PERU

Region: Latin America and Caribbean Income Category: Upper Middle Income

Human capital – knowledge, skills, and good health – empowers people to achieve their potential and drives economic growth. This brief tracks progress by Peru in building and using human capital. The Human Capital Complementary Indicators offer a snapshot of human capital investments at four stages of the lifecycle. The brief uses the latest available data. It is benchmarked against regional averages and reports progress over the previous 5 years.

EARLY CHILDHOOD

- Neonatal mortality rate. The neonatal mortality rate is 8 per 1,000 live births (2023). This remains unchanged since 2018. The indicator is lower than the regional average.
- Participation rate in organized learning. In 2018, 97% of children one year younger than the official primary school entry age participated in an organized learning program. This remains unchanged since 2015. The indicator is above the regional average.
- **DTP vaccination rate, third dose.** In 2024, **80%** of infants received the third dose of the diphtheria, tetanus and pertussis vaccine, compared to 88% in 2019. The indicator is lower than the regional average.

SCHOOL AGE

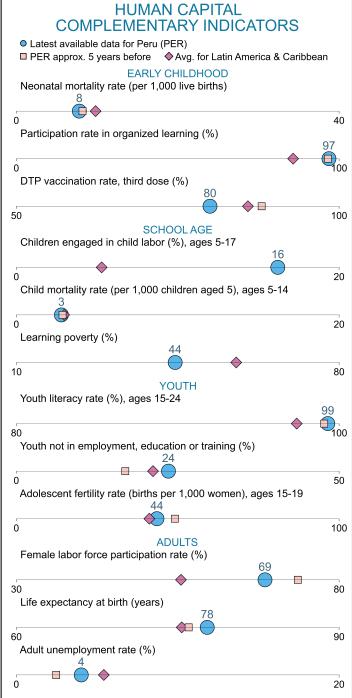

- Children engaged in child labor. The share of children (ages 5-17) who are engaged in economic activities is 16% (2021). The indicator is higher than the regional average.
- **Child mortality rate.** The mortality rate for children ages 5-14 is **3** per 1,000 children aged 5 (2023). This remains unchanged since 2018. The indicator is similar to the regional average.
- Learning poverty. In 2019, 44% of children could not read and understand a simple text, by age 10. The indicator is lower than the regional average.

YOUTH

- Youth literacy rate. The share of youth (ages 15-24) who are literate is 99% (2022). This remains unchanged since 2017. The indicator is higher than the regional average.
- Youth not in employment, education or training. In 2024, 24% of youth (ages 15-24) were not in employment, education or training, compared to 17% in 2019. The indicator is above the regional average.
- Adolescent fertility rate. The number of births for every 1,000 women ages 15-19 is 44 (2023), compared to 49 in 2018. The indicator is higher than the regional average.

ADULTS

- Female labor force participation rate. Female labor force participation as a percentage of the female working-age population (ages 25+) is 69% (2024), compared to 74% in 2019. The indicator is higher than the regional average.
- **Life expectancy at birth.** Life expectancy at birth is **78** years (2023), compared to 76 in 2018. The indicator is above the regional average.
- Adult unemployment rate. Unemployed adults as a share of the adult labor force (ages 25+) is 4% (2024), compared to 2% in 2019. The indicator is lower than the regional average.
