

Research Reproducibility

Computational reproducibility checks: 11 papers reviewed

Reproducible research trainings: 28 sessions delivered

Data publication support: 16 datasets prepared for publication

DIME research standards

Events & Capacity Building

- Manage Successful Impact Evaluations
- Measuring Development Conference
- Transparency, Reproducibility, and Credibility: A Research Symposium
- Research Assistant Onboarding Course
- RA and FC Continuing Education
- Bootcamps: real-time adoption of best practices on
Data security | Reproducible research

DIME Wiki

- 95,000 total users and 188,890 page views from 200 countries

Research Data in Practice

- A resource guide on development data work

ietoolkit

- 617 downloads in May 2020

iefieldkit

- 133 downloads in May 2020
- Publication in Stata Journal

Project support

Data work

- Support safe data transfer, storage and handling
- Quarterly peer code review for 26 projects
- Office hours for RAs & FCs
- World Bank GitHub account management
- Ad hoc project support

Recruitment

- Technical onboarding for 26 new Research Assistants and Field Coordinators in 2020
- Internship Application Dashboard created
- Coordinated STC Batch Hiring
- 143 software tests graded (Stata, R, Python, ODK)

Surveys

- 9 survey reviews (procurement, survey design, programming, etc.)
- 235 DIME survey documents compiled
- World Bank SurveyCTO server management

122 hours of ad-hoc support in FY20
