

# PROJECT SUMMARY

Kyrgyz Republic

## PROJECT NAME

Establishment of an Integrated Climate Change MRV System

## GRANT OBJECTIVE AND ACTIVITIES

The project supports the Government of the Kyrgyz Republic, an [NDC Partnership](#) member, in developing its national climate change Monitoring, Reporting and Verification (MRV) system for NDC priority sectors. The system helps track progress being made towards meeting sectoral mitigation targets (for LULUCF and energy), as outlined in its NDC commitments, and enhances understanding of potential climate vulnerabilities of NDC priority sectors, including forestry, biodiversity and agriculture. Other activities include facilitating the development of policies and action plans, a toolkit to inform climate policy and planning and strengthening the national GHG inventory.

## COUNTRY FOCAL POINTS

Coordination Commission on Climate Change Problems (CCCCP), State Agency for Environment Protection and Forestry (SAEPF), Coordination Council on Macroeconomic and Investment Policy (CCMIP)

## WORLD BANK GROUP PRACTICE

 Environment and Natural Resources
