EC/O/68 - 1

January 4, 1968

Expected Economic Missions: January 1968-June 1968

1. Attached, for your information, are the schedules of the expected economic missions during the period January 1968 - June 1968. The number of missions by Area Departments and staffing position, their timing and degree of commitment, and the personnel required to complete missions, are shown in Summaries A, B, and C respectively.
2. The schedules, which are based on the Timetables for Economic Mission Work prepared by the five Area Departments, will be discussed at an Economic Committee meeting some time in January.

EXPECTED ECONOMIC MISSIONS DURING JANUARY 1968 - JUNE 1968

Asia Department
Page 2

Country	Probable Date and Duration	Purpose	Composition
China	February/March (3 weeks)*	Periodic Review ^{1/} (last report November 1966)	Chief of Mission: YANG (AD) General Economist: REIF (AD) Public Finance: (ED)

* Firm Commitment

1/ The timing of the mission is linked to the next lending operation.

NOTE: The mission to Hong Kong which was tentatively scheduled for March/April 1967 to make a basic reassessment of the economy has been temporarily suspended. A reconnaissance mission consisting of Messrs. Yang and Reif will probably visit Hong Kong in March 1968 to determine whether the mission originally planned to reappraise economic prospects is warranted.

Special missions are planned for Nepal, India and Indonesia. Mr. Gilmartin's visit to Nepal is tentatively fixed for February 1968 to discuss development policy and planning. Messrs. Elz and Varone will visit India for three weeks at the end of February to examine the export prospects of a number of commodities. Messrs. McDiarmid and Naylor will visit Indonesia to discuss the conclusions of the latest economic report with Indonesian authorities.

Monthly Forecast of Economic Missions

The following is the return for Europe Department:

Part I (No change): Cyprus, Iceland

Part II (Change):

Portugal - January/February (3 weeks; footnote on timing to be deleted);
Chief of Mission: Balassa (consultant to Economics Department);
Public Finance: Holsen (Economics Department)

Yugoslavia - In view of a change in the timing of pending loan operations, the short visit in February has been cancelled. The April/May mission is now scheduled for March/April. The mission member in charge of industry will be Mr. Villela (Economics Department)

Turkey - Chief of Mission: Schaad (Area Department)

Part III (Special): None

Part IV (In the field): None

Part V (New): None

Part VI (Returned): The mission to Fiji returned on November 27.

Distribution of Economic Missions Forecast

Having read the attachments to your memorandum of December 14 and heard the views of Mr. King and Mr. Owen, we are not in favor of extending distribution of the forecast to division chiefs as requested by Mr. King. It is important to keep the volume of paper produced and distributed within the Bank as low as possible. Mr. King's proposal, though it would have a negligible effect in itself, would probably lead to a substantial increase in the number of copies of the forecast and we are not persuaded that division chiefs need to have the forecast for constant reference. There is no reason, on the other hand, why an additional copy should not be made available to Area departments for circulation, as suggested by Mr. Weiner.

ARW/mpd

Messrs. Chadenet/Bell

December 8, 1967

S. Aldewereld (signed) S. Aldewereld

Agriculture Division - List of Missions

I have read the list of missions of the Agriculture Division for the period December 1, 1967 to February 29, 1968. There are two supervision missions scheduled to Mexico and Morocco where I see that the missions will consist of four people each. Isn't this somewhat of an over staffing?

cc: Mr. Evans

SAldewereld:mk

Mr. Clifford F. Owen

December 6, 1967

A. Robert Whyte

Expected Economic Missions Statements

The statement of Expected Economic Missions dated November 30 included missions to the Philippines and Singapore which were described as routine review missions. As the staff commitment seemed to be rather large for missions of this kind we questioned Asia Department on them. It is clear from Mr. King's and Mr. McDiarwid's replies to Mr. Williams of December 5 that both missions are considerably more than routine review missions. Mr. King also commented that, as a result of an error by them, the mission to Singapore shows two industrial specialists instead of one.

As I mentioned on the telephone, the statement shows one agriculturalist and two transportation specialists for the mission to the Congo, whereas the Agriculture and Transportation Division Progress Reports show two agriculturalists (and there will be an FAO man as well) and five transport specialists. Thus the total number on the mission appears to be 12, not seven.

It is important for us, and presumably for those responsible for economic missions, that the statements should be as accurate as possible, both in describing the purpose of the mission and in indicating its composition. Perhaps you could impress this upon those concerned.

Economic Advisers

December 4, 1967

Benjamin B. King *BBK*

"Expected Economic Missions"

I have asked Mr. Owen to distribute this monthly document to the division chiefs in our department. One of the objections he raised to distributing the entire document (as opposed to the part concerning the Asia Department) is that the information on other departments is confidential.

Arrangements can obviously be made to distribute within our department only the pages concerning it, but it would be simpler to distribute the whole thing. I would be grateful if you would let me know whether you still have an objection to this procedure.

Samir K. Bhatia *Shade*

Revised Format of Summary 'A' of the Economic Committee Document
Entitled "Expected Economic Missions"

With reference to our talk on this subject on November 16,
I should like to inform you that Mr. Kamarck and Mr. Stevenson both agree
that if you mention only the total percentage it would be misleading
especially since the Economics Department participation percentage in
some of the Area missions is much higher than the total participation
percentage figure. They, therefore, suggest that in the next issue no
percentage should be given in the table at all.

Cleared with Mr. Stevenson *AS*

cc: Messrs. Kamarck
Stevenson

"Expected Economic Missions" *BBK*

I would like to have in future ten copies of the monthly "Expected Economic Missions" for this Department. It would be most convenient if these could be distributed directly to the following people, in addition to myself:

Messrs. Street
McDiaruid
Hablutzel
Elobel
Gibbs
Melmoth
Kraske
Brakel
Votaw

If not, please send one to Mr. McDiaruid as usual and the other nine to me.

Expected Economic Missions: November 1967-April 1968

1. Attached, for your information, are the schedules of the expected economic missions during the period November 1967-April 1968, as shown in Table 1. The number of missions by Area Departments and staffing position, their timing and degree of commitment, and the personnel required to complete missions, are shown in Summaries A, B, and C, respectively.
2. The schedules, which are based on the Timetables for Economic Mission Work prepared by the five Area Departments, will be discussed at an Economic Committee meeting some time in November.

* Firm Commitment ** Tentative Commitment

1/ Precise timing subject to congressional action on new tax measures.

EXPECTED ECONOMIC MISSIONS DURING NOVEMBER 1967 - APRIL 1968

Asia Department
Page 2

Country	Probable Date and Duration	Purpose	Composition
Hong Kong	March/April (2 weeks)**	Basic reassessment ^{1/} (last report September 1967)	Chief of Mission General Economist: (AD)
China	Feb/March (3 weeks)**	Routine review (last report November 1966)	Chief of Mission: General Economist: (AD) Public Finance: (ED)

** Tentative Commitment

1/ The last economic report, which concluded that Hong Kong did not require Bank loans, was completed before the political disturbances broke out in May this year. These may significantly affect Hong Kong's longer term prospects. The mission will only be sent when the political situation has settled sufficiently to make reappraisal of prospects meaningful. The mission is highly tentative and subject to further consultations with the Hong Kong Government.

NOTE: Special missions are planned for Nepal and Vietnam. The visit to Nepal is tentatively fixed for February 1968 to discuss development policy and planning. A brief visit at the beginning of January 1968 will be made to Vietnam to inform the Bank of recent economic developments.

Missions to Ceylon, Indonesia and Thailand are in the field.

Schedule of Missions

The other morning we had some preliminary discussions regarding the scheduling of missions within the next few months. You asked for my suggestions regarding several missions and I am proposing the following:

Litani Mission, Lebanon

October 30 - November 10:

Douglass
Manning
Vergin

Supervision Mission, India - 14-IN, 21-IN and 23-IN

October 30 - November 17:

Cummings
Davis

Appraisal Mission - Olomega Project, El Salvador

November 29 - December 20:

Douglass
Haynes
Harna
Afrouz ?

The above schedule will keep Mr. Douglass out of the office for a longer period of time than I would like. However, I feel that he would be best utilized in the manner suggested. One problem which may come up is the negotiation of Stage II of the Seyhan Project, and if this should come up before the first of the year it would be desirable to have Mr. Douglass in the office. I am hoping it will not develop until after the first of the year.

I have discussed Mr. Haynes availability for the El Salvador mission and have been informed that it is very unlikely that he will be able to go on this mission if the negotiations for the Malawi Project are undertaken in December. As I understand it, this has not been fully determined as of this date. However, it must be kept in mind that, in the event Mr. Haynes cannot participate in the El Salvador mission, we would have to find another Agriculturist.

After January 1, 1968, we would still have to schedule the following supervision missions:

Malaysia - 434-MA (Muda)
500-MA (Kemubu)

Mexico - 275-ME (Irrigation I)
336-ME (Irrigation II)
450-ME (Irrigation III)

Pakistan - 11-PAK (Dacca)
22-PAK (Khairpur)
39-PAK (Chandpur)

Thailand - 327-TH (Petchburi)
328-TH (Chao Phya)
394-TH (Me Klong)
514-TH (Phasom)

At the present time, I see no problem in meeting the requirements for such missions after the first of the year.

Hong Kong	February (2 weeks)**	Basic reassessment ^{3/} (last report September 1967)	Chief of Mission: General Economist: (AD)

* Firm Commitment ** Tentative Commitment

- ^{1/} The timing of this mission is subject to consultations with the Government in early October.
^{2/} Precise timing subject to congressional action on new tax measures.
^{3/} The last economic report, which concluded that Hong Kong did not require Bank loans, was completed before the political disturbances broke out in May this year. These may significantly affect Hong Kong's longer term prospects. The mission will only be sent when the political situation has settled sufficiently to make reappraisal of prospects meaningful.

OFFICE MEMORANDUM

TO: File

DATE: May 16, 1967

FROM: O. J. McDiarmid *OJM*SUBJECT: Economic Missions

Attached is a list of the economic missions likely to be mounted by the Asia Department over the next ten months. It was drawn up by Mr. Gilmartin and myself and tentatively approved by Mr. Goodman. It does not include a mission to Indonesia likely to follow my visit there planned for July or August, or a possible mission to the Philippines if action is taken by the Philippine Congress on tax legislation. The Indonesian mission might be in October and the Philippine mission in late 1967 or early 1968.

EC/O/67 - 52

April 28, 1967

Expected Economic Missions: May - October, 1967

1. Attached, for your information, are the schedules of the expected economic missions during the period May - October, 1967, as shown in Table 1. The number of missions by Area Departments, their timing and degree of commitment, and the personnel required to complete missions, are shown in Summaries A, B and C, respectively.

2. The schedules, which are based on the Timetables for Economic Mission Work prepared by the four Area Departments, will be discussed at an Economic Committee meeting some time in May.

FORECAST OF OPERATIONAL MISSION TO COLOMBIA IN FY1967 AND FY1968

It is estimated that 1 more operational mission will be required in Colombia in FY1967 and 8 during FY1968. These missions will include any activities of a project preparation nature which may be required. At an average of 1-1/2 weeks each this means:

FY1967	- 1/2 man month
FY1968	- 3 man months

ECONOMIC COMMITTEE

EC/O/67 - 48

OFFICE MEMORANDUM

TO: Economic Advisers, Area Departments April 19, 1967
FROM: C. F. Owen
SUBJECT: Monthly Reports on Expected Economic Missions

1. With reference to the Economic Committee's discussion on March 21 of the current forecast of economic missions, and particularly to Mr. Friedman's comments on the comparability of information, I should appreciate if the following details were included in future monthly reports.

Monthly Memorandum

2. Part III: All "special" missions (i.e. chiefly missions to discuss draft economic reports and/or economic policies) should be listed with a brief description regarding timing and purpose. Participation in an economic mission organized by another agency, and which would not result in a Bank economic report, should be included in this category. A "joint mission" which resulted in a Bank economic report should be reported in a Timetable for Economic Mission Work.

3. Part V: Dates that missions return to the Bank should be given (defined as the date the chief-of-mission returns).^{1/}

Timetable for Economic Mission Work

4. Composition of Economic Mission: When a member will not be with the mission for the main part of its stay, the approximate period (in weeks) the mission member will be in the country should be given.

^{1/} This will be a new section.

cc: Messrs. Friedman
Kamarck

Harold Larsen

Economic Missions, FY1968

1. A forecast of expected major economic missions (i.e. more than three men) for the whole of FY1968 necessarily becomes increasingly tentative as the perspective lengthens. Those listed for the second half-year can be visualized only as possibilities; they, and their timing, will depend upon events which have not yet occurred. I have not covered possible technical assistance missions of the Mauretania type (since I myself do not know of any) but have included missions we had in mind for Morocco and Tunisia, even though they will be the responsibility of another Department in FY1968.

First half-year (July-December 1967)

Morocco Report for C.G. and possible technical assistance on Plan frame 1968-72.

Aug/Sept, 4 weeks if only C.G., possibly 6 weeks if also technical assistance, report writing 10-12 weeks.

6 members: 2 Africa, 1 Economics, 1 IFC, 2 Projects, plus possibly additional short-term visits by Projects if technical assistance provided.

Tunisia Report for C.G.

October, 4 weeks, report writing 10 weeks.

5 members: 2 Africa, 1 Economics, 2 Projects.

Congo (K) Basic re-assessment of position and prospects.

October, 4-5 weeks, report writing 10-12 weeks.

6 members: 2 Africa, 2 Projects, 1 IFC, 1 IMF (otherwise Economics).

Second half-year (January-June 1968)

Ghana Review of draft Development Plan, if it becomes available.

4 Weeks.

8 members: 2 Africa, 1 Economics, 4 Projects, 1 Consultant (Housing).

April 19, 1967

Nigeria Basic re-assessment of position and prospects, if politically feasible.

6 weeks

9 members: 2 Africa, 2 Economics, 4 Projects, 1 Consultant (Housing)

Sudan Review of revised Development Plan, if it becomes available.

4 weeks

6 members: 2 Africa, 3 Projects, 1 IMF (otherwise Economics).

East Africa (Kenya, Tanzania, Uganda)

Report for C.G., if one is established.

5 weeks

8 members: 1 economist per country, plus Chief and assistant chief economist from Africa and Economics and 3 Projects.

Rhodesia Basic re-assessment of position and prospects, if sanctions lifted, etc.

4-5 weeks

6 members: 2 Africa, 1 Economics, 3 Projects, 1 IFC (industry).

Expected Economic Missions: March - August, 1967

1. Attached, for your information, are the schedules of the expected economic missions during the period March - August, 1967, as shown in Table 1. The number of missions by Area Departments, their timing and degree of commitment, and the personnel required to complete missions, are shown in Summaries A, B and C, respectively.

2. The schedules, which are based on the Timetables for Economic Mission Work prepared by the four Area Departments, will be discussed at an Economic Committee meeting some time in March.

List of Missions - March 1, 1967 to August 31, 1967

The following list of missions is provided in response to your memorandum of February 20:

<u>Country</u>	<u>Probable Date and Duration</u>	<u>Purpose</u>	<u>Staff</u>
<u>Kenya</u>	February/March (5 days)	Discussions on current and future operations	Tolley
<u>Tanzania</u>	March (4 days)	Discussions on current and future operations	Tolley
<u>Uganda</u>	March (5 days)	Discussions on current and future operations	Tolley

In addition, I have yet to discuss with Mr. de Wilde arrangements for missions to discuss his economic report with the Governments of Kenya, Tanzania and Uganda. I also propose to have a mission to review operations in the three countries in the June-August period, but scheduling must await further information on the availability of staff.

Forthcoming Economic Missions: Africa Department

1. I attach completed "new" forms for all our presently proposed missions, to start 1967 right!
2. Special missions to discuss draft economic reports may be needed for East Africa, Ethiopia, Guinea and Tunisia, and to participate in Consultative Group meetings for Morocco and Tunisia, and special meetings for Ghana.
3. A mission may be scheduled to review Nigeria's position when the Governmental situation is clarified.

Manfred G. Ebel *ME*

Economic Mission

This is to record our conversations on January 3 and 4, 1967, during which we worked out a tentative timetable for my visits to Bangkok, Saigon and Colombo.

- February 1 - Arrive Bangkok for review of Second Five-Year Plan. The mission will consist of Messrs. van der Tak, Foster, Sharif, Afrous, and myself.
- Mid-February - Leave Bangkok for Saigon for about three days of discussions with Government.
- February 25 - Leave Bangkok for Colombo, joining someone from the Department, not yet designated, who would arrive about a week earlier. The purpose would be to discuss aid requirements in 1967 and review prospective aid requirements for the period through 1971.
- March 4 - Leave Colombo for Washington.
- March 24 - Dispatch to members of Ceylon Aid Group, memorandum outlining aid requirements in 1967 and discussing Ceylon's prospective needs through 1971.

This timetable means that the report of the mission to Thailand will probably not be ready for distribution to the Consultative Group before early May.

This file is to be weeded every year in accordance with the memorandum dated August 7, 1962, filed "Records Disposal - Archives Division". After weeding, this notice is to be inserted in the file at the end of the weeded material.

Note: Routine material including "Forecast of Missions" issued by Secretary's Department to be weeded every two years.

ECONOMIC COMMITTEE

EC/O/66 177

OFFICE MEMORANDUM

TO: Economic Advisers of Area Departments November 18, 1966
FROM: C. F. Owen
SUBJECT: Forecast of Economic Missions

1. In order to reduce to the minimum the number of Status of Economic Mission Forms which have to be completed by each Area Department, a new method of reporting will be introduced on a trial basis.

2. As already discussed and agreed, beginning with the information due on November 25 for the period December, 1966-May, 1967, a memorandum (four copies) should be completed along the following lines:

Part I: List missions shown in the last Forecast for which there have been no change in details.

Part II: List missions for which there have been changes with respect to (a) timing, (b) duration, (c) purpose and (d) cancellation, and give details.

Part III: List all other "special" missions (including follow-up missions to discuss draft reports) and give brief description regarding timing and purpose. (This was discussed at the Economic Committee meeting on November 15.)

Part IV: List missions in the field.

3. Accordingly, new Mission Forms need only be completed fully for missions reported for the first time.

4. In the case of changes in the composition or personnel, only page 3 of the Mission Form need be completed.

5. Modification of the existing Status of Economic Mission Form, or the introduction of a new form, is presently under consideration.

OFFICE MEMORANDUM

Abidjan Office

TO: Messrs. El Emary/Williams

DATE: August 17, 1966

FROM: Alfred E. Matter *AM*Letter No. 272SUBJECT: Forecast of Economic and Operational Missions

AUG 22 1966

I have reviewed your forecast of August 1, 1966 forecasting the economic missions of the Africa Department until the end of the year in order to see whether it would be desirable again to combine efforts between headquarters and the Abidjan office in staffing these missions, which proved to be so useful in some of last year's missions.

I have come to the conclusion, however, that none of those listed for the remainder of this year warrant this kind of joint effort. They either cover countries where we have just recently made an identification of projects, or they represent continuations of earlier economic missions, or they cover a country such as Guinea where we have no immediate interest.

The only country where a certain amount of joint effort would be useful is the Ivory Coast. But I could not afford to have Mr. Springuel become a member of that mission to the extent of last year, because that would take him out of his other work here for a period of two to three months. I would be very glad, however, to have Mr. Springuel brief the economic mission very fully on everything we already know about the economic situation here, and to introduce them to the various ministries and other sources of information. In addition I would suggest that he be present at the mission's final meetings as an observer, so that we are fully informed here about the final impressions and questions that the economic mission left. Finally, if there is any follow-up to be done after the departure of the mission, I would be very glad to have Mr. Springuel do so.

Forecasts of Economic Missions

Just a brief comment on para. 1 of your memo of May 19, 1966. As I recall our discussion, we agreed that the area department should indicate in its forecast the degree of flexibility in the timing of the economic missions as well as the degree of commitment, if any, made to the Government involved. I am not sure that we can very usefully indicate "the priorities of economic missions" as you request. Speaking for the Western Hemisphere Department, our mission scheduling reflects the operational requirements of the department; all the missions are therefore a priority in the sense of not being postponed indefinitely. Some, however, are more flexible in their timing than others.

We shall, in our next submission of forms, indicate what flexibility we see in timing. I want to make clear you understand how we read your term "priorities".

Problems Encountered on Economic Missions

1. With reference to your conversation with Mr. Evans last week I am attaching extracts from letters from Mr. Threlkeld to Mr. Evans on problems in relation to the Malaysia mission.

2. In addition, Mr. Platenius reports that on the recent economic mission to Thailand the Government had not prepared a revised outline of projects for the consultative group. Also, work on the draft 5-Year Plan was behind schedule, and a draft of proposed development expenditures under the Plan was received only after the mission returned from the field.

Attachments.

Bank

Malaysia Mission - Extracts of letters from Threlkeld

February 7 - Kuala Lumpur

"Just a note to let you know we arrived here safely - everyone weary of travelling but in good spirits. There was no one to meet us. The Director of D.I.D. and the Minister are away on tour; the deputy is in Penang until Wednesday; Ghoshal left 24 hours before we arrived and left no message; Wignaraja I located about 10:30 pm and knows of no arrangements for us; I phoned Singapore at 11:30 pm to get Ghoshal but he had checked out that morning and they didn't know where he had gone; otherwise things are fine. Piennes arrives today but the Planning Organization doesn't know we are here, however, I shall straighten things out as soon as the offices open. It will mean a slower start than I expected but with luck we shall catch up."

February 10 - Kota Bharu

"Just a brief report on present activities. Piennes leaves for Sabah tomorrow morning (11th Feb) after a limited briefing. The only details we were able to get were the overall 5 year plan as it affects development plans for Sabah - Sarawak and a confidential preliminary report by U.N. Special Fund on the Labuk Valley, Sabah.

One of the Economic Planning Unit officials returns from Sarawak today, so I hope he will have something concrete for that Territory. It is apparent that the Federal Government were not yet in a position to submit proposals for these Territories, as they are still having their own internal discussions on any proposals there may be. Accordingly, Piennes will probably spend about four days in each Territory and see what is available from local governments.

With regard to other proposals in Malaya itself - we have had general discussions on Agricultural Education, Agricultural Extension, Livestock, Fisheries, and Agricultural Research. To date, they have given us nothing in writing on which to comment for the Consultative Group. Something might mature next week."
