

The community aims to enhance businesses efficiency and competitiveness by adopting blockchain technology, with the initiative initially implemented via the Letter of Guarantee (LG) project.

Banks launch 'Thailand Blockchain Community Initiative'

Economy March 19, 2018 17:05
By The Nation

Objectives

“**Thailand Blockchain Community** where we together co-create a collaborative environment that initiates compelling blockchain projects, embracing **win-win outcome**”

“we must ensure that not only can corporates access the new financial technologies but also SMEs and retail consumers to leapfrog and enhance our country’s competitiveness.”

Project Inthanon: Wholesale Central Bank Digital Currency (CBDC) for interbank and cross-border payment

Project Inthanon : the 4 main pillars
