good evening My name is Jeremie Kasongo from Congo-DRC, im a young Congolese very committed to community engagement, volunteering, leadership, and passionate about positively impacting my community and the whole world by volunteering for universal health coverage. Given the urgent need to increase investment to strengthen the capacity of developing countries to prevent, prepare for and respond to future global health threats, at this point i would like to say that the development of a new The World Bank Group Financial Intermediary (FIF) is paramount and very important to strengthen the universal health coverage prevention, preparedness and response system thank you
