WHO WE ARE

THE WORLD BANK RAMP

Reserve Advisory & Management Partnership
The Trusted Partner for Public Asset Managers

RAMP promotes stability, resiliency, and prosperity through public asset management advisory.

Global public asset management institutions manage over $40 trillion of reserves and assets, highlighting the need for world-class advisory services. The World Bank Treasury manages nearly $200 billion of assets and has shared its knowledge of public asset management with central banks for over 40 years.

Established by the World Bank in 2001, the Partnership delivers advisory services and training to member countries across governance, asset allocation, portfolio and risk management, and operations & IT. The World Bank RAMP’s work contributes to the Sustainable Development Goals of decent work, economic growth, climate action, strong institutions, and partnerships. Today, RAMP members also include international financial institutions, public pension funds, and sovereign wealth funds, with over 70 members worldwide.

RAMP Advisory Services
Members receive individual consultations and onsite visits by World Bank specialists. The Partnership implements best practices in reserves and public sector asset management through World Bank specialists and institutional partnerships.

RAMP Executive Training
Members can expand their training budget through fully sponsored and hosted workshops, webinars, trainings, and certificate programs. Every year, RAMP hosts about 30 week-long technical workshops for public asset managers, leveraging experts from across the World Bank.

RAMP Global Network
Members participate in conferences and events worldwide designed for public asset managers that build community and promote knowledge sharing. These events allow members to discuss common challenges and share responses to benefit their institution.

RAMP Asset Management
Members can select from a range of financial products available to meet their needs. Seasoned portfolio managers formulate and implement sound investment and risk management policies and practices. As the trusted partner for public asset managers, the World Bank puts members first.
