

Ankara Air Pollution  
Control Supervision mission - Resp. Off.: Dr de Koning - Code: SPN 5TURWP01

Provision: FY1981 - 2 man/weeks

As Dr de Koning advised the Bank that his competence is limited to environmental assessment of technologies and implementation of an air pollution control monitoring scheme, the Bank thought that his participation in the January Bank's mission would not be opportune. Dr de Koning remains at the Bank's disposal for a future mission, if any.

\* WHO-initiated activities

YEMEN ARAB REPUBLIC

Sector Review - Resp. Off.: Mr Jackson - Code: SRA 5YARWWSY1

Provision: FY1981 - 15 man/weeks  
FY1982 - 10 man/weeks

Form 700

Due to other commitments of the mission members, we suggested to the Bank to re-schedule the Yemen mission as from 23 March 1981; the Bank informed us that their next mission to Yemen be planned for the period 10 to 25 June and asked us if it would be convenient for the CP mission. On 6 January, we advised the Bank that the dates are convenient to the other mission members, but that Mr Redekopp will not be available at that time; we suggested three options: (i) to drop the training element, (ii) to use a training consultant, or (iii) to re-schedule the mission from 11 to 29 May 1981. In their reply, the Bank requested us to arrange assignment of Mr Neal Carefoot from PAHO for 10-25 June. PAHO indicated by cable that they were unable to make firm commitments for Mr Carefoot. Bank has now agreed to assign Mr Barker for this task. Terms of reference have been received from the Bank and transmitted to EMRO and WPC Sana'a; no comments have been made and no amendments requested up to now.

YUGOSLAVIA

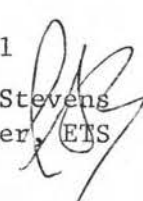

Kosovo Water Pollution Control - Resp. Off.: \_\_\_\_\_ - Code: PRE PN 5YUGWU01

Provision: FY1981 - 2 man/weeks

This mission tentatively scheduled in early March 1981 has been postponed. According to a cable received from the Bank, they will inform us of the mission dates when the project officer returns from its current mission. On the other hand, ETS will indicate shortly the name of the WHO water pollution specialist who will carry out the mission.

MAIN MISSION DEPARTURE DATE	3/1981		6/1981	Mission postponed at WHO's request			<p>This is a WHO/WB Cooperative Programme activity.</p> <p>Due to other commitments of the mission members, we suggested to re-schedule the Yemen mission as from 23 March; the Bank informed us that their next mission to Yemen be planned for the period 10 to 25 June 1981 and asked us if it would be convenient for CP. These dates were convenient to other mission members but Mr Redekopp would not be available at that time. The Bank requested us to arrange assignment of Mr N. Carefoot from PAHO; unfortunately PAHO was unable to make firm commitments for Mr Carefoot at that time. Bank has now agreed to assign Mr Barker. Bank's terms of reference have been received in ETS.</p>

WHO/IBRD COOPERATIVE PROGRAMME  
QUARTERLY STATUS REPORT ON CP ACTIVITIES  
(APRIL-JUNE 1981)

REGION: LATIN AMERICA AND CARIBBEAN

CARIBBEAN BASIN WATER MANAGEMENT PROJECT\*

Project Evaluation Mission - Resp. Off.: Mr Redekopp - Code:

Provision: FY1981 - 3 man/weeks

AMRO plans to undertake the evaluation of the above CIDA/Government of Holland-financed project which started operation in 1975 under original agreement with CIDA. A first assessment, which took place in 1977, led to current project with emphasis on self-sustaining training delivery system. As the project termination is foreseen for December 1981, there is presently a need to evaluate and to determine attainment of project objectives and also future course of action. For this purpose AMRO cabled us requesting Mr Redekopp's services for two and a half weeks starting on 20 April 1981 and we answered that Mr Redekopp might be available for two weeks starting on 4 May. On 9 March, we received a new cable from AMRO informing us that the evaluation mission had been re-scheduled for the period 25 May-10 June; we have just replied that Mr Redekopp might also be available at that time.

PANAMA

Tariff Study - Resp. Off.: Mr Laugeri - Code: SWØ 6PANW

Provision: FY1981 - 5 man/weeks

The preliminary draft of the report was sent to AMRO and to the World Bank through AMRO on 20 January 1981 as the Bank project officers wished to study the report in depth prior to their departure for appraisal scheduled early February 1981. As agreed with the Bank, AMRO's attention was drawn to the fact that this draft had to be treated as a part of the preliminary notes of an appraisal team; the full report could only be submitted officially to Government after all the comments have been incorporated.

Other activities undertaken by AMRO under the Cooperative Programme are reported separately by the Regional Office.

WHO/IBRD COOPERATIVE PROGRAMME  
QUARTERLY STATUS REPORT ON CP ACTIVITIES  
(APRIL-JUNE 1981)

REGION: EAST ASIA AND PACIFIC

FIJI<sup>\*</sup>

Management/Tariff Study - Resp. Off.: Mr Laugeri - Code: SWØ WHO 7FIJW

Provision: FY1981 - 6 man/weeks

The draft report was sent to WPRO and the World Bank on 26 January for comments. In his memorandum to WPRO, Mr Laugeri explained that during his stay in Fiji, the mission was asked by the Permanent Secretary for Works to complete the report in time for the deliberations on institutional changes, which were scheduled to take place by end-February. He thought that the Regional Office might thus wish to on-forward copies of the report directly to the WPC in Suva so that he could study the report at the same time as WPRO officers do. He also suggested that the report might be finalized in Fiji in order to accelerate presentation to the Government unless there are major changes required, for which it is felt that HQ input is necessary. A memorandum has just been received from WPRO indicating that Mr Laugeri's report had been cleared by the Government of Fiji and the WPC of Suva and requesting one correction on the page containing the Table of Contents, third line from the bottom: 1 US dollars = 0.92 Fiji dollar.

KOREA

Nakdong River Basin Environmental Management Plan - Resp. Off.: Dr de Koning - Code: APR 7KORWU01

Provision: According to a telex received from the Bank, the Government has considered postponing the above study by several months and has requested that Dr de Koning's visit be delayed until a decision is made by about April 1981.

THAILAND

Health Education/Community Action - Resp. Off.: Dr Ballance - Code: SWØ 7THLE

Provision: FY1981 - 4 man/weeks

The mission took place as scheduled. Dr Ballance is back in Geneva after debriefing at SEARO.

THAILAND

PWWA Training mission - Resp. Off.: Mr Redekopp - Code: SWØ 7THLW

Provision: FY1981 - 6 man/weeks

The mission took place as scheduled, from 16 February to 4 March 1981. A summary report was prepared before Mr Redekopp's departure, discussed with PWWA and left with Mr Singh (WB) for distribution; the full report is expected by end-April.

\* WHO-initiated activities

NEPAL<sup>\*</sup>Project Identification - Resp. Off.: Mr Redekopp - Code:Provision: FY1981 - 4 man/weeks

Taking the opportunity of Mr Redekopp's planned mission to Thailand, SEARO proposed a mission to Nepal from 21 January to 14 February as WHO-initiated activity. The purpose of the mission was to review manpower and training requirements for Decade and advise on UNDP project training inputs. The Bank's concurrence was sought and they indicated that they did not have any objection to this visit to Nepal and would be very interested in receiving Mr Redekopp's mission report. Draft terms of reference were sent to the Bank who indicated that they had no specific comments; they were slightly modified after discussion in SEARO and Nepal. A Training Project Document (for UNDP funding) was prepared which will be finalized by SEARO. The full report will be available end-April.

KOREASector Study - Resp. Off.: Mr Jackson - Code: SWØ 7KORWProvision: FY1981 - 18 man/weeks

Form 700

The first draft report was sent to WPRO, WPC Seoul and the World Bank on 31 October 1980 for comments. The Bank's comments were sent by cable on 20 November and by letter on 24 November 1980. These comments resulted from a review of the draft made by some 15 Bank staff who had met principally to review the Bank's issues paper on the current Korea Project. The Bank indicated that the report was too long and the manpower section required to be considerably shortened. They also mentioned that a number of items were not included (e.g. geography and climate, public health, water resources). We suggested that the re-drafting should result in a two volumes report - the first one a short issue type of paper with all appendices and background information to the second one. Philippines sector study was suggested as a good model. On the delicate question of institutional proposals we suggested a review of options available without any firm recommendations. WPC Seoul comments were received on 17 December through WPRO who supported these comments. A provision has now been earmarked in the current workplan (about 12 man/weeks) for a complete re-writing of the Korea report.

WPRO TRAINING ACTIVITY<sup>\*</sup>Training Activity - Resp. Off.: Mr Redekopp - Code:Provision: FY1981 - 2 man/weeks

At the request of WPRO, we earmarked two weeks field work in two countries to be designated for assisting the Governments in organizing National Decade Manpower/Training Working Parties (or NAC sub-committees) in June. The timing has now been postponed to September 1981.

WHO/IBRD COOPERATIVE PROGRAMME  
QUARTERLY STATUS REPORT ON CP ACTIVITIES  
(APRIL-JUNE 1981)

REGION: SOUTH ASIA

BANGLADESH

District Towns Project Preparation - Resp. Off.: SEARO - Code: \_\_\_\_\_

Provision: FY1981 - 4 man/weeks (for ETS)

The assistance of an HQ/CP economist has been requested by SEARO for the implementation of this project preparation mission to Bangladesh. Accordingly a provision of 4 man/weeks of Dr Becher's time has been earmarked for this activity. Confirmation of mission and terms of reference are awaited from SEARO.

INDIA

Rajasthan Water Supply/Sanitation - Resp. Off.: SEARO - Code: \_\_\_\_\_  
Project Preparation

Provision: FY1981 - 3 man/weeks (for ETS)

The assistance of Dr Ballance has been requested by SEARO for a period of six weeks starting 6 April 1981, to carry out a project preparation mission to Rajasthan. Unfortunately, due to other commitments, Dr Ballance is only available for the period 27 April-15 May 1981. We have thus earmarked these three weeks for the Rajasthan mission on the current workplan and are awaiting confirmation of his participation in the mission and terms of reference from SEARO.

Other activities undertaken by SEARO under the Cooperative Programme are reported separately by the Regional Office.
