

# GEORGIA'S CLIMATE AGENDA AND NDC UPDATE

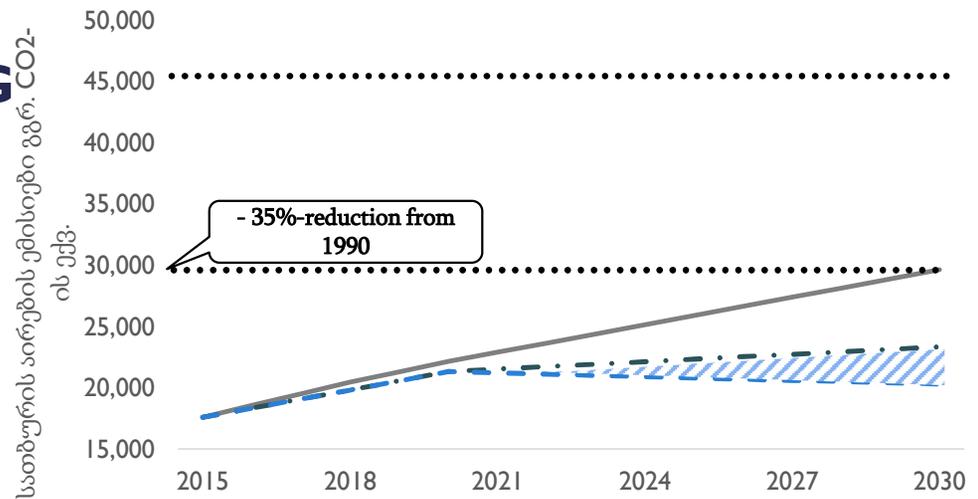

Round Table and Report Launch:

*GEORGIA:TOWARDS GREEN AND RESILIENT GROWTH*

Maia Tskhvaradze  
Maia.tskhvaradze@mepa.gov.ge  
Head of Climate Change Division  
Ministry of Environmental Protection and Agriculture of Georgia

# GEORGIA'S UPDATED NDC

- **Approved on April 8<sup>th</sup> by GOG**
- Unconditional target -35% reduction from 1990
- Conditional target -50%-57% reduction from 1990
- Adaptation consideration
- Sectorial targets

# 2030 CLIMATE CHANGE STRATEGY AND 2021-2023 ACTION PLAN

-  Reducing GHG emissions from transport sector by 15%
-  Support development of low carbon approaches in the building sector,
-  Reducing GHG emissions from energy generation and transition sector 15%
-  Support development of low carbon approaches in agriculture sector
-  Reducing GHG emissions industry sector 5%
-  Support development of low carbon approaches in waste sector
-  Increase the carbon sequestration capacities of the forestry sector by 10%

# LONG TERM (2050) LOW EMISSION DEVELOPMENT STRATEGY (LT LEDS)

Georgia's LT-LEDS should be a visionary policy document with strong technical foundations, which will set current state of affairs and identify the most plausible long-term trajectories and pathways for low emission development and decarbonisation of the identified and prioritized sectors, taking into account the updated NDC and the Climate Action Plan of Georgia.

# NATIONAL ADAPTATION PLAN

Mountain ecosystems

Water resources

Forestry and Biodiversity

Extreme weather events

Tourism

Agriculture

Health

# NECP

- ❖ Dimension of Decarbonization
- ❖ Dimension of Energy-Efficiency
- ❖ Dimension of Energy Security
- ❖ Dimension of International Energy Market
- ❖ Dimension of Research, Innovation and Competitiveness

# CLIMATE CHANGE COUNCIL

**Mandate:** ensuring the efficient implementation of the UN Framework Convention on Climate Change, the Kyoto Protocol, and the Paris Agreement.

# THANK YOU
