Dear Bill:

Subject: Appointments to TAC

We are gathering up the additional information on possible nominees for TAC and we have cvs on all your suggestions except Les Swindale. Although I know Les very well, I think that it would be better if a request for his cv were to go to him from you, suggesting he send it to us directly.

With best regards,

Yours sincerely,

John K. Coulter

Dear Herb:

You will remember that during my recent visit to IITA, I told you that Dr. Okigbo's name had been put forward by Dr. Bukar Shaib as a possible nomination for TAC. Dr. Bukar Shaib suggested we contact you for further details about him, so I would be grateful if you could send us his cv. I am not certain of the position regarding membership of TAC by staff of the centers, but we will leave this to the co-sponsors to decide.

With best regards,

Yours sincerely,

Dear Brian:

Subject: 1976 TAC Budget

As you know, we plan to have a meeting of the co-sponsors at the time of Centers Week in July. I think it would be useful to have a budget for discussion at this meeting; would this be possible? The other point is the statement of expenditure for 1974; the co-sponsors should receive this as soon as possible. I seem to remember that there were some procedural difficulties in getting this from FAO, so I do not know when you expect to have it in hand.

With best regards,

Yours sincerely,

John K. Coulter

19 May 1975

Dear John,

Sir John informs me that you are anxious to have a copy of the TAC agenda for the July meeting. I re-vamped this after discussion with him in Delhi early last week, and enclose herewith a copy of the agreed programme with my compliments.

In your note to me you also ask about plans to invite TAC members to attend Centres Week, and I think that Sir John's attitude here will be that if members wish to stay on they may do so, but the TAC meeting will end officially on Saturday afternoon prior to the Centres Week and we do not envisage any subsequent meetings involving TAC members in their official capacity.

As far as the TAC Secretariat is concerned, Brian and myself will both be attending the TAC meeting. I do not think it necessary for Brian to stay on for Centres Week unless Sir John specifically requests this, since if we are to fit our leaves in so that they do not overlap it is desirable that he commences his immediately after the TAC meeting in order that he can coincide with the school holidays for the first time in four years. The plan is that I will commence writing the TAC report from the verbatim immediately on my return to Rome from Centres Week; Brian and I will both work on it when he comes back from leave in the latter part of August and we will aim to get the job completed before I go on leave in the first week of September. This, of course, is subject to Sir John's agreement.

what a sentence!

I think it is a good idea to invite Dr. ten Houten to come to Rome for briefing, and we will certainly do this once we receive notification that he has accepted the invitation to join TAC.

Will you be going to the "Bellagio" meeting in Montreal? If not, I am planning to come to Washington for a day after the meeting before I go on to Panama City for a FAO meeting on research priorities for Latin America, and will cable you later confirming the day I will be arriving. *Probably on Thursday morning, June 5th*

Cable Address - INTBAFRAD

May 28, 1975

TO: Members of the Consultative Group
FROM: Executive Secretariat
SUBJECT: Appointment of a new Member to the Technical
Advisory Committee (TAC)

In our memorandum of January 23, 1975, we invited Members of the Group to suggest candidates for consideration to fill TAC vacancies arising in 1975, including the vacancy resulting from Dr. Bommer's giving up his membership of TAC following its February meeting. The Co-sponsors have considered the candidates suggested and have unanimously recommended the appointment of Dr. Johan Gerard ten Houten, whose biography is attached. The purpose of this memorandum is to seek your early agreement to this nomination so that Dr. ten Houten can be appointed in time to attend the meeting of TAC, July 22-26. Could you please therefore reply to the Secretariat by June 16, by cable or otherwise.

May 21, 1975

Dear Dr. Bommer:

May I take this opportunity both to congratulate you on your appointment to FAO and to thank you, on behalf of the members of the Consultative Group, for your service to the Technical Advisory Committee and contribution to the work of the Group.

The Center system has gone through a stage of very rapid expansion since the Consultative Group was formed and, as a member of the TAC, I am sure that you took great satisfaction in the role that the Committee plays in the growth and strengthening of this unique system.

We are glad that, from your position in the FAO, you will be able to maintain a very close liaison with the Group which will undoubtedly welcome any help that you can give it.

Best wishes,

Sincerely,

Warren C. Baum

F 1

May 20, 1975

Dr. Werner Treitz
Federal Ministry for Economic Cooperation
Friedrich Ebertstrasse, 114
Bonn
Federal Republic of Germany

Dear Dr. Treitz:

You will remember that when Dr. Bommer took up his assignment at FAO he resigned from the Technical Advisory Committee of the Consultative Group on International Agricultural Research. Since TAC was going to have a meeting in February, Dr. Bommer was asked to continue as a member until that meeting was over.

Dr. Bommer was an outstanding member of TAC and the CGIAR System profited greatly from his interest and wisdom. Fortunately, we shall continue to benefit from his advice since I understand that as one of his FAO duties he will be the official FAO observer at the meetings of TAC in the future. We are very glad that he will retain this association with the CGIAR.

Not only must we name someone to replace Dr. Bommer on TAC, but at the end of 1975 we shall have to name four or five new TAC members to replace those who will by then have completed their term of service. As I think you know, it is the responsibility of the three Co-sponsors (FAO, UNDP and the World Bank) to nominate candidates for TAC membership, final approval resting with the membership of the Consultative Group as a whole. Because several new members must be selected before the end of 1975, we asked members of the Consultative Group to suggest candidates for consideration. In response to this request, we received a large number of suggestions including four from Germany. We are gratified at the helpful response, and particularly gratified that the candidates suggested by Germany came from several different countries. All the candidates suggested will be carefully considered, and at their meeting in July the Co-sponsors will begin the process of selecting candidates for the appointments to be made by the end of the year. Meanwhile, however, the Co-sponsors have proceeded to make a selection to fill the vacancy created by Dr. Bommer's resignation. They have agreed to nominate Dr. Johan G. ten Houten, a Dutch national, a copy of whose curriculum vitae I attach. They will officially nominate Dr. ten Houten to the membership of the Group shortly.

May 20, 1975

Because of Germany's strong support of the CGIAR, and because of your own great personal interest in its affairs, I wanted to tell you in advance about the intention to nominate Dr. ten Houten. In making their selections, the Co-sponsors endeavor to keep an approximately equal balance in TAC's membership between members drawn from developed and developing countries. With this proviso, their selections are based on TAC's needs for particular expertise and experience and the quality of the individual candidates. Nationality, while a consideration, is secondary and the Co-sponsors have not felt required to replace an outgoing member with a candidate of the same nationality. The Co-Sponsors would, however, very much welcome having a German member of TAC from time to time, and they hope that suitable German candidates will be among those to be considered to fill vacancies as they occur.

Best wishes,

Yours sincerely,

Michael L. Lejeune
Executive Secretary

Dear John:

I am enclosing a xerox copy of the C.V. Bede Okigbo submitted prior to joining IITA 1 July 1973. There are, of course, some additions to be listed.

Dr. Okigbo is presently Assistant Director and Agronomist, Farming Systems Program, IITA.

He was recently made Chairman, Agricultural Research Council of Nigeria, which is to govern the entire Federal Agricultural Research program of Nigeria.

Among the several assignments coming his way since joining IITA, Dr. Okigbo was a member of a USAID-sponsored survey of drought conditions and consequences in the Sahel.

I don't think there is any doubt that Dr. Okigbo is the most knowledgeable and the most capable of all African agronomists at work today, but as you say, it is left for the co-sponsors to decide.

With best wishes,

Sincerely yours,

H. R. Albrecht
Director General

WASHINGTON, D.C. 20523

May 27, 1975

Dr. Victor Oyenuga
University of Ibadan
Head of Animal Science Department
Ibadan, Nigeria

Dear Dr. Oyenuga:

Members of the Consultative Group on International Agricultural Research (CGIAR) have been asked to suggest persons for consideration as candidates for membership on its Technical Advisory Committee (TAC). We have solicited suggestions through the Agency for International Development and the Department of Agriculture, and you have been mentioned as a person that should be considered. We have not consulted about your willingness to be considered as a candidate for TAC membership, but have taken the liberty of submitting your name to the CGIAR Secretariat.

The Secretariat of the CGIAR, which is in the World Bank, is compiling a list of all suggestions and the supporting curriculum vitae. We do not have enough information to provide an adequate curriculum vitae and, proceeding on the assumption that, if elected, you would be willing to serve on TAC, are asking you to send one directly to the Bank:

Dr. John K. Coulter
Consultative Group on International Agricultural Research
1818 H Street, N.W.
Washington, D. C. 20433 U.S.A.

You may find the enclosed brochure on international agricultural research useful since it describes the CGIAR, TAC and the eight centers supported by the Group.

Sincerely yours,

Guy B. Baird
Associate Director (Research)
Office of Agriculture
Technical Assistance Bureau

June 3, 1975

Dear Peter:

Thank you for your letter of May 19 attaching the program for TAC's July meeting.

We have reserved the Bank's Board Room (A-1100) for the meetings except for Tuesday, July 22 and Thursday, July 24 where there is a good chance the Bank's Executive Directors will be using the Board Room. As an alternative, however, we have made reservations for C-1006 for these two days.

Simultaneous interpretation in three languages, French, English and Spanish, will be provided during the meetings except for the first day, July 22 where due to various meetings to be held in Washington, there are no interpreters available.

As requested by Mr. Brian Webster in his letter of May 23, 1975, we have arranged for verbatim reporting for the meetings. Coffee will be served in the morning and again in the afternoon throughout the meetings.

We estimate the total cost of the meetings to be \$5,462 (\$1,462 more than Brian's estimate) broken down as follows:

Simultaneous Interpretation	
Interpreters (4 days at \$308)	\$1,232
Equipment	150
Verbatim Reporting (\$880/day)	3,960
Coffee	<u>120</u>
Total	\$5,462.

Would you please let me know as soon as possible if you have any problems with the arrangements outlined above.

Best regards.

Yours sincerely,

John K. Coulter

June 6, 1975

Dear Herb:

Thank you very much indeed for your letter of 12 May and the copy of the agenda for meetings during the Centers Week.

As it stands now it looks as if the TAC will want to meet with the Directors only on Friday for the whole day although following representations from the Consultative Group Secretariat concerning the timing of open sessions, it is just possible that the TAC might wish to meet with the Center Directors all day Thursday instead of Friday. Should this change eventuate I will immediately cable you.

You kindly asked me to send you any suggestions I might have from the TAC Secretariat for your discussions and I have listed the following.

(1) Arrangements for establishment of teams for future TAC review missions. I think we have learned a good deal from our first exercise with IIRI, and I am sure Dr. Brady will want to raise this. I am sure we would benefit from your opinions on this question.

(2) I believe that it would be valuable if we could draw on the expertise of the Centers for TAC missions such as the ones we are planning in relation to vegetable research and water buffaloes. We would, of course, have to be very careful not to compromise your main research duties by drawing on your resources but it seems a pity not to be able to use such a pool of knowledge for short periods.

(3) I have already written to the Directors individually concerning ICIPE but you might also wish to discuss this collectively.

Dr. H. R. Albrecht
 Director General
 International Institute of
 Tropical Agriculture
 P.O. Box 5320
 Ibadan
 Nigeria

RECEIVED

JUN 11 6N 5:38

DEPT. OF AGRIC.

.../..

(4) Cooperation with the International Fertilizer Development Center. This is something on which I believe you have been approached already by Dr. Rutten but it would be valuable to have the Centers latest thinking on this question.

(5) Cooperation with the International Food Production Research Institute. Perhaps this is strictly outside the orbit of the Consultative Group, but I am sure it will be very important and mutually beneficial for the Centers to develop cooperation with IFPRI and we would be interested to know how you see this developing.

(6) Cooperation in genetic resource networks and programmes. This is a matter on which you will no doubt wish to hear the latest thinking of the Chairman of the IBPGR and at the same time to express your own views as to how far the Centers could undertake expanded work in various aspects of genetic resources, both in respect of crops for which you already have major responsibilities and possibly for some others, in certain regions, for which you do not.

(7) This issue in a way leads to the wider one of how the Centers see their mandates developing over time in matters which may not strictly be of a research nature but which may be important either to providing a base for future research (e.g. genetic resources) or to getting the results of your research more widely adopted. There is an obvious dilemma between the need to solve more problems of a rather basic nature in environmental management, pest and disease resistance, etc., and in extending your work more and more to the national level to try and solve location specific problems. This seems to me one of the most crucial issues which the whole international system has to face.

(8) A partial solution to this is obviously cooperation with developed country institutions and for this reason you will no doubt wish to discuss how such relations can evolve. I wrote to the Centers in respect of a letter I received from Dr. Hutton of CSIRO asking if he could attend the Centers Week meetings, and pointed out possible difficulties if a large number of scientists were to attend. I have since had a similar request from Iowa State and this obviously raises an issue worth examination at your meeting.

(9) Finally, but not in my opinion least important, is the question of how the Centers and the international agencies such as FAO, World Bank, and UNDP can collaborate in a more operational fashion so that we capitalize on our mutual collaborative advantages, thus perhaps taking some of the possible overload of work at the national level off the Centers. I have already discussed this briefly with Dr. Brady since I feel that the experience of FAO in particular at the national level and in project administration could possibly be utilized more fully by the Centers for some of their more location specific work.

I would be happy to elaborate on these ideas if requested. If I have any more ideas between now and Centers Week I will write to you again.

With kind regards,

Yours sincerely,

P. A. Gram
Executive Secretary
Technical Advisory Committee

Dictated by Mr. Gram and signed in his absence.

New Programs and TAC

It would appear that the TAC is planning missions in relation to vegetable research and water buffaloes; both were discussed at the 9th meeting of TAC in Rome.

As we see the system at the moment, it is fully stretched financially and is likely to remain so for some time. It seems to me, therefore, that some query should be raised over the timing of these TAC missions. It has been stated that ICARDA is likely to be the last of the new centers; thus it would appear that even if TAC came up with a positive recommendation for new initiatives on one or both of these projects, the system could not cope with them. Should TAC then spend money mounting these missions and if not who should tell them so? I presume it could come up as a policy matter at the CG meeting in July.

June 13, 1975

Dr. Guy Baird
AGR/TAB
Agency for International Development
Department of State
Washington, D.C. 20523
U.S.A.

Dear Guy,

Reference is made to our recent telephone conversation and your request for my comments concerning Dr. In Hwan Kim as a candidate for membership on TAC.

It is my understanding that Dr. Kim has sent Dr. Coulter a copy of his curriculum vitae. I am attaching a copy for your information and use. I should like to make a few comments concerning Dr. Kim which will be helpful to you and others in evaluating Dr. Kim.

Dr. Kim's basic training is in plant breeding. While he has made significant contributions in this field, it is in agricultural research administration where he really excels. He has been responsible for the development of the Office of Rural Development here in Korea, which in my judgment is by far the best organized research and extension activity that I know of in any of the developing countries of the world. He has, of course, been plagued with low budgets, insufficient facilities and too few well trained scientists, even though some of them are among the most competent in the world. Despite these difficulties, Korean scientists have made great progress in improving farmer's yields. Last year, for example, Korea had the highest average rice yields of any country. Korea has its national research center at Suweon. It has four main regional centers dealing with food crops, and each of the nine provinces has a Provincial Office of Rural Development with a research bureau and an extension service. The Provincial offices, among other things, adapt the results from the national and regional research centers to local conditions and transmit these findings to farmer's fields. The system is excellent, but needs strengthened as indicated above.

Dr. Guy Baird

June 13, 1975

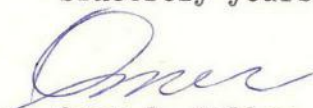

Page 2

Dr. Kim is well acquainted with the International Agricultural Center system. He has visited IRRI on more than one occasion, and has excellent cooperative relations with it. He also has visited CIP, CIMMYT and INTSOY. CIP will be putting one of their regional representatives here in Korea. Korea also has a regional center from AVRDC, again due primarily to Dr. Kim's ingenuity. Dr. Kim has knowledge of both temperate and tropical agriculture. In my judgment, he would, indeed, be an outstanding man to serve on TAC.

Dr. Kim is a quiet man by nature, but when he says something it is important. He is a deep and quick thinker. He does not hesitate to argue for his beliefs, but he is not adamant either. I would not like to make a comparison with present members of TAC and Dr. Kim, but I can tell you that for the job TAC has to do, I would rate Dr. Kim in the upper one-third of the present membership. CGIAR and TAC would be fortunate to have him on their team.

I want to assure you that I have a continuing interest in CGIAR and TAC and it is on this basis that I recommend Dr. Kim. My recommendation is in no way conditioned by my association and responsibilities here at the Office of Rural Development.

Sincerely yours,

Omer J. Kelley
Co-Director

Re Election of members to the Technical Advisory Committee
(TAC)

Dear Mr Lejeune,

Further to my letter of March 11, 1975, I take pleasure
in forwarding herewith the curriculum vitae of Dr Melak
Hail Mengesha, Ethiopia.

Yours sincerely,

Ulf Hjertansson

OFFICE MEMORANDUM

File F-1

TO: Mr. Michael Lejeune, Executive Secretary
CGIAR Secretariat

DATE: June 17, 1975

FROM: Montague Yudelman, Director, AGPRD

SUBJECT: Nominations for TAC Membership

1. It is my understanding that four TAC members will complete five years of service by December 1975. It is also my understanding that one of these (Muriithi) might be extended for one more year and that the other three would be replaced in an attempt to initiate a system whereby three TAC members would be replaced annually. It is assumed that of the three to be replaced in December 1975, one would be from a developed country and two from LDC's. The co-sponsors at the July 1975 Meeting should also give consideration now to the appointment of persons who might eventually be qualified and suitable for consideration for the Chairmanship of TAC.

2. The following persons (CV's are attached) are the Bank's preferred candidates:

<u>Name</u>	<u>Age</u>	<u>Nationality</u>	<u>Discipline</u>
Sterling Wortman	52	American	Plant Breeding/Research Management
A.H. Moseman	61	American	Plant Breeding/Research Management
Adnan Hardan ^{1/}	About 45/48	Iraqi	Soils/Water Management
D. Umali	About 54	Filipino	Genetics/Administration

1/ C.V. has been requested and is expected within a few days.

Washington, D.C. 20433
U.S.A.

Dear Dr. Coulter,

Dr. Guy B. Baird of USAID, in a letter dated May 27, 1975, stated that AID submitted my name to the CGIAR Secretariat as a candidate for membership on its Technical Advisory Committee (TAC). He asked me to send you a copy of my curriculum vita if I were willing to serve on the committee. A copy is enclosed.

I feel honored by this action, and wish to assure you that I would be happy to serve on the Technical Advisory Committee if the CGIAR should so desire.

I am enclosing a copy of my curriculum vitae. Should you or others need additional information or have any questions that you would like answered from me, I shall be happy to provide any additional information that you may desire.

Sincerely yours,

In Hwan Kim

June 18, 1975

Mr. William T. Mashler
Director
Division for Global and
Inter-regional Projects
United Nations Development Programme
866 United Nations Plaza (Room 3512)
New York, New York 10017

Dear Bill:

I am enclosing an updated list of suggestions for TAC candidates, together with any CVs, additional to those sent to you on March 27. I have asked the sponsoring organizations for CVs on the others, and I will forward these to you as soon as possible.

I also enclose a list of the members of TAC with their profession, nationality and length of service. In 1976 we will need replacements for El-Togby and Sauger whose appointments have been extended already for one year and for Muriithi. Hopper is also due to be replaced and the Co-sponsors will have to decide how to deal with this special case in view of his candidature for FAO and the need for a new Chairman in 1977 at the latest. I presume that we can get agreement to reappoint Camus; I have discussed this with Sir John and he would agree.

One of the problems about replacements is that, on present scheduling, we shall have four new people in 1976 and a further five new appointments in 1977 (excluding the Chairman). You will remember that Sir John brought this up during the TAC meeting when he suggested a 2+3-year service period. Subsequently, he had one of his mathematical people draw up tables, copies of which I attach. Using probability theory, these set out the replacement scheduling on a 2+2 and a 2+3-year basis. If we accept that the ideal replacement number would be about 3 per annum, we shall need to take action to extend at least one present TAC member beyond four years as otherwise we shall not achieve an even flow under our present policy (2+2) or by adopting some other (such as 2+3) for a number of years. If we delayed one retirement in 1976 (it would have to be Muriithi) for one year and two in 1977, also for one year,

Mr. William T. Mashler

- 2 -

June 18, 1975

we would have a 3, 4, 3, 1, 4, 4 replacement schedule for 1976 through 1981, maintaining our present policy (with minor exceptions).

Based on the needs for wide representation on a scientific regional and donor-developing country basis, perhaps you could come forward with about 10 names for the Co-sponsors meeting in July. You will note that we do not have any nominations from FAO and I am requesting it to re-submit either its previous list or a revised list as soon as possible.

Sincerely yours,

(signed) Michael L. Lejeune

June 18, 1975

Dear Peter:

I have been asked by some members of the CG about the analyses of the papers on national research and have informed them of the TAC Secretariat's proposal to employ a consultant and explained the delay in this arrangement.

I think that we should be prepared to make a definitive statement on the project at the July meeting with perhaps a promise to provide a paper for the October meeting.

If it appears that the TAC Secretariat cannot do this, then perhaps we ought to try and do it here but one way or the other we should come to an arrangement in July.

With best regards,

Yours sincerely,

John K. Coulter

TECHNICAL ADVISORY COMMITTEE

2/2 Scheme

1. Composition 12 members
2. Conditions Each member is appointed for 2 years with possible extension for 2 years. Probability of reappointment at end of first term is taken as 0.8. No third term is permissible.
3. Time of Appointment Appointments are made in December of each year.
4. Present Position
 - (a) 6 members finish second term in December 1975
 - (b) 4 members finish second term in December 1976
 - (c) 2 members finish first term in December 1976
5. Therefore 6 members in the same term may be considered for reappointment in odd years. Two groups of 4 and 2 members in different terms may be considered for reappointment in even years. Thus a maximum of 6 members will be considered for reappointment in any year. The probable numbers of new members will be binomially distributed as follows:
 - (a) Odd Years: the distribution is $B(6, 0.8)$ and each set is influenced by the previous set.
 - (b) Even Years: the two distributions $B(4, 0.8)$ and $B(2, 0.8)$ must be combined and again each set is influenced by the previous set.

2/3 Scheme

6. Composition 12 members
7. Conditions Each member is appointed for 2 years with possible extension for 3 years. Probability of reappointment at end of first term is taken as 0.8. No third term is permissible.
8. Time of Appointment Appointments are made in December of each year.
9. Present Position
 - (a) 6 members finish second term in 1976
 - (b) 4 members finish second term in 1977
 - (c) 2 members finish first term in 1976

10. This puts constraints on the numbers of replacements as follows:

- 1976 Group (a) must be replaced and group (b) must be considered for reappointment. The 6 - 8 replacements will be distributed as $B(2, 0.8)$
- 1977 Group (b) must be replaced.
- 1978 Groups (a) and (c) must be considered for replacement. The maximum number of replacements is 8. The probabilities will be a combination of $B(6, 0.8)$ and $B(2, 0.8)$ distributions and will be affected by the number of replacements in 1976.
- 1979 Groups (b) and (c) must be considered. The maximum number of replacements is 6. The probabilities will be a combination of $B(4, 0.8)$ and $B(2, 0.8)$ distributions and group (c) will be affected by the replacements in 1976.
- 1980 Groups (a) and (c) must be considered. The maximum number of replacements is 8 and the probabilities are affected by the replacements in 1978.
- 1981-84 All three groups must be considered and since the members are in different terms the probabilities will be affected either by the replacements of 2 or 3 years before.

11. The attached tables show the probabilities of each number of replacements for the 10 years 1975-84 for each scheme. These probabilities have been rounded to 2 decimal places. The third table shows the most probable number of replacements each year for each scheme.

Frances MacNally

Frances MacNally

June 19, 1975

Mr. Juan Felipe Yriart
Assistant Director General
Development Department
Food and Agriculture Organization
of the United Nations
Via delle Terme di Caracalla
Rome 0100, Italy

Dear Juan Felipe:

I am enclosing an updated list of suggestions for TAC candidates, together with any CVs, additional to those sent to you on March 27. I have asked the sponsoring organizations for CVs on the others, and I will forward these to you as soon as possible.

I also enclose a list of the members of TAC with their profession, nationality and length of service. In 1976 we will need replacements for El-Togby and Sauger whose appointments have been extended already for one year and for Muriithi. Hopper is also due to be replaced and the Co-sponsors will have to decide how to deal with this special case in view of his candidature for FAO and the need for a new Chairman in 1977 at the latest. I presume that we can get agreement to reappoint Camus; I have discussed this with Sir John and he would agree.

One of the problems about replacements is that, on present scheduling, we shall have four new people in 1976 and a further five new appointments in 1977 (excluding the Chairman). You will remember that Sir John brought this up during the TAC meeting when he suggested a 2+3-year service period. Subsequently, he had one of his mathematical people draw up tables, copies of which I attach. Using probability theory, these set out the replacement scheduling on a 2+2 and a 2+3-year basis. If we accept that the ideal replacement number would be about 3 per annum, we shall need to take action to extend at least one present TAC member beyond four years as otherwise we shall not achieve an even flow under our present policy (2+2) or by adopting some other (such as 2+3) for a number of years. If we delayed one retirement in 1976 (it would have to be Muriithi) for one year and two in 1977, also for one year, we would have a 3, 4, 3, 1, 4, 4 replacement schedule for 1976 through 1981, maintaining our present policy (with minor exceptions).

Mr. Juan Felipe Yriart

- 2 -

June 19, 1975

Based on the needs for wide representation on a scientific regional and donor-developing country basis, perhaps you could come forward with about 10 names for the Co-sponsors meeting in July. May I remind you that FAO had agreed to resubmit the names of its candidates; we would be grateful if these could be sent to the other Co-sponsors as early as possible.

Best wishes,

Yours sincerely,

Michael L. Lejeune
Executive Secretary

Washington, D.C. 20433
U.S.A.

Dear John

TECHNICAL ADVISORY COMMITTEE: Membership

Dr Guy B. Baird, Associate Director (Research), Office of Agriculture, Technical Advisory Bureau, of the U.S. Agency for International Development, has recently written to me informing me that he has suggested my name to the CGIAR for consideration as a possible member of its TAC. He also asked me to send you directly my curriculum vitae. This I have now done.

I look to seeing you in Washington, D.C., during the forthcoming meetings of the TAC and the International Centres Weeks, which I will be attending on behalf of the ICIPE.

With best wishes

Yours sincerely

THOMAS R. ODHIAMBO
Director, ICIPE

Mr.

M. Lejeune

Executive Secretary
Consultative Group on International
Agricultural Research

1818 H. Street

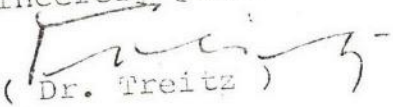

Washington D. C. 20433 USA

Subject: Appointment of a new member to the TAC

Dear Mr. Lejeune,

I acknowledge your memorandum of June 3, 1975.
Unfortunately in view of the present financial situation
I am at present not in a position to make any additional
commitments to I.I.T.A.

Best regards
Sincerely yours

(Dr. Treitz)

Mr.

M. Lejeune

Executive Secretary
Consultative Group on International
Agricultural Research

1818 H. Street

Washington D. C. 20433 USA

Subject: Appointment of a new member to the TAC

Dear Mr. Lejeune,

At the occasion of the Meeting of CGIAR in November 1974 the representative of the Government of the Federal Republic of Germany pledged for 1975 an amount of 10 Million Deutsche Mark for purposes of international agricultural research. Two Million Deutsche Mark of this amount were pledged under the condition of parliamentary approval. In view of the present budgetary situation of the Federal Republic of Germany I have to inform you, that the full amount of these two Million DM has not been approved but only an amount of 1,230 Million DM. Under this provision an amount of 9,230 Million DM will be available for the purposes of the CGIAR in 1975.

Best regards
Sincerely yours

(Dr. Treitz)

303 - K 8063 - 105 / 75

Mr.
M. Lejeune
Executive Secretary
Consultative Group on International
Agricultural Research
1818 H. Street
Washington D. C. 20422 USA

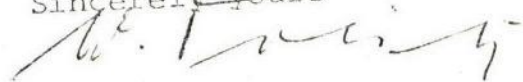

Subject: Appointment of a new member to the TAC

Dear Mr. Lejeune,

having received your letter of May 28, 1975 and your memorandum of June 3, 1975 I acknowledge the proposal of the Co-sponsors of the CGIAR to appoint Dr. Johan Gerard ten Houten as a new member of TAC.

In this context, however, I do regret that in spite of the heavy financial involvement of the government of the Federal Republic of Germany with regard to CGIAR and its large multilateral and bilateral assistance program in the field of agricultural research, no scientist of this country is serving at present in the TAC. I should stress that according to a recent cabinet decision, published in Bonn, 10. 6. 1975, an adequate relation between personnel representation and financial allocations to international institutions should be established. Insofar this question is not one of personal interest but expressing a policy matter of the German government.

Best regards
Sincerely yours

(Dr. Treitz)

2/10 '75

THESES FOR GERMAN DEVELOPMENT AID POLICY

A greater emphasis on effectiveness and an interpretation of development aid as an instrument of the long-range safeguarding of peace characterize the "Theses on the Policy of Cooperation with the Developing Nations," adopted by the German Federal Cabinet on June 9, 1975. The following 25 points (in unofficial translation) are to serve as the basis for the Second Revision of the "Development Policy Concept of the Federal Republic of Germany" this fall:

- 1) The principle of continuity and concentration applies to development aid policy too. That holds true for our bilateral policy, for our contribution towards shaping the development policy of the European Community, and for our cooperation with the Third World within the framework of the United Nations, its special agencies, and other international organizations.
- 2) Development aid policy is part of the overall policy of the Federal Government; the latter shall endeavor in the implementation to strike a balance between the requirements of development aid and between our other interests.
- 3) Development aid policy is designed to contribute to the gradual elimination of international confrontation. In its efforts, the Federal Republic of Germany is guided by the tenets of the United Nations--which it has adopted--and by the principles agreed upon within the OECD.
- 4) There are no plans for raising the multilateral share which presently amounts to approximately 30 per cent of all funds provided. The common development aid policy of the European Community is to take precedence within multilateral development aid.
- 5) There is no need for an increased participation of the Council and the member-states in the planning and implementation of development policy measures by the European Community.
- 6) Representation in the international organizations and agencies should be sought appropriate to the level of our contributions.
- 7) Efforts are to be made to induce the OPEC countries to let their efforts for the developing nations be guided more strongly by the criteria of development policy, to let their grant conditions approximate those of the industrialized nations, to spread their development aid over a larger geographic sector, and to differentiate more strongly between the varying needs of the recipient countries.
- 8) The OPEC countries should be given greater responsibilities in the international agencies (IMF, World Bank, etc.) in accordance with their contributions.
- 9) The Federal Government will continue to support the further development of the OPEC countries, particularly the development of a strong industry- and infra-structure. The Federal Republic's most suitable means to this end are scientific and technological cooperation, the encouragement of privately-sponsored projects, and trade policy.
- 10) The Federal Government is prepared to support trilateral cooperation projects with other developing countries in partnership with OPEC countries.
- 11) The Federal Government emphasized the importance of independent efforts on the part of the developing countries and will promote these accordingly.

12) The Federal Government will make every effort for the European Community--also in the framework of GATT--to grant further trade advantages to the developing nations in the form of tariff preferences and the reduction of non-tariff trade barriers.

13) The Federal Government will make greater efforts to ease the structural adjustments to the inevitable structural change in the wake of increased efforts; in this context serious disequilibria in the sectors of production and employment must be avoided.

14) The Federal Government will adapt the terms for funds granted within the framework of financial cooperation in such a manner that economically more advanced countries face relatively more stringent terms while more favorable conditions are extended to the poorest nations.

15) The Federal Government will allocate the funds available for cooperation with the developing countries in a concentrated manner. The share of the poorest developing nations is to be further increased.

16) In view of the dangers to the food supply in the developing countries, the Federal Government will concentrate the available funds for this cooperation as much as possible on agricultural development in the partner-countries. Wherever necessary, it will continue its direct food aid program to help master immediate food crises.

17) By promoting labor-intensive technologies in the developing countries, the Federal Government will help to insure that the means it provides render an effective contribution towards solving the employment problem.

18) In the face of the disconcerting increase in the world's population, the Federal Government will emphatically support population control policies by the developing countries and by multilateral organizations.

19) On the international level, the Federal Government will emphatically underline the importance of privately-based economic cooperation for economic and social progress in the developing nations, as well as the necessity of legal safeguards and healthy investment conditions.

20) The Federal Government will endeavor to harmonize the interests in assuring the supply of raw materials for the German economy with the interest of the developing nations in increasing their exports and in developing their own processing capabilities.

21) The Federal Government will accelerate the expansion of capacities available for technical cooperation, with special regard to the offers of German industry and the newly-created German Association for Technological Cooperation (GTZ, GmbH), which will take the place of the Federal Bureau for Development Aid, to be dissolved by the Federal Ministry of Economic Cooperation by June 30 of 1975. The Government will further endeavor to intensify coordination among the federal agencies dealing with scientific and technological cooperation, especially those responsible for questions of technology transfer.

22) Procedures for the planning, implementation and review of cooperative programs and projects are to be further improved and simplified in cooperation with the responsible government agencies of the developing nations.

23) The Federal Government plans to make commitments of aid to individual developing nations for longer periods of time in order to achieve a concentrated use of funds, for instance for large-scale projects, while saving administrative costs.

24) The above statement shall not prejudice budget debates.

25) The Federal Government recognizes the commitment of most segments of society to development aid and expects that these efforts will not be reduced. Only the interaction of all government and private initiatives can render an effective contribution towards easing North-South tensions, and thus to a long-range development aid.

OFFICE MEMORANDUM

Mr. Coulter
~~*Mr. Starns*~~

TO: Mr. Michael Lejeune

DATE: June 20, 1975

FROM: Jean-Claude Faure *JCF.**File 7-1*SUBJECT: CGIAR - TAC NominationJCF/ik
75-110

Following your letter of May 28, 1975, I have been instructed to inform you that the French authorities have no objection against the appointment of Dr. Johan Gerard ten Houten as a member of the Technical Advisory Committee, to replace Dr. Bommer.

They also support a two-year prolongation of the appointment of Professor Camus to fill the position previously held by Dr. Pagot.

As regards the replacement of Mr. Louis Sauger, my authorities would suggest the appointment of Mr. Savadago, Minister of Agriculture, Ivory Coast or, if not possible, of Mr. Sene Hadji, Directeur des Eaux et des Forêts, Sénégal, or of Mr. Touade Paul, Directeur de l'Elevage, Tchad.

Dear Dr. Coulter,

..... Upon the suggestion of Dr. Guy B. Baird, Associate Director (Research), Office of Agriculture, Technical Assistance Bureau, U.S.A.I.D. (please see attached copy of letter). I am sending you a copy of my Curriculum Vitae in connection with my nomination as a candidate for membership on the Technical Advisory Committee (TAC) of the Consultative Group on International Agricultural Research (CGIAR).

At this stage, I wish to assure you that if elected, I would be willing to serve on the Technical Advisory Committee of CGIAR.

At the present time, I am completing a 2½ month consultancy with the Food and Agriculture Organisation (FAO) and will be returning to the Philippines in the first week of July, 1975.

Thank you.

Sincerely yours,

Joseph C. Madamba
Director-General

June 25, 1975

Dear Dr. ten Houten:

This is to offer you officially appointment to the Technical Advisory Committee of the Consultative Group on International Agricultural Research for a two-year term ending December 31, 1977.

The system of research and training supported by the CGIAR has been significantly broadened and strengthened in recent years. We must now endeavor to ensure that its efforts are effectively concentrated to achieve the Group's aims of increasing the production and improving the quality of food in the developing countries. Your advice in these endeavors will be greatly appreciated.

The Secretariat of the TAC is communicating with you about the terms and conditions of service and the plans for its upcoming meeting in Washington on July 22-26.

Could you please confirm to Mr. Lejeune, the Executive Secretary of CGIAR, your acceptance of this appointment?

Best wishes,

Sincerely,

Warren C. Baum
Chairman

Dr. Johan Gerard ten Houten

Re - Suggestions for TAC Membership

One of the persons suggested by us for consideration was Dr. In Hwan Kim, of Korea.

Dr. Omer ^(Kelly) until last year Director of the Office of Agriculture in AID, has written to me about Dr. Kim. A copy of Kelly's letter is attached for your information.

Mr. Michael Lejeune
Executive Secretary
Consultative Group on
International Agricultural Research
1818 H Street, N.W.
Washington, D.C. 20433
U.S.A.-

Dear Mike,

I do not know whether it is in order or not, but I have a name that I would like to propose to be considered as a member of the Technical Advisory Committee for the Consultative Group on International Agricultural Research as vacancies become available for filling. Would you please pass this information on to those concerned, should you feel it in order.

The name I would like to suggest is Dr. In Hwan Kim, Administrator, Office of Rural Development, Ministry of Agriculture and Fishery, Suweon-Korea. He is one of the most capable administrators of agricultural research that I have encountered in developing countries. He is well organized as a person and so is the research which he administers. His knowledge of agriculture is broad.

I feel that Dr. Kim would be an effective member of the TAC team in its responsibility to the CG. Speaking as a center director, he is the caliber of person that I would like to see critically reviewing the programs of International Centers for the guidance and advice required by the CG.

Best personal regards.

Richard L. Sawyer

PROFESSOR THOMAS R. ODHIAMBO

CURRICULUM VITAE, JANUARY 1975

A : VITAL STATISTICS

Born : at Mombasa, Kenya, 4th February, 1931.

Married : June 1956 (former Jerusha Nerea Auma)

Three sons (born : 1959, 1960 and 1969);
and two daughters (born : 1964 and 1967).

B : EDUCATIONAL BACKGROUND

1. Nursery and Kindergarten Training : 1935-1939

At Nairobi, Ng'iya (Nyanza Province), and
Nyeri (Central Province).

2. Primary Education : 1940-1942

At Kisumu Sector School, Ng'iya Boys' School,
and Maseno Junior School (all in Nyanza Province).

3. Secondary Education : 1943-1949

All at C.M.S. Maseno School.

1945 : Kenya Preliminary Examination
(1st position in Kenya)

1947 : Kenya Secondary Examination

1949 : Cambridge Overseas School
Certificate; and Makerere College
Entrance Examination (passed entry
for college for either arts or
science).

Member of first class to attempt
these examinations at Maseno.

Honours : Many class prizes. Hockey captain
(non blues). House Prefect for the
last 2 years. Chorist for 6 years,
conductor and choir trainer for the
last 2 years. Established Maseno

School Philosophical Society; founded Maseno School Saturday Evening "Newspaper". Name inscribed on School's "Tablet of Honour" for outstanding studentship throughout school career.

4. Makerere University College : 1950-1953

1951 : Preliminary Examination in Botany and Zoology.

1952-53 : Special Course (on a special scholarship) in Biology (entomology, soil biology, and nematology) : non-degree.

Honours : Co-founder of Makerere College Cultural Society, and Makerere College Vernacular Society (1952). Non hockey blues (1952). Editor, Journal of Vernacular Studies (1952). Organizer, 1st Science Exhibition (1953). Vice-President, Makerere College Scientific Society (1952).

5. University of Cambridge : 1959-1965.

1961 : Natural Science Tripos, Part I in Zoology, Botany, Organic Chemistry, and History and Philosophy of Science.

1962 : Natural Science Tripos, Part II, in Zoology. B.A. degree (Class II, Upper Division).

1965 (July): Ph.D. degree in Insect Physiology.

1966 (Febr): M.A. degree.

Honours : Government (Uganda) Special Scholarship, 1959-62; Independence Scholarship (Uganda Government) for meritorious studies abroad, 1963-65; Bursary from Trustees of the British Museum (Natural History) for research on Miridae (Hemiptera) during long vacation in 1960; Research grant from the French Government to continue research on the Miridae at the Paris Natural History Museum during long vacation, 1962. Merit Award by the Uganda

Central Scholarship Committee "for outstanding performance while in Britain", 1964.

Secretary, Cambridge Natural History Society (combines both University and other interested persons), 1961-62.

C : RECORD OF EMPLOYMENT

1. Student worker :

Dec. 1949 - March 1950 : Assistant to Company Secretary, Luo Thrift and Trading Co. Ltd., Kisumu (Vacation).

Dec. 1950 - March 1951 : Research Assistant, Professor of Biology at Makerere, working on swamp biology in Uganda (Vacation).

Dec. 1951 - March 1952 : Chemical Analyst at Unga Ltd., Nairobi.

1963-65 : Part-time Demonstrator for Part I Tripos students in Zoology, Cambridge.

2. Tea Research Institute of East Africa, Kericho :

Technical Assistant, in the Agricultural Division, Jan. 1954 - August 1955.

3. Ministry of Agriculture, Uganda :

Assistant Agricultural Officer, Serere Experimental Station (Entomology Division), Sept. 1955 - Febr. 1956.

Assistant Agricultural Officer and Curator of Insect Collections, Kawanda Research Station, March 1956 - August 1959.

On study leave to the U.K., Sept. 1959 - June 1965.

Appointed Entomologist in the new Ministry of Agriculture and Co-operatives, in Uganda, July 1962.

4. University of East Africa, at University College,
Nairobi :

Special Lecturer in Zoology, July 1965 -
June 1967.

Promoted to Senior Lecturer in Zoology,
July 1967.

Appointed Reader in Zoology, July 1968.

Acting Head, Department of Zoology,
March - July 1969.

5. University of Nairobi :

Appointed first Professor of Entomology and
Head of the new Department of Entomology,
Febr. 1970.

First Dean of the new Faculty of Agriculture,
May 1970 - March 1971.

Member of many university committees since
1965 (e.g. Students' Amenities Committee,
Students' Hardship Fund, and Faculty of
Agriculture Planning Committee), and chairman
of many such committees (e.g. Academic
Staff Association, Senior Common Room,
Students' Amenities Committee, and Taifa
Hall Committee). Warden, Elgon Hall,
1966-68. Co-ordinator, for the establishment
of a Tropical Entomology Unit at the Univer-
sity, 1967-69.

6. International Centre of Insect Physiology and
Ecology (ICIPE), Nairobi :

First Director of the ICIPE (holding part-
time appointment, while retaining substantive
position in the University, since March 1970).

D : PUBLIC ACTIVITIES

1. University representative on the East African
Community's Specialist Entomological (SEIC) and
Insecticides Committee, since 1965.
2. Member of the SEIC's planning panel on the establish-
ment of an "Insect Identification Service", since
1965.

3. Joint Editor of papers presented at the Seminar on High-level Manpower sponsored by the East African Academy and the East African Institute of Social and Cultural Affairs, July 1965.
4. Invited to present a background paper on the Philosophy of education for the Ominde Commission on Education (Kenya).

Presented to the Philip Commission on the East African Common Market and Co-operation a memorandum on science policy and organization in East Africa, April 1966.
5. Chairman, Permanent Study Group, UNESCO Biology Project (for the teaching of biology in secondary schools) sponsored by the Kenya Ministry of Education, 1966-68.
6. Appointed in 1967 by UNESCO as Consultant on Entomology and Applied Biology, for the UNESCO Biology Project's International Working Group, based in Ghana and since July 1968 continuing its work from Paris headquarters.
7. Co-Chairman of an interim Pan-African Advisory Committee of the African Primary Science Programme (Sponsored by the Educational Development Centre, Inc., Newton, Mass., U.S.A.).
8. Convenor and General Editor for the "East African Monographs in Biology" published by the East African Literature Bureau, since 1968.
9. Hon. Executive Director of the Science Development Programme, of the East African Publishing House Ltd., 1968-70.
10. Member, Board of Trustees of the National Museums of Kenya, since 1969. Chairman of the Board, Sept. 1970 - Dec. 1974.
11. Member, National Sub-Committee for the East African Examinations Council, 1969-73.
12. Chief Examiner for Higher School Certificate Examination in Biology (also moderator for draft examination papers), 1969-72.
13. Consultant to UNESCO on science policy, since 1969. Member, Kenya National Commission for UNESCO (and chairman of several of its ad-hoc committees), July 1970 - Sept. 1974.

14. Member, Agricultural Research Council of Kenya, from 1970.
15. Appointed a charter member and Governor of the newly established Baharini Wildlife Sanctuary (on Lake Nakuru), from May 1970. Chairman, Research Committee, since May 1971.
16. Appointed a Governor of Egerton College (for Agriculture), at Njoro, Kenya, since January 1971.
17. Chairman, Board of Directors of a new science publishing company, Technicon House Ltd., July 1971 - December 1973.
18. Member, U.S. National Academy of Science/ National Research Council Committee on African Agricultural Research Capabilities, March 1971 - October 1974.
19. Member, Entomology Research Advisory Committee (Ministry of Agriculture, Kenya), since 1972.
20. Consultant to the National Council for Scientific Research, Zambia, on insect and tick research. Submitted an official report on recommendations, after site visits, March - June 1973.
21. Entomological Consultant to Coffee Research Foundation, Kenya, June 1972 - March 1973.
22. Member, Research Advisory Committee of the Coffee Research Foundation, since July 1972.
23. Member, Admissions Committee, International Union of Physiological Sciences, since 1972.
24. Member, Committee of Corresponding Consultants, UN Conference on the Human Environment, for the publication of "Only One Earth", May 1971 - July 1972.
25. Member of the International Jury, for the Institut de la Vie Prizes, since 1972.
26. Member, Board of Trustees, of the International Institute of Tropical Agriculture, Ibadan, Nigeria, since April 1973. Chairman, Board's Research Advisory Committee, since June 1973.

27. Co-founder and Member of the Board of Trustees, International Federation of Institutes for Advanced Study (IFIAS), since October 1972. Alternate Member, Executive Committee, 1972-74. Member, Programme Committee, from October 1974.
28. Trustee, World Wildlife Fund (Kenya), from August 1973.
29. Member, UNDP/CIMMYT Policy Advisory Committee, from May 1974.
30. Member, Consultation Committee, World Food Conference, September - October 1974.
31. Co-opted Member of the Board of Directors, Coffee Research Foundation, since July 1974.
32. Appointed Scientific Advisor to the Executive Committee of the Ramogi Institute of Advanced Technology, Kisumu, from December 1974.
33. Founder of East African Academy, started planning it in 1960. Finally inaugurated in June 1963.

E : MAJOR CONFERENCES

1. 1961 (Sept.) : Uganda and British Delegate to the International Conference on the Conservation of Nature and Natural Resources, Arusha, Tanzania.
2. 1963 (May) : Participant, International Conference on Food Resources in the Developing Countries (Institute of Biology, London).
3. 1963 (June) : First Symposium and Inaugural Annual General Meeting of the East African Academy, held at Makerere College, Kampala, Uganda.
4. 1963 (Sept.) : Participant, Conference on the Reproductive Physiology of Insects (Royal Entomological Society, London).
5. 1964 (July) : Participant, International Conference on the Hormonal Control of Insect Growth and Reproduction (Zoological Society of London).
6. 1965 (Sept.) : University Representative to the Second Meeting of the Joint Advisory Committee on Research Aid (E.A. Common Services Organization), in Kampala.

7. 1967 (Jan.) : East African Academy Delegate to the East Africa/Zambia Conference on Co-operation in Scientific Research.
8. 1967 (April) : Leader of the East African Delegation to the Royal Society Conference of Commonwealth Scientists, held at Oxford.
9. 1967 (Dec.) : Participant, International Seminar on the Use of Isotopes and Radiation in Entomology (International Atomic Energy Agency, Vienna).
10. 1968 (March) : Nairobi University College Delegate to the 6th Leverhulme Inter-University Conference on "School Science Curriculum" (University of Malawi).
11. 1968 (April) : Participant, Steering Committee meeting of the African Primary Science Programme of the Education Development Center, Inc., Mass., U.S.A. (held at Kampala, Uganda).
12. 1968 (Aug.) : Opened Plenary Session of the 3rd International Conference on the Biology of Reproduction in Mammals (University College, Nairobi).
13. 1968 (Nov./Dec.) : Participant, Advisory Committee meetings of the African Primary Science Programme and also of the African Education Programme at Boston, U.S.A.
14. 1969 (June) : Joint Convenor of an Africa-wide conference in Accra, Ghana, on African Primary Science Programme - on its organization and funding after 1970 and on its final location in Africa.
15. 1969 (Jan.-Oct.) : Convenor of a Planning Conference in Nairobi to consider the establishment of an advanced centre for entomological research in Africa. (Later to become the ICIPE).
16. 1970 (July) : Chairman, Insect Physiology session, during the Silver Jubilee (1945-1970) of the Anti-Locust Research Centre, on the theme "International Study Conference on the Current and Future Problems of Acridology".
17. 1970 (December) : Participant, International Conference on Chemical Warfare, held in Paris.

18. 1970 (December) : Participant, Africa Group's conference on "Cultural Relations and Exchange" (sponsored by the Hazen Foundation). Meeting held at Ibadan. Subsequent meetings held in 1971 and 1972.
19. 1970 (September) : Participant, Pugwash Symposium on Science and Development, held at Stanford, U.S.A. Later, attended Pugwash Conference on Science and World Affairs at Lake Geneva, U.S.A. Similar meetings attended in Sept. 1973 (Aulanko, Finland), Sept. 1974 (Baden, Australia).
20. 1971 (January) : Guest Panelist, Conference on International Science Policy (U.S. Congress, Washington, D.C.).
21. 1971 (May) : Guest Lecturer at the 200th Anniversary of the Royal Swedish Academy of Sciences, Stockholm.
22. 1971 (May) : Participant, Conference on Bioengineering in the Biological Control of Insects (University of Helsinki, Finland).
23. 1971 (Oct.) : Participant and Rapporteur, Meeting of Experts on UNESCO's CASTAFRICA, held in Nairobi.
24. 1971 (Dec.) : Participant, WHO Conference of Experts on Vector Biology (WHO, Geneva).
25. 1972 (March) : Participant, Nobel/Rockefeller Foundation Symposium on Institutions for Development, held at Lago de Como, Italy.
26. 1972 (Oct.) : Participant and Co-Chairman, FAO Expert Panel on Control of Protozoal Tick-borne Diseases of Cattle, held in Nairobi, Kenya.
27. 1973 (June) : Co-Chairman, Rockefeller Foundation Symposium on Tsetse Research, held at Lago de Como, Italy.
28. 1973 (Sept.) : Participant, International Conference on Development Strategies in Africa in 1970's, held at Arusha, Tanzania.
29. 1973 (Sept.) : Guest Lecturer at the Royal Swedish Academy of Sciences, in Stockholm, on "Tsetse Research".

30. 1974 (March) : Guest Lecturer at International Conference on Environment and Developing African Countries, sponsored by the Adlai Stevenson Foundation, in Nairobi.
31. 1974 (July - Aug.) : Participant, Ford Foundation Integrated Control Programme (University of California, Berkeley).
32. 1974 (July and Sept.) : Special Lecturer at FAO Training Programme on Crop Pest and Locust Control, held in Nairobi (Kenya) and Tehran (Iran) respectively.
33. 1974 (August) : Participant and Rapporteur, UNESCO Meeting of Experts on University Co-operation in Africa, held at Dakar, Senegal.
34. 1974 (December) : Chairman, First Subject Meeting for Eastern and Central Africa, held in Nairobi.

F : SCIENTIFIC SOCIETIES

Member or Fellow of the following:

1. Royal Entomological Society of London, Fellow since 1959.
2. Fauna Society, Honorary Fellow since 1961.
3. New York Academy of Sciences, since 1962.
4. East African Academy, since its inauguration in 1963.
5. Society for Experimental Biology, since 1963.
6. East African Natural History Society, since 1965.
7. Biochemical Society, since 1966.

G : RESEARCH ACTIVITIES

1. 1966-69 : Supervising a 3-year research programme on locust morphometrics at University College, Nairobi, funded by the British Ministry of Overseas Development and also supported by the Desert Locust Control Organization for Eastern Africa.

2. 1966-70 : Awarded grants by the Rockefeller Foundation to establish a research programme on tsetse physiology and endocrinology at University College, Nairobi. Further grants given by the IAEA, Vienna.
3. 1967 on : A project to compile a book on Locust Cytology, approved by the University of East Africa and supported on a 3-year basis through the East African Teaching Materials Fund.
- 1967 (July) : The Anti-Locust Research Centre, sponsored a one-month visit to London to compile a basic bibliography for the book.
4. 1968-71 : Awarded a 3-year grant by the British Medical Research Council to carry out research on Tsetse feeding physiology at University College, Nairobi. Extended for a further year.
5. 1972-75 : Awarded a 3-year grant by the Rockefeller Foundation for the study of tsetse salivary glands in relation to trypanosome development, to be carried out at the ICIPE Research Centre. Supplemented by grants from IAEA in 1974 and 1975.

H : PUBLICATIONS

1. Scientific Papers:

More than 70 papers and monographs in scientific periodicals.

2. Books:

6 children's books with the general theme of LOOK AT LIFE (E.A. Publishing House Ltd., 1968-72).

CURRICULUM VITAE

Present address Dr. Thai Cong Tung
Agronomist
Mekong Secretariat/ESCAP
Bangkok

Born 31st January 1932

Married, 4 children

Academic titles Ingénieur Agronome (FRANCE)
Licencié à Sciences "
Docteur Ingénieur "

Publications (Of photocopy list)

Languages: French and English fluently

Former positions Director of Agricultural Research Institute
1962-1972 VIETNAM

Professor, College of Agriculture
Saigon University
(Soil Science and Irrigated Crops)

Professor, Faculty of Arts
(Ecology - Environment)

CURRICULUM VITAE

Yoash Vaadia

Agricultural Research Organization

P.O. Box 6, Bet Dagan, Israel

I. Personal

Born - August 18, 1931, Haifa, Israel.
Elementary School - Hadera, Israel, 1937-1945.
Secondary School - Pardess Hana, Israel, 1945-1948.
Armed Forces - Israeli Army, Signal Corps. 1948-49.
Physical Condition - Good.
Married - Four sons.
Current Address - 16 Havradim St., Ganey-Yehuda, Israel.

II. University Education

University of Calif., Davis, 1951-1954 B.S. (Highest Honors) Irrig.
University of Calif., Davis, 1954-1955 M.S. Irrig.
University of Calif., Davis, 1955-1958 Ph.D., Plant Physiology

III. Research Interests

Water relations of plants
Plant nutrition
Electrolyte transport
Simulation of biological systems
Potential crop yields
Agricultural Physics.
Research management

IV. Positions Held

1956-57: University Fellow in Plant Physiology
U.C. Davis, Calif.
1955-56: Teaching Ass't, Dept. of Water Science and Engineering,
U.C. Davis, Calif.
1957-1958: Acting Instructor, U.C. Davis, Calif.
1958-1962: Ass't Prof., U.C. Davis.
1962-1967: Head, Dept. of Plant Physiology, Negev Inst.
Arid Zone Research, Beersheba, Israel.

- 1965-1966: Visiting Scientist at the Invitation of the Dutch Ministry of Agriculture at IBS, Wageningen.
- 1967-1968: Acting Director, Negev Institute of Arid Zone Research.
- 1968-1971: Director, Volcani Institute of Agricultural Research, Ministry of Agriculture, Bet Dagan, Israel.
Appointed Prof. Hebrew University.
- 1971 to date: Director, Agricultural Research Organization, and Chief Scientist, Ministry of Agriculture, Israel.
- 1973-1974: Visiting Professor at the invitation of MSU/AEC Plant Research Laboratory, Mich. State University, East Lansing, Mich.

V. Teaching Experience

- 1957-1962: U.C. Davis - A senior course given annually in Plant, Soil, Water Relations. 30 students. Three lectures, one laboratory per week for 14 weeks/year - A graduate course given annually in advanced topics in Plant Soil Water Relations. Average attendance 10 students. Two hrs. weekly, 14 weeks/year.
- 1963-1964: Hebrew University, Jerusalem - A graduate course, Plant Water Relations. 40 students, three lectures, one laboratory/week all year.
- 1963-1968: Informal graduate courses in Plant Physiology annually, Beersheba.
- 1967-1970: Ben Gurion University, Beersheba - A sophomore course in General Physiology. 90 students, 3 lectures, 2 laboratories per week, all year.
- 1973 - Participated in about a third of the lectures of a one quarter graduate course in Environmental Physiology. Dept. of Botany and Plant Research Laboratory MSU, East Lansing Mich.

Graduate Student Teaching - 14 graduate students completed their degrees under my research supervision. 5 of these completed a Masters Degree and 9 completed a Ph.D. degree. These were either at U.C. Davis or the Hebrew University in Jerusalem.

VI. Administrative Experience

- 1958-1962: Organize and supervise Research Program and plan budgets of Plant Water Relations Laboratory, U.C. Davis. Total staff 6 graduate students, one technician.
- 1963-1968: Establish Dept. of Plant Physiology, Negev Inst. of Arid Zone Research. Recruit staff and budgets. Organize and supervise research program. Staff numbered 8 research scientists and about 20 technical staff, including graduate students.

- 1966-1967: As Acting Director of Negev Institute assumed complete administrative responsibility for Institute. Total staff 150 of whom 50 were scientists of all grades. Fields of work included Plant Physiol., Animal Physiol., Desert Ecology, Soil mechanis, Chemical Engineering.
- 1964-1968: As a founding member of the Institute of Higher Learning in the Negev (Forrunner of Ben-Gurion University) organized the teaching program in Biology and participated in the decision making process as a member of the executive committee of the Institute.
- 1968-1971: Director, Volcani Institute of Agricultural Research. Responsibility for the research and administration of the Institute. Total staff: 1100 employees of whom 250 were scientists. The Institute operated several regional stations, field stations and experimental farms in various locations in Israel.

Additional responsibility assigned by the Minister of Agriculture was to reorganize government financed agricultural research, in Israel. This entailed establishing machinery for formulating national priorities and goals and reorganizing research units accordingly. The Volcani Institute and various other research units were combined and reorganized as the Agricultural Research Organization.

- 1971- to date - Responsibility for the operation of the Agricultural Research Organization. Seven Institutes of about 70-200 total staff each. Total staff of organization about 1500 of whom 350 are scientists.

As Chief Scientist of the Ministry, I am responsible for formulating ministerial scientific priorities, and policies and funding of Agricultural research in various Institutions.

Other duties and functions

Currently member in the following:

- Board of Trustees, Ben Gurion University, Beersheba.
- Executive Committee, Ministry of Agriculture, Israel.
- Board of Directors, Israeli Association for the Advancement of Science.
- National Commission on Higher Education.
- National Council for Research and Development.
- Board of Governors, U.S.- ISRAEL Binational Science Foundation.
- Executive Committee, U.S.- ISRAEL Binational Science Foundation.
- Consultative Group Agr. Research, World Bank, Washington, D.C.
- Committee on Stress Physiology, Int. Research and Development Corporation, Ottawa, Canada.

VII. Editorial functions

- member, Editorial Board, Israel J. Botany.
- Coeditor, Agriculture Series, Springer Verlag.
- Coeditor, Planta, Springer Verlag.

VIII. Invited Lectures and Seminars

- 1959 - International Congress of Irrigation and Drainage, Reno Nevada.
- 1962 - Guest seminars delivered at Pasadena Inst. Technology, Wageningen, Inst. of Plant Physiology and Zurich ETH
- 1964 - German Academy of Sciences, Leopoldina, Halle
- 1968 - International Congress of Biophysics, Jerusalem.
- 1969 - International Congress of Botany, Seattle (not delivered).
- 1969 - International Potash Symposium.
- 1972 - Seminars delivered at University of Western Australia (2), Adelaide (2), Aust. National Univ. (1), CSIRO (1), University of Sydney (2).
- 1973 - General meeting lecture, Israel Ass. Adv. Science, National meetings.
 - Purdue University, Two lectures.
- 1974 - Cornell University, one lecture.
- 1975 - Royal Society Symposium on Plant Water Stress Jan. 1975.

IX. International Travel, excluding scientific meetings.

- 1969 - FAO Rome - Work group on Agricultural Research.
- 1971 - Holland - Cooperation agreement in Agricultural Research.
- 1971 - South America - Argentina, Chile, Peru, Mexico, Israeli Study team for Interamerican Development Bank for the establishment of Arid Zone Research Institutes. Scheme proposed approved by States & Bank 1974.
- 1972 - Australia - Israel Scientific Exchange Scheme, Australia February March 1972.
 - Consultative Group, Agr. Centers Week, World Bank, July.
 - Life Institute, work group on goals, Helsinki, December.
- 1973 - Life Institute, Work group on goals, Helsinki, April.
 - International Res. Dev. Corp. Work group, priorities in stress physiology research. Saskatoon Sask. Canada, April.
 - Bucarest Romania, In charge of Israeli mission to conclude a cooperative agreement in Agricultural Research, June.
- 1974 - Paris, France, Conclude a cooperation agreement in agricultural research between Israel and France, February.

- 1974 - Washington D.C. Agricultural Centers Week, Consultative group,
World Bank, July.
- Washington D.C. Executive Committee, Binational Science
Foundation, November.

X. Membership in Societies

Phi Beta Kappa
Phi Kappa Phi
Sigma X;
American Society Plant Physiology
Scand. Society Plant Physiology.
Israel Botanical Society
Israel Soc. Soil Science
Israel Association for Advanced Science.

XI. Publications

- 1958 Vaadia, Yoash and V.H. Scott. Hydraulic properties of perforated well casings. ASCE Jour. of the Irrigation and Drainage Division. paper 1505, January.
- Vaadia, Yoash, Autonomic diurnal fluctuations in root pressure and exudation from topped sunflower plants. Ph.D. dissertation, University of California.
- 1959 Hagan, R.M. and Vaadia Yoash, Principles of Irrigated Cropping. Proc. Arid Zone Research, UNESCO Plant-water Relations symposium, Madrid, pp. 215-225.

PERSONAL DATA

Surname: MAJISU.

Other names: Benaya Ngaira.

Address: E.A.A.F.R.O., P.O. Box 30148, Nairobi, Kenya.
Tel. Kikuyu 2121. Telegram "AGFORORG",
Nairobi.

Birth 19th October, 1937, Western Province, Kenya.

Marital status: Married.

Children: Three

Languages: English, Kiswahili, Vernacular.

Educational Background:

1. 1953-56; Alliance High School.
2. 1957-62; Makerere University College.
Obtained B.Sc. degree of the University
of London in Zoology and Botany.
3. 1962-65; Reading University, England.
Underwent postgraduate training in
agricultural botany and obtained Ph.D. in
cytology. Dissertation title: CYTOLOGICAL
STUDIES OF AEGILOPSX SECALE HYBRIDS.

Academic awards: 1959- "Shell Prize" for best second year
science student.

1962- "Swynnerton Memorial Prize" for best
B.Sc. finalist.

Employment records: 1962-65; Research Officer (trainee) in
East African Agriculture and Forestry Research
Organization (EAAFRO).

1965-68; Senior Research Officer with
EAAFRO Sorghum and Millet Division.

1968-71; Deputy Director, EAAFRO.

1971-todate; Director, EAAFRO.

Duties include direction of regional
research programmes in crop improvement,
agricultural physics and chemistry, plant
protection, forest tree improvement,
taxonomic botany, animal production. The
Organization has up to 50 postgraduate
research officers, about 500 supporting staff
and operates on an annual average budget of
about £550,000.

Membership to bodies:

1. International Board for Plant Genetic Resources 1974-75.
2. Member Serengeti Research Institute Scientific Council an institute concerned with wildlife research.
3. Chairman, Governing Body Mwaka College of African Wildlife Management until 31st Dec. 1974 an institute concerned with training of wildlife managers for African countries.
4. Member, Governing Body of Tea Research Institute of East Africa.
5. Member, Board of Directors, Coffee Research Foundation of Kenya.
6. Member, Council for Agricultural Education in East Africa.

Membership to bodies: Cont.

7. Chairman Higher Degrees Committee in Agriculture for Nairobi, Dar-es-Salaam and Makerere Universities.

Participation in International Conferences/Symposia:

International Wheat Genetics Symposium
1963, 1973.

International Barley Genetics Symposium
1963.

International Genetics Congress, 1963.

International Botanical Congress, 1964.

Eastern Africa Cereals Conferences, 1965, 67,
69.

Association for Advancement of Agricultural
Science in Africa. 1968.

Symposium on Sorghum in the '70's. 1971.

Travel:

Travelled in African countries in connection
with agricultural research. Visited India,
Europe and U.S.A.

PROFESSOR THOMAS R. ODHIAMBO

CURRICULUM VITAE, JANUARY 1975

A : VITAL STATISTICS

Born : at Mombasa, Kenya, 4th February, 1931.

Married : June 1956 (former Jerusha Nerea Auma)

Three sons (born : 1959, 1960 and 1969);
and two daughters (born : 1964 and 1967).

B : EDUCATIONAL BACKGROUND

1. Nursery and Kindergarten Training : 1935-1939

At Nairobi, Ng'iya (Nyanza Province), and
Nyeri (Central Province).

2. Primary Education : 1940-1942

At Kisumu Sector School, Ng'iya Boys' School,
and Maseno Junior School (all in Nyanza Province).

3. Secondary Education : 1943-1949

All at C.M.S. Maseno School.

1945 : Kenya Preliminary Examination
(1st position in Kenya)

1947 : Kenya Secondary Examination

1949 : Cambridge Overseas School
Certificate; and Makerere College
Entrance Examination (passed entry
for college for either arts or
science).

Member of first class to attempt
these examinations at Maseno.

Honours : Many class prizes. Hockey captain
(non blues). House Prefect for the
last 2 years. Chorist for 6 years,
conductor and choir trainer for the
last 2 years. Established Maseno

School Philosophical Society; founded Maseno School Saturday Evening "Newspaper". Name inscribed on School's "Tablet of Honour" for outstanding studentship throughout school career.

4. Makerere University College : 1950-1953

- 1951 : Preliminary Examination in Botany and Zoology.
- 1952-53 : Special Course (on a special scholarship) in Biology (entomology, soil biology, and nematology) : non-degree.
- Honours : Co-founder of Makerere College Cultural Society, and Makerere College Vernacular Society (1952). Non hockey blues (1952). Editor, Journal of Vernacular Studies (1952). Organizer, 1st Science Exhibition (1953). Vice-President, Makerere College Scientific Society (1952).

5. University of Cambridge : 1959-1965.

- 1961 : Natural Science Tripos, Part I in Zoology, Botany, Organic Chemistry, and History and Philosophy of Science.
- 1962 : Natural Science Tripos, Part II, in Zoology. B.A. degree (Class II, Upper Division).
- 1965 (July): Ph.D. degree in Insect Physiology.
- 1966 (Febr): M.A. degree.
- Honours : Government (Uganda) Special Scholarship, 1959-62; Independence Scholarship (Uganda Government) for meritorious studies abroad, 1963-65; Bursary from Trustees of the British Museum (Natural History) for research on Miridae (Hemiptera) during long vacation in 1960; Research grant from the French Government to continue research on the Miridae at the Paris Natural History Museum during long vacation, 1962. Merit Award by the Uganda

Central Scholarship Committee "for outstanding performance while in Britain", 1964.

Secretary, Cambridge Natural History Society (combines both University and other interested persons), 1961-62.

C : RECORD OF EMPLOYMENT

1. Student worker :

Dec. 1949 - March 1950 : Assistant to Company Secretary, Luo Thrift and Trading Co. Ltd., Kisumu (Vacation).

Dec. 1950 - March 1951 : Research Assistant, Professor of Biology at Makerere, working on swamp biology in Uganda (Vacation).

Dec. 1951 - March 1952 : Chemical Analyst at Unga Ltd., Nairobi.

1963-65 : Part-time Demonstrator for Part I Tripos students in Zoology, Cambridge.

2. Tea Research Institute of East Africa, Kericho :

Technical Assistant, in the Agricultural Division, Jan. 1954 - August 1955.

3. Ministry of Agriculture, Uganda :

Assistant Agricultural Officer, Serere Experimental Station (Entomology Division), Sept. 1955 - Febr. 1956.

Assistant Agricultural Officer and Curator of Insect Collections, Kawanda Research Station, March 1956 - August 1959.

On study leave to the U.K., Sept. 1959 - June 1965.

Appointed Entomologist in the new Ministry of Agriculture and Co-operatives, in Uganda, July 1962.

4. University of East Africa, at University College, Nairobi :

Special Lecturer in Zoology, July 1965 - June 1967.

Promoted to Senior Lecturer in Zoology, July 1967.

Appointed Reader in Zoology, July 1968.

Acting Head, Department of Zoology, March - July 1969.

5. University of Nairobi :

Appointed first Professor of Entomology and Head of the new Department of Entomology, Febr. 1970.

First Dean of the new Faculty of Agriculture, May 1970 - March 1971.

Member of many university committees since 1965 (e.g. Students' Amenities Committee, Students' Hardship Fund, and Faculty of Agriculture Planning Committee), and chairman of many such committees (e.g. Academic Staff Association, Senior Common Room, Students' Amenities Committee, and Taifa Hall Committee). Warden, Elgon Hall, 1966-68. Co-ordinator, for the establishment of a Tropical Entomology Unit at the University, 1967-69.

6. International Centre of Insect Physiology and Ecology (ICIPE), Nairobi :

First Director of the ICIPE (holding part-time appointment, while retaining substantive position in the University, since March 1970).

D : PUBLIC ACTIVITIES

1. University representative on the East African Community's Specialist Entomological (SEIC) and Insecticides Committee, since 1965.
2. Member of the SEIC's planning panel on the establishment of an "Insect Identification Service", since 1965.

3. Joint Editor of papers presented at the Seminar on High-level Manpower sponsored by the East African Academy and the East African Institute of Social and Cultural Affairs, July 1965.
4. Invited to present a background paper on the Philosophy of education for the Ominde Commission on Education (Kenya).

Presented to the Philip Commission on the East African Common Market and Co-operation a memorandum on science policy and organization in East Africa, April 1966.
5. Chairman, Permanent Study Group, UNESCO Biology Project (for the teaching of biology in secondary schools) sponsored by the Kenya Ministry of Education, 1966-68.
6. Appointed in 1967 by UNESCO as Consultant on Entomology and Applied Biology, for the UNESCO Biology Project's International Working Group, based in Ghana and since July 1968 continuing its work from Paris headquarters.
7. Co-Chairman of an interim Pan-African Advisory Committee of the African Primary Science Programme (Sponsored by the Educational Development Centre, Inc., Newton, Mass., U.S.A.).
8. Convenor and General Editor for the "East African Monographs in Biology" published by the East African Literature Bureau, since 1968.
9. Hon. Executive Director of the Science Development Programme, of the East African Publishing House Ltd., 1968-70.
10. Member, Board of Trustees of the National Museums of Kenya, since 1969. Chairman of the Board, Sept. 1970 - Dec. 1974.
11. Member, National Sub-Committee for the East African Examinations Council, 1969-73.
12. Chief Examiner for Higher School Certificate Examination in Biology (also moderator for draft examination papers), 1969-72.
13. Consultant to UNESCO on science policy, since 1969. Member, Kenya National Commission for UNESCO (and chairman of several of its ad-hoc committees), July 1970 - Sept. 1974.

14. Member, Agricultural Research Council of Kenya, from 1970.
15. Appointed a charter member and Governor of the newly established Baharini Wildlife Sanctuary (on Lake Nakuru), from May 1970. Chairman, Research Committee, since May 1971.
16. Appointed a Governor of Egerton College (for Agriculture), at Njoro, Kenya, since January 1971.
17. Chairman, Board of Directors of a new science publishing company, Technicon House Ltd., July 1971 - December 1973.
18. Member, U.S. National Academy of Science/ National Research Council Committee on African Agricultural Research Capabilities, March 1971 - October 1974.
19. Member, Entomology Research Advisory Committee (Ministry of Agriculture, Kenya), since 1972.
20. Consultant to the National Council for Scientific Research, Zambia, on insect and tick research. Submitted an official report on recommendations, after site visits, March - June 1973.
21. Entomological Consultant to Coffee Research Foundation, Kenya, June 1972 - March 1973.
22. Member, Research Advisory Committee of the Coffee Research Foundation, since July 1972.
23. Member, Admissions Committee, International Union of Physiological Sciences, since 1972.
24. Member, Committee of Corresponding Consultants, UN Conference on the Human Environment, for the publication of "Only One Earth", May 1971 - July 1972.
25. Member of the International Jury, for the Institut de la Vie Prizes, since 1972.
26. Member, Board of Trustees, of the International Institute of Tropical Agriculture, Ibadan, Nigeria, since April 1973. Chairman, Board's Research Advisory Committee, since June 1973.

27. Co-founder and Member of the Board of Trustees, International Federation of Institutes for Advanced Study (IFIAS), since October 1972. Alternate Member, Executive Committee, 1972-74. Member, Programme Committee, from October 1974.
28. Trustee, World Wildlife Fund (Kenya), from August 1973.
29. Member, UNDP/CIMMYT Policy Advisory Committee, from May 1974.
30. Member, Consultation Committee, World Food Conference, September - October 1974.
31. Co-opted Member of the Board of Directors, Coffee Research Foundation, since July 1974.
32. Appointed Scientific Advisor to the Executive Committee of the Ramogi Institute of Advanced Technology, Kisumu, from December 1974.
33. Founder of East African Academy, started planning it in 1960. Finally inaugurated in June 1963.

E : MAJOR CONFERENCES

1. 1961 (Sept.) : Uganda and British Delegate to the International Conference on the Conservation of Nature and Natural Resources, Arusha, Tanzania.
2. 1963 (May) : Participant, International Conference on Food Resources in the Developing Countries (Institute of Biology, London).
3. 1963 (June) : First Symposium and Inaugural Annual General Meeting of the East African Academy, held at Makerere College, Kampala, Uganda.
4. 1963 (Sept.) : Participant, Conference on the Reproductive Physiology of Insects (Royal Entomological Society, London).
5. 1964 (July) : Participant, International Conference on the Hormonal Control of Insect Growth and Reproduction (Zoological Society of London).
6. 1965 (Sept.) : University Representative to the Second Meeting of the Joint Advisory Committee on Research Aid (E.A. Common Services Organization), in Kampala.

7. 1967 (Jan.) : East African Academy Delegate to the East Africa/Zambia Conference on Co-operation in Scientific Research.
8. 1967 (April) : Leader of the East African Delegation to the Royal Society Conference of Commonwealth Scientists, held at Oxford.
9. 1967 (Dec.) : Participant, International Seminar on the Use of Isotopes and Radiation in Entomology (International Atomic Energy Agency, Vienna).
10. 1968 (March) : Nairobi University College Delegate to the 6th Leverhulme Inter-University Conference on "School Science Curriculum" (University of Malawi).
11. 1968 (April) : Participant, Steering Committee meeting of the African Primary Science Programme of the Education Development Center, Inc., Mass., U.S.A. (held at Kampala, Uganda).
12. 1968 (Aug.) : Opened Plenary Session of the 3rd International Conference on the Biology of Reproduction in Mammals (University College, Nairobi).
13. 1968 (Nov./Dec.) : Participant, Advisory Committee meetings of the African Primary Science Programme and also of the African Education Programme at Boston, U.S.A.
14. 1969 (June) : Joint Convenor of an Africa-wide conference in Accra, Ghana, on African Primary Science Programme - on its organization and funding after 1970 and on its final location in Africa.
15. 1969 (Jan.-Oct.) : Convenor of a Planning Conference in Nairobi to consider the establishment of an advanced centre for entomological research in Africa. (Later to become the ICIPE).
16. 1970 (July) : Chairman, Insect Physiology session, during the Silver Jubilee (1945-1970) of the Anti-Locust Research Centre, on the theme "International Study Conference on the Current and Future Problems of Acridology".
17. 1970 (December) : Participant, International Conference on Chemical Warfare, held in Paris.

18. 1970 (December) : Participant, Africa Group's conference on "Cultural Relations and Exchange" (sponsored by the Hazen Foundation). Meeting held at Ibadan. Subsequent meetings held in 1971 and 1972.
19. 1970 (September) : Participant, Pugwash Symposium on Science and Development, held at Stanford, U.S.A. Later, attended Pugwash Conference on Science and World Affairs at Lake Geneva, U.S.A. Similar meetings attended in Sept. 1973 (Aulanko, Finland), Sept. 1974 (Baden, Australia).
20. 1971 (January) : Guest Panelist, Conference on International Science Policy (U.S. Congress, Washington, D.C.).
21. 1971 (May) : Guest Lecturer at the 200th Anniversary of the Royal Swedish Academy of Sciences, Stockholm.
22. 1971 (May) : Participant, Conference on Bioengineering in the Biological Control of Insects (University of Helsinki, Finland).
23. 1971 (Oct.) : Participant and Rapporteur, Meeting of Experts on UNESCO's CASTAFRICA, held in Nairobi.
24. 1971 (Dec.) : Participant, WHO Conference of Experts on Vector Biology (WHO, Geneva).
25. 1972 (March) : Participant, Nobel/Rockefeller Foundation Symposium on Institutions for Development, held at Lago de Como, Italy.
26. 1972 (Oct.) : Participant and Co-Chairman, FAO Expert Panel on Control of Protozoal Tick-borne Diseases of Cattle, held in Nairobi, Kenya.
27. 1973 (June) : Co-Chairman, Rockefeller Foundation Symposium on Tsetse Research, held at Lago de Como, Italy.
28. 1973 (Sept.) : Participant, International Conference on Development Strategies in Africa in 1970's, held at Arusha, Tanzania.
29. 1973 (Sept.) : Guest Lecturer at the Royal Swedish Academy of Sciences, in Stockholm, on "Tsetse Research".

30. 1974 (March) : Guest Lecturer at International Conference on Environment and Developing African Countries, sponsored by the Adlai Stevenson Foundation, in Nairobi.
31. 1974 (July - Aug.) : Participant, Ford Foundation Integrated Control Programme (University of California, Berkeley).
32. 1974 (July and Sept.) : Special Lecturer at FAO Training Programme on Crop Pest and Locust Control, held in Nairobi (Kenya) and Tehran (Iran) respectively.
33. 1974 (August) : Participant and Rapporteur, UNESCO Meeting of Experts on University Co-operation in Africa, held at Dakar, Senegal.
34. 1974 (December) : Chairman, First Subject Meeting for Eastern and Central Africa, held in Nairobi.

F : SCIENTIFIC SOCIETIES

Member or Fellow of the following:

1. Royal Entomological Society of London, Fellow since 1959.
2. Fauna Society, Honorary Fellow since 1961.
3. New York Academy of Sciences, since 1962.
4. East African Academy, since its inauguration in 1963.
5. Society for Experimental Biology, since 1963.
6. East African Natural History Society, since 1965.
7. Biochemical Society, since 1966.

G : RESEARCH ACTIVITIES

1. 1966-69 : Supervising a 3-year research programme on locust morphometrics at University College, Nairobi, funded by the British Ministry of Overseas Development and also supported by the Desert Locust Control Organization for Eastern Africa.

2. 1966-70 : Awarded grants by the Rockefeller Foundation to establish a research programme on tsetse physiology and endocrinology at University College, Nairobi. Further grants given by the IAEA, Vienna.
3. 1967 on : A project to compile a book on Locust Cytology, approved by the University of East Africa and supported on a 3-year basis through the East African Teaching Materials Fund.
- 1967 (July) : The Anti-Locust Research Centre, sponsored a one-month visit to London to compile a basic bibliography for the book.
4. 1968-71 : Awarded a 3-year grant by the British Medical Research Council to carry out research on Tsetse feeding physiology at University College, Nairobi. Extended for a further year.
5. 1972-75 : Awarded a 3-year grant by the Rockefeller Foundation for the study of tsetse salivary glands in relation to trypanosome development, to be carried out at the ICIPE Research Centre. Supplemented by grants from IAEA in 1974 and 1975.

H : PUBLICATIONS

1. Scientific Papers:

More than 70 papers and monographs in scientific periodicals.

2. Books:

6 children's books with the general theme of LOOK AT LIFE (E.A. Publishing House Ltd., 1968-72).

ADNAN HARDAN

VITA

Born: April 1, 1936. Haditha, Iraq.

EDUCATION

B. Sc., Agriculture, 1957, University of Baghdad.

M. Sc., Soil Science, 1960, University of Illinois.

Ph. D., Soil Science, 1964, University of California at Davis.

PROFESSIONAL EXPERIENCE

Professor of Soils, College of Agriculture, University of Baghdad, 1964.

Assistant Dean, College of Agriculture, University of Baghdad, 1968.

Director, Arid Zone Research Institute, Baghdad, 1968 - 70.

Half-time Head, Soils Department, University of Baghdad)

Half-time Advisor to President of Iraq on Disbursement of)
Agricultural Research Funds (Planning Organization).)

1970 - 72.

President, State Organization for Soil and Land Reclamation,
Government of Iraq, 1973 - 74.

First Under-Secretary, Ministry of Agriculture and Agrarian Reform, 1975.

1/ Dates are approximate.

June 18, 1975

Curriculum Vitae of Professor Dr. M. M. Elgabaly
Egyptian Candidate for Director General FAO

Name: Prof. Dr. M. M. Elgabaly

Date of birth : December 17, 1913

Degrees: B.Sc. Agricultural Science

University of Cairo, 1936 with highest honour

Full Graduate Certificate, University of California, 1939

PH.D. in Soil Science, University of California,
Berkeley, 1943 (highest scientific honour (BK))

University Career

1943 Instructor, College of Agriculture, University
of Cairo.

1944 - 48 Instructor University of Alexandria

1948 - 52 Assistant Professor in Soil Science, University
of Alexandria

1952 - 72 Professor of Soil Science and Chairman of
the Department of Soil, water science,
University of Alexandria.

1961 - 72 Director, Institute of Land-Reclamation
University of Alexandria

1972 - now Visiting Professor, University of Alexandria

Technical and Administrative career:

1953 - 1956 Member of the Board of Directors,
National Research Council of Egypt.

1956 - 1963 Member of the Board of Directors of the
Desert Institute of Egypt.

1958 - 1963 Member of the Board of Directors of
Soil Salinity Laboratory.

1963 - 64 Secretary of the Agricultural Research
Council (Ministry of Scientific Research)

1957 - 66 Adviser to the Minister of Land-Reclamation
and Agrarian Reform

- 1961 - 1968 Adviser to the Atomic Energy Commission
- 1960 - 1968 Adviser to the Fertilizer Industry Company.
- 1965 - now Member of the Board of Directors of Development and Consultant of the Organization of Egypt (Devo Consult)
Member of the Agricultural Planning Board
Member of the Agricultural Education Committee and member of the Reform of University Education
- 1953 - 1958 Member of the National drainage and ground water committee

Government Administrative career:

- 1966 - 1969 President of the Board of Directors of the Egyptian Organization for the Utilization and Development of Reclaimed Land (Land developed on High Dam Water)
- 1972 - 1973 Minister of Agriculture, Agrarian Reform and Minister of Land Reclamation
- 1972 Candidate for the State Prize in Science.

Career outside Egypt

- 1957 - 1970 Member of the International Advisory Committee on agricultural Research in Sudan.
- 1948 - 1956 Visiting Scholar, College of Agriculture, University of Uppsala, Sweden
- 1960 - 1961 Distinguished visiting Professor University of California Berkeley
- 1960 Head of the Committee for Agricultural policy of Syria (completed 1960 - 65 plan)
- 1964 - 1966 participated in the meetings of the U.N. Committee on the application of science and Technology to development held in Geneva, Paris and New York.
- 1966 Scientific Adviser to U.N. Committee on application of Science and Technology to development.

- 1969 FAO Consultant to the Government of Malaysia in problems of Rural Settlement.
Visited South Yemen and Somalia as a member of official team to study agricultural development and problems.
- 1969 - 72 FAO Project Manager to the Government of Bulgaria
- 1960 - 64 Vice president of the Int. Soc. Soil Science
- 1972 Vice Chairman FAO executive Council during the June meeting.

Membership in Scientific Societies:

1. Member of the International Society of Soil Science.
2. Member and President of Egyptian Society of Soil Science.
3. Member of Phi Beta Kappa scientific society of America (highest scientific society)
4. Editor in Soil Science (American Journal)
5. Editor in Agro Chimistry (International Journal)
6. Editor in Arid Zone (Indian Journal)
7. Editor in Soil Science (Egyptian Journal)

International Conferences attended

- a. U.N. Conferences
 1. Conservation of Natural Resources UNESCO Conference, Beirut 1954.
 2. Arid Zone Conference, UNESCO, Cairo 1953.
 3. Use of saline Water in agriculture, UNESCO, Teheran 1958.
 4. Underground Water Conference, UNESCO Tashkent, 1962.
 5. U.N. Conference on the peaceful uses of atomic energy, Geneva 1963.
 6. U.N. Conference on the application of science and technology to development, Geneva, 1964.

7. Meeting of the ECOSOC Committee on the application of science and technology to development, Paris , 1965.
8. Meeting of the ECOSOC Committee on the application of Science and Technology to development, New York, 1966.
9. M.E. Land and Water Commission meeting, Beirut, 1967 (FAO)
10. M.E. Land and Water Commission meeting, Cairo , 1968 (FAO)
11. M.E. Land and Water Commission meeting, Amman 1969, (FAO)
12. M.E. Land and Water Commission meeting, Baghdad, 1970 (FAO) Soil Salinity.
13. M.E. Land and Water Commission meeting, Soil Research, Damascus, 1971, (FAO).
14. FAO Calcareous Soils Symposium, Cairo, 1972.

International Conferences attended

1. Int. Congress of Soil Science, Amsterdam, 1950.
2. International Congress of Soil Fertility, Dublin, 1952.
3. International Congress of Botany, Paris, 1954.
4. Land Utilization Symposium, Holland, 1957.
5. International Congress of Soil Science, Wisconsin, U.S.A. 1960.
6. International Congress of Irrigation and drainage, Mexico, 1969.
7. International Symposium on Salt affected soils, Cairo, 1972.

Contributions to Agriculture in Egypt and abroad

1. Established the first soil, water science department in Egyptian and M.E. Universities 1943.
2. Introduced the soil survey concept in Egypt and M.E. as early as 1944.
3. Established the Soil salinity Laboratory to study the problem of salinity, 1956.

4. Established the Institute for Land Reclamation at the University of Alexandria, with the help of the Ford Foundation, 1961.
5. Introduced Agricultural Research as a part of National Research at the National Research Council.
6. Initiated the program of raising production in the Agrarian Reform Land.
7. Put the scientific and technological basis of the reclamation of new land.
8. Introduced the concept of integrated rural development and agro-industrial complex to Egyptian agriculture.
9. Put a new agricultural policy to Egypt, 1972, based on:
 - a. Concentration in production.
 - b. Specialization.
 - c. Mechanization
 - d. Industrialization of agriculture.
 - e. Strong rural institutions.

and proceeded to execute this policy, while he occupied the post of Minister of Agriculture and Land Reclamation.

10. Introduced a new technique for the possible utilization of disalted water in agriculture.
11. In Sudan, he helped in orienting Research to serve agriculture and introduced new techniques for raising cotton yield.
12. In Syria, he put the agricultural plan for the period 1960 - 65 (during the Union between Egypt and Syria).
13. In Bulgaria, he put a detailed plan for soil conservation and fertility and soil improvement.
14. In Malaysia, he proposed a training system in land settlement.
15. With the U.N., he participated in the preparation of the volume on Natural Resources and prepared reports for the ECOSOC Committee on the application of Science and Technology to development in different aspects of development in Asia, Africa and Latin America.

16. He participated in the study of the problem of soil salinity and water logging in countries of the Middle East and visited Syria, Iraq, Jordan and Sudan for this purpose.

Agricultural Scientific Research

Prof. M. M. Elgabaly has created a well reputed scientific school in soil and water science, land reclamation and development irrigation and drainage, community development and soil fertility. He has published 83 scientific papers mostly in well known scientific journals. Attached herewith is a list of these publications.

CURRICULUM VITAE

1. Name: Yoshiaki Ishizuka
2. Date of Birth: March 14, 1907
3. Place of Birth: Tokyo, Japan
4. Nationality: Japanese
5. Family Status: Married. Wife and two sons
6. Education:
 - a) B.S. in Agricultural Chemistry (NOGAKUSHI)
Faculty of Agriculture, National Hokkaido University,
Japan (1929)
 - b) Ph. D. in Agriculture. (NOGAKU-HAKUSHI)
Hokkaido University, Japan (1945)
7. Employment:

a)	June 1931 March 1940	Hokkaido University	Research Assistant
b)	March 1940 Oct. 1945	"	Assistant Professor
c)	Oct. 1945 March 1970	"	Professor
d)	April 1967 Dec. 1969	"	Dean(Faculty of Agric.)
e)	June 1970 Dec. 1972	Food and Fertilizer Technology Centre for the Asian and Pacific Region	Deputy Director
f)	Jan. 1973 Sept. 1973	"	Acting Director
g)	Oct. 1973 - to present	"	Director

8. Address: 4th Floor, 116 Hsu⁹ Ning St.,
Taipei City, Taiwan P.O. Box 3387
9. Language: Japanese, English and German
10. Membership or Activity in Scholarly Societies:
- a) 1958 - 1960
President; Soil Science Society of Japan
 - b) 1964 - 1968
Trustee; The International Rice Research Institute
(Philippines)
 - c) 1964 - 1968
Chairman of Sect. IV (Soil Fertility)
International Soil Science Society
 - d) 1968 -
Editorial Board; Geoderma.
11. Attending International Meetings:
- a) 7th International Soil Science Congress in U.S.A. (1960)
 - b) 8th International Soil Science Congress in Romania (1964)
 - c) 9th International Soil Science Congress in Australia (1968)
etc.
12. Published writing:
- a) Books:
Agricultural Chemistry (in Japanese)
Nutritional Physiology of the Rice Plant (in Japanese)
 - b) Scientific Reports:
for instance
 - 1) Contributions of the Nutrio-Physiological Studies
to the Fertilizer Application for Lowland Rice
in Japan.
Guest Speech for General Session
7th International Soil Science Congress
University of Wisconsin (1960)

- 2) Nutrient Uptake at Different Stages of Growth;
Symposium in Mineral Nutrition of the Rice
Plants

IRRI 1964

- 3) Engineering for Higher Yield
Keynote Address at Symposium on Physiological
Aspects of Crop Yield

University of Nebraska 1969

etc.

122 Scientific Papers

Total

13. Persons Who Know His Work:

a) Name: Noboru Yamada
(Member of Technical Advisory Committee)

b) Address: 3-1-17, ~~Kaneshi~~, Konosushi, Saitamaken, Japan
Miyaji

BIO-DATA

Name: MENON MANAVZHI NARAYANA

Date of birth: 28.3.1919

Post Held: Animal Husbandry Commissioner and ex-officio
Joint Secretary to the Government of India

Educational
Qualifications:

- i) Graduate of Madras Veterinary College 1942
- ii) Bachelor of Veterinary Science 1943
- iii) Associate Indian Dairy Research Institute
- iv) Member, Royal College of Veterinary Surgeons (1951)
- v) Fellow of the Royal College of Veterinary Surgeons (1957)

Experience: 31 years.

1943	Veterinary Assistant Surgeon
1944-46	E.C.O. Indian Army Veterinary Corps
1946-47	Postgraduate in Dairy Science, A.I.D.R.I.
1947-61	Teaching - Head of the Dept. of Surgery and Principal Veterinary College, 1958-61
1961-71	Director of Animal Husbandry, Kerala
Feb. 1971-74	Head of Milk Production Enhancement and Procurement Division, Indian Dairy Corpn.
From April 1974	Animal Husbandry Commissioner

1. NAME: Kazushi OHKAWA
2. DATE OF BIRTH: November 16, 1908
3. CITIZENSHIP: Japanese
4. EDUCATIONAL QUALIFICATIONS:
 - 1933 Faculty of Agricultural Economics, Department of Agriculture, Imperial University of Tokyo.
 - 1952 Ph.D. Agriculture, University of Tokyo.
5. FIELDS OF SPECIAL COMPETENCE:

Economic Growth and Development,
Agricultural Economics
6. EXPERIENCE AND COUNTRIES WORKED IN:
 - 1974 Training and Research Director, International Development Center of Japan.
 - 1973 Visiting Professor, Yale University, U.S.A.
 - 1972 Emeritus Professor, Hitotsubashi University, Tokyo.
 - 1970 "P.A.G. General Meeting" as a Member of P.A.G. Committee in Geneva.
 - 1967-1968 Co-Chairman of Consultative Committee, Asian Agricultural Survey, Asian Development Bank.
 - 1964-1969 Member of the Economic Deliberation Council, Economic Planning Agency, Prime Minister's Office, the Japanese Government
 - 1962 FAO Conference, "Agricultural Development of Modern Japan" in Tokyo.
 - 1961-1969 Advisor, Economic Planning Agency.
 - 1960 FAO Conference, "Experts' Group Conference for Agricultural Development Planning in Asia and the Far East" at Rome.
 - 1959 Director General, Economic Research Institute Economic Planning Agency, Japanese Government.
"U.N. Preparatory Committee for Economic and Social Committee," as an expert at Geneva.

- 1958 Discussion Leader, ECAFE Conference, "Instruction Policy for Stable Policy of Regional Agricultural Products' Prices" at Delhi.
- 1949 Professor, Hitotsubashi University, Tokyo.
- 1947 Chief, Production Cost Section, Price Bureau, the Economic Stabilization Board.
- 1936 Professor, Utsunomiya Agricultural College.

BEDE Nwoye OKIGBO.

Date of Birth: September 26, 1929.

Place of Birth: Ojoto-Uno in Onitsha Division.

Marital Status: Married with 6 children (Stella 10 years; Chima 8 years; Amechi 6 years; Ndubuisi 4 years; Chinedu Michael 2½ years; Ijeoma 8 months).

Institutions Attended:

1. Government College, Umuahia: 1943 - 1948.
2. School of Agriculture, Moor Plantation, Ibadan: 1949 - 1951.
3. Universities:
 - (i) Washington State University Pullman, Washington, U.S.A. 1952 - 1954;
 - (ii) Cornell University, Ithaca, New York, U.S.A. 1954 - 1958.

Qualifications:

1. Cambridge School Certificate Grade 1 (December 1947)
2. Nigerian Government Class VI Certificate (1948)
3. Agricultural Assistant's Diploma (1951)
4. B.Sc. (Honours) in Agronomy (Washington State University) JUNE 1954
5. M.Sc. in Agronomy (Cornell University)
Thesis: "A Review of the Principles, Methods and Problems of Grain Storage" 1955
6. Ph.D. in Agronomy (Cornell University)
Thesis: "An Evaluation of Hessian Fly Incidence and Damage in Wheat as Affected by Fertilizers Treatments under Field Conditions" February 1959.

Areas of Specialization in Agronomy for M.Sc. and Ph.D.

Major: Crop Ecology and Production
Minors: 1. Plant Genetics and Breeding
2. Entomology.

Scholarships Held:

Secondary School: Government Scholarship 1945-1948
University: Ford Foundation/International Institute of Education Exchange Scholarship 1952 - 1955.

Positions Held:

1. Agricultural Assistant, Federal Department of Agricultural Research Moor Plantation, Ibadan: 1951.
2. Research Assistant in Department of Agronomy, Cornell University: 1955 - 1958.
3. Research Specialist in Agronomy, Ministry of Agriculture and Natural Resources, Western Region, Moor Plantation, Ibadan: February 1959 - February 1960.
4. Rockefeller Research Fellow, Faculty of Agriculture, University of Ibadan, March 1960 - August 1961.
5. Appointed Lecturer in Agriculture in the Faculty of Agriculture, University of Nigeria, Nsukka, September 1961.
6. Associate Professor and Dean, Faculty of Agriculture, University of Nigeria, Nsukka: 1965.
7. At various times in 1968, acted for Vice-Chancellor or Ag. Vice-Chancellor and Chairman, Planning and Management Committee.
8. Part-time Chairman, Agricultural Development Corporation, East Central State: March 1971 - October 1972.

Present Position and Rank: Professor and Head, Department of Plant Science, University of Nigeria, Nsukka.

Membership of University Committee:

1. Joint University Advisory Committee: 1966 - 1967.
2. Chairman, Scholarship Committee (Senior Staff)
3. Chairman, Committee on Post-Graduate Studies and Research.
4. Chairman, Land-Scape Committee.
5. Member, Executive Committee of Institute of African Studies
6. " Internal Advisory Committee, Division of General Studies.
7. " Internal Advisory Committee, Economic Development Institute.
8. " Council/Senate Joint Committee on New Campus Establishment (South-Eastern State)

Membership of Professional Bodies and Related Activities

1. American Society of Agronomy
2. American Association for the Advancement of Science
3. Science Association of Nigeria
4. Agricultural Society of Nigeria
5. Editor-in-Chief, Nigerian Agricultural Journal: 1962 - 1967.
6. Member of the Editorial Board, Nigerian Journal of Science. 1965 - 1967
7. Vice-President, Agricultural Society of Nigeria, 1970 - 1971.
8. Deputy Editor-in-Chief, Nigerian Agricultural Journal. 1967

Membership of External Bodies and Committees

1. External Examiner:
 - (a) University of Ibadan (Crop Production, Genetics, and Agricultural Statistics) 1965 - 1967.
 - (b) University of Ife, Faculty of Agriculture, 1966 & 1971
 - (c) University of Khartoum, Faculty of Agriculture, 1966
 - (d) Advanced Teachers Training College, Owerri, 1966 to date
 - (e) University of Tanzania, 1971
 - (f) University of Ahmadu Bello, 1971/72, 1972/73
 - (g) University of Sierra Leone, 1972/73.
2. West African Examinations Council Advisory Panel on Agriculture, 1966
3. Agricultural Technical Committee of Nigeria: 1965 - 1967.
4. Governing Council, Nigerian Institute of Oil Palm Research: 1965-1967
5. National Agricultural Advisory Committee; and Working Party on Institutional Framework and Agricultural Organization: 1966 - 1967.
6. National Agricultural Development Council; and Food Crops Committee of the N.A.D.C.: 1970 to present
7. Ad Hoc Committee on Criteria for Establishment of New Universities - 1970/71.
8. Ministry of Agriculture and Natural Resources Committee on Research - 1971.
9. Special Committee on Agricultural Development in the East Central State.

I: Variety Trials 'L'Agronomie Tropicale vol. 27 (8) pp. 822-837,
 15. MAIZE EXPERIMENTS ON THE NSUKKA PLAINS:
II: Effects of Spacings, Plant Population and Cultivations on the Yield and General Performance of Several Synthetics and Open-Pollinated Varieties of Maize. L'Agronomie Tropicale vol. 27(8) pp. 838-862.
 16. MAIZE EXPERIMENTS ON THE NSUKKA PLAINS:
III: The Effects of Different Kinds of Mulch on the Yield of Maize in the Humid Tropics. (in press - L'Agronomie Tropicale)
 17. MAIZE EXPERIMENTS ON THE NSUKKA PLAINS:
IV: An Experiment to Test the Manurial Value of Silage Waste (in press - L'Agronomie Tropicale)
 18. MAIZE EXPERIMENTS ON THE NSUKKA PLAINS:
V: 'The Effects of Pre-Planting Cultivations, Mulching and Frequency of Weeding on the Yield and General Performance of Maize: (in press - L'Agronomie Tropicale).
 19. MAIZE EXPERIMENTS ON THE NSUKKA PLAINS:
VI: The Effect of Fertilizer Placement on Development and Yield. (in press - L'Agronomie Tropicale)

Papers Presented at Conferences and related Activities:

1. Preliminary Studies on Seed Production in Star Grasses. (Proceedings of the Science Association of Nigeria) p. 61, 1960.
2. The Use of Multiple Comparisons in Significance Testing. (Proceedings of the Science Association of Nigeria, vol. 4, p. 20, 1961).

3. The Effects of Soil Volumes on the Growth of Some Tropical Crops. (Proceedings of the Science Association of Nigeria, 1965).
4. The Role of Mathematics in Agriculture and the Biological Science (presented at the Seminar for Secondary School Mathematics Teachers, Nsukka - 1967).
5. The Role of Agriculturist in the Utilization and Conservation of Natural Resources. (Paper presented at the Opening Ceremony of 6th Annual Agricultural Week of the Students' Agricultural Society, University of Ife - 1st March, 1971).
6. Working Paper on Agriculture - The National Economic Advisory Council. pp. 1 - 35, Lagos July 13 - 14, 1972.
7. Nigerian Agriculture and the National Economy pp. 1 - 12. A paper presented at the IF PAAW/YLD Seminar Aba, 13th October, 1972.

Teaching Activities:

1. General Genetics (1 Term per session)
2. Field Plot Technique (1 Term per session)
3. Introduction to Statistical Methods for Agriculture and Biology Students (1 Term per session)
4. Economic Botany (3 terms)
5. Genetics for Medical Students (1 Term per session).

Research Projects at Hand:

- A.
 1. Investigations on the effects of Cultivations and Spacing and Mulch on Cassava, Maize and Yams.
 2. Investigations on the effects of Planting Dates on Yields of Cassava and Maize.
- B. Genetics Investigations:
 1. Basic Genetic Studies in Okra, *Corchorus olitorius* and other indigenous vegetables.

Interests:

Gardening, Collection of Nigerian Orchids.

 Bede N. Okigbo
 Professor and Head,
 DEPARTMENT OF PLANT/SOIL SCIENCE,
 University of Nigeria, Nsukka.

9th December, 1972.

ADRIAN FRANK POSNETTE

East Malling Research Station

Born: 11th January, 1914, at King's Norton, Birmingham.

Married: Three children.

Private address: Walnut Tree Cottage,
East Sutton,
Maidstone,
Kent.

Education:

1925 - 1932 Cheltenham Grammar School.

1932 - 1936 Christ's College, Cambridge.

Open Exhibitioner: Batchelor Scholar.

Natural Science Tripos:

1934 Part I (Botany, Physiology,
Zoology)
2nd Class (Div. 1) Hons.

1935 Part II (Zoology)
1st Class Hons.

Extra curricula activities:

Cambridge University Air Squadron.

C.U. Falcons (Football).

C.U. Hawks Club.

Captain of Christ's College Association
Football Club.

College colours also for swimming and
squash racquets.

Degrees:

B.A. (Cantab.)	1935
A.I.C.T.A. (Trinidad)	1937
M.A. (Cantab.)	1947
Ph.D. (London)	1952
Sc.D. (Cantab.)	1958
Elected to Royal Society	1971

Postgraduate career:

1935 - 1936	School of Agriculture, Cambridge; postgraduate course in Plant Genetics.
1936 - 1937	Imperial College of Tropical Agriculture, Trinidad. A.I.C.T.A. in Plant Genetics.
1937	Appointed Economic Botanist to the Department of Agriculture, Gold Coast Government (Colonial Service).
1944	Appointed Head of Botany and Plant Pathology, West African Cacao Research Institute.
1949	Seconded to East Malling Research Station from Colonial Service.
1954	Appointed to East Malling Research Station (P.S.O.)
1957	Promoted to S.P.S.O.
1957	Head of Plant Pathology Section, East Malling Research Station.
1958	Awarded Jones-Bateman Cup by the Royal Horticultural Society.
1967	Assistant to Director.
1969	Deputy Director and promoted to D.C.S.O.
1972	Director and promoted to C.S.O.

Scientific Societies:

Association of Applied Biologists (Council 1953 - 1955).

Society for General Microbiology (Founder Member).

Institute of Biology (Fellow).

Recent research/advisory tours abroad:

- 1959 (June - September) Rockefeller grant to visit research centres in U.S.A. and Canada.
- 1961_g (September - December) Australian Commonwealth grant to visit New Guinea, Papua and all States in Australia.
- 1965 (January - February) Ministry of Overseas Development grant to visit Ghana to advise on cacao research.
- 1966 (February) Ministry of Overseas Development grant to visit Brazil to advise on cacao research.
- 1968 (August) Member of Royal Society Mission to Ghana to advise on organization of Research Institutes.
- 1970 (January - February) Advisory visit to South Africa at request of Cape Pomological Society and South African Government.
- 1971 (January) Advisory visit to Jamaica - Lethal Yellowing Research Project. Coconut Industry Board.
- 1971 (November) Advisory visit to Ghana (CRIG) for ODA.
- 1973 (January - February) Trinidad. Future financing of Cocoa Research at the U.W.I. Cocoa Research Alliance.
- 1974 (October) Ghana. Advisory visit for Cocoa Research Alliance.
- 1975 (January - February) Jamaica. Advisory visit for M.O.D. to assess the Lethal Yellowing Research Project.

PUBLICATIONS BY A.F. POSNETTE

ON VIRUS DISEASES OF CACAO

Transmission of swollen shoot of cacao.

Tropical Agriculture, 17, 98, 1940

Swollen shoot virus disease of cacao.

Tropical Agriculture, 18, 87, 1941

Control measures against swollen shoot virus disease of cacao.

Tropical Agriculture, 20, 116-123, 1943

The diagnosis of swollen shoot virus disease of cacao.

Tropical Agriculture, 21, 56-58, 1944

Virus diseases of cacao in Trinidad.

Tropical Agriculture, 21, 105-106, 1944

Use of seeds in the insect transmission of some plant viruses.

Nature, 159, 500, 1947

Virus diseases of cacao in West Africa.

I. Cacao viruses 1A, 1B, 1C and 1D.

Ann. appl. Biol., 34, 388-402, 1947

II. Cross-immunity experiments with viruses 1A, 1B and 1C.
(With S.H. Crowdy)

Ann. appl. Biol., 34, 403-411, 1947

III. Technique of insect transmission.

(With A.H. Strickland)

Ann. appl. Biol., 35, 53-63, 1948

V. Alternative host plants.

(With J.M. Todd and N.F. Robertson)

Ann. appl. Biol., 37, 229-240, 1950

- VI. Vector investigations.
(With N.F. Robertson)
Ann. appl. Biol., 37, 363-377, 1950
- VII. Virus transmission by different vector species.
Ann. appl. Biol., 37, 378-384, 1950
- VIII. The search for virus-resistant cacao.
(With J.M. Todd)
Ann. appl. Biol., 38, 785-800, 1951
- IX. Strain variation and interference in virus 1A.
(With J.M. Todd)
Ann. appl. Biol., 43, 433-453, 1955
- Parasitism of the mealy-bug vectors of swollen shoot of cacao.
(With A.H. Strickland)
Nature, 163, 105, 1949
- Virus research at the West African Cacao Research Institute,
Tafe, Gold Coast.
Tropical Agriculture, 28, 133-142, 1951
- Virus diseases of cacao in West Africa: the present position.
Report of the 13th International Horticultural
Congress, 1952

ON POLLINATION OF CACAO

Natural pollination of cocoa, Theobroma loloearpa Bern., on
the Gold Coast.

Tropical Agriculture, 19, 12-16, 1942

Natural pollination of cocoa, Theobroma leiocarpa Bern., on the Gold Coast II.

Tropical Agriculture, 19, 188-191, 1942

The pollination of cacao in the Gold Coast.

J. hort. Sci., 25, 155-163, 1950.

Pollination of cacao in Trinidad.

Tropical Agriculture, 21, 115-118, 1944

ON SELF-INCOMPATIBILITY IN CACAO

Self-incompatibility in cocoa (Theobroma spp.)

Tropical Agriculture, 17, 67-71, 1940

Incompatibility in Amazon cacao.

Tropical Agriculture, 22, 184-187, 1945

Inter-specific pollination in Theobroma.

Tropical Agriculture, 22, 188-190, 1945

ON SELECTION AND BREEDING OF CACAO

Note on twinning cacao seedlings.

Tropical Agriculture, 19, 146, 1942

Cacao selection on the Gold Coast.

Tropical Agriculture, 20, 149-155, 1943

Progeny trials with cacao in the Gold Coast.

Empire Journal of Experimental Agriculture,
19, 242-252, 1952

ON MINERAL DEFICIENCY AND ON GROWTH OF CACAO

A morphological change induced in leaves of Theobroma cacao
by mineral deficiency.

(With M. Greenwood)

Nature, 159, 542, 1947

The growth flushes of cacao.

(With M. Greenwood)

J. hort. Sci., 25, 164-174, 1950

ON HEAT THERAPY OF VIRUS DISEASES

Heat inactivation of strawberry viruses.

Nature, 171, 312, 1953

Progress in the heat treatment for strawberry virus diseases.

(With R. Cropley and C.D. Ellenberger)

Rep. E. Malling Res. Sta. for 1952 (1953), 128

The heat therapy of virus diseases of fruit crops.

Trans. Brit. mycol. Soc., 39, 383, 1956.

Heat treatment for the inactivation of strawberry viruses.

(With R. Cropley)

J. hort. Sci., 33, 282-8, 1958

The use of cuttings and heat treatment to obtain virus-free strawberry plants.

(With A. Jha)

Rep. E. Malling Res. Sta. for 1959 (1960), 98

Heat inactivation of some apple and pear viruses.

(With R. Cropley and L.D. Wolfswinkel)

Rep. E. Malling Res. Sta. for 1961 (1962), 94

Thermotherapy of virus-infected plants.

(With Kassanis)

Recent Advances in Botany, 557-563, 1961

ON VIRUS DISEASES OF STRAWBERRY

New vectors of strawberry viruses.

Nature, 169, 837, 1952

Field studies on virus diseases of strawberries.

I. Rate of spread in the variety Auchincruive Climax.

(With Bovey)

Rep. E. Malling Res. Sta for 1951 (1952), 136

II. Seasonal periods of virus spread.

(With Cropley)

Rep. E. Malling Res. Sta. for 1953 (1954), 154

- 6.
- Green petal - a new virus disease of strawberries.
Plant Pathology 2, 17-18, 1953
- Leafhopper transmission of a clover virus causing green petal
disease of strawberry.
(With Frazier)
Nature, 177, 1040-1, 1956
- Transmission and host-range studies of strawberry green petal
virus.
(With Frazier)
Ann. appl. Biol., 45, 580-588, 1957
- Strawberry mosaic virus disease.
Rep. E. Malling Res. Sta. for 1955 (1956), 120
- Strawberry yellows in the variety Auchincruive Climax.
(With Cropsey)
J. hort. Sci., 30, No. 1, 56-61, 1955
- Relationships of the strawberry viruses of England and
California.
(With Frazier)
Hilgardia, 27, 455-513, 1958
- Transmission of a virus to strawberry plants by a nematode
(*Xiphinema* sp.).
(With Jha)
Nature, Lond., 184, 962-63, 1959
- Transmission of Arabis mosaic virus by the nematode *Xiphinema*
diversicaudatum.
(With Jha)
Virology, 13, 119-123, 1961

Further studies of green petal and other leafhopper-transmitted viruses infecting strawberry and clover.

(With Ellenberger)

Ann. appl. Biol., 51, 69-83, 1963

Vascular feeding by Xiphinema diversicaudatum (Nicol.).

(With Pitcher)

Nematologica, 9, 301-2, 1963

Strawberry varieties susceptible to arabis mosaic virus:

A Progress Report.

Rep. E. Malling Res. Sta. for 1963 (1964), 113

Strawberry virus diseases.

Rep. E. Malling Res. Sta. for 1963 (1964), 154

ON VIRUS DISEASES OF RIBES

New virus diseases of Ribes.

Rep. E. Malling Res. Sta. for 1951 (1952), 133

Transmission studies of gooseberry vein-banding virus.

Rep. E. Malling Res. Sta. for 1963 (1964), 110

The effects of black currant yellows virus and a strain of reversion virus on yield.

(With Cropley and Thresh)

Ann. appl. Biol., 54, 177-182, 1964

ON VIRUS DISEASES OF APPLE TREES

A preliminary report on strains of the apple mosaic virus.

(With Cropley)

Rep. E. Malling Res. Sta. for 1951, (1952), 128

Apple mosaic viruses. Host reactions and strain interference.

(With Cropley)

J. hort. Sci., 31, 119-133, 1956

The rubbery wood virus and apple propagation.

(With Cropley)

Rep. E. Malling Res. Sta. for 1951 (1952), 131

Distribution of rubbery wood virus in apple varieties and rootstocks.

(With Cropley)

Rep. E. Malling Res. Sta. for 1953 (1954), 150

Virus transmission between Prunus and Malus species.

Rep. E. Malling Res. Sta. for 1952 (1953), 131

Transmission of a virus causing star crack of apples.

(With Cropley)

J. hort. Sci., 34, 126-9, 1959

The reduction in yield caused by apple mosaic.

(With Cropley)

Rep. E. Malling Res. Sta. for 1958 (1959), 89

Indicator plants for latent virus infection in apple.

(With Cropley)

J. hort. Sci., 36, 168-73, 1961

The effect of virus infection on the growth and crop of
Apple, Pear and Plum trees.

(With Cropley and Ellenberger)

Phytopath Medit, 2, 158-61, 1963

The identification of some viruses infecting Apple, Pear
and Quince.

(With Wolfswinkel and Cropley)

Phytopath Medit, 2, 132-6, 1963

Natural spread of chlorotic leaf spot virus in apple and
quince.

(With Cropley)

Rep. E. Malling Res. Sta. for 1963 (1964), 115

Russet ring virus disease of apples in England.

(With Cropley)

Rep. E. Malling Res. Sta. for 1963 (1964), 117

The growth of apple trees with and without latent virus
infection.

(With Cropley)

Rep. E. Malling Res. Sta. for 1964 (1965), 150

Field experiments with chat-fruit virus disease of apple.

(With Cropley)

Ann. appl. Biol., 55, 439-45, 1965

ON VIRUS DISEASES OF PEARS

Virus diseases of pears in England.

J. hort. Sci., 32, 53-61, 1957

Quince indicators for pear viruses.

(With Cropley)

J. hort. Sci., 33, 289-91, 1958

A selection of Williams' Bon Chretien pear compatible with quince rootstocks.

(With Cropley)

Rep. E. Malling Res. Sta. for 1958 (1959), 91

Further studies on a selection of Williams' Bon Chretien pear compatible with quince A rootstocks.

(With Cropley)

J. hort. Sci., 37, 291-4, 1962

ON VIRUS DISEASES OF PLUMS

Virus diseases of plums.

Rep. E. Malling Res. Sta for 1952 (1953), 182

The line pattern virus disease of plums.

(With Ellenberger)

Ann. appl. Biol., 45, 74-80, 1957

Bark-split - a virus disease of plums.

(With Ellenberger)

Ann. appl. Biol., 45, 537-579, 1957

A disease resembling plum pox in England.

(With Ellenberger)

Plant Path., 12, 115-27, 1963

ON VIRUS DISEASES OF CHERRY

Virus diseases of sweet cherries.

Rep. E. Malling Res. Sta. for 1950 (1951), 203

Virus diseases of cherry trees in England.

I. Survey of diseases present.

J. hort. Sci., 29, 44-58, 1954

II. Growth suppression caused by some viruses.

(With Cropley)

J. hort. Sci., 31, 296-302, 1956

III. Crop reduction caused by some viruses.

(With Cropley)

Rep. E. Malling Res. Sta. for 1959 (1960), 92

Leaf roll, a virus disease of cherry.

(With Cropley)

Rep. E. Malling Res. Sta. for 1954 (1955), 126

The leaf roll virus disease of sweet cherry.

Tijdschrift over Plantenziekten 62, 49-50, 1956

A canker disease of cherry trees caused by virus infection.

(With Cropley)

Plant Pathology, 6, 85-87, 1957

A little cherry disease in England.

(With Cropley)

Rep. E. Malling Res. Sta. for 1957 (1958), 122

European rusty mottle disease of sweet cherry.

(With Cropley)

Rep. E. Malling Res. Sta. for 1960 (1961), 85

The effect of latent virus infection on the growth and yield of sweet cherry trees.

(With Cropley)

Proc. 4th Symp. Virus Dis. Fruit Trees. Tidsskr.

Planteavl (Suppl.), 65, 118-23, 1961

Necrotic rusty mottle virus disease of sweet cherries in Britain.

(With Cropley)

P. Path., 13, 1-3, 1964

Necrotic ring spot and prune dwarf viruses in Prunus and in herbaceous indicators.

(With Cropley and Gilmer)

Ann. appl. Biol., 53, 325-332, 1964

Little cherry disease.

Plant Path., 13, 170-2, 1964

The incidence of virus diseases in English sweet cherry orchards and their effect on yield.

Ann. appl. Biol., 61, 351-60, 1968

ON VIRUS DISEASES IN FRUIT TREES IN GENERAL

Virus diseases and the propagation of fruit trees.

Rep. E. Malling Res. Sta. for 1952 (1953), 179

The production and distribution of virus-free clones of fruit trees at East Malling.

(With Harris)

Rep. XIVth int. hort. Congr., The Hague, 1,
288-95, 1955

Virus-tested rootstocks and scion varieties.

(With Hoblyn)

Rep. E. Malling Res. Sta. for 1955 (1956), 151

The propagation of healthy fruit trees.

The Grower Annual Fruit Review, 26-9, 1954

Virus diseases of fruit crops.

(With Harris)

Nature, 170, 181-2, 1952

The study of virus diseases of fruit trees at East Malling Research Station.

Rep. 8th International Botanical Congress (1954)

The spread and control of virus diseases of fruit trees.

Sci. Hort., 13, 87-89, 1958

Virus diseases of fruit trees.

American Nurseryman, 107, 7, 15, and 63-65, 1958

Some aspects of virus spread among plants by vectors.

Rep. 7th Commonwealth entomol. Conf., 162-5, 1960

The economic importance of virus diseases of fruit trees in England.

N.A.A.S. quart. Rev., 11, (48), 170-5, 1960

The Mother Tree Scheme.

Rep. E. Malling Res. Sta. for 1961 (1962), 125

Virus diseases of fruit trees.

Rep. E. Malling Res. Sta. for 1963 (1964), 161

Soil-borne viruses in relation to fruit tree diseases.

Proc. fifth European Symposium on Fruit tree

Virus diseases Bologna 1962

Virus diseases of apples and pears. (BOOK)

T.C. 30, 1963. Edited by A.F. Posnette.

Contains 10 chapters written by A.F. Posnette.

Development and present problems in fruit tree virus research.

Proc. 7th Europ. Symp. Fruit Tree Virus Dis.,

July, 1967, 19-26.

Research behind virus-free trees in England. Span, 15, 58-60.

CURRICULUM VITAE - Cyril Charles WEBSTER

BORN: 28 December 1909, Cardiff, U.K.

MARRIED: 1 son, 1 daughter.

EDUCATION:

	Beckenham County School
1928-1931	Wye College, University of London
1931-1932	Selwyn College, Cambridge
1932-1933	Imperial College of Tropical Agriculture, Trinidad

QUALIFICATIONS: BSc (Agric), PhD, ALCTA, F.I.Biol.

HONOURS: CMG JMN (Malaysian honour)
Fellow of Wye College

POSTS HELD:

1933-1935	Research Assistant, Tung Oil Estates Ltd., Burma: research on tung oil trees
1936-1956	Colonial Agricultural Service
1936-1938	Nigeria: In charge Moor Plantation Experimental Station, Ibadan.
1938-1950	Nyasaland: research on tung oil trees
1950-1956	Kenya, Chief Research Officer, Department of Agriculture: responsible for Research Division of Department, which included central laboratories (entomology, plant pathology, chemistry, soil science), research stations for coffee, sisal, pyrethrum, fruit, grassland (2), plant breeding, cotton, and seven experimental husbandry farms.
1956	Deputy Director of Agriculture, Malaya
1957-1960	Professor of Agriculture and Director of Studies, Imperial College of Tropical Agriculture, University of the West Indies, Trinidad.

1961-1965 Director, Rubber Research Institute of Malaya
(At that time the institute had about 80 graduate staff in departments of Botany, Soils, Chemistry, Plant Pathology, Statistics, Publications and Library, Estate and small-holders Advisory Service, and Experiment Station (3000 acres).

1965-1975 Agricultural Research Council, U.K.
Scientific Adviser, 1965-1971; Chief Scientific Officer (Under Secretary) 1971-1975. (The Agricultural Research Council is responsible for the administration and scientific management of 30 research institutes and 11 units in universities in U.K.)
Retired 28th February 1975.

PUBLICATIONS

Papers on tung oil trees and maintenance of fertility, mainly in East African Agricultural Journal, Tropical Agriculture (Trinidad), Experimental Agriculture.
Book 'Agriculture in the Tropics' (1966) - with P N Wilson.
Booklet: 'Air Pollution Effects on Plants and Soils' (1968)

MEMBERSHIP OF SOCIETIES

Institute of Biology
Association of Applied Biology
British Society of Soil Science
British Grassland Society

OTHER PARTICULARS

- (a) Member of World Bank Mission to Tanganyika, 1959.
- (b) Visits made for purposes of agricultural advice or study to Mauritius (1947); Rhodesia (1947, 1955); Uganda and Tanganyika (several times 1950-1955); Congo (1953); Sabah (1962, 1964); Sri Lanka (1962); Holland (1966, 1973).
Guyana (1957), Costa Rica (1958), various W. Indian Islands
- (c) Currently:

Member of the Coordinating Advisory Committee for Rubber Research sponsored by the Malaysian Rubber Research and Development Board (Chairman of Biological Committee).
Member of the Scientific Panel of the Commonwealth Development Corporation.

CURRICULUM VITAE

Sterling Wortman

PRESENT POSITION: Vice-President, The Rockefeller Foundation

OFFICE ADDRESS: 1133 Avenue of the Americas
New York, New York 10036
Telephone: 212 265-8100

HOME ADDRESS: Apartment 21-F, Weavers Hill
Greenwich, Connecticut 06830

PLACE OF BIRTH: Quinlan, Oklahoma
DATE OF BIRTH: April 3, 1923

WIFE'S NAME: Ruth Eleanor (Bolstad) Wortman

CHILDREN: Linda Susan (Mrs. Stephen Preston)
Steven Sterling
Mark Jeffry
David Eric

EDUCATION: Oklahoma State University, B.S., 1943
University of Minnesota, M.S., 1948; Ph.D., 1950 (plant
genetics and plant pathology)

PROFESSIONAL
EXPERIENCE:

Geneticist, Mexican Agricultural Program of The Rockefeller
Foundation, 1950-54
Head, Plant Breeding Department, Pineapple Research Institute,
Honolulu, Hawaii, 1955-60
Assistant Director, International Rice Research Institute,
The Rockefeller Foundation, Philippines, 1960-62; Associate
Director, 1963-64
Director, Pineapple Research Institute, Honolulu, Hawaii, 1964-65
Director for Agricultural Sciences, The Rockefeller Foundation,
New York, 1966-70
Vice-President, The Rockefeller Foundation, 1970--

ADDITIONAL PRO-
FESSIONAL
ACTIVITIES:

Secretary, Hawaiian Academy of Sciences, 1955-59
Trustee, Agribusiness Council, Inc., 1967-72
Agricultural Board, National Academy of Sciences, Washington,
D. C., 1967-71
Trustee, General Education Board, 1971--
Trustee, International Maize and Wheat Improvement Center,
Mexico, 1966-- (Vice-Chairman, 1968--)
Trustee, International Rice Research Institute, Los Banos,
Philippines, 1969-70

Member, Advisory Committee for Biological and Medical Sciences, National Science Foundation, 1970-72
Member, Corporation Visiting Committee for the Department of Nutrition and Food Science, Massachusetts Institute of Technology, 1971-1974
Member, Advisory Committee for Research, National Science Foundation, 1973-1974
Member, Board on Science and Technology for International Development, National Academy of Sciences, 1973--
Member, Advisory Panel on Agriculture and Rural Development, World Bank, 1973--
Member, National Academy of Sciences/National Science Foundation Joint Committee on World Food, Health and Population, 1974--75
Member, Dartmouth Conference Steering Group, 1974--
Member, Committee on Scholarly Communication with the People's Republic of China, National Academy of Sciences, 1975--

MILITARY SERVICE: U.S. Army, 1943-46, discharged with rank of Captain

HONORS: Outstanding Agronomy Graduate and Graduation with High Distinction, Oklahoma State University
Member, Phi Kappa Phi
Fellow, American Association for the Advancement of Science
Fellow, Philippine Association for the Advancement of Science
Member, Alpha Zeta
Outstanding Achievement Award, University of Minnesota, 1975

ALBERT H. MOSEMAN

VITA

Born: January 27, 1914

EDUCATION

B. Sc., Agronomy; 1938, University of Nebraska.
M. Sc., Agronomy 1940, University of Nebraska.
Ph. D., Plant Breeding & Genetics, 1944, University of Minnesota.

FIELD OF SPECIALIZATION

Plant Breeding and Genetics.
Agricultural Research Organization and Administration.
Agricultural Development.

PROFESSIONAL EXPERIENCE

Consultant on international agricultural development to Rockefeller Foundation - 1974 to Present.

Agricultural Development Council - 1967 to 1974. Principal attention was given during the entire period to consultation with governments of developing nations on opportunities and procedures for strengthening their national agricultural research capabilities. Served as the initial Director of MARDI (Malaysian Agricultural Research and Development Institute) from July 1969 through July 1971, then as consultant to MARDI until December 1972.

Assistant Administrator of the U.S. Agency for International Development - 1965 to 1967.

Associate Director and Director for Agricultural Sciences in the Rockefeller Foundation - 1956 to 1965.

Director of Crops Research in the Agricultural Research Service - 1954 to 1956.

Assistant to the Chief of Bureau and Chief of the Bureau of the Bureau of Plant Industry, Soils and Agricultural Engineering - 1944 to 1954.

Nebraska Agricultural Experiment Station and the Minnesota Agricultural Experiment Station with the Bureau of Plant Industry, Soils and Agricultural Engineering - 1936 to 1944.

HONORS

University of Minnesota Outstanding Achievement Award. February 1958.
University of Nebraska D.Sc. (Hon.). February 1965.
University of Nebraska Masters Program. March 1966.
Nebraska Centennial Notable Nebraskan Award. May 1967.
Member of First Team sent by U.S. Department of State to discuss technical cooperation with nations of Asia. 1950.
American Association for the Advancement of Science (Fellow).
American Society of Agronomy (Fellow).
Member, American Genetic Association, Society of the Sigma Xi, Alpha Zeta, Gamma Sigma Delta.
Member, Research Advisory Committees, U.S. Department of Agriculture and USAID..
Member, Special Teams of the Science Adviser to President Lyndon Johnson to review cooperation in science and technology with Governments of Korea (1965) and Taiwan (1967).
Author of Book "Building Agricultural Research Systems in the Developing Nations". 1970.

Served as Consultant/Advisor for reviews of agricultural science and technology (in India July - Sept. 1955), in Korea (April 1967), Pakistan (March - April 1968 and Feb. - March 1973), the Philippines (April and August 1971) and short terms in 1972 - 73, Bangladesh (February 1973), Thailand (September - October 1973), Indonesia (May - June 1968) and Iran (January 1972). Member of U.S. Delegations to OECD/DAC meetings on world food supplies (April 1967) and on developing international systems for agricultural science and technology (October 1967). Also on U.S. delegation to CEN TO conference on agricultural development policy (Sept. 1967).

Dear Dr. Coulter,

I received recently a letter from Dr. Guy B. Baird from A.I.D. asking me to send directly to you my curriculum vitae for your consideration as a candidate for membership on the Technical Advisory Committee of the Consultative Group on International Agricultural Research.

.....

I therefore enclose herewith my biodata. I am working as an agronomist - soil scientist with the United Nations in Bangkok (Mekong Secretariat) and I am thus quite familiar with the agricultural research development and its implication for potential development in the 4 riparian countries of the Mekong river. Before that, I was Director of Agricultural Research Institute in Saigon for 10 years and has about 10 publications in French and English.

Hoping to hear from you soon.

Yours sincerely,

Dr. Thai Cong Tung
Agronomist
Mekong Secretariat/ESCAP

BIO/CURRICULUM VITAE - DR. MELAK H. MENGESHA

I. PERSONAL:

Full name -----Melak hail mengesha
 Date and place of birth-----August 1935, Addis Ababa, Ethiopia
 Marital Status -----Married
 Wife's name and profession -----Astair Gebremariam - Sociologist
 No. of Children -----Three (one girl and two boys)
 Citizenship and Nationality -----Ethiopia
 Special interests -----Philanthropic works, travelling, international activities, young children and youth, animals, music, chess, soccer

II. EDUCATIONAL BACKGROUND:

1. Elementary -----Mission school at Akaki, Ethiopia
2. Secondary -----Jimma Agricultural School "
3. College - B.Sc. 1957 -----College of Agriculture, H.S.I.University
4. University - M.Sc. in Agronomy and Botany. 1959 -----University of Nebraska, Lincoln, Nebraska
5. University - Ph.D. in Genetics and Plant Breeding. 1964 -----Purdue University, Laf. Indiana
6. Post Doctorate in Institutional Devept. and Organization 1972-73Michigan State University

III. WORK EXPERIENCE - EMPLOYMENT:

1. Agronomy Instructor -----Jimma Agriculture School, 1959-61
2. Assist. Prof. of Agronomy and Associate Head of Dept. Plant Sc.- College of Agriculture, HSIU, 1964-65
3. Associate Director of Research ---College of Agriculture, HSIU, 1965-66
4. Director of Research and Director of the Debre Zeit Ag. Exp. Sta ---College of Agriculture (Alemaya-Debre Zeit, 1966-69
5. Associate Professor of Plant Sciences and Dean of Agriculture ----- College of Agriculture, HSIU, 1969-72
6. Visiting Professor- Rockefeller Foundation Fellow -----Michigan State University -Sabbatical 1972/73
7. Dean and Associate Prof. (Elected)College of Agr., HSIU, 1974 on

IV. OTHER PROFESSIONAL EXPERIENCE:

1. Collaboration for the Union of Afro-Asian Countries on Science and Technology (CAAUST- Symposium). New Delhi, India. Deligate from Ethipia. 1966
2. Founding member and elected General Secretary of the Association for the Advancement of Agricultural Sciences in Africa (AAASA), Also member of the Executive Committee of the Association. 1968-1975

3. Member of HSIU's Executive Committee of Faculty Council and several other university wide committees. 1969 On
4. Organizing member of East African Cereal Research Association. 1969 on
5. Member of the Ethiopian Government National Education Commission. 1969 on
6. Founding member and member of continuing committee of African Agricultural Faculties Association. 1970 on.
7. Member of International team of evaluation and development of the Faculty of Agriculture, University of Zambia. July, 1971
8. Member of Research Review Panel of the International Institute of Tropical Agriculture (IITA), Ibadan, Nigeria. 1971
9. Member of the Ethiopian National Science and Technology Council, 1972 on
10. Member of Working Group on Global Network of Genetic Resources Centres as invited by the Technical Advisory Committee of the Consultative Group on International Agricultural Research. March, 1972
11. Member of the Board of Governors of the International Crops Research Institute for the Semi-Arid Tropics (ICRISAT), Hyderabad, India. 1972 on
12. Member of FAO's Panel of Expert on Plant Exploration and Conservation. 1973 on
13. Member of the Executive Committee of ICRISAT's Governing Board. 1974 on
14. Member of Advisory Council on Science and Technology for the Provisional Military Government of Ethiopia. 1974 on

V. PROFESSIONAL TRAVELLING:

1. Africa -- Kenya, Uganda, Tanzania, Malawi, Zambia, Sudan, Egypt, Nigeria, Ghana, Sierra Leone, Liberia, Ivory Coast, Senegal
2. Asia ---- India, Iran
3. Europe -- England, West Germany, France, Greece, Lebanon
4. N. America- Eastern, Southern and Midwestern United States, Canada
5. Far East - Japan, South Korea

VI. MAJOR PUBLICATIONS:

1. Genetic Variability and Interrelationship of Characters in Eragrostis tef. Crop Science Vol. 5:155-157. 1965
2. Development of the Embryo Sac and Embryo of Teff. Canadian Journal of Botany. 44:1071-1075. 1966
3. Chemical Composition of Teff Compared with that of wheat, barley and grain sorghum. Economic Botany. Vol.20, No.3:268-273. July 1966
4. Conflicts Between Institution of Learning and Services - A Deterrent Factor for Optimal Form of Organization of Scientific Research in Developing Nations. Proc. of the 15th. Pugwash Conference. pp.218-219. 1966
5. Problems Affecting the High Productivity of Cereals in the Highlands of Ethiopia - Agricultural Research Priorities for Economic Development in Africa, Nat. Academy of Sciences Publ. Vol.II.131-135. 1968
6. Progress Report on Agr. Research Activities. Col. of Agr. HSIU. Jan.1969
7. Crop Germ-Plasm Diversity and Resources in Ethiopia. Intern. Biol. Programme. Crop Genetic Resources for Today and Tomorrow. pp.449-453. Cambridge Univ. Press. 1974.
8. The Need for Small Farmers' Active Participation in Applied Agricultural Research Activities in Africa. AAASA. March 1975.

CROP IMPROVEMENT RESEARCH CENTER
OFFICE OF RURAL DEVELOPMENT
SUWEON, KOREA

June 16, 1975

Dr. John Pino
Rockerfeller Foundation
New York City, N.Y.

Dear John,

Reference is made to our recent telephone conversation and your request for my comments concerning Dr. In Hwan Kim as a candidate for membership on TAC.

It is my understanding that Dr. Kim has sent Dr. Coulter a copy of his curriculum vitae. I am attaching a copy for your information and use. I should like to make a few comments concerning Dr. Kim which will be helpful to you and others in evaluating Dr. Kim.

Dr. Kim's basic training is in plant breeding. While he has made significant contributions in this field, it is in agricultural research administration where he really excels. he has been responsible for the development of the Office of Rural Development here in Korea, which in my judgment is by far the best organized research and extension activity that I know of in any of the developing countries of the world. He has, of course, been plagued with low budgets, insufficient facilities and too few well trained scientists, even though some of them are among the most competent in the world. Despite these difficulties, Korean scientists have made great progress in improving farmer's yields. Last year, for example, Korea had the highest average rice yields of any country. Korea has it's national research center at Suweon. It has four main regional centers dealing with food crops, and each of the nine provinces has a Provincial Office of Rural Development with a research bureau and an extension service. The Provincial offices, among other things, adapt the results from the national and regional research centers to local conditions and transmit these findings to farmer's fields. The system is excellent, but needs strengthened as indicated above.

Dr. John Pino

June 16, 1975

Page 2

Dr. Kim is well acquainted with the International Agricultural Center system. He has visited IRRI on more than one occasion, and has excellent cooperative relations with it. He also has visited CIP, CIMMYT and INTSOY. CIP will be putting one of their regional representatives here in Korea. Korea also has a regional center from AVRDC, again due primarily to Dr. Kim's ingenuity. Dr. Kim has knowledge of both temperate and tropical agriculture. In my judgment, he would, indeed, be an outstanding man to serve on TAC.

Dr. Kim is a quiet man by nature, but when he says something it is important. He is a deep and quick thinker. He does not hesitate to argue for his beliefs, but he is not adamant either. I would not like to make a comparison with present members of TAC and Dr. Kim, but I can tell you that for the job TAC has to do, I would rate Dr. Kim in the upper one-third of the present membership. CGIAR and TAC would be fortunate to have him on their team.

I want to assure you that I have a continuing interest in CGIAR and TAC and it is on this basis that I recommend Dr. Kim. My recommendation is in no way conditioned by my association and responsibilities here at the Office of Rural Development.

Sincerely yours,

Omer J. Kelley
Co-Director

Apr. 15, 1941 - Sep. 23, 1943 : Graduated from the Agricultural
Division, Agricultural Department,
Kyushu Imperial University, Japan
Nov. 5, 1943 - Jan. 20, 1944 : Technician, Food Administration Section,
Ministry of Agriculture and Commerce
Jan. 20, 1944 - Nov. 25, 1945 : Drafted to Japanese Army and Assigned
to the 13th Unit Stationed at Central
Nagoya, Japan
Dec. 26, 1945 - Mar. 31, 1946 : Teacher, Keseong Middle School, Taegu,
Korea
Apr. 1, 1946 - Aug. 31, 1946 : Professor, Taegu Agricultural Profes-
sional School, Korea
Sep. 1, 1946 - Aug. 31, 1951 : Assistant Professor, Taegu Agricultural
College, Korea
Sep. 1, 1951 - Dec. 10, 1957 : Associate Professor, Agricultural
College, Kyeongbuk University, Korea
Dec. 11, 1957 - Sep. 4, 1961 : Chief, Planning Section, Research
Bureau, Institute of Agriculture
Jan. 25, 1960 - Jan. 25, 1961 : Foreign Training in the Field of
Agriculture Research Administration
at the University of Minnesota

Continued : Personal History, In Hwan Kim

- Sep. 5, 1961 - Mar. 31, 1962 : Director, Research Bureau, Institute of Agriculture
- Apr. 1, 1962 - Oct. 18, 1964 : Director, Research Bureau, Office of Rural Development
- Oct. 19, 1964 - Nov. 30, 1967 : Director, Agricultural Production Bureau, Ministry of Agriculture and Forestry
- Dec. 1, 1967 - Dec. 17, 1967 : Assistant Minister for Food Grains And Livestock Administration, Ministry of Agriculture and Forestry
- Dec. 18, 1967 - May 9, 1968 : Assistant Minister for Agricultural Economics, Production and Land Development, Ministry of Agriculture and Forestry
- Jan. 26, 1968 : Awarded a Degree of Ph.D. in Agricultural Science at the Seoul National University (Plant Breeding)
- May 10, 1968 - Up to date : Administrator, Office of Rural Development
- Dec. 2, 1968 - Dec. 17, 1968 : Visited the Republic of the Philippines, Republic of China and Japan for Agricultural Technical Cooperation
- Sep. 20, 1970 - Oct. 3, 1970 : Attended the First Asian Agricultural College and University Seminar held in Thailand and India
- Mar. 6, 1971 - Mar. 23, 1971 : Attended the Agricultural Development Council Seminar on National Agricultural Research Systems held in India and Visited the Republic of Germany to Consult the Establishment of a Grassland Research Institute in Korea
- Feb. 22, 1972 - Mar. 12, 1972 : Orientation Trips to Mexico, Including CIMMYT, and United States under the Invitation of AID

Continued : Personal History, In Hwan Kim

- Dec. 19, 1974 - Dec. 24, 1974 : Travel Philippines for Consultation on Seed Multiplication
- Mar. 25, 1975 - Apr. 14, 1975 : Trips to Peru, Philippines, Mexico and the United States, including visits to CIP, CIMMYT, IRRI and INTSOY to become better Acquainted with the Working Relations of these Centers and the Possibility of their Closser Cooperation with Agriculture Research in Korea

Addresses, Publications and Lectures

These are too numerous to list. Examples of the more important ones are:

Publication : On Artificial Polyploid on Indigenous Garlic.
Korean Agricultural Sciences Journal, Vol 5,
No. 5. 1959

Studies on Varieties of Genus Mibiscus. Agricultural Research Report: Vol. 7, No. 1. 1965

Addresses and lectures : To audiiances of University scholars, National Scientific Associations and to Scientists of International Meetings such as the Asian and Pacific Conference.

Books : 1964 : Introduction of Biology. Bumin Cultural Publishers.

1968 : Ilustration on Crop Diseases in Color. Hong Mun Publishing Co.

1971 : Ilustration on Farm and Forestry Insects. Hak Chang Publishing Co.

Medals: 1960 : Red-striped White Star

1963 : Red-striped White Star (Second time)

1972 : Yellow-striped White Star

1975 : Silver-tower Industrial Medal

INSTITUTE FOR AGRICULTURAL RESEARCH

Samaru, PMB 1044 Zaria, Nigeria

Ahmadu Bello University

Telegrams: Agrisearch, Zaria
Telephone: Zaria 2571-4 PBX

MD/PER

Ref: *2/TAS/5*

19th June, 1975.

Dr. John K. Coulter,
Consultative Group on International
Agricultural Research,
1818 H Street, N.W.
WASHINGTON D.C. 20433,
U.S.A.

Dear Dr. Coulter,

I understand that the Agency for International Development has submitted my name as a possible candidate for membership of the Technical Advisory Committee. They have requested I send you my curriculum vitae if I am willing to serve on T.A.C.

Of course, I should be very pleased to serve on T.A.C. if the Group thought I was a suitable candidate, and I attach a curriculum vitae. It is not particularly detailed on the activities of the Institute for Agricultural Research so I have taken the liberty of attaching a general pamphlet on I.A.R. Its recurrent budget for 1975/76 is over the equivalent of \$9 million.

There is, of course, a doubt as to how long I shall stay at IAR as I should be succeeded sooner rather than later in this significant position in Nigeria. Also, I received very recently an invitation to serve on the Board of CIAT which I have tentatively accepted: if this membership would automatically exclude me from consideration for membership of T.A.C., then I should prefer to be a member of T.A.C., given the chance.

Yours sincerely,

Matthew Dagg,
Director.

DR. MATTHEW DAGG: CURRICULUM VITAE

Personal details

Name:	Matthew DAGG
Date and place of birth:	15 July, 1931 Washington, Co Durham, England
Marital status	Married with 3 daughters

Academic qualifications

1949-52	University of Manchester B.Sc. Hons. Physics, Class II(i)
1952-56	University of Manchester, Jodrell Bank Experimental Station Ph.D.: Thesis title "An investigation of radio star scintillations as a geophysical phenomenon."
1971	Fellow of the Institute of Physics

Employment Record

May 1956 to October 1969	Physics Division, East African Agriculture and Forestry Research Organization, Nairobi, Kenya
1956	Scientific Officer
1959	Senior Scientific Officer
1964	Principal Scientific Officer and Head of Physics Division
Dec. 1969 to present	Director of Institute for Agricultural Research and Special Services, and Professor of Agricultural Science, Ahmadu Bello University, Nigeria.

Field of Research

1952-56	Upper atmospheric physics
1956-64	Soil physics, particularly effects of land management practice on soil structure: Catchment area experiments on effects of land use changes on water balance on catchment vegetation and surface runoff: Water requirement for crops and irrigation schemes: Estimation of evaporation rates.

Field of Research (contd)

- 1964-69 Directing research of Physics Division (5 graduate research officers) in catchment area experiments on hydrological effects of land use changes: estimation and mapping of evaporation rates in E. Africa: crop water use: micro-meteorological and energy balance studies: effects of cultivation practice on water regime of crops: miscellaneous agro- and hydro-meteorological studies.
- 1969-present Directing research and administration of Institute for Agricultural Research, A.B.U. Nigeria (in 1969 about 70 graduate staff; in December 1973 about 152 graduate staff): in June 1975 about 186 graduate staff) Broad research field covering farming systems for annual crops in savannah zone of 6 northern States of Nigeria; from soil survey and soil-plant-water relations, through plant breeding, crop protection, agronomy and animal science to socio-economic research, from farmers' field level up to marketing at urban level, and extension techniques. (See pamphlet on Inst. for Agric. Research and List of Publications).
Organization and strategy of agricultural research within institutions and within country.

Committee Membership, etc.

- In East Africa: Secretary of Specialist Committee on Applied Meteorology
Secretary of Kenya Hydrological Research Committee;
Member of National Committee for International Hydrological Decade for Kenya, Tanzania and Uganda;
Member of Panel of I.A.E.A. on the use of isotope and radiation techniques in soil moisture and irrigation studies.

Much of the research programme in East Africa involved coordinating the activities of cooperating research workers in the Departments of Agriculture, Forestry and Water Development in the three East African countries.

..... 3/

In Nigeria: ex officio member of very many Committees and Boards: fairly active personally on A.B.U. University Council, University Senate, Vice Chancellor's Advisory Committee, Faculty Board of Agriculture and many other administrative committees of ABU; IAR Board of Governors; Chairman, IAR Professional and Academic Board; National Council for Agriculture and Natural Resources; National Agricultural Development Committee; Steering Committee for National Accelerated Food Production Campaign; National Advisory Committee for Lake Kainji Research Project.

The research programme of IAR is closely linked to the development requirements of the six northern States and close liason must be maintained. Cooperation and liason with major international research institutions and donor agencies is also necessary.

International: Member of U.S. National Academy of Sciences Committee on African Agricultural Research Capabilities.

Travel, etc. Visited 26 research establishments in U.S.A. in soil physics, agro-meteorology and hydrology, August-December 1962, on the award of Carnegie Commonwealth Travel Grant.

Dear Professor ten Houten:

Following your election to the Technical Advisory Committee of the Consultative Group on International Agricultural Research I would like to take the opportunity to welcome you to the Committee on behalf of the Secretariat.

This Secretariat, situated here in FAO Headquarters, is responsible for the administrative support of the Committee and for operation of the Trust Fund set up for that purpose by the Co-Sponsors of the CGIAR — FAO, UNDP and the World Bank. Additional support is also given by the Government of Australia.

In order to assist you in acquainting yourself with the history and activities of the Committee I am sending herewith a brochure on the International Agricultural Research activities of the CGIAR, some reports of earlier meetings of the TAC and the last meeting of the CGIAR, and the Agenda for the 10th Meeting of the TAC to be held in the World Bank building, Washington, D.C., from 22 to 26 July, 1975.

I am happy to confirm the invitation conveyed during your telephone conversation yesterday with Brian Webster for you to visit Rome at your convenience during the first two weeks of July for a familiarization visit. In addition to discussions and briefing on TAC activities with this Secretariat we will arrange some visits on the general activities of FAO in agricultural research, and to the Secretariat of the International Board for Plant Genetic Resources (a CGIAR activity) which is also located here in FAO.

Subject to subsequent confirmation, a one-day visit on either Friday 4th or Wednesday 9 July is suggested. In order to ensure a full day's programme, you may care to travel the night before; in this case please let me know and we will arrange hotel accommodation. We are making available an open date return ticket Amsterdam-Rome-Amsterdam, in care of the office of Dr. de Bakker in the Ministry of Agriculture and Fisheries at the Hague. In connection with this and subsequent travel I should be grateful if you would kindly fill in and return to me, in duplicate, the enclosed 'Designation of Beneficiary' forms for travel insurance purposes.

Dr. J. G. ten Houten
18 Englaan
Wageningen
The Netherlands

....//..

During the course of our meeting in Rome we will have an opportunity to discuss with you your wishes regarding method of payment of your honorarium and per diem expenses; these, as you may already have been informed, amount to US\$150 per day honorarium and US\$50 per day non-accountable expenses, when attending TAC meetings or participating in official TAC missions.

Please do not hesitate to contact me for any further information which may be helpful to you pending your visit to Rome.

Yours sincerely,

P. A. Oram
Executive Secretary
Technical Advisory Committee

- May 10, 1968 - Up to date : Administrator, Office of Rural Development
- Dec. 2, 1968 - Dec. 17, 1968 : Visited the Republic of the Philippines, Republic of China and Japan for Agricultural Technical Cooperation
- Sep. 20, 1970 - Oct. 3, 1970 : Attended the First Asian Agricultural College and University Seminar held in Thailand and India
- Mar. 6, 1971 - Mar. 23, 1971 : Attended the Agricultural Development Council Seminar on National Agricultural Research Systems held in India and Visited the Republic of Germany to Consult the Establishment of a Grassland Research Institute in Korea
- Feb. 22, 1972 - Mar. 12, 1972 : Orientation Trips to Mexico, Including CIMMYT, and United States under the Invitation of AID

Continued : Personal History, In Hwan Kim

- Dec. 19, 1974 - Dec. 24, 1974 : Travel Philippines for Consultation on Seed Multiplication
- Mar. 25, 1975 - Apr. 14, 1975 : Trips to Peru, Philippines, Mexico and the United States, including visits to CIP, CIMMYT, IRRI and INTSOY to become better Acquainted with the Working Relations of these Centers and the Possibility of their Closser Cooperation with Agriculture Research in Korea

Addresses, Publications and Lectures

These are too numerous to list. Examples of the more important ones are:

Publication : On Artificial Polyploid on Indigenous Garlic.
Korean Agricultural Sciences Journal, Vol 5,
No. 5. 1959

Studies on Varieties of Genus Mibiscus. Agricultural Research Report: Vol. 7, No. 1. 1965

Addresses and lectures : To audiances of University scholars, National Scientific Associations and to Scientists of International Meetings such as the Asian and Pacific Conference.

Books : 1964 : Introduction of Biology. Bumin Cultural Publishers.

1968 : Ilustration on Crop Diseases in Color. Hong Mun Publishing Co.

1971 : Ilustration on Farm and Forestry Insects. Hak Chang Publishing Co.

Medals: 1960 : Red-striped White Star

1963 : Red-striped White Star (Second time)

1972 : Yellow-striped White Star

1975 : Silver-tower Industrial Medal

CURRICULUM VITAE

Yoash Vaadia

Agricultural Research Organization

P.O. Box 6, Bet Dagan, Israel

I. Personal

Born - August 18, 1931, Haifa, Israel.
Elementary School - Hadera, Israel, 1937-1945.
Secondary School - Pardess Hana, Israel, 1945-1948.
Armed Forces - Israeli Army, Signal Corps. 1948-49.
Physical Condition - Good.
Married - Four sons.
Current Address - 16 Havradim St., Ganey-Yehuda, Israel.

II. University Education

University of Calif., Davis, 1951-1954 B.S. (Highest Honors) Irrig.
University of Calif., Davis, 1954-1955 M.S. Irrig.
University of Calif., Davis, 1955-1958 Ph.D., Plant Physiology

III. Research Interests

Water relations of plants
Plant nutrition
Electrolyte transport
Simulation of biological systems
Potential crop yields
Agricultural Physics.
Research management

IV. Positions Held

1956-57: University Fellow in Plant Physiology
U.C. Davis, Calif.
1955-56: Teaching Ass't, Dept. of Water Science and Engineering,
U.C. Davis, Calif.
1957-1958: Acting Instructor, U.C. Davis, Calif.
1958-1962: Ass't Prof., U.C. Davis.
1962-1967: Head, Dept. of Plant Physiology, Negev Inst.
Arid Zone Research, Beersheba, Israel.

- 1965-1966: Visiting Scientist at the Invitation of the Dutch Ministry of Agriculture at IBS, Wageningen.
- 1967-1968: Acting Director, Negev Institute of Arid Zone Research.
- 1968-1971: Director, Volcani Institute of Agricultural Research, Ministry of Agriculture, Bet Dagan, Israel.
Appointed Prof. Hebrew University.
- 1971 to date: Director, Agricultural Research Organization, and Chief Scientist, Ministry of Agriculture, Israel.
- 1973-1974: Visiting Professor at the invitation of MSU/AEC Plant Research Laboratory, Mich. State University, East Lansing, Mich.

V. Teaching Experience

- 1957-1962: U.C. Davis - A senior course given annually in Plant, Soil, Water Relations. 30 students. Three lectures, one laboratory per week for 14 weeks/year - A graduate course given annually in advanced topics in Plant Soil Water Relations. Average attendance 10 students. Two hrs. weekly, 14 weeks/year.
- 1963-1964: Hebrew University, Jerusalem - A graduate course, Plant Water Relations. 40 students, three lectures, one laboratory/week all year.
- 1963-1968: Informal graduate courses in Plant Physiology annually, Beersheba.
- 1967-1970: Ben Gurion University, Beersheba - A sophomore course in General Physiology. 90 students, 3 lectures, 2 laboratories per week, all year.
- 1973 - Participated in about a third of the lectures of a one quarter graduate course in Environmental Physiology. Dept. of Botany and Plant Research Laboratory MSU, East Lansing Mich.

Graduate Student Teaching - 14 graduate students completed their degrees under my research supervision. 5 of these completed a Masters Degree and 9 completed a Ph.D. degree. These were either at U.C. Davis or the Hebrew University in Jerusalem.

VI. Administrative Experience

- 1958-1962: Organize and supervise Research Program and plan budgets of Plant Water Relations Laboratory, U.C. Davis. Total staff 6 graduate students, one technician.
- 1963-1968: Establish Dept. of Plant Physiology, Negev Inst. of Arid Zone Research. Recruit staff and budgets. Organize and supervise research program. Staff numbered 8 research scientists and about 20 technical staff, including graduate students.

- 1966-1967: As Acting Director of Negev Institute assumed complete administrative responsibility for Institute. Total staff 150 of whom 50 were scientists of all grades. Fields of work included Plant Physiol., Animal Physiol., Desert Ecology, Soil mechanis, Chemical Engineering.
- 1964-1968: As a founding member of the Institute of Higher Learning in the Negev (Forrunner of Ben-Gurion University) organized the teaching program in Biology and participated in the decision making process as a member of the executive committee of the Institute.
- 1968-1971: Director, Volcani Institute of Agricultural Research. Responsibility for the research and administration of the Institute. Total staff: 1100 employees of whom 250 were scientists. The Institute operated several regional stations, field stations and experimental farms in various locations in Israel.

Additional responsibility assigned by the Minister of Agriculture was to reorganize government financed agricultural research, in Israel. This entailed establishing machinery for formulating national priorities and goals and reorganizing research units accordingly. The Volcani Institute and various other research units were combined and reorganized as the Agricultural Research Organization.

- 1971- to date - Responsibility for the operation of the Agricultural Research Organization. Seven Institutes of about 70-200 total staff each. Total staff of organization about 1500 of whom 350 are scientists.

As Chief Scientist of the Ministry, I am responsible for formulating ministerial scientific priorities, and policies and funding of Agricultural research in various Institutions.

Other duties and functions

Currently member in the following:

- Board of Trustees, Ben Gurion University, Beersheba.
- Executive Committee, Ministry of Agriculture, Israel.
- Board of Directors, Israeli Association for the Advancement of Science.
- National Commission on Higher Education.
- National Council for Research and Development.
- Board of Governors, U.S.- ISRAEL Binational Science Foundation.
- Executive Committee, U.S.- ISRAEL Binational Science Foundation.
- Consultative Group Agr. Research, World Bank, Washington, D.C.
- Committee on Stress Physiology, Int. Research and Development Corporation, Ottawa, Canada.

VII. Editorial functions

- member, Editorial Board, Israel J. Botany.
- Coeditor, Agriculture Series, Springer Verlag.
- Coeditor, Planta, Springer Verlag.

VIII. Invited Lectures and Seminars

- 1959 - International Congress of Irrigation and Drainage, Reno Nevada.
- 1962 - Guest seminars delivered at Pasadena Inst. Technology, Wageningen, Inst. of Plant Physiology and Zurich ETH
- 1964 - German Academy of Sciences, Leopoldina, Halle
- 1968 - International Congress of Biophysics, Jerusalem.
- 1969 - International Congress of Botany, Seattle (not delivered).
- 1969 - International Potash Symposium.
- 1972 - Seminars delivered at University of Western Australia (2), Adelaide (2), Aust. National Univ. (1), CSIRO (1), University of Sydney (2).
- 1973 - General meeting lecture, Israel Ass. Adv. Science, National meetings.
 - Purdue University, Two lectures.
- 1974 - Cornell University, one lecture.
- 1975 - Royal Society Symposium on Plant Water Stress Jan. 1975.

IX. International Travel, excluding scientific meetings.

- 1969 - FAO Rome - Work group on Agricultural Research.
- 1971 - Holland - Cooperation agreement in Agricultural Research.
- 1971 - South America - Argentina, Chile, Peru, Mexico, Israeli Study team for Interamerican Development Bank for the establishment of Arid Zone Research Institutes. Scheme proposed approved by States & Bank 1974.
- 1972 - Australia - Israel Scientific Exchange Scheme, Australia February March 1972.
 - Consultative Group, Agr. Centers Week, World Bank, July.
 - Life Institute, work group on goals, Helsinki, December.
- 1973 - Life Institute, Work group on goals, Helsinki, April.
 - International Res. Dev. Corp. Work group, priorities in stress physiology research. Saskatoon Sask. Canada, April.
 - Bucarest Romania, In charge of Israeli mission to conclude a cooperative agreement in Agricultural Research, June.
- 1974 - Paris, France, Conclude a cooperation agreement in agricultural research between Israel and France, February.

- 1974 - Washington D.C. Agricultural Centers Week, Consultative group,
World Bank, July.
- Washington D.C. Executive Committee, Binational Science
Foundation, November.

X. Membership in Societies

Phi Beta Kappa
Phi Kappa Phi
Sigma X;
American Society Plant Physiology
Scand. Society Plant Physiology.
Israel Botanical Society
Israel Soc. Soil Science
Israel Association for Advanced Science.

XI. Publications

- 1958 Vaadia, Yoash and V.H. Scott. Hydraulic properties of perforated well casings. ASCE Jour. of the Irrigation and Drainage Division. paper 1505, January.

DECLASSIFIED

MAR 11 2022

WBG ARCHIVES

Dear Sir,

Appointment of a New Member to T.A.C.

Please refer to your memorandum of May 28, 1975.

I agree to the nomination of Dr. J.G. ten Houten as a candidate
for a vacant post in T.A.C.

Yours sincerely,

B.O.E. AMON
SECRETARY, ARC/N.

AGRICULTURAL RESEARCH COUNCIL OF NIGERIA

MOOR PLANTATION

TO: THE DIRECTOR
AGRICULTURAL RESEARCH COUNCIL OF NIGERIA
MOOR PLANTATION, SOKOTO

FROM: [Name]
[Address]
[City]

The Director, Agricultural Research Council of Nigeria, Moor Plantation, Sokoto, Nigeria.

Dear Sir,

I am in receipt of your letter of the 15th/12/65 regarding the appointment of a new member to the Council. I am pleased to hear that you are considering my name for the position. I am sure that I shall be able to contribute to the work of the Council.

Yours faithfully,

[Signature]

CURRICULUM VITAE

NAME : Johan Gerard TEN HOUTEN

DATE OF BIRTH : April 17, 1911

PLACE OF BIRTH : Winterswijk, The Netherlands

ADDRESS : 18 Englaan, Wageningen, The Netherlands
Telephone : 08370 - 12989

UNIVERSITY EDUCATION :

- 1935 M.Sc. (Biology), Utrecht University
Curriculum : plant pathology, animal physiology, plant taxonomy.
In 1935 a plant collecting tour was made through the Eastern part of the U.S.A. and Canada for the Utrecht University Herbarium. Several plant pathological Centers were also visited.
- 1939 Ph.D. in plant pathology.
Research assistant in applied entomology, Royal Institute for the Tropics, Amsterdam.
- 1939 - 1942 Researchworker (plant pathologist - entomologist)
at the new Fiber Research Station near Malang,
Eastern Java, Indonesia.
- 1942 - 1946 P.O.W., responsible for the yeast production
(as a source of the vitamin B complex) in several
jungle camps on the Molluc Islands, Indonesia.
- 1946 - 1949 Head of the Biological Department of the Section
Biocides of the Royal / Shell Laboratories at
Amsterdam, stimulating and supervising the work
of several plant pathologists, entomologists,
herbologists and agriculturists.

1949 - 1974 Director, Institute of Phytopathological Research (IPO) at Wageningen.
This government research institute falls under the Ministry of Agriculture. The total personnel increased from 67 in 1949 till 125 in 1974, including 40 scientists. Research departments are : virology, mycology and bacteriology, entomology, nematology and a department studying the influence of air pollution on crop- and other plants. Much attention is paid to the evaluation of disease resistant varieties for which many national and international activities have been developed.

1971 - 1974 part - time professor in environmental sciences (especially general air pollution problems) at the Agricultural University, Wageningen.

1974 till now : full - time professor in the Knowledge of air pollution and Chairman of the University's Coordinating Committee on Environmental Sciences.

OTHER ACTIVITIES :

1951 - 1957 President of the Netherlands Phytopathological Society.

1968 - 1973 Secretary - General, International Society for Plant Pathology (I.S.P.P.).

1970 - 1973 Chairman Plant Protection Commission of the International Society for Horticultural Science (I.S.H.S.) and as such ex officio member of the Executive Committee of I.S.H.S.

1957 - 1969 Member of the Board of the International Agricultural Center, Wageningen and member of the Fellowship Committee.

- 1970 till now : President of the Royal Netherlands Society for Agricultural Science.
- 1969 - 1974 Advisory member to the National Agricultural Research Council of the Netherlands.
- 1973 till now : Member of the Dutch Committee of the International Man and Biosphere Programme.
- 1974 till now : Member of the Board of the Biological Council of the Royal Academy of Science and Arts.
- 1967 till now : Member of the Board of the Central Bureau for Fungus Cultures of the Royal Academy of Science and Arts at Baarn, The Netherlands.
- 1971 - 1974 Member of the research policy committee of the Agricultural University, Wageningen.
- 1970 till now : Member of the Government Council on Waterstate, being the Minister's Advisory Committee on Waterways, Waterpollutionproblems, Roads, Traffic, etc.

CONSULTANT ACTIVITIES :

- 1960 Advising in Tunisia on field trials related to the culture and production of the fiber crop Hibiscus sabdariffae (Kenaf).
- 1971 Advising the Indonesian government on plant protection research in Indonesian Horticulture.

PUBLICATIONS AND LECTURES :

Various publications, mainly on plant pathology and environmental pollution, amongst others : Scope and Contributions of Plant Pathology, one of the introductory chapters to the three volume American Handbook on Plant Pathology (1959), Edited by Horstall and Dimond (Academic Press).

In 1974 the Prefatory Chapter : Plant Pathology, changing agricultural methods and human society was published in the Annual Review of Plant Pathology.

In 1973 an inaugural address was given at the occasion of the 25th International Symposium for Phytopharmacy and Phytiatry, Ghent, Belgium, entitled : Chemicals, environmental pollution, animals and plants.

In 1974 an invitational paper : Air pollution and Horticulture was presented at the International Horticultural Congress at Warsaw.

- Many visits were paid to foreign research institutes and University laboratories studying plant diseases and insect control problems in the U.S.A., Canada, Surinam (South America), India, Indonesia, England, France, Germany, Sweden, Belgium and Denmark.

HONORS :

Honorary Doctor's Degree in Agricultural Sciences, Faculty of Agriculture, University of Ghent, Belgium (1963).

Officer in the Order of Oranje Nassau, The Netherlands.

Officer in the Order of the Crown, Belgium.

Corresponding member Deutsche Phytomedizinische Gesellschaft.

Much attention is paid to the evaluation of disease resistant varieties for which many national and international activities have been developed.

1971 - 1974 part - time professor in environmental sciences (especially general air pollution problems) at the Agricultural University, Wageningen.

1974 till now : full - time professor in the Knowledge of air pollution and Chairman of the University's Coordinating Committee on Environmental Sciences.

OTHER ACTIVITIES :

1951 - 1957 President of the Netherlands Phytopathological Society.

1968 - 1973 Secretary - General, International Society for Plant Pathology (I.S.P.P.).

1970 - 1973 Chairman Plant Protection Commission of the International Society for Horticultural Science (I.S.H.S.) and as such ex officio member of the Executive Committee of I.S.H.S.

1957 - 1969 Member of the Board of the International Agricultural Center, Wageningen and member of the Fellowship Committee.

- 1970 till now : President of the Royal Netherlands Society for Agricultural Science.
- 1969 - 1974 Advisory member to the National Agricultural Research Council of the Netherlands.
- 1973 till now : Member of the Dutch Committee of the International Man and Biosphere Programme.
- 1974 till now : Member of the Board of the Biological Council of the Royal Academy of Science and Arts.
- 1967 till now : Member of the Board of the Central Bureau for Fungus Cultures of the Royal Academy of Science and Arts at Baarn, The Netherlands.
- 1971 - 1974 Member of the research policy committee of the Agricultural University, Wageningen.
- 1970 till now : Member of the Government Council on Waterstate, being the Minister's Advisory Committee on Waterways, Waterpollutionproblems, Roads, Traffic, etc.

CONSULTANT ACTIVITIES :

- 1960 Advising in Tunisia on field trials related to the culture and production of the fiber crop Hibiscus sabdariffae (Kenaf).
- 1971 Advising the Indonesian government on plant protection research in Indonesian Horticulture.

PUBLICATIONS AND LECTURES :

Various publications, mainly on plant pathology and environmental pollution, amongst others : Scope and Contributions of Plant Pathology, one of the introductory chapters to the three volume American Handbook on Plant Pathology (1959), Edited by Horstall and Dimond (Academic Press).

In 1974 the Prefatory Chapter : Plant Pathology, changing agricultural methods and human society was published in the Annual Review of Plant Pathology.

In 1973 an inaugural address was given at the occasion of the 25th International Symposium for Phytopharmacy and Phytiatry, Ghent, Belgium, entitled : Chemicals, environmental pollution, animals and plants.

In 1974 an invitational paper : Air pollution and Horticulture was presented at the International Horticultural Congress at Warsaw.

Many visits were paid to foreign research institutes and University laboratories studying plant diseases and insect control problems in the U.S.A., Canada, Surinam (South America), India, Indonesia, England, France, Germany, Sweden, Belgium and Denmark.

HONORS :

Honorary Doctor's Degree in Agricultural Sciences, Faculty of Agriculture, University of Ghent, Belgium (1963).

Officer in the Order of Oranje Nassau, The Netherlands.

Officer in the Order of the Crown, Belgium.

Corresponding member Deutsche Phytomedizinische Gesellschaft.

ADRIAN FRANK POSNETTE

East Malling Research Station

Born: 11th January, 1914, at King's Norton, Birmingham.

Married: Three children.

Private address: Walnut Tree Cottage,
East Sutton,
Maidstone,
Kent.

Education:

1925 - 1932 Cheltenham Grammar School.

1932 - 1936 Christ's College, Cambridge.

Open Exhibitioner: Batchelor Scholar.

Natural Science Tripos:

1934 Part I (Botany, Physiology,
Zoology)
2nd Class (Div. 1) Hons.

1935 Part II (Zoology)
1st Class Hons.

Extra curricula activities:

Cambridge University Air Squadron.

C.U. Falcons (Football).

C.U. Hawks Club.

Captain of Christ's College Association
Football Club.

College colours also for swimming and
squash racquets.

Degrees:

B.A. (Cantab.)	1935
A.I.C.T.A. (Trinidad)	1937
M.A. (Cantab.)	1947
Ph.D. (London)	1952
Sc.D. (Cantab.)	1958
Elected to Royal Society	1971

Postgraduate career:

1935 - 1936	School of Agriculture, Cambridge; postgraduate course in Plant Genetics.
1936 - 1937	Imperial College of Tropical Agriculture, Trinidad. A.I.C.T.A. in Plant Genetics.
1937	Appointed Economic Botanist to the Department of Agriculture, Gold Coast Government (Colonial Service).
1944	Appointed Head of Botany and Plant Pathology, West African Cacao Research Institute.
1949	Seconded to East Malling Research Station from Colonial Service.
1954	Appointed to East Malling Research Station (P.S.O.)
1957	Promoted to S.P.S.O.
1957	Head of Plant Pathology Section, East Malling Research Station.
1958	Awarded Jones-Bateman Cup by the Royal Horticultural Society.
1967	Assistant to Director.
1969	Deputy Director and promoted to D.C.S.O.
1972	Director and promoted to C.S.O.

Scientific Societies:

Association of Applied Biologists (Council 1953 - 1955).

Society for General Microbiology (Founder Member).

Institute of Biology (Fellow).

Recent research/advisory tours abroad:

- 1959 (June - September) Rockefeller grant to visit research centres in U.S.A. and Canada.
- 1961 (September - December) Australian Commonwealth grant to visit New Guinea, Papua and all States in Australia.
- 1965 (January - February) Ministry of Overseas Development grant to visit Ghana to advise on cacao research.
- 1966 (February) Ministry of Overseas Development grant to visit Brazil to advise on cacao research.
- 1968 (August) Member of Royal Society Mission to Ghana to advise on organization of Research Institutes.
- 1970 (January - February) Advisory visit to South Africa at request of Cape Pomological Society and South African Government.
- 1971 (January) Advisory visit to Jamaica - Lethal Yellowing Research Project. Coconut Industry Board.
- 1971 (November) Advisory visit to Ghana (CRIG) for ODA.
- 1973 (January - February) Trinidad. Future financing of Cocoa Research at the U.W.I. Cocoa Research Alliance.
- 1974 (October) Ghana. Advisory visit for Cocoa Research Alliance.
- 1975 (January - February) Jamaica. Advisory visit for M.O.D. to assess the Lethal Yellowing Research Project.

PUBLICATIONS BY A.F. POSNETTE

ON VIRUS DISEASES OF CACAO

Transmission of swollen shoot of cacao.

Tropical Agriculture, 17, 98, 1940

Swollen shoot virus disease of cacao.

Tropical Agriculture, 18, 87, 1941

Control measures against swollen shoot virus disease of cacao.

Tropical Agriculture, 20, 116-123, 1943

The diagnosis of swollen shoot virus disease of cacao.

Tropical Agriculture, 21, 56-58, 1944

Virus diseases of cacao in Trinidad.

Tropical Agriculture, 21, 105-106, 1944

Use of seeds in the insect transmission of some plant viruses.

Nature, 159, 500, 1947

Virus diseases of cacao in West Africa.

- I. Cacao viruses 1A, 1B, 1C and 1D.
Ann. appl. Biol., 34, 388-402, 1947
- II. Cross-immunity experiments with viruses 1A, 1B and 1C.
(With S.H. Crowdy)
Ann. appl. Biol., 34, 403-411, 1947
- III. Technique of insect transmission.
(With A.H. Strickland)
Ann. appl. Biol., 35, 53-63, 1948
- V. Alternative host plants.
(With J.M. Todd and N.F. Robertson)
Ann. appl. Biol., 37, 229-240, 1950

VI. Vector investigations.

(With N.F. Robertson)

Ann. appl. Biol., 37, 363-377, 1950

VII. Virus transmission by different vector species.

Ann. appl. Biol., 37, 378-384, 1950

VIII. The search for virus-resistant cacao.

(With J.M. Todd)

Ann. appl. Biol., 38, 785-800, 1951

IX. Strain variation and interference in virus 1A.

(With J.M. Todd)

Ann. appl. Biol., 43, 433-453, 1955

Parasitism of the mealy-bug vectors of swollen shoot of cacao.

(With A.H. Strickland)

Nature, 163, 105, 1949

Virus research at the West African Cacao Research Institute,
Tafe, Gold Coast.

Tropical Agriculture, 28, 133-142, 1951

Virus diseases of cacao in West Africa: the present position.

Report of the 13th International Horticultural
Congress, 1952

ON POLLINATION OF CACAO

Natural pollination of cocoa, Theobroma leiocarpa Bern., on
the Gold Coast.

Tropical Agriculture, 19, 12-16, 1942

Natural pollination of cocoa, Theobroma leicocarpa Bern., on the Gold Coast II.

Tropical Agriculture, 19, 188-191, 1942

The pollination of cacao in the Gold Coast.

J. hort. Sci., 25, 155-163, 1950

Pollination of cacao in Trinidad.

Tropical Agriculture, 21, 115-118, 1944

ON SELF-INCOMPATIBILITY IN CACAO

Self-incompatibility in cocoa (Theobroma spp.)

Tropical Agriculture, 17, 67-71, 1940

Incompatibility in Amazon cacao.

Tropical Agriculture, 22, 184-187, 1945

Inter-specific pollination in Theobroma.

Tropical Agriculture, 22, 188-190, 1945

ON SELECTION AND BREEDING OF CACAO

Note on twinning cacao seedlings.

Tropical Agriculture, 19, 146, 1942

Cacao selection on the Gold Coast.

Tropical Agriculture, 20, 149-155, 1943

Progeny trials with cacao in the Gold Coast.

Empire Journal of Experimental Agriculture,
19, 242-252, 1952

ON MINERAL DEFICIENCY AND ON GROWTH OF CACAO

A morphological change induced in leaves of Theobroma cacao
by mineral deficiency.

(With M. Greenwood)

Nature, 159, 542, 1947

The growth flushes of cacao.

(With M. Greenwood)

J. hort. Sci., 25, 164-174, 1950

ON HEAT THERAPY OF VIRUS DISEASES

Heat inactivation of strawberry viruses.

Nature, 171, 312, 1953

Progress in the heat treatment for strawberry virus diseases.

(With R. Crepley and C.E. Ellenberger)

Rep. E. Malling Res. Sta. for 1952 (1953), 128

The heat therapy of virus diseases of fruit crops.

Trans. Brit. mycol. Soc., 39, 383, 1956.

Heat treatment for the inactivation of strawberry viruses.

(With R. Cropley)

J. hort. Sci., 33, 282-8, 1958

The use of cuttings and heat treatment to obtain virus-free strawberry plants.

(With A. Jha)

Rep. E. Malling Res. Sta. for 1959 (1960), 98

Heat inactivation of some apple and pear viruses.

(With R. Cropley and L.D. Wolfswinkel)

Rep. E. Malling Res. Sta. for 1961 (1962), 94

Thermotherapy of virus-infected plants.

(With Kassanis)

Recent Advances in Botany, 557-563, 1961

ON VIRUS DISEASES OF STRAWBERRY

New vectors of strawberry viruses.

Nature, 169, 837, 1952

Field studies on virus diseases of strawberries.

I. Rate of spread in the variety Auchincruive Climax.

(With Bovey)

Rep. E. Malling Res. Sta for 1951 (1952), 136

II. Seasonal periods of virus spread.

(With Cropley)

Rep. E. Malling Res. Sta. for 1953 (1954), 154

Green petal - a new virus disease of strawberries.

Plant Pathology 2, 17-18, 1953

Leafhopper transmission of a clover virus causing green petal disease of strawberry.

(With Frazier)

Nature, 177, 1040-1, 1956

Transmission and host-range studies of strawberry green petal virus.

(With Frazier)

Ann. appl. Biol., 45, 580-588, 1957

Strawberry mosaic virus disease.

Rep. E. Malling Res. Sta. for 1955 (1956), 120

Strawberry yellows in the variety Auchincruive Climax.

(With Cropley)

J. hort. Sci., 30, No. 1, 56-61, 1955

Relationships of the strawberry viruses of England and California.

(With Frazier)

Hilgardia, 27, 455-513, 1958

Transmission of a virus to strawberry plants by a nematode (*Xiphinema* sp.).

(With Jha)

Nature, Lond., 184, 962-63, 1959

Transmission of Arabis mosaic virus by the nematode *Xiphinema diversicaudatum*.

(With Jha)

Virology, 13, 119-123, 1961

Further studies of green petal and other leafhopper-transmitted viruses infecting strawberry and clover.

(With Ellenberger)

Ann. appl. Biol., 51, 69-83, 1963

Vascular feeding by Xiphinema diversicaudatum (Micol.).

(With Pitcher)

Nematologica, 9, 301-2, 1963

Strawberry varieties susceptible to arabis mosaic virus:
A Progress Report.

Rep. E. Malling Res. Sta. for 1963 (1964), 113

Strawberry virus diseases.

Rep. E. Malling Res. Sta. for 1963 (1964), 154

ON VIRUS DISEASES OF RIBES

New virus diseases of Ribes.

Rep. E. Malling Res. Sta. for 1951 (1952), 133

Transmission studies of gooseberry vein-banding virus.

Rep. E. Malling Res. Sta. for 1963 (1964), 110

The effects of black currant yellows virus and a strain of reversion virus on yield.

(With Cropley and Thresh)

Ann. appl. Biol., 54, 177-182, 1964

ON VIRUS DISEASES OF APPLE TREES

A preliminary report on strains of the apple mosaic virus.

(With Cropley)

Rep. E. Malling Res. Sta. for 1951, (1952), 128

Apple mosaic viruses. Host reactions and strain interference.

(With Cropley)

J. hort. Sci., 31, 119-133, 1956

The rubbery wood virus and apple propagation.

(With Cropley)

Rep. E. Malling Res. Sta. for 1951 (1952), 131

Distribution of rubbery wood virus in apple varieties and rootstocks.

(With Cropley)

Rep. E. Malling Res. Sta. for 1953 (1954), 150

Virus transmission between Prunus and Malus species.

Rep. E. Malling Res. Sta. for 1952 (1953), 131

Transmission of a virus causing star crack of apples.

(With Cropley)

J. hort. Sci., 34, 126-9, 1959

The reduction in yield caused by apple mosaic.

(With Cropley)

Rep. E. Malling Res. Sta. for 1958 (1959), 89

Indicator plants for latent virus infection in apple.

(With Cropley)

J. hort. Sci., 36, 168-73, 1961

The effect of virus infection on the growth and crop of
Apple, Pear and Plum trees.

(With Cropley and Ellenberger)

Phytopath Medit, 2, 158-61, 1963

The identification of some viruses infecting Apple, Pear
and Quince.

(With Wolfswinkel and Cropley)

Phytopath Medit, 2, 132-6, 1963

Natural spread of chlorotic leaf spot virus in apple and
quince.

(With Cropley)

Rep. E. Malling Res. Sta. for 1963 (1964), 115

Russet ring virus disease of apples in England.

(With Cropley)

Rep. E. Malling Res. Sta. for 1963 (1964), 117

The growth of apple trees with and without latent virus
infection.

(With Cropley)

Rep. E. Malling Res. Sta. for 1964 (1965), 150

Field experiments with chat-fruit virus disease of apple.

(With Cropley)

Ann. appl. Biol., 55, 439-45, 1965

ON VIRUS DISEASES OF PEARS

Virus diseases of pears in England.

J. hort. Sci., 32, 53-61, 1957

Quince indicators for pear viruses.

(With Cropley)

J. hort. Sci., 33, 289-91, 1958

A selection of Williams' Bon Chretien pear compatible with quince rootstocks.

(With Cropley)

Rep. E. Malling Res. Sta. for 1958 (1959), 91

Further studies on a selection of Williams' Bon Chretien pear compatible with Quince A rootstocks.

(With Cropley)

J. hort. Sci., 37, 291-4, 1962

ON VIRUS DISEASES OF PLUMS

Virus diseases of plums.

Rep. E. Malling Res. Sta for 1952 (1953), 182

The line pattern virus disease of plums.

(With Ellenberger)

Ann. appl. Biol., 45, 74-80, 1957

Bark-split - a virus disease of plums.

(With Ellenberger)

Ann. appl. Biol., 45, 537-579, 1957

A disease resembling plum pox in England.

(With Ellenberger)

Plant Path., 12, 115-27, 1963

ON VIRUS DISEASES OF CHERRY

Virus diseases of sweet cherries.

Rep. E. Malling Res. Sta. for 1950 (1951), 203

Virus diseases of cherry trees in England.

I. Survey of diseases present.

J. hort. Sci., 29, 44-58, 1954

II. Growth suppression caused by some viruses.

(With Cropley)

J. hort. Sci., 31, 298-302, 1956

III. Crop reduction caused by some viruses.

(With Cropley)

Rep. E. Malling Res. Sta. for 1959 (1960), 92

Leaf roll, a virus disease of cherry.

(With Cropley)

Rep. E. Malling Res. Sta. for 1954 (1955), 126

The leaf roll virus disease of sweet cherry.

Tijdschrift over Plantenziekten 62, 49-50, 1956

A canker disease of cherry trees caused by virus infection.

(With Cropley)

Plant Pathology, 6, 85-87, 1957

A little cherry disease in England.

(With Cropley)

Rep. E. Malling Res. Sta. for 1957 (1958), 122

European rusty mottle disease of sweet cherry.

(With Cropley)

Rep. E. Malling Res. Sta. for 1960 (1961), 85

The effect of latent virus infection on the growth and yield of sweet cherry trees.

(With Cropley)

Proc. 4th Symp. Virus Dis. Fruit Trees. Tidsskr.

Planteavl (Suppl.), 65, 118-23, 1961, 151

Necrotic rusty mottle virus disease of sweet cherries in Britain.

(With Cropley)

P. Path., 13, 1-3, 1964

Necrotic ring spot and prune dwarf viruses in Prunus and in herbaceous indicators.

(With Cropley and Gilmer)

Ann. appl. Biol., 53, 325-332, 1964 (1954)

Little cherry disease.

Plant Path., 13, 170-2, 1964

The incidence of virus diseases in English sweet cherry orchards and their effect on yield.

Ann. appl. Biol., 61, 351-60, 1968

Rep. 7th Commonwealth Entomol. Conf., 162-5, 1960

ON VIRUS DISEASES IN FRUIT TREES IN GENERAL

Virus diseases and the propagation of fruit trees.

Rep. E. Malling Res. Sta. for 1952 (1953), 179

The production and distribution of virus-free clones of fruit trees at East Malling.

(With Harris)

Rep. XIVth int. hort. Congr., The Hague, 1,
288-95, 1955

Virus-tested rootstocks and scion varieties.

(With Hoblyn)

Rep. E. Malling Res. Sta. for 1955 (1956), 151

The propagation of healthy fruit trees.

The Grower Annual Fruit Review, 26-9, 1954

Virus diseases of fruit crops.

(With Harris)

Nature, 170, 181-2, 1952

The study of virus diseases of fruit trees at East Malling Research Station.

Rep. 8th International Botanical Congress (1954)

The spread and control of virus diseases of fruit trees.

Sci. Hort., 13, 87-89, 1958

Virus diseases of fruit trees.

American Nurseryman, 107, 7, 15, and 63-65, 1958

Some aspects of virus spread among plants by vectors.

Rep. 7th Commonwealth entomol. Conf., 162-5, 1960

The economic importance of virus diseases of fruit trees in England.

N.A.A.S. quart. Rev., 11, (48), 170-5, 1960

The Mother Tree Scheme.

Rep. E. Malling Res. Sta. for 1961 (1962), 125

Virus diseases of fruit trees.

Rep. E. Malling Res. Sta. for 1963 (1964), 161

Soil-borne viruses in relation to fruit tree diseases.

Proc. fifth European Symposium on Fruit tree

Virus diseases Bologna 1962

Virus diseases of apples and pears. (BOOK)

T.C. 30, 1963. Edited by A.F. Posnette.

Contains 10 chapters written by A.F. Posnette.

Development and present problems in fruit tree virus research.

Proc. 7th Europ. Symp. Fruit Tree Virus Dis.,

July, 1967, 19-26.

Research behind virus-free trees in England. Span, 15, 58-60.

CURRICULUM VITAE

NAME : Johan Gerard TEN HOUTEN

DATE OF BIRTH : April 17, 1911

PLACE OF BIRTH : Winterswijk, The Netherlands

ADDRESS : 18 Englaan, Wageningen, The Netherlands
Telephone : 08370 - 12989

UNIVERSITY EDUCATION :

1935 M.Sc. (Biology), Utrecht University

Curriculum : plant pathology, animal physiology, plant taxonomy.

In 1935 a plant collecting tour was made through the Eastern part of the U.S.A. and Canada for the Utrecht University Herbarium. Several plant pathological Centers were also visited.

1939 Ph.D. in plant pathology.

Research assistant in applied entomology, Royal Institute for the Tropics, Amsterdam.

1939 - 1942 Researchworker (plant pathologist - entomologist) at the new Fiber Research Station near Malang, Eastern Java, Indonesia.

1942 - 1946 P.O.W., responsible for the yeast production (as a source of the vitamin B complex) in several jungle camps on the Molluc Islands, Indonesia.

1946 - 1949 Head of the Biological Department of the Section Biocides of the Royal / Shell Laboratories at Amsterdam, stimulating and supervising the work of several plant pathologists, entomologists,

1949 - 1974 Director, Institute of Phytopathological Research (IPO) at Wageningen.
This government research institute falls under the Ministry of Agriculture. The total personnel increased from 57 in 1949 till 125 in 1974, including 40 scientists. Research departments are : virology, mycology and bacteriology, entomology, nematology and a department studying the influence of air pollution on crop- and other plants. Much attention is paid to the evaluation of disease resistant varieties for which many national and international activities have been developed.

1971 - 1974 part - time professor in environmental sciences (especially general air pollution problems) at the Agricultural University, Wageningen.

1974 till now : full - time professor in the Knowledge of air pollution and Chairman of the University's Coordinating Committee on Environmental Sciences.

OTHER ACTIVITIES :

1951 - 1957 President of the Netherlands Phytopathological Society.

1968 - 1973 Secretary - General, International Society for Plant Pathology (I.S.P.P.)..

1970 - 1973 Chairman Plant Protection Commission of the International Society for Horticultural Science (I.S.H.S.) and as such ex officio member of the Executive Committee of I.S.H.S.

1957 - 1969 Member of the Board of the International Agricultural Center, Wageningen and member of the Fellowship Committee.

- 1970 till now : President of the Royal Netherlands Society for Agricultural Science.
- 1969 - 1974 : Advisory member to the National Agricultural Research Council of the Netherlands.
- 1973 till now : Member of the Dutch Committee of the International Man and Biosphere Programme.
- 1974 till now : Member of the Board of the Biological Council of the Royal Academy of Science and Arts.
- 1967 till now : Member of the Board of the Central Bureau for Fungus Cultures of the Royal Academy of Science and Arts at Baarn, The Netherlands.
- 1971 - 1974 : Member of the research policy committee of the Agricultural University, Wageningen.
- 1970 till now : Member of the Government Council on Waterstate, being the Minister's Advisory Committee on Waterways, Waterpollutionproblems, Roads, Traffic, etc.

CONSULTANT ACTIVITIES :

- 1960 : Advising in Tunisia on field trials related to the culture and production of the fiber crop Hibiscus sabdariffae (Kenaf).
- 1971 : Advising the Indonesian government on plant protection research in Indonesian Horticulture.

PUBLICATIONS AND LECTURES :

Various publications, mainly on plant pathology and environmental pollution, amongst others : Scope and Contributions of Plant Pathology, one of the introductory chapters to the three volume American Handbook on Plant Pathology (1959), Edited by Horstall and Dimond (Academic Press).

In 1974 the Prefatory Chapter : Plant Pathology, changing agricultural methods and human society was published in the Annual Review of Plant Pathology.

In 1973 an inaugural address was given at the occasion of the 25th International Symposium for Phytopharmacy and Phytiatry, Ghent, Belgium, entitled : Chemicals, environmental pollution, animals and plants.

In 1974 an invitational paper : Air pollution and Horticulture was presented at the International Horticultural Congress at Warsaw.

Many visits were paid to foreign research institutes and University laboratories studying plant diseases and insect control problems in the U.S.A., Canada, Surinam (South America), India, Indonesia, England, France, Germany, Sweden, Belgium and Denmark.

HONORS :

Honorary Doctor's Degree in Agricultural Sciences, Faculty of Agriculture, University of Ghent, Belgium (1963).

Officer in the Order of Oranje Nassau, The Netherlands.

Officer in the Order of the Crown, Belgium.

Corresponding member Deutsche Phytomedizinische Gesellschaft.

A. ALVIN BISHOP

Professor
Agricultural and Irrigation Engineering
Utah State University

Birthdate

August 27, 1913 - Delta, Utah

Education

Graduate, Delta High School, 1926-1930
B.S. Utah State University, 1930-1934
M.S. Utah State University, 1936-1938
Ph.D. Colorado State University, 1959-1961.

Teaching Experience

1946 - present Utah State University

Research Experience

1935 - 1937 Hydraulic Engineer, U.S. Resettlement Administration
1937 - 1938 Research Engineer, Utah State University
1938 - 1942 Hydraulic Engineer, U.S. Department of Agriculture
Bureau of Ag. Ec.
1942 - 1946 Water Facilities Engineer, Farmers Home Administration
1971 - 1974 Senior Water Management Specialist, Agency for Inter-
national Development (on leave from USU).

Research Projects

1935 - 1937 Field studies of water supply, water rights, and
irrigated areas in Duchesne and Uintah Counties,
United States Resettlement Administration.
1937 - 1938 Field studies of water supply, water rights, and
irrigated area in the Utah Lake drainage basin, Utah
State University.
1955-present Research in various problems of irrigation and drainage,
Utah State University.

Industrial Experience

1934 Summer, Assisted in survey and design of Hyde Park
culinary water system.

1934 - 1935 Draftsman. National Resources Board.

1935 Jr. Topographic Engineer, U.S. Geological Survey.

1935 - 1937 Jr. Irrigation Engineer, Resettlement Administration.

1938 Field Engineer, Utah Agricultural Experiment Station.

1938 - 1942 Cost Engineer, Pine Bluff Arsenal, Pine Bluff, Arkansas, Sanderson and Porter, New York.

1942 - 1946 Associate Civil Engineer, Farm Security Administration, USDA.

Consulting Experience - Registered Engineer, Utah, License 1042

1947 - 1948 Engineer for Building Contractor.

1947-present Part time. Consulting Engineer for Logan City. Design of culinary water supply line, hydro-electric line, sewers, water development wells, well pumping plants, and airport improvements.

1951 3 months. Irrigation consultant for United Fruit Co., Granada Division, Dominican Republic.

1953 3 months. Technical Irrigation Consultant for the Foreign Agricultural Service, USDA.

1956 4 months. Irrigation expert and consultant for the Food and Agriculture Organization of United Nations. This engagement was spent in Japan to advise and assist the Japanese Government in methods of irrigation to be used on sloping land.

1957 3 months. Irrigation consultant for the Aichi Irrigation Public Corporation in Japan. The Aichi Project is a 100 million dollar multi-purpose undertaking with supplemental irrigation being a major aspect of the project.

1958 3 months. Irrigation expert and consultant for the Food and Agriculture Organization of the United Nations and Japan to further advise the Government of Japan regarding irrigation methods, procedures, and organization and to check designs and inspect construction.

1960 3 months. Irrigation expert and consultant for the Food and Agriculture Organization of United Nations in Japan to assist the Government of Japan with the problems of irrigation of sloping lands.

1963 3 months. Special lecturer for the SEATO Graduate School of Engineering, conducting special classes in Irrigation Structures and Irrigation Science in East Pakistan, Thailand, and the Philippines.

- 1965 3 months. Irrigation Consultant for USAID in Near East and South Asia (Egypt, Jordan, Lebanon, Turkey, Iraq, Afghanistan, Iran, Pakistan, India and Cyprus) to arrange papers for presentation at the 6th NESA Irrigation Practices Seminar.
- 1966 2 months. Irrigation Consultant for USAID as technical leader for the 6th NESA Irrigation Practices Seminar and technical editor for the proceedings of the Seminar.
1 month. Special lecturer for drainage course in Bolivia sponsored by CIDIAT.
- 1967 1 month. Special lecturer for drainage course in Peru sponsored by CIDIAT.
- 1968 2 months. Arrange 7th NESA Irrigation Practices Seminar.
1 month. Technical leader and editor of proceedings of 7th NESA Irrigation Seminar.
- 1970 2 months. Arrange 8th NESA Irrigation Practices Seminar.
1 month. Afghanistan. Technical leader for the 8th NESA Irrigation Practices Seminar.

Scientific and Professional Societies

American Society of Agricultural Engineers
 American Society of Civil Engineers (fellow)
 (Editor Irrigation & Drainage Division Journal, 1965-69
 Member of Irrigation & Drainage Executive Committee, 1969 - present)
 American Society of Engineering Education
 Sigma Xi
 Utah Education Association
 National Society of Professional Engineers

Honors and Awards

National Science Foundation "Science Faculty Fellowship" 1959-1961.
 Technical Advisor, Sixth, Seventh & Eighth Near East-South Asia Irrigation Practices Seminar, Jordan, Pakistan & Afghanistan, 1966, 1968, 1970.
 Editor, Journal of the Irrigation and Drainage Division, American Society of Civil Engineers, 1967-present.
 Member E.C. ASCE Irrigation and Drainage Division, 1968-present.
 Science Exchange Professor to Romania, 1971.
 Faculty Honor Lecture, Utah State University, 1971.

Publications: (Individual Authorship)

Don't Waste Precious Water. Published in Utah Farmer, May 5, 1955.
 Report to the Government of Japan. The Irrigation of Sloping Lands. FAO Report No. 616, Rome, 1957.
 Report of Consulting Services to the Aichi Irrigation Public Corporation, August, 1957.

Report to the Government of Japan. The Irrigation of Sloping Lands. FAO Report No. 939, Rome, 1958.

Consolidation of Irrigation Companies and Systems. Journal of the Irrigation and Drainage Division, ASCE, Sept. 1959. Republished in Trans. of ASCE, Vol. 126, Part III, 1961.

Relation of Intake Rate to Length of Run in Surface Irrigation. Transactions of ASCE, Vol. 127, No. IRI, March, 1961.

Sediment Transport in Alluvial Channels: A Critical Examination of Einstein's Theory. Ph.D. Dissertation, Colorado State Univ., July, 1961.

Reclamation of Poorly Drained Soils. Utah Science, Agr. Exp. Stn., Logan, Utah, Vol. 23, No. 1, March 1962.

Irrigation. Harpers Encyclopedia of Science 2:624, 1963, revised 1963.

Proceedings Sixth Near East-South Asia Irrigation Practices Seminar, Amman, Jordan, 1966 (Technical Editor).

Proceedings Seventh Near East-South Asia Irrigation Practices Seminar, Lahore, Pakistan, 1968 (Technical Editor).

Proceedings Eighth Near East-South Asia Irrigation Practices Seminar, Kabul, Afghanistan, 1970 (Technical Editor).

Conflicts in Water Management, Forty-second Honor Lecture, March 10, 1971. Published by Utah State University.

Water Management Problems, Proceedings of First World Congress on Water Resources, Chicago, Ill., Sept. 1973.

On-Farm Water Management. Paper prepared for Seminar on "Soil Management and The Development Process in Tropical America." Feb. 10-14, 1974. Cali, Colombia.

Publications: (Joint Authorship)

The following reports were published as mimeograph releases by the Bureau of Agricultural Economics, USDA, 1939-1942.

Water Facilities Plan - Nebo Area
 Water Facilities Plan - Sanpete Area
 Water Facilities Plan - Pahvant Area
 Water Facilities Plan - Enterprise-Beryl Area
 Water Facilities Plan - Cedar-Parowan Area
 Water Facilities Plan - Clarkston Creek Area
 Water Facilities Plan - Virgin River Area
 Water Facilities Plan - Willow Creek Area

Drainage Can Reclaim Much Potentially Valuable Land in Utah. A. A. Bishop, O. W. Israelsen. Farm and Home Science, Vol. 14, No. 4, Dec. 1953.

Needs for and Methods of Drainage--Logan-Hyde Park-Benson Area, Utah. O. W. Israelsen, C. H. Milligan, A. A. Bishop. Special Report No. 11, Nov. 1955.

Analysis of Water Advance in Surface Irrigation. Yu-Si Fok, A. A. Bishop. Journal of the Irrigation and Drainage Division, ASCE, 91 (IR1):99-116. March 1965.

Total Bed Material Transport. A. A. Bishop, D. B. Simons, E. V. Richardson. Journal of the Hydraulics Division, ASCE, 91 (HY2): 176-191. March 1965.

Influence of Exchangeable Ions on the Stability of Drain Banks. M. H. Abdel Aziz, A. A. Bishop, I. S. Dunn. Transactions of ASAE 9(6):788-792. 1966.

Evaluation of Intake Rate Constants as Related to Advance of Water in Surface Irrigation. J. E. Christiansen, A. A. Bishop, F. W. Kiefer, Jr., Yu-Si Fok. Transactions of the ASAE 9(5):671-674. 1966.

Development of Irrigation Institutions in the Near East and South Asia 1956-66. Dean F. Peterson, A. A. Bishop. Proceedings, International Conference on Water for Peace, Paper 420. Washington, D. C. May 1967.

Analysis of Surface Irrigation Application Efficiency. L. S. Willardson, A. A. Bishop. Journal of the Irrigation and Drainage Division, ASCE, 93 (IR2):21-36. June 1967.

The Characteristics and Pollution Problems of Irrigation Return Flows. A. A. Bishop and H. B. Peterson, Editors. Federal Water Pollution Control Administration. May 1969.

Transient Functions for Land Drainage. S. Abdollah Jenab, A. A. Bishop, Dean F. Peterson, Jr. Journal of the Irrigation and Drainage Division, ASCE, 95 (IR3):361-373. September 1969.

Expressing Irrigation Efficiency in Terms of Application Time, Intake and Water Advance Constants. Yu-Si Fok, A. A. Bishop. Transactions of the ASAE 12(4):438-442. 1969.

Graphic Relation of Intake, Length-of-Run and Time. I-pai Wu, A. A. Bishop. Journal of the Irrigation and Drainage Division, ASCE. Vol. 96 No. IR3. Sept. 1970.

The Characteristics and Pollution Problems of Irrigation Return Flow. A. A. Bishop, H. B. Peterson, et al. U.S. Dept. of the Interior, Federal Water Pollution Control Administration. May 1969.

Extending Utility of Non-Urban Water Supplies. A. A. Bishop, Jay Bagley, et al. Prepared for the National Water Commission. July 1971.

A Water Harvesting Plan for Barani Lands of Pakistan. USAID/Pakistan. Oct. 1972.

Appraisal of Soil and Water Management Projects in India. A. A. Bishop, Milo Cox. Agency for International Development/TA/Agr. 1974.

Papers before Professional Societies

Hooper Pilot Drain Ground Water Studies. A. A. Bishop and F. M. Warnick. Irrigation and Drainage Conference of ASCE, Salt Lake City, Utah, Sept. 1954.

The Use of Concrete Pipe to Increase Irrigation Efficiency. A. A. Bishop. Field meeting of Western Concrete Pipe Assoc., Reno, Nev. Oct. 1955.

Drainage History. A. A. Bishop. Agricultural Engineering Conference Logan, Utah. Jan. 1955.

Consolidation of Irrigation Companies. A. A. Bishop. Denver meeting of the Western Agricultural Economics Water Resources Committee. Nov. 1958.

Consolidation of Irrigation Companies and Systems. A. A. Bishop. Los Angeles Convention of ASCE, Feb. 1959.

Influence of Exchangeable Ions on the Stability of Drain Banks. M. H. Abdul Axix, A. A. Bishop, I. S. Dunn. Presented at the Winger Meeting, ASAE, Chicago, Ill. Dec. 7-10, 1965.

Drought-Proofing by Use of Ground Water Reserves. A. A. Bishop. Presented to Irrigation and Drainage Division Specialty Conference, ASCE, Las Vegas, Nev. Nov. 2-4, 1966.

Development of Irrigation Institutions in the Near East and South Asia 1956-66. Dean F. Peterson, A. Alvin Bishop. Presented to the International Conference on Water for Peace, Washington, D. C. May 23-31, 1967.

In Situ Determination of Aquifer Parameters for Use in the Drainage Functions. S. Abdollah Jenab, Dean F. Peterson, A. Alvin Bishop. Presented at 1968 Annual Meeting of the American Society of Agricultural Engineers, Utah State Univ., Logan, Utah. June 19-21, 1968.

Expressing the Irrigation Efficiency in Terms of Application Time, Intake and Water Advance Constants. Yu-Si Fok and A. Alvin Bishop. Presented at Winter Meetings of the American Society of Agricultural Engineers, Chicago, Ill. Dec. 10-13, 1968.

Problems of Pollution of Irrigation Waters in Arid Regions. H. B. Peterson, A. A. Bishop, J. P. Law, Jr. Presented at the AAAS International Conference on Arid Lands in a Changing World, Tucson, Ariz. June 3-13, 1969.

The Effect of Intake Equations on the Development of the Water Advance Equation for Surface Irrigation. Yu-Si Fok, A. A. Bishop, Charles C. C. Shih. Presented at Annual Meeting of American Society of Agricultural Engineers, Minneapolis, Minn. July 7-10, 1970.

Double Centroid and Minimized Cost Methods of Calculating Land Grading Slopes. H. A. Paul, G. E. Stringham, A. A. Bishop. American Society of Agricultural Engineers, Winter Meeting, 1973. No. 73-2563.

On-Farm Water Management. Seminar on "Soil Management and the Development Process in Tropical America." Cali, Colombia. Feb. 10-14, 1974.

Irrigation and Water Distribution Infrastructure Amplification and Optimization. A. A. Bishop. Presented at 13th Convention of Union Panamericana de Asociaciones de Ingenieros (UPADI), Toronto, Canada. Oct. 6-12, 1974.

Curriculum vitae

Ewert Åberg
Professor and Head of Department of Plant Husbandry,
Agricultural College of Sweden, S-750 07 Uppsala 7

Born, Dec. 4, 1909
Fil.kand. (B.S.) in Botany, Genetics and Geology,
University of Lund, 1931
Agronom (B.S.) in Agriculture, Agricultural Institute,
Alnarp, 1933
Fil.lic. (M.S.) in Botany, University of Lund, 1938
Fil.dr (Ph.D.) in Botany, University of Uppsala, 1940
Agr.lic. (M.S.) in Plant Husbandry and Genetics,
Agricultural College of Sweden, Uppsala, 1945

Assistant in Plant Husbandry, Agricultural College, Uppsala,
1934-1940
Assistant professor in Plant Husbandry, Agricultural College,
Uppsala, 1940-1949 (Leave of absence 1940-1945)
Postdoctorate fellow, Iowa State College, Iowa, 1940-1942
Postdoctorate research assistant in Agronomy and Plant
Pathology, University of Wisconsin, Madison, Wis. and
collaborator, U.S. Dept. of Agriculture, Washington DC,
1942-1945
Associate professor in Plant Husbandry, Agricultural College,
Uppsala 1949-1962
Professor and Head of Department of Plant Husbandry,
Agricultural College, Uppsala, since 1962
Chairman of the agronomy research section at the Agricultural
College, Uppsala, meaning responsibility for the field
experimental work in the whole of Sweden, since 1962
Besides being the examiner in plant husbandry at the Agricultural
College, Uppsala, also the examiner in the subject tropical
agriculture since 1968, when this subject was started at
the college
Member of missions and committees under the sponsorship of the
Swedish International Development Authority (SIDA) and
consultant to SIDA on various crop production problems,
since 1965
Member of the special committee at the Agricultural College,
Uppsala on activities in the developing countries,
since 1964
Lecturer at the FAO Training Center on Plant Breeding and
Seed Production, Buenos Aires, April-May 1966
Travels to various parts of the world, meaning visits to
most countries in Europe, to many countries in Asia
and Africa and to North and South America
Secretary-General of the Seventh International Botanical
Congress, Stockholm 1950

Vice-Chairman of the Board of Directors, The National Seed Testing Station, Solna
Chairman and member of several committees on agronomic research problems and other agricultural activities in Sweden
Member of the Royal Swedish Academy of Forestry and Agriculture, Stockholm
Chairman of the Symposium on Plant Response to Climatic Factors, arranged by UNESCO 1970
President of the European Grassland Federation 1971-1973 and Chairman of the 5th General Meeting of the European Grassland Federation, Uppsala 1973
Technical Adviser in Oil Seed Production, Pakistan, March-June 1971
Member of the "Committee on the Effect of Herbicides in Vietnam", National Academy of Sciences, Washington D.C. 1971-1974
Member of Board of Governors and of the Program Committee of ICRISAT
Member of the Scientific Advisory Panel of the International Foundation of Science, Stockholm

Received the A.W. Bergsten Prize from the Royal Swedish Academy of Forestry and Agriculture, 1953
Honorary Member of the Student Body of the Agricultural College of Sweden, Uppsala

Biographical references:

Vem är det (Who is who in Sweden)
Who's Who in Europe
Who's Who in Science in Europe

Publications:

About 850 papers and articles on scientific and agricultural problems among which could be mentioned:
The Taxonomy and Phylogeny of *Hordeum* L. Sect. *Cerealia* Ands. - Symb. Bot. Ups. IV:2, 1940
Classification of Barley Varieties Grown in the United States and Canada in 1945. - Techn. Bull. 907, U.S.D.A., Washington DC, 1946 (with G.A. Wiebe)
Taxonomic Value of Characters in Cultivated Barleys. - Techn. Bull. 942, U.S.D.A., Washington DC, 1948 (with G.A. Wiebe)
Different Isomers of Phenoxyacetic Acids and Phenols, their Effect and Value as Weed Killers. - Ann. Roy. Agric. Coll., Uppsala 1954
What should be done for the Agriculture in Underdeveloped Countries (In Swedish). - Skogs- och Lantbruksakad. Tidskr., 1968
Protein Crops in the Crop Production (In Swedish). - Ibid. 1969
Världssvälten kan hejdas (In Swedish). Translated: The World Hunger can be stopped). - Stockholm 1970, 102 pages

A more varied Crop Husbandry - Alternative Crops (In Swedish).
- Skogs- och Lantbruksakad. Tidskr. 1971
Production and Use of Cereals in Sweden. - Bharat Krishak Samaj,
Yearbook 1972, Madras, India
Nutrition and the Planning of Agricultural Production. - In:
Nutrition, A Priority in African Development, Uppsala
1972
Climates and Plants in World Production of Food. - In: Ecology
and Conservation 5, Paris 1973
Planning of Cropping Systems for Intensified Cereal Production
(In Swedish). - Lantbruksekonomiska Samarbetsnämnden,
Stockholm 1974

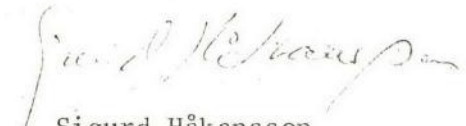

Uppsala, February 19, 1975

Ewert Åberg

CURRICULUM VITAE

Harald Skjervold

Born: 8. March 1917

Graduation: 1943 from Agricultural University of Norway

Academic degrees: Doctor agriculturæ 1959

Present position: Professor in animal breeding at the
Agricultural University of Norway

Publications: About 50 publications dealing with animal breeding
and genetics.

Special rewards: Jon Sundby's honorary reward 1970

Justus von Liebig prize 1972

Other activities: Chairman of the Association of Nordic Agricultural
Researchers 1964-70

Member of the interim board of University
of Tromsø

Vice-chairman of the Norwegian Fisheries
Research Council.

Lars Strand

Born: 11. May 1924

Graduation: 1948 from Agricultural University of Norway

Academic degree: Doctor agriculturæ 1959

Present position: Research officer at the Norwegian Forest Research
Institute and professor in forestry at the
Agricultural University of Norway
Rector (vice-chancellor) there since 1971

Publications: About 30 publications dealing mostly with forest
biometry and forest production

Other activities: President of the Norwegian Association of
Agricultural Graduates 1970-71.

Chairman of the agricultural advisory committee
under NORAD.

INSTRUCTIONS

Answer each question clearly and completely. Type or print in ink. Read carefully and follow all directions.

Do Not Write In This Space

**UNITED NATIONS
PERSONAL HISTORY**

1. Family name: **WITWER** First name: **SYLVAN** Middle name: **HAROLD** Maiden name, if any: _____

2. Date of birth: **January 17, 1917** 3. Place of birth: **Hurricane, Utah** 4. Nationality at birth: **U.S.A.** 5. Present nationality: **U.S.A.** 6. Sex: **M**

7. Height: **5' 9 1/2"** 8. Weight: **155** 9. Marital status: Single Married Separated Widower Divorced

10. Entry into United Nations service might require assignment and travel to any area of the world in which the United Nations might have responsibilities. Have you any disabilities which might limit your prospective field of work or your ability to engage in air travel? YES NO If "yes", please describe.

11. Permanent address: **1767 Hitching Post Road, East Lansing, Michigan 48823**

12. Present address: **1767 Hitching Post Road, East Lansing, Michigan**

13. Permanent telephone no.: **517-355-0123 Business**
517-351-8158 Home

14. Present telephone no.: **same as above**

15. Have you any dependents? YES NO If the answer is "yes", give the following information:

NAME	Date of Birth	Relationship	NAME	Date of Birth	Relationship
Carl Thomas Wittwer	3/8/55	son			
Arthur John Wittwer	12/28/50	son			
Maurine C. Wittwer	12/20/1917	wife			

16. Have you taken up legal permanent residence status in any country other than that of your nationality? YES NO If answer is "yes", which country?

17. Have you taken any legal steps towards changing your present nationality? YES NO If answer is "yes", explain fully:

18. Are any of your relatives employed by a public international organization? YES NO If answer is "yes", give the following information:

NAME	Relationship	Name of International Organization

19. What is your preferred field of work? **Agricultural Research**

20. Would you accept employment for less than six months? YES NO

21. Have you previously submitted an application for employment with U.N.? If so, when? **NO**

22. KNOWLEDGE OF LANGUAGES. What is your mother tongue? **English**

OTHER LANGUAGES	READ		WRITE		SPEAK		UNDERSTAND	
	Easily	Not Easily	Easily	Not Easily	Fluently	Fluently	Easily	Not Easily
German		X		X		X		X
French		X		X		X		X

23. For clerical grades only. Indicate speed in words per minute. List any office machines or equipment you can use.

	English	French	Other languages	
	Typing			
Shorthand				

Give full details of university or equivalent

NAME, PLACE AND COUNTRY	YEARS ATTENDED		DEGREES and ACADEMIC DISTINCTIONS OBTAINED	MAIN COURSE OF STUDY
	FROM	TO		
Utah State University Logan, Utah, U.S.A.	1935	1940	B.S.	Horticulture
University of Missouri Columbia, Missouri	1940	1943	Ph.D	Horticulture

B. SCHOOLS OR OTHER FORMAL TRAINING OR EDUCATION FROM AGE 14 (e.g. high school, technical school or apprenticeship)

NAME, PLACE AND COUNTRY	TYPE	YEARS ATTENDED		CERTIFICATES OR DIPLOMAS OBTAINED
		FROM	TO	
Hurricane High School Hurricane, Utah	High School	1931	1935	Diploma of Graduation

25. LIST PROFESSIONAL SOCIETIES AND ACTIVITIES IN CIVIC, PUBLIC OR INTERNATIONAL AFFAIRS

American Association for the Advance of Science (Fellow)	Sigma Xi
American Society Plant Physiology	
Botanical Society of America	Int'l Horticultural Society
Society for the Development of Biology	
Scandinavian Society Plant Physiology	AMER. SOC. HORT. SCIENCE (FELLOW)
Amer. Institute Biological Sciences	

26. LIST ANY SIGNIFICANT PUBLICATIONS YOU HAVE WRITTEN (Do not attach)

(a.) Wittwer, S. H., et.al. 1965. Pathways and mechanisms for foliar absorption of mineral nutrients as revealed by radioisotopes. Proc. IAEA/FAO Symposium, "Isotopes and Radiation in Soil Plant Nutrition Studies," pp. 387-403. Ankara, Turkey, June 28-July 2.

(b) Wittwer, S. H. 1967. Approaching Max. Capacity in Prod. PROC. 11th Ann. Mtg. Agr. Res. Inst pp. 97-124. Oct. 16-17. (c) Wittwer, S. K. 1970. Res. & Techn. in the U.S. Food Supply. Res. for the World Food Crisis. pp. 77-121. AAAS Publ. No. 92, Wash., D. C.

Plus a total of 361 publications (see attached for the record).

27. EMPLOYMENT RECORD: Starting with your present post, list in reverse order every employment you have had. Use a separate block for each post. Include also service in the armed forces and note any period during which you were not gainfully employed. If you need more space, attach additional pages of the same size.

FROM MONTH/YEAR	TO MONTH/YEAR	SALARIES PER ANNUM		EXACT TITLE OF YOUR POST:
		STARTING	FINAL	
Aug. 1965	Apr. 1971	\$20,000	\$31,000	Director, Michigan Agricultural Experiment Station; Asst. Dean, College of Agr. and Natural Resources. <i>PROF. OF HORTICULTURE</i>
NAME OF EMPLOYER: Michigan State University				TYPE OF BUSINESS: Director of Research
ADDRESS OF EMPLOYER: East Lansing, Michigan, U.S. A. 48823				NAME OF SUPERVISOR: Dean L. L. Boger
				NO. AND KIND OF EMPLOYEES SUPERVISED BY YOU: 275 research scientists
REASON FOR LEAVING:				

DESCRIPTION OF YOUR DUTIES

Total Administration of all research in agriculture and natural resources, including human ecology (home economics) at Michigan State University. I establish policy, planning, direction, programming and budgeting of resources for research. Develop new programs for research and strive for implementation and a better understanding of agricultural research and support for it.

TO		SALARIES PER ANNUM		EXACT TITLE OF YOUR POST:		
MONTH/YEAR	MONTH/YEAR	STARTING	FINAL			
1951	August, 1965	\$7500	\$20,000	Professor of Horticulture		
NAME OF EMPLOYER: Michigan State University				TYPE OF BUSINESS: Research and Teaching		
ADDRESS OF EMPLOYER: East Lansing, Michigan, U.S.A. 48823				NAME OF SUPERVISOR: Department Chairmen: Dr. H. B. Tukey and Dr. H. J. Carew		
NO. AND KIND OF EMPLOYEES SUPERVISED BY YOU: 3 - 14 grad. students			REASON FOR LEAVING: Promotion to above position			
DESCRIPTION OF YOUR DUTIES technicians & PostDoct. fellows.						
Research and teaching in the plant sciences - specifically the use of radioisotopes in studies of foliar nutrition and the permeability of nutrient sprays through leaf surfaces and into cells. Plant growth regulants and chemical and environmental factors in the control of flowering, fruiting and senescence.

PERSONAL AND PROFESSIONAL STATEMENT

James Herbert Jensen

Born : June 16, 1906 - Madison, Nebraska. Father - Jens Jensen (b. 1857); Mother - Eda (Hansen) Jensen (b. 1878).

Married : November 2, 1931 at Albany, New York to Lucille Irene Christopher.

Children : Four children and ten grand children.

Education :

- Madison (Nebraska) High School Graduate 1924.
- University of Nebraska, College of Agriculture, major in plant sciences, 1924 - 1928. B.Sc.
- University of Nebraska, Graduate College, plant pathology, 1928 - 1930, M.A. Thesis : Pathological Anatomy of Alfalfa Wilt.
- Columbia University, Graduate School, plant physiology, 1931 - 1932.
- University of Wisconsin, Graduate College, plant physiology - plant pathology, 1932 - 1934, Ph.D. Thesis : Origin of Yellow Strains of Tobacco Mosaic Virus.

Employment Record :

- Baragua, Cuba 1930 - 1931. Assistant pathologist - Cuba Sugar Club Experiment Station (operated by the Tropical Plant Research Foundation). Studied distribution of sugarcane roots in soils and sugarcane root diseases as influenced by variations in soil types, moisture levels and other factors. One paper. (Also translated in Spanish).
- Yonker, New York, 1931 - 1932. Fellow at Boyce Thompson Institute for Plant Research. Investigated symptoms of tobacco mosaic and particularly eruptions of leafy outgrowths resulting in Nicotiana glauca and N. peniculata infected with virus of tobacco mosaic. One paper.

- Princeton, New Jersey, 1932 - 1935. Assistant pathologist at Rockefeller Institute for Medical Research. (During this period one academic year was spent in residence at University of Wisconsin). Carried out researches on the origin and types of mutations in tobacco mosaic virus. Three papers. Significant findings included:
 - a) Mutations occur in diseased leaves during multiplication of virus.
 - b) Isolated unusual mutant strains that probably cannot persist in nature because of "slow moving" and low pathogenicity.
 - c) As many "different" strains of virus can be isolated as the techniques and patience of research worker can allow.
 - d) Isolated and characterized some 57 different strains of TMV.
 - e) Isolated JD14, a strain lethal to tomatoes. This strain has been widely used in research by geneticists, biochemists and molecular biologists.

- Mayaguez, Puerto Rico, 1935 - 1937. Plant Pathologist and Physiologist, Assistant Director and sometimes Acting Director. Puerto Rico Experiment Station (U.S. Dept. of Agric.). Studied virus diseases of sugarcane and papaya and "frenching" of citrus. Published results on each of these subjects. Administrative duties consisted of assisting in the management of research station staffed by some 15 to 20 technical members and employing a labor force of upwards of 100 men and women. During absences of Director, sometimes for weeks at a time, served as Acting Director.

Professional activities included :

1. Surveyed sugarcane diseases in Puerto Rico.
 2. Tentatively identified vector of papaya bunchy-top, a virus disease.
 3. Showed "frenching" in citrus due to zinc deficiency.
 4. Conducted preliminary tests with N, K & P on sugarcane.
-
- Lincoln, Nebraska, 1937 - 1946 (see following note). Associate plant pathologist, University of Nebraska. Conducted laboratory, green-house, and field studies on bacterial diseases of snap and dry beans and on diseases of potatoes; served as instructor and supervised graduate instruction for the department and served on State Seed Certification Committee, and

on committees charged with management of major agricultural experiment sub-stations. Several research papers and bulletins. Identified sources of resistance to halo blight in beans. Published bulletin, Diseases of Potatoes in Nebraska. Developed Scottsbluff Pinto Bean variety. Transmitted Aster Yellows to Potatoes. Conducted experiments on crop rotations on scab, rhizoctonia and fusarium wilt on potatoes.

- Ciudad Trujillo, (since Trujillo's death, again called Santo Domingo City) Dominican Republic, 9 months in 1941 (on leave of absence from University of Nebraska). Agriculturist in a survey group under auspices of Brookings Institution of Washington, D.C., engaged in a study of the economics of refugee settlement in the Dominican Republic. A report of this study was published in book form by the Brookings Institution.
- Raleigh, North Carolina, 1945 - 1953 (see following note). Head, Plant Pathology Section of North Carolina State College. Duties consisted of directing research and theses of several graduate students, directing department of plant pathology research, instruction and extension, besides carrying out original research in the field of virus diseases and diseases of potatoes and peanuts. The staff consisted of sixteen professional plant pathologists and represented at that time one of the larger and more active groups in this field in the country. Several papers. Developed method to maintain cultures of P. solanacearum in culture.
- Washington, D.C. 1948 - 1949 (on leave of absence from North Carolina State College). Chief, (newly created post) Biology Branch of the Division of Biology and Medicine of the United States Agency Energy Commission. Duties consisted of reviewing plans and defending the budgets and interpreting the biological work in the various National Laboratories of the Commission; stimulating and fostering research in the field of atomic energy in the various biological laboratories in colleges and universities throughout the country; coordinating the work of the Biological Branch with the Medical Branch and the Bio-Physical Branch of the Division of Botany and Medicine.

- Ames, Iowa, 1957 - 1961. Provost and Professor of Botany, Iowa State University. The duties were essentially those of an executive vice-president and Dean of Faculty. During absences of the President from campus, the Provost became executive officer. Acting on behalf of the President, the Provost appointed all-University Committees, reviewed budgets, reviewed promotions, salary changes, appointments, leaves of absence, travel authorizations, reviewed contracts with industry and agencies of the federal and state government, reviewed and recommended educational and personnel policies, coordinated studies on costs analysis and classroom and laboratory space utilization.
- Corvallis, Oregon, 1961 - 1969. President and Professor of Botany and Plant Pathology, Oregon State University. Duties varied and unpredictable. Oregon State University during this period became one of the three first institutions identified as "Sea-Grant Universities".
- The Rockefeller Foundation, 1969 to present. Acting Vice-Rector of Kasetsart University and Agricultural Project Leader, Foundation Administrative Representative for Thailand (8 months - 1970).

Other Activities :

1. Chairman, Sub-Committee on Waste Disposal and Decontamination of the National Committee on Radiation Protection 1948 - 1955. This committee authored several handbooks published by the United States National Bureau of Standards.
2. President, American Phytopathological Society, 1955, elected, Member of council 1953 - 1955. Fellow 1965.
3. Member, Commission of the North Central Commission of Secondary Schools and Colleges, 1956 - 1960.
4. Served as Generalist for accreditation purposes or as Review Team member for visits under auspices of North Central Commission at : Hamline University, St. Paul, Minnesota; Carleton College, Northfield, Minnesota; University of Wyoming, Laramie, Wyoming; Michigan State University, Department of Chemistry; and Pacific University, Hillsdale, Oregon.

- 5. President, Associated Midwest Universities, 1959 (a corporation formed by 31 major universities in the Middle West). Member of Board of Directors, 1954 - 1965.
- 6. Member, Policy Advisory Board, Argonne National Laboratory, 1955 - 1961.
- 7. Member, Scientific Advisory Committee of Boyce Thompson Institute for Plant Research, Yonkers, New York, 1958 - 1969.
- 8. Member, Committee on Special Projects in Science Education of National Science Foundation 1954 - 1958.
- 9. President, National Association of State Universities and Land Grant Colleges 1966 - 1967. Member, Board
- 10. Member, Agricultural Research Planning Committee, U.S.D.A., 1964 - 1967.
- 11. Member, National Commission on Accrediting, 1964 - 1969.
- 12. Chairman, Pesticide Residues Committee, National Academy of Science, 1964 - 1965 and 1968 - 1969.
- 13. Chairman, Rhodes Scholarship Selection Committee for Northwest 1966, 1967 and 1968.
- 14. Trustee, Pacific International Livestock Exposition, 1964 - 1969.
- 15. Member, Bonneville Regional Advisory Council, 1964 - 1969.
- 16. Member, U.S.A. - Philippines Conference Team, National Academy of Science - National Science Development Board, 1966 - 1967.
- 17. Member, Pacific Science Center Board of Directors, 1965 - 1969.
- 18. Member, Oregon Governor's Educational Coordinating Committee, 1965 - 1967.

Dear Mr. Lejeune,

I am pleased to be able to tell you that the Director-General has agreed to the establishment of a post of Executive Secretary of the Technical Advisory Committee to the Consultative Group on International Agricultural Research. As proposed at the Co-Sponsors' meeting last July, this will be funded at D-2 level under the TAC Trust Fund. He has appointed Mr. Oram to fill this post.

Mr. Webster will remain as Assistant Secretary to the TAC on a full time basis, and steps are being taken to recruit additional supporting professional and secretarial staff for the Secretariat.

With kind regards,

Yours sincerely,

Juan Felipe Yriart

7. Have you any dependants? Yes No If answer is "Yes" give following information:

Name	Date of Birth	Relationship	Name	Date of Birth	Relationship
Concepcion Banzon-Madamba	12 Dec 1936	Wife	Ma. Cristina Madamba	7 Feb 1968	Daughter
Leahnetta Madamba	1 Nov 1961	Daughter	Lucas Madamba II	12 Oct 1970	Son
Joseph Madamba Jr.	23 Apr 1963	Son			
Anna Victoria Madamba	11 Dec 1965	Daughter			

8. Have you taken up legal residence status in any country other than that of your nationality?
 Yes No
 If answer is "Yes", which country?

9. Have you taken any legal steps towards changing your present nationality?
 Yes No If answer is "Yes", explain fully:

10. Have you any near relatives who are employed by a public international organization? Yes No If answer is "Yes" give following information:

Name	Relationship	International Organization

11. For what kind of work do you wish to be considered?
 consultant

12. FOR CLERICAL GRADES ONLY
 Indicate speed in words per minute

	English	French	Spanish	Other language
Typing				
Shorthand				

13. LANGUAGES (List mother tongue first)

	READ				WRITE				SPEAK			
	Ex-cellent	Good	Fair	Slight	Ex-cellent	Good	Fair	Slight	Ex-cellent	Good	Fair	Slight
Pilipino	✓				✓				✓			
English	✓				✓				✓			
Spanish		✓				✓				✓		

List any special skills you possess and machine and equipment you can use:

ADM 11/E 9.74 6543 - E2713

14. Employment by the organization may require assignment and travel to any area. Have you any disabilities or reservations which may restrict your activities in this respect? Yes No

If answer is "Yes", specify reasons:

15. Would you accept short-term employment? Yes No

If answer is "Yes", indicate:

1 to 3 months

3 to 6 months

6 to 12 months

16. Have you previously submitted an application for employment with an international organization? Yes No

If answer is "Yes", specify organization and date:

Asian Development Bank

(served on an ADB Mission to Nepal from 2 March to 7 June, 1972)

17. EDUCATION: Give full details, using the following space insofar as it is appropriate.

(A) University or equivalent

Name and Place	Years Attended		Degrees and Academic Distinctions	Main Subjects
	From	To		
Univ. of Illinois Urbana, Illinois, U.S.A.	1962	1965	Ph.D.	Cattle production, pastures, and agric. economics
Cornell University Ithaca, New York, U.S.A.	1959	1960	M.S.	Beef production, agronomy, and agric. economics
Univ. of San Francisco San Francisco, Calif., U.S.A.	1958	1959	(took one year of BSBA)	Business administration courses
"iv. of the Philippines College, Laguna, Philippines	1951	1954	B.S.A.	Animal husbandry, agric. engineering, and agronomy

(B) Schools or other formal education or training from age 14 (e.g., high school, technical school, or apprenticeship).

Name and Place	Type	Years Attended		Certificates, Diplomas Obtained
		From	To	
Ath eo de Manila Manila, Philippines	High school	1947	1951	High school diploma

18. List professional societies, and activities in civic, public, or international affairs.

Philippine Representative, WCAP Governing Council (World Assoc. for Animal Production), since 1968

Fellow, Phil. Assoc. for the Advancement of Science, since 1968

Member, Amer. Society of Animal Science, since 1966

Member, Phil. Society of Animal Science, since 1965 (was President 1969-1970)

Member, National Research Council of the Philippines, since 1972

Member, Gamma Sigma Delta (Honor Society of Agriculture), since 1961

Member, The Society of Sigma Xi, since 1965

Member, Society for the Advancement of Research, since 1967

President, Board of Trustees, Marquiling School, Inc. (1969-1970)

President, College Country Club (1967-1969)

19. List any significant publications you have written (do not attach).

1. The Philippines' Livestock Industry: Status and Potential

2. Animal Agriculture in Southeast Asia: The Philippines' Experience

3. A National Livestock Development Program for the Philippines

4. Philippine Agricultural Research System Review

5. A National Dairy Development Program for the Philippines

6. An Integrated Beef Cattle Development Program (Phil. Govt. proposal to IBRD Financing)

7. The Allocation of Resources for Agricultural Research in the Philippines

8. An Integrated Feeds/Grains-Livestock Development Program for the Philippines

9. A National Water Management Research and Training Program

20. EMPLOYMENT RECORD: Starting with your present or most recent post, list in reverse order every employment during the last ten years and any significant experience not included in that period which you believe will be helpful in evaluating your record. Use a separate block for each post. Use additional sheets of paper as required. Include service in the armed forces.

Dates		Salaries per annum (Excl. Allowances)		Exact title of your post
From	To (present)	Starting	Present	
1972	PRESENT	₱30,000 p.a.	₱38,400 p.a.	Director General
Name of Supervisor				Duty Station
Hon. Florencio A. Medina				Los Baños, Laguna, Philippines
Name of Employer				Type of Business
Philippine Council for Agric. Research				Agricultural Research Administration
Address of Employer				Number and kind of employees supervised by you
Los Baños, Laguna, Philippines				116 Technical research directors and technical and administrative monitoring staff
Reason for leaving, if applicable				not applicable
Description of your work:				
<ol style="list-style-type: none"> 1. Was responsible for leading group which put together an incisive review of the Philippines' Agricultural Research System which covered work of 2,241 agric. researchers. 2. Responsible for directing the drawing up and continued monitoring of the national research program priorities in agriculture, forestry, and fisheries. 3. Responsible for programming the allocation of all government revenue for research in agriculture, forestry, and fisheries. 4. Responsible for directing the planning for the development of a national network of agricultural research stations. 5. Responsible for providing direction for work of two administrative divisions and seven technical research divisions (crops, livestock, forestry, fisheries, soil and water resources, socio-economics, and technical services). 				

Dates		Salaries per annum (Excl. Allowances)		Exact title of your post
From	To	Starting	Final	
March 1974	PRESENT	₱10,000 p.a.	₱24,000 p.a.	Research Consultant

Dr. Sam Hsieh				Type of Business
Name of Employer				Technical consultancy work
Asian Development Bank				Number and kind of employees supervised by you
Address of Employer				none
Roxas Blvd., Manila, Philippines				Reason for leaving
				completion of 3-month assignment

Description of your work: 1. Was responsible for crystallizing livestock development plans for an integrated irrigated agriculture development scheme for the Chitwan Valley in Nepal.

2. The plan developed was eventually made the basis of an approved \$8.0 million loan to Nepal for the development of Chitwan Valley.

21. Have you any objections to our making inquiries of your present employer? Yes No

22. REFERENCES: List three persons not related to you who are familiar with your character and qualifications. Do not repeat names of supervisors listed under item 20.

Full name	Full Address (Telephone No. if known)	Business or Occupation
Dr. Dioscoro L. Umali	FRD Regional Office, Bangkok, Thailand	Asst. Director General, FRD
Dr. Cleodualdo B. Perez, Jr.	Univ. of the Philippines College of Agriculture College, Laguna, Philippines	Dean, College of Agriculture
Dr. Francisco M. Fronda	Univ. of the Philippines at Los Baños College, Laguna, Philippines	Professor Emeritus of Animal Science

23. GAL CONVICTIONS (Include all convictions other than those for minor violations of road traffic regulations)

Charge	Date	Where tried	Conviction
None			

24. State any other relevant facts. Include information regarding any residence or prolonged travel abroad, giving dates, areas, purposes, etc. Also state any disabilities which might limit your field of work. Final appointment will be subject to a physical examination.

1958-1960 in U.S.A. — for BSBA studies and completion of work on M.S. degree

1962-1965 in U.S.A. — to completion of work on PhD degree

1968 in Canada, U.S.A. — to participate in 2nd World Congress on Animal Production and South America — and visit agric. research stations in north and south America

1972 in Nepal and India — as part of an ADB Mission

* plus 14 other international trips with a duration of less than two months

I certify that the statements made by me in answer to the foregoing questions are true, complete, and correct to the best of my knowledge and belief. I understand that any false statements or any required information withheld from this form may provide grounds for the withdrawal of any offer of appointment or dismissal if an appointment has been accepted.

Date: 6 February 1975 Signature: J. C. Madamba

CURRICULUM VITAE

Name: JOSEPH C. MADAMBA

Address: # 5 Narra Street
Faculty Hill
College, Laguna E-109
Philippines

Place and Date of Birth: Manila, Philippines, 12 November 1935

Father: Lucas V. Madamba (deceased)

Mother: Carolina Crow-Madamba

Name of Spouse: Concepcion Banzon-Madamba

Number of Children: Five (5)

EDUCATION

High School:

Ateneo de Manila, 1947-1951
(Silver Medallist)

College:

University of the Philippines, 1951-1954
(degree: B.S.A.)

University of the Philippines, 1953-1954
(completed R.C.T.C. Advanced Course)

University of San Francisco, 1958-1959
(took one year of B.S.B.A.)

Post-Graduate:

Cornell University, 1959-1960
(degree: M.S.)

University of Illinois, 1962-1965
(degree: Ph. D.)

QUALIFICATIONS

Awards Received:

1. Recipient of Pres. Manuel A. Roxas Memorial Award and Philippine Jaycees TOYM Award as one of "The Ten Outstanding Young Men for 1973" in the field of Research and Animal Science.

Fields of research undertaken:

Cattle nutrition, breeding, and management

Pasture and forage utilization

Meats

Livestock economics

Papers published:

Technical articles ----- 25

Popular articles ----- 11

TOTAL ----- 36

Civil Service Examination Passed:

Senior Teacher of Agriculture (June, 1957)

Fellowship Awards/Travel Grants:

1. Rockefeller Foundation Scholarship, 1962-1965 for Ph. D. program at University of Illinois.
2. NRC-UPCC Travel Grant, 1966 (to participate in the 11th Pacific Science Congress held in Tokyo, Japan).
3. Rockefeller Foundation Travel Grant, 1968 (to participate at Second World Conference in Animal Production held in Maryland, U.S.A., and to visit animal science stations in U.S.A., Canada, and South America).

4. USDA-UPCO Travel Grant, 1968 (to travel with Philippine Cattle Mission to the U.S.)
5. Travelled to U.S. in October, 1969 on cattle purchase mission for Imperial Livestock Industries.
6. USAID Invitational Travel Grant to Thailand and India, September-October 1970 (to participate as Philippine Delegate to Asian Agricultural College and University Seminar on the involvement of technology in regional planning).
7. U.S. Peace Corps Invitational Travel Grant for lecture-tour of 13 U.S. universities, March-April, 1971 (lectured on the subject: "International Animal Agriculture: The Philippine Strategy").
8. Travelled around Taiwan in April, 1971 under auspices of JCRR and Chinese Veterans' Commission to explore possibilities for developing beef cattle industry in Taiwan.
9. NEC-USAID Travel Grant, July-August, 1971 (to travel with Philippine Agricultural Research Mission in the U.S., Australia and Thailand).
10. Australian Government Travel Grant, July, 1971, for travel within Australia (to study the Australian agricultural research system both at the commonwealth and state levels).
11. NFAC-sponsored travel to the U.S., January-February 1972 (to participate as member of Philippine Government Mission which negotiated the loan agreement for a Livestock Loan with the World Bank (IBRD) and the Development Bank of the Philippines (DBP)).
12. Travelled around Nepal and India in March-May, 1972, as member of an Asian Development Bank mission assigned to develop an integrated agricultural development plan for the Chitwan Valley (Nepal).

13. SAEDA-sponsored travel to Japan, March, 1973 (to participate in Southeast Asian Conference on Agricultural Education).
14. Ford Foundation-PCAR Travel Grant, May, 1973 (to participate in 3rd World Conference on Animal Production held in Melbourne, Australia).
15. ASPAC-sponsored lecturer series on "Beef Cattle Production in Southeast Asia," in July, 1973, in Taiwan, Philippines, Thailand, and Vietnam.
16. Ford Foundation-PCAR Travel Grant for travel to Singapore and Malaysia in February-March, 1974 (to participate in Conference on the integration of Food Science and Agricultural Research and to visit Malaysian agricultural research institutions).

EXPERIENCE

PRESENT POSITIONS

At College Department Level:

1. Associate Professor of Animal Science, U.P. College of Agriculture

At College Level:

1. Member, Graduate Faculty of the U.P. College of Agriculture

At National Level:

1. Director General, Philippine Council for Agricultural Research (PCAR)
2. Technical Consultant to the Secretary of Agriculture and Natural Resources, 1970 to present
3. Secretary, Governing Council of the Philippine Council for Agricultural Research, 1972 to present

At International Level:

1. Consultant, Asian Development Bank
2. Philippine Representative, World Association for Animal Production (WAAP) Governing Council, 1968-1978

In Private Industry:

1. Technical Consultant, Ansa Cattle and Crop Farm, Surallah, South Cotabato, 1969 to present
2. Technical Consultant, Virginia Ranch, Panganuran, Zamboanga del Norte, 1960 to present

PREVIOUS WORK EXPERIENCE

At College Department Level:

1. Officer-in-Charge, Department of Animal Husbandry, UP College of Agriculture, College, Laguna, Philippines, 1961-1962.
2. Assistant Chairman, Department of Animal Husbandry, UP College of Agriculture, College, Laguna, Philippines, 1965-1963
3. In-Charge, Beef Husbandry Division, Department of Animal Husbandry, UP College of Agriculture, College, Laguna, Philippines, October 1, 1960- July 26, 1961 and September 1, 1965 to August, 1972.
4. Member, Department of Animal Husbandry Executive Committee, 1960-1971
5. Chairman, Animal Science Instruction-Committee, 1968
6. Student Assistant, Department of Animal Husbandry, UP College of Agriculture, College, Laguna, Philippines, 1954

At College Level:

1. Assistant to the Dean, UP College of Agriculture, College, Laguna, Philippines, June 1 to December 31, 1966
2. Officer-in-Charge, Office of the Dean, UP College of Agriculture, January 1 to 15, 1967
3. Member, Director's Council, UP College of Agriculture, 1966-1967
4. Member, Executive Committee, UP College of Agriculture, 1962, 1965-1967
5. Chairman, Dean's Technical Staff, 1966-1967
6. Dean's representative to the UP College of Agriculture 5-Year Development Program Committee on Bids and Awards, 1967
7. Chairman/Member, DTRI (Dairy Training and Research Institute) Planning Committee, 1961-1962; 1965-1966
8. Project Leader, UP College of Agriculture Task Force for Cooperative Beef Cattle and Forage Management Research, 1968
9. Member, UPCA Cattle and Carabao Research Committee
10. Member, UPCA Pasture Research Committee
11. Member, UPCA Curriculum Committee, 1966-1970
12. Coordinator, PACD (Presidential Arm on Community Development) Beef Cattle Short Course, 1966

At University Level:

1. Acting Director of Business Affairs for Los Baños Units, UP Los Baños, Laguna, Philippines, January 1 to December 31, 1967
2. Chairman, Office of the Director of Business Affairs Executive Group, 1967
3. Chairman, Sub-Committee on Bids and Awards for Los Baños Units, U.P., 1967
4. Member, Advisory Council, Los Baños Computing Center, 1966-1969
5. Member, Sub-Board of Athletic Affairs for Los Baños Units, U.P., 1966-1967
6. Member, Reorganization Self-Study Committee for U.P. Los Baños Units, 1969
7. Member, University Faculty Panel which prepared monograph on national policy guides for the 1970's entitled "Agenda for National Development," 1969
8. Member, U.P. Laguna Land Grant Advisory Council, 1968-1971
9. Member, Advisory Board, University Computer Center, 1968 - 1972

At National Level:

1. Coordinator, Planning Group which prepared National Livestock Program for 1971-1974, National Food and Agriculture Council, 1970
2. Chairman, Philippine Counterpart Team for FAO/IBRD Livestock Project Preparation Mission, 1970
3. Chairman, Livestock Development Planning Sub-Committee, Lower Bicol River Basin Development Project Team, 1972-1973

4. Chairman, Inter-Agency Committee commissioned to prepare a national dairy development program, 1974
5. Action Officer, Inter-Agency Committee commissioned to prepare a national water management research and training program, 1973
6. Technical Consultant to the Presidential Action Officer, National Food and Agriculture Council, 1970-1972
7. Consultant, The Ford Foundation (Philippines) 1969-1971
8. Consultant, Association of Colleges of Agriculture of the Philippines (ACAP), 1969-1972
9. Coordinator, Participation of ACAP Colleges in the national agricultural program, National Food and Agriculture Council, 1970-1971
10. Chairman, National Food Marketing Board Study Committee, National Food and Agriculture Council, 1971-1972
11. Chairman, Inter-Agency Ad Hoc Committee which prepared government project proposal to the World Food Program for an "Integrated Feedgrains Livestock Development Program," 1972
12. Vice Chairman, National Agricultural Research System Review Technical Panel, 1971-1972
13. Action Officer, National Livestock Program, National Food and Agriculture Council, 1971-1972
14. Chairman, Livestock and Poultry Marketing Coordinating Staff, National Food and Agriculture Council, 1970-1971
15. Chairman, Livestock Marketing Study Committee, National Food and Agriculture Council, 1970

16. Vice Chairman, Inter-Agency Committee commissioned to prepare Government Proposal to World Bank (IBRD) for Cattle Financing, 1970
17. Vice Chairman, Ad Hoc Study Committee on Animal Feeds, Price Control Council, 1970
18. Chairman, Steering Committee for National Symposium on the theme: "Towards Closing the Protein Gap in the Rural Areas," sponsored by the National Food and Agriculture Council (NFAC), Food and Nutrition Research Center (FNRC), Philippine Society of Animal Science (PSAS) and the Crop Science Society of the Philippines (CSSP), 1970
19. Co-Chairman, National Steering Committee for the Seminar on Building Linkages Among Education, Research and Extension Agencies, sponsored by the National Food and Agriculture Council and the Association of Colleges of Agriculture of the Philippines, February, 1971
20. Coordinator, UPCA-Central Mindanao University Task Force for Ranch Management Training Center, 1969-1970
21. Coordinator, Second Cattle Production Business Executive Course, 1968
22. Chairman, Distinguished Teacher Award Selection Committee, Philippine Society of Animal Science, 1969-1970
23. Project Leader, Research on beef cattle fattening operations jointly undertaken by the UP College of Agriculture and the Department of Rural Banks of the Central Bank of the Philippines, 1969-1970
24. Member, Agricultural Research Program Review Technical Panel of the Secretary of Agriculture and Natural Resources, January-February 1971

25. Member, Planning Group, First National Workshop on Animal Science Research sponsored by the Philippine Society of Animal Science and the Association of Agricultural Colleges in the Philippines, 1970
26. Member, Editorial Board, Philippine Journal of Animal Science, 1966-1970
27. Participant, Agricultural Development Planning Workshop sponsored by the Agricultural Development Council; Manila, February 1971
28. Participant, Top-Level Management Workshop for DANR officials, administered by the Asian Institute of Management, February 1971

At International Level:

1. Head, Philippine Delegation to the Third World Conference on Animal Production held in Melbourne, Australia in May, 1973
2. Chief Delegate, Philippine Delegation to the Southeast Asian Conference on Agricultural Education, held in Tokyo, Japan in March, 1973
3. Head, Philippine Delegation to the Second World Conference on Animal Production, held in Maryland, U.S.A., 1968
4. Vice Chairman, Philippine Agricultural Research Mission to the U.S., Australia and Thailand, 1971
5. Member, ASPAC Specialist Team which gave a lecture series on "Beef Production in Southeast Asian Countries" in Taiwan, Philippines, Thailand, and Vietnam, July, 1973
6. Member, Philippine Government Mission to negotiate loan agreement of IBRD-DBP Livestock Loan, 1972
7. Philippine Delegate, Eleventh Pacific Science Congress, held in Tokyo, Japan in August, 1966 (read a paper and was Chairman of one of the sessions of the Division of Animal and Veterinary Sciences)

8. Philippine Delegate, Asian Agricultural College and University Seminar, held in Thailand and India, September 19-October, 1970 (was designated Chairman of Committee on Agricultural Research)
9. Philippine Delegate, Ninth Pacific Science Congress; held in Bangkok, Thailand, in November 1967
10. Delegate, Second International Symposium on the Physiology of Digestion of Ruminants, Ames, Iowa, August, 1964
11. Coordinator-Adviser, Regional Seminar-Workshop on "Integrated Cattle Coconut Farming" sponsored by Asian and Pacific Council (ASPAC) and National Food and Agriculture Council (NFAC) in October 1973
12. Member, Philippine Cattle Mission to the U.S., 1968
13. Consultant, Follow-up Planning Committee Meeting, First Asian Agricultural College and University Seminar, held in Bangkok, Thailand on August 6-8, 1971
14. Member, Philippine Cattle Mission to Malaysia, 1972
15. Research Laboratory Technician, Radiology Department, Stanford University School of Medicine, San Francisco, California, U.S.A., 1958-1960
16. Assistant in Animal Husbandry, Cornell University, Ithaca, New York, U.S.A., 1959-1960

In Private Industry:

1. Beef Cattle Consultant, Imperial Livestock Industries, Mamburac, Occidental Mindoro, 1969-1971
2. Livestock Consultant, CJ Yulo Ranch, Floridablanca, Pampanga, 1968-1969

3. Livestock Consultant, Arvil Ranch, Quezon, Isabela, 1970
4. Livestock Consultant, Union Agricola y Pecuaria del Sur de Luzon, Iriga, Camarines Sur, 1969 to 1973
5. Technical Consultant, Sigil Ranch - MTC Agricultural Development Corporation, Maasin, South Cotabato, 1971-1973

MEMBERSHIP IN PROFESSIONAL/HONORARY
SOCIETIES AND CIVIC ORGANIZATIONS

At Present:

1. Fellow, Philippine Association for the Advancement of Science (PHILAAS), 1968 to present
2. Member, National Research Council of the Philippines, 1972 to present
3. Member, Gamma Sigma Delta (Honor Society of Agriculture) 1961 to present
4. Member, The Society of Sigma Xi, 1965 to present
5. Member, Society for the Advancement of Research (SAR), 1967 to present
6. Member, Philippine Society of Animal Science, 1965 to present
7. Member, American Society of Animal Science, 1960 to present
8. Member, Performance Registry International, 1966 to present

Previous activities:

1. Director, Los Baños Rotary Club, 1971-1972
2. Chairman, International Services Committee,
Los Baños Rotary Club, 1971
3. Chairman, Vocational Services Committee,
Los Baños Rotary Club, 1972
4. President, Board of Trustees, Maquilting
School, Inc., 1969-1970
5. President, Philippine Society of Animal Science,
1969-1970
6. President, College Country Club, 1967-1969
7. Vice Chairman, St. Therese Community Action
Group, College, Laguna, 1969 - 1971

ACTIVITIES AS A STUDENT

At the University of Illinois:

President, University of Illinois Filipino Students
Association, 1964-1965

At Cornell University:

President, Cornell University Filipino Club,
1959-1960

At the University of San Francisco:

President, All Nations Club of the University of
San Francisco, 1958-1959

At the University of the Philippines (U.P.):

1. Graduate, Reserve Officers Training Corps (ROTC) Advanced Course, 1955
2. Gold Medallist, Speech and Dramatics Club Oratorical Contest, 1952
3. Bronze Medallist, University Inter-Fraternity/Sorority Oratorical Contest, 1953
4. President, Student Body Organization, 1953-1954
5. Editor-in-Chief, Aggie Green and Gold, 1952-1953
6. College Representative, University Student Council, 1952-1953; University Senior Council, 1953-1954
7. Executive Assistant for Los Baños, 1955 Philip-pinensian Yearbook
8. Letterman, University Varsity Football Team, 1952-1955
9. Captain (Letterman) U.P. Los Baños Varsity Football Team, 1954-1955
10. Captain, Class Football Team, 1951-1954
11. Cadet Captain, UP Los Baños, ROTC Units, 1954-1955
12. First Place, Army General Classification Test (ACCT) for U.P. Los Baños ROTC Units, 1954

Ewert Åberg
Professor and Head of Department of Plant Husbandry,
Agricultural College of Sweden, S-750 07 Uppsala 7

Feb. 13, 1975

Born, Dec. 4, 1909
Fil.kand. (B.S.) in Botany, Genetics and Geology,
University of Lund, 1931
Agronom (B.S.) in Agriculture, Agricultural Institute,
Alnarp, 1933
Fil.lic. (M.S.) in Botany, University of Lund, 1938
Fil.dr (Ph.D.) in Botany, University of Uppsala, 1940
Agr.lic. (M.S.) in Plant Husbandry and Genetics,
Agricultural College of Sweden, Uppsala, 1945

Assistant in Plant Husbandry, Agricultural College, Uppsala,
1934-1940
Assistant professor in Plant Husbandry, Agricultural College,
Uppsala, 1940-1949 (Leave of absence 1940-1945)
Postdoctorate fellow, Iowa State College, Iowa, 1940-1942
Postdoctorate research assistant in Agronomy and Plant
Pathology, University of Wisconsin, Madison, Wis. and
collaborator, U.S. Dept. of Agriculture, Washington DC,
1941-1945
Associate professor in Plant Husbandry, Agricultural College,
Uppsala 1949-1962
Professor and Head of Department of Plant Husbandry,
Agricultural College, Uppsala, since 1962
Chairman of the agronomy research section at the Agricultural
College, Uppsala, meaning responsibility for the field
experimental work in the whole of Sweden, since 1962
Besides being the examiner in plant husbandry at the Agricultural
College, Uppsala, also the examiner in the subject tropical
agriculture since 1968, when this subject was started at
the college
Member of missions and committees under the sponsorship of the
Swedish International Development Authority (SIDA) and
consultant to SIDA on various crop production problems,
since 1965
Member of the special committee at the Agricultural College,
Uppsala on activities in the developing countries,
since 1964
Lecturer at the FAO Training Center on Plant Breeding and
Seed Production, Buenos Aires, April-May 1966
Travels to various parts of the world, meaning visits to
most countries in Europe, to many countries in Asia
and Africa and to North and South America
Secretary-General of the Seventh International Botanical
Congress, Stockholm 1950

Vice-Chairman of the Board of Directors, The National Seed
Testing Station, Solna
Chairman and member of several committees on agronomic research
problems and other agricultural activities in Sweden
Member of the Royal Swedish Academy of Forestry and Agriculture,
Stockholm
Chairman of the Symposium on Plant Response to Climatic Factors,
arranged by UNESCO 1970
President of the European Grassland Federation 1971-1973 and
Chairman of the 5th General Meeting of the European
Grassland Federation, Uppsala 1973
Technical Advisor in Oil Seed Production, Pakistan,
March-June 1971
Member of the "Committee on the Effect of Herbicides in Vietnam",
National Academy of Sciences, Washington D.C. 1971-1974
Member of Board of Governors and of the Program Committee of
ICRISAT
Member of the Scientific Advisory Panel of the International
Foundation of Science, Stockholm

Received the A.W. Bergsten Prize from the Royal Swedish
Academy of Forestry and Agriculture, 1953
Honorary Member of the Student Body of the Agricultural College
of Sweden, Uppsala

EXPERIENCE HIGHLIGHTS:

Sept 70 - Present: As Mekong Coordinator, Agency for International Development, I am responsible for a program of investigation into the environmental and sociological aspects of the Mekong Basin Development Scheme. The Mekong River, flowing through Laos, Cambodia, Thailand, and the Republic of Vietnam, offers promise of becoming Southeast Asia's greatest natural asset - if the Basin can be developed without damage to the Asian ecosystem. During the past four years I have directed a program of investigations concerned with the effect of Basin development on the mainstream fishery; aquatic plant control; the relocation of reservoir populations; the control of waterborne diseases; the effect of mainstream dams on the delta and offshore waters; and other environmental consequences of riverine development. To carry out this program I have worked closely with the National Academy of Sciences, the Southeast Asian Development Advisory Group, the Smithsonian Institute, the U.N.D.P., World Bank, the Department of the Interior, Corps of Engineers, various American universities, etc. During this period I was selected from amongst 3200 applicants as an alternate for one of 25 supergrade positions appointed by the Office of Management and Budget.

July 66-Sept 70: Capital Projects Officer for Southeast Asia Regional Transport. Economic analyses of proposed navigation improvements in the Straits of Malacca including tanker oil spillage consequences and Law of the Sea aspects; Indonesia north coast navigation aid improvements; Asia Air Sea Rescue project; Analysis of the Kra Canal in the Thai Isthmus; various port development projects, etc. Team Leader, US Expert Study Group, reviewing over one hundred transport projects in eight Asian nations to develop the US Regional Transport Program, spring 1968. Member Special Presidential Missions to Southeast Asia, 1966 and 1968, reviewing programs and projects in connection with President Johnson's Mekong Development program. Member, AID Special Mission to the Philippines, 1966, to develop a special project portfolio for accelerated Philippine development.

Sept 65-July 66: Harvard University, Littauer School and Harvard Business School, Economics and Business Finance, MPA.

July 62-Sept 65: Deputy Chief, Office of Engineering, Far East, Agency for International Development.

November 61-July 62: Executive Assistant to Assistant Administrator, Far East, Agency for International Development.

December 60-November 61: Chief Editor, ICA Digest, a professional magazine covering developments in foreign aid.

Aug 58-Dec 60: Acting Chief, Communications Division, ICA Mission to Korea. Project manager in Korea for a twenty million dollar telecommunications program. Negotiated first Development Loan Fund contribution to Korea.

July 56-Aug 58: Process Development Engineer, Winchester Western Arms Co. Adapted new production techniques to the manufacture of sporting arms.

Mr. F. M. Roche
Chief, General Accounts Branch
Food and Agriculture Organization
of the United Nations
Via delle Terme di Caracalla
00100 - Rome
Italy

Dear Mr. Roche:

We wish to advise that we have today arranged to deposit \$41,000 to FAO's temporary account No. 549 at Banca Commerciale Italiana, Rome.

This payment represents an advance towards our share of the costs of the Technical Advisory Committee (TAC) of the Consultative Group on International Agricultural Research for the first half of calendar year 1975. Please note that this amount is \$1,500 less than 50% of IBRD contribution of \$85,000 for 1975. This was reduced as a result of the difference between \$14,500 paid in 1974 for 1975 and the cost sharing of the expenditures (\$13,000) foreseen to December 31, 1974 for 1974. This is in accordance with the request by Mr. Oram in his letter of January 8, 1975 to Mr. M. Lejeune of CGIAR in IBRD. It would be appreciated if Mr. Oris V. Wells and Mr. Peter Oram were advised of this deposit.

Very truly yours,

CG → K.A. Jackson, Dep. Dir - General, FAO, replaced

OFFICE MEMORANDUM

TO: Mr. Robert Jones, Controller's

DATE: February 4, 1975

FROM: Bruce M. Cheek, CGIAR Secretariat

BMC

SUBJECT: TAC Budget for Calendar Year 1975

Attached is a letter from Mr. Peter Oram, Secretary of the Technical Advisory Committee (TAC), submitting the budget of TAC for 1975.

In principle the Bank, out of the CGIAR Contractual Services Budget, covers a third of the annual budget of TAC. This year, the Co-sponsors of CGIAR (UNDP, FAO and IBRD) agreed to contribute \$85,000 each toward TAC's budget; while Australia will cover the residual balance of \$150,000. (See Notes of Co-Sponsors Meeting dated December 27, 1974).

Would you please arrange that ~~\$42,500~~ ^{\$41,000} (representing half of the Bank's contribution to TAC's 1975 budget) be transferred to the TAC Temporary Account at the Banca Commerciale Italiana, Agenzia FAO, Rome.

This payment is within the CGIAR FY 1975 budget, but the next payment of \$42,500 will be disbursed sometime in July and therefore will come out of FY 1976 funds.

See memo attached

BMCheek/ms/Fl

* Spoken with the Bank 7/13 regarding figure of \$42,500. We agreed to change or reduce amount by \$1,500 which was committed to TAC in 1974 for 1975. Total to be paid to TAC in 1975 seemed to be \$83,500 i.e. \$41,000 Feb 75 and not \$85,000. \$42,500 July 75. See attached statement.

1975 FEB 12 PM 4:25

RECEIVED

BM
2/13

Budgetary Requirements of the TAC (TF 5549) until the end of 1974

The attached statement (Annex 1) on the budgetary situation of the TAC at 12 September, 1974, indicates a deficit balance of \$2,342. This is accounted for in the main by increased printing costs and a \$9,248 deficit at the beginning of the year in respect of 1973 commitments.

Additional unbudgeted activities approved by the TAC at its 7th and 8th meetings, namely the Working Group on the Biology of Yield of Grain Legumes which was held at New Delhi from 30 September - 4 October, 1974, and the establishment of the Sub-Committee on Plant Nutrition Research which held its first meeting at Frankfurt on 28 - 29 September, 1974, make it urgently necessary to seek additional funds.

The Working Group on Grain Legumes has cost \$27,930, excluding the costs of participating from the U.K. and U.S.A. whose expenses were paid by their governments at the request of the German government which agreed to pay up to \$25,000 towards the overall costs, but with first call to cover the participants from developing countries. The costs of participation of International Centres personnel and the Secretariat will be borne on the TAC budget.

The report of the 8th Meeting of the TAC is now completed and funds are required for translation and printing. These are estimated at \$11,000.

The costs of the Frankfurt meeting of the Sub-Committee on Plant Nutrition Research amount to \$6,564. It may be expected that a further meeting of this Sub-Committee will be held before the end of 1974, possibly also in Europe. This has been costed at \$9,000, and is included in this present request.

The total requirement therefore, to the end of 1974, is \$39,000, entailing a request to each Co-Sponsor for an additional sum of \$13,000.

Annex II sets out the costs of these additional activities and funds currently available or anticipated towards meeting them. It will be noticed that receipts and foreseen receipts to date amount to \$164,500, of which \$150,000 represents agreed payment at the end of 1974 at the rate of \$50,000 per annum, per donor, whilst \$14,500 represents a contribution from the World Bank towards 1975. As it has been decided to place TAC budgeting on a calendar year basis from 1 January, 1975, it is proposed that \$13,000 of the World Bank contribution be utilised towards 1974 requirements and that a similar sum be requested from UNDP and FAO, leaving \$1,500 as a balance of the Bank contribution to be transferred to the 1975 budget of TAC (see separate document). Provisional agreement of the World Bank and UNDP has been received in respect of this request.

Academic

Qualifications: D.Ag., magna cum laude (Bari) 1947. Libero docente in Plant Cytogenetics 1957 and Agricultural Botany 1958.

Career:

- 1947-50 Fellowship, Ministry of Agriculture.
- 1950-53 Fellowship, Tobacco Experimental Institute, Rome.
- 1953-57 Head, Genetical and Breeding Laboratory, Tobacco Experimental Institute, Rome.
- 1957-58 Fellowship of the Italian National Research Council for visits to Sweden, U.S.A. and the U.K.
- 1958-68 Director, Laboratory for the application of atomic energy to agriculture, Italian Atomic Energy Commission, Nuclear Research Centre, Casaccia, Rome.
- 1968-72 Scientific Secretary, National Consultative Committee for Agriculture, Italian Research Council.
- 1968 .. Professor of Plant Breeding, University of Bari.
- 1971 .. Dean of the Faculty of Agriculture, University of Bari.
- 1972 .. Member of the Scientific Board of the Germplasm Laboratory, National Research Council, Bari.

International and national activities and awards.

Member: Board of the Eucarpia section, 'Mutation and polyploidy' of the Eucarpia Gene Bank Committee.

Board of the 'European Society of the Nuclear Methods in Agriculture'

Chairman of the working group 'Applied Mutagenesis'

International Scientific Advisory Committee of the Euratom Association, Institute for Atomic Energy to Agriculture, Wageningen.

TAC ad hoc working group for genetic resources for Beltsville meeting, 1972.

Chairman: Organizing Committee, First International Symposium on durum wheat genetics and breeding, Bari, 1973.

Italian Society of Agricultural Genetics,
(1972 up to the present time).

1966 Santoro Prize of the Italian 'Accademia dei Lincei'.

Present position:

Professor of Plant Breeding, Director of the Institute of Plant Breeding of the Faculty of Agriculture, University of Bari, Italy.

Fields of specialization: Conservation of genetic resources:

- (1) of important crops for Mediterranean agriculture, especially Triticum durum, Pisum sativum and Cynodon dactylon.
- (2) applied plant breeding and mutation breeding; durum wheat, artichoke, sunflower and grape.
- (3) effects of ageing and spontaneous mutability on stored seeds.
- (4) selection of durum wheat for cultivation in Italy.
- (5) several collecting expeditions, to Ethiopia and North Africa.

CURRICULUM VITAE

Ther

Dr. Mohammed Tewfic RAGAB:

President, Meat and Milk Organization, Ministry of Agriculture and Land Reclamation,
Cairo, UAR.

Age: Approx 60

B.Sc. Agric., Cairo

Ph.D. Animal Breeding, Edinburgh (ca. 1950)

Career - University of Cairo

- i. Demonstrator and lecturer in animal breeding.
- ii. Associate Professor and Professor of Animal Breeding, Ministry of
Agriculture and Land Reclamation.
President of Meat and Milk Organization (6 years).

CURRICULUM VITAE

Gustave MATHYS

looks good

Date of Birth: 5 December 1919

Place of Birth: Zurich, Switzerland

Nationality: Swiss

Postal address: 1 rue le Nôtre, 75-Paris 16^e, France.

Languages: French and German (excellent); English (good); Spanish and Italian (fair).

Education: 1943-47 : University of Zurich, Zurich, Switzerland - Diploma (M.Sc.) in Agronomy.

1956: University of Zurich: Ph.D. (Entomology).

Experience: 1948-67: Dr. Mathys started his career as Plant Protection Specialist at the Swiss Federal Research Station at Lausanne. He became Head of the Plant Protection Department and was responsible for the implementation of the programme of work and administration of research. He carried out research on phytophagous mites.

1964: As a member of the U.S. Research Project in Kenya and Uganda, and later on in 1965 in Zaire (formerly The Belgian Congo), he undertook several missions to study the systematics on vector transmitted diseases.

From 1963 to 1966 he was President of the Swiss Entomological Society.

1967 to present: Dr. Mathys is the Director-General of the European and Mediterranean Plant Protection Organization, grouping 32 Member Governments from Europe and the Mediterranean area. Dr. Mathys is responsible for promoting international cooperation in plant protection, particularly legislative aspects of plant quarantine and coordination and uniformization of phytosanitary regulations. He is also responsible for setting up working parties on pests and diseases of regional importance and preparing, convening and conducting technical meetings on European plant pests and diseases and general subjects of plant protection.

Through his functions, Dr. Mathys has acquired a large experience of national plant protection services and organizations in North Africa and the Near East as well as in Europe.

Experience (continued) :

In the entomological field, Dr. Mathys has contributed to insect pest control in Europe and is Vice-President in charge of the International Organization of Biological Control (IOBC).

Publications:

Dr. Mathys has published about 25 scientific and technical papers on insect pests and mites and plant protection.

SMITH, Roy Paul

*Obituary
v.g.*

Date of Birth: 20 January 1919
Place of Birth: Los Angeles, California, U.S.A.
Home Address: U.S.A.

Education:
1938-1940 - University of California, Berkeley -
B.S. Entomology
1940-1941 - University of California, Berkeley -
M.S. Entomology
1941-1946 - University of California, Berkeley -
Ph.D. Entomology

Experience:
1943-1973 - Professor of Entomology and Chairman of
the Department of Entomology and
Parasitology, University of California,
Berkeley; administrator of large
university department with activities
including graduate and undergraduate
instruction in ecology and pest control, in
integrated control and the biosystematics
of Diabrotica.
July 1966 to present - Member and since 1973 Chairman of the PLO
Panel of Experts on Integrated Pest Control.
Has attended all the sessions of this Panel
and served as a consultant to PLO on
integrated pest control.
July 1971 to present - Project coordinator of the University of
California/AID Pest Management and Related
Environmental Matters Project; organization
and administration of the project aiming to
provide assistance in the field of pesticides
and pest management in an effort to maintain
food production in the developing countries;
organizing workshops on various pest control
priority public relations activities in
developing countries; and giving special to
developing countries.

Publications: Over 60 scientific papers and books on applied entomology.

CURRICULUM VITAE

Dr. Vittorio DELUCCHI

*Arch
7/6/68*

Date of birth: 21 May 1925

Place of birth: Arogno, Switzerland

Citizenship: Swiss

Marital status: married

Languages: French, Italian, German, English

Training: 1945-49 Swiss Federal Institute of Technology ETH, Zurich: agricultural engineer

1952-53 Ibidem: biological control of insect pests (Ph.D)

Experience: 1949-59 employed as research officer by the Commonwealth Institute of Biological Control at field stations of Feldmatten and Delemont, Switzerland; work mainly concerned with biological control of insect pests, including taxonomy, biology, ecology, mass rearing and shipment of insects for biological control from Europe to Canada, Australia and New Zealand

1959-62 FAO agricultural officer in Rabat, Morocco (expert in biological control of insect pests, mainly of citrus scales and sunn pest); carried out another short assignment in Morocco in September- November 1963.

1964 March-May: FAO Consultant to Lebanon

1963-65 (March): scientific collaborator and lecturer at the Institute of Entomology ETH, Zurich

1965-68 (March): agricultural officer (entomology) at FAO, Rome; member of UNDP/FAO mission to Greece in 1967 to review request of government of Greece for UNDP assistance in research on control of olive pests and diseases; also organized and participated in 6th and 7th missions of FAO ad hoc Conference on Olive Pests

1968 to present: resigned from FAO and returned to ETH, Zurich, as professor in entomology

1969-71 undertook short FAO consultancy mission to Greece to attend 8th session of FAO ad hoc Conference on Control of Olive Pests as technical adviser; participated in discussions with government officials on plan of operation of UNDP/SF project "Research on the control of olive pests and diseases in Athens, Crete and Corfu" (May 1969); attended 3rd session of FAO Committee on Control of Sunn Pest of Cereals as technical adviser (30 November - 5 December 1969), Ankara, 6-8 December (Athens); participated in discussions with government officials on implementation of project GRE 69/525

Publications:

over 50 scientific papers on applied entomology, mainly
biological control

1975

TEMPORARY ACCOUNT

Code 9.9100.5549.00

FAO/IBRD/UNDP, Technical Advisory Committee to the Consultative Group
on International Agricultural Research

Estimated costs in 1975:

	<u>U.S. \$</u>
- Personal services	45,000 <u>1/</u>
- Travel on official business	210,000 <u>2/</u>
- Contractual services	25,000 <u>3/</u>
- Miscellaneous general expenses	5,000 <u>4/</u>
	<hr/>
	\$ 285,000

This sum to be allocated between FAO/IBRD/UNDP at \$ 95,000 each.

Explanatory Notes

- 1/ Includes \$25,000 for full time assistant to Sir John Crawford and \$20,000 for interpreter and secretarial assistance for meetings (15% inflationary increase).
- 2/ Includes: 2 regular meetings based on 1974 costs with 15% increase (N.B. Honoraria and expenses of TAC members and non-members attending any meeting or mission are included in travel costs); 2 meetings of Working Groups (cf. Legumes) costed at \$30,000 each; 2 meetings of Sub-committees (e.g. Plant Nutrition or Aquaculture) costed at \$8,000 each, and six individual visits of TAC members to International Centres.
- 3/ Mainly printing and translation, based on 1974 actual or anticipated costs with 15% inflationary increase
- 4/ Includes a small increase in anticipated cable and postage charges to cover increased number of committee and group meetings and 15% inflation.

MW/jr
18 October 1974

TAC BUDGET - 1975

Estimated costs of TAC quinquennial review mission:

The following principles have been agreed: emoluments of mission members to be at current TAC rates (\$150 + \$50 expenses per day); travel over 6 hours at 1st Class rates (see 7th TAC Report). IRRI having been selected as first Centre to be reviewed, travel costs are based on a representative membership of the mission (six members) from various parts of the world viz, Paris, Beirut, New Delhi, New York, London and Tokyo. 15% weighting has been added for possible fare increases.

	<u>U.S. \$</u>
- travel costs	14,400
- emoluments (30 days at \$200, 6 participants)	36,000
- documentation and reporting	3,000
- miscellaneous	600
	<hr/>
	\$ 54,000
	<hr/>

MM/jr
18 October 1974

TAC BUDGET - 1975Anticipated costs of holding an additional meeting of TAC at an International Centre:

The costs given below are based on a 6 day meeting to be held at CIP, Lima, Peru. Distribution of centres vis à vis membership is such that except for the African Centres costs are very similar. The latter would show a slight reduction. Those given are the maximum, calculated on August 1974 travel costs. AMERCO warn of a 5% fares increase on 15 September and anticipate at least a further 10% rise if OPEC again raises fuel prices. A 15% cost increase has therefore been applied.

Travel and per diem

	<u>U.S.\$</u>
- members (1st Class travel, standard emoluments)	
- travel	29,250
- emoluments	18,550
- secretariat, travel and per diem	5,200
- documentation	11,000
- interpreters (including travel) and temporary staff	10,000
- miscellaneous	1,000
	<hr/>
	\$ 75,000
	<hr/>

Washington, D.C. 20433
U. S. A.

Dear Dan,

I have brought with me the draft letter to Treitz about the appointment of Johan ten Houten with the intention of mailing it to Treitz from London. Unfortunately, however, I forgot to bring a copy of ten Houten's curriculum vitae which really should accompany the letter. I have, therefore, had the letter typed up and I have signed it but I am sending it back to you to mail to Treitz with a copy of ten Houten's curriculum vitae.

Nothing eventful so far. Beautiful spring weather in London as ever!

Best regards,

A handwritten signature in blue ink that reads "Mike".

LONDON OFFICE:

NEW ZEALAND HOUSE, HAYMARKET, LONDON S.W.1, ENGLAND

Telephone - 930-3886/3887

8th May, 1975

Dr. Werner Treitz
Federal Ministry for Economic Cooperation
Friedrich Ebertstrasse, 114
Bonn
Federal Republic of Germany.

Dear Dr. Treitz:

You will remember that when Dr. Bommer took up his assignment at FAO he resigned from the Technical Advisory Committee of the Consultative Group on International Agricultural Research. Since TAC was going to have a meeting in February, Dr. Bommer was asked to continue as a member until that meeting was over.

Dr. Bommer was an outstanding member of TAC and the CGIAR System profited greatly from his interest and wisdom. Fortunately, we shall continue to benefit from his advice since I understand that as one of his FAO duties he will be the official FAO observer at the meetings of TAC in the future. We are very glad that he will retain this association with the CGIAR.

Not only must we name someone to replace Dr. Bommer on TAC, but at the end of 1975, we shall have to name four or five new TAC members to replace those who will by then have completed their term of service. As I think you know, it is the responsibility of the three Co-sponsors (FAO, UNDP and the World Bank) to nominate candidates for TAC membership, final approval resting with the membership of the Consultative Group as a whole. Because several new members must be selected before the end of 1975, we asked members of the Consultative Group to suggest candidates for consideration. In response to this request, we received a large number of suggestions including four from Germany. We are gratified at the helpful response, and particularly gratified that the candidates suggested by Germany came from several different countries.

.../.2

8th May, 1975

All the candidates suggested will be carefully considered, and at their meeting in July the Co-sponsors will begin the process of selecting candidates for the appointments to be made by the end of the year. Meanwhile, however, the Co-sponsors have proceeded to make a selection to fill the vacancy created by Dr. Bommer's resignation. They have agreed to nominate Dr. Johan G. ten Houten, a Dutch national, a copy of whose curriculum vitae I attach. They will officially nominate Dr. ten Houten to the membership of the Group shortly.

Because of Germany's strong support of the CGIAR, and because of your own great personal interest in its affairs, I wanted to tell you in advance about the intention to nominate Dr. ten Houten. In making their selections, the Co-sponsors endeavor to keep an approximately equal balance in TAC's membership between members drawn from developed and developing countries. With this proviso, their selections are based on TAC's needs for particular expertise and experience and the quality of the individual candidates. Nationality, while a consideration, is secondary and the Co-sponsors have not felt required to replace an outgoing member with a candidate of the same nationality. The Co-sponsors would, however, very much welcome having a German member of TAC from time to time, and they hope that suitable German candidates will be among those to be considered to fill vacancies as they occur.

Best wishes,

Yours sincerely,

Michael L. Lejeune
Executive Secretary
Consultative Group on
International Agricultural Research

Enclosure

F-1

May 8, 1975

Dear Curt:

In your letter of March 14 to Mike Lejeune you gave us a list of names for consideration for the TAC. We wish to supply the co-sponsors with some details on these and I think that perhaps the best way to obtain their cvs would be a request from your office to each of the individuals asking them to forward a cv to this office. There would be no need to do this in the case of Dr. Chendler of course.

I apologize for giving you this additional work, but I think it would be better if the request for cvs were to go from you rather than from us.

Because of the recent development regarding Dr. Hopper's candidature for Director-General for FAO, we will have to consider a replacement for him also. I believe that the co-sponsors will agree with your sentiments on Dr. Camus. As far as Dr. Sauger is concerned, his term has already been extended for one year, so we must appoint a replacement for him in 1976.

With best regards,

Yours sincerely,

John K. Coulter

Dear Dave:

Subject: Nominations to TAC

This letter confirms my comment during our conversation that we have had on suggested candidates for the TAC from the Canadians. Very shortly we shall be sending off a list of nominations given us by various members of the CG, to the co-sponsors, so that a short list can be considered at a meeting in July.

Since you said you made some suggestions to the Canadian authorities, perhaps you could remind them that we must have names of possible candidates, plus cvs soon.

With best regards,

Yours sincerely,

John K. Coulter

Dear Tony:

We have the names of Menon and Raditapole as possible candidates for the Technical Advisory Committee. Bob Cunningham has written to say that you will be requesting their cvs and forwarding them to us. As both are known to you and John Davie, perhaps you could also give us a brief note saying how you think that they might fit into the work of the Committee. This will not be used in the nature of a referee's report but rather something that I could use as background information when their names come up for discussion by the co-sponsors.

With best regards,

Yours sincerely,

John K. Coulter

Dear Bob:

Many thanks for your letter of April 30 enclosing Dr. Posnette's cv. Yes, we have got one for Dr. Webster. Henderson would be a tremendous asset to TAC and certainly we should keep his name in mind.

I have written to Tony Thorne about Menon and Raditapole. Murithi is the only veterinary scientist on the Committee and he will need to be replaced in 1976 or 1977.

With best regards; looking forward to seeing you in July,

Yours sincerely,

John K. Coulter

Date 30 April 1975

Dear John,

Denis Maniece has passed on to me your letter to him dated 4 April about nominations for TAC. On reflection I think we would agree ~~that~~ ^{with} your point that perhaps at this stage of the game Dr Henderson's name should be withdrawn because he already finds it difficult to fulfil all his obligations to British agriculture. I think you would agree we should bear him in mind later when he has more time on his hands.

2. Since you wrote your letter I hope that Mr Lejeune has received mine of 7 April with the cv of Dr Webster. Enclosed, as requested, are three copies of Dr Posnette's cv.

3. Unfortunately the two overseas nominees, Menon and Raditapole, are unknown to me because their names were put forward by Tony Thorne and his colleague John Davie. I am therefore sending your letter to them and asking them to get hold of the required cv's and forward them to you. Menon and Raditapole are well-known to Thorne and Davie and I would suggest that if you wish further information on either of them you should contact Tony Thorne.

Kindest regards

Yours sincerely

Bob,

R K Cunningham

Appointments to TAC

(signed) Michael L. Lejeune

The three co-sponsors have agreed to recommend the appointment of Dr. J. G. ten Houten, whose CV I attach, as a successor to Dr. Bommer.

Under the arrangements for appointing members to TAC it is contemplated that we consult with TAC's Chairman before asking the candidate if he is available to serve and recommending his appointment to the CG membership. I propose we consult Sir John Crawford during his visit next week with a view to proceeding with the appointment of ten Houten so that he can attend the TAC meeting in July.

Mr. Gavino
Agenda ①
✓ F-1

TECHNICAL ADVISORY COMMITTEE

29 April 1975

2/2 Scheme

1. Composition 12 members
2. Conditions Each member is appointed for 2 years with possible extension for 2 years. Probability of reappointment at end of first term is taken as 0.8. No third term is permissible.
3. Time of Appointment Appointments are made in December of each year.
4. Present Position
 - (a) 6 members finish second term in December 1975
 - (b) 4 members finish second term in December 1976
 - (c) 2 members finish first term in December 1976
5. Therefore 6 members in the same term may be considered for reappointment in odd years. Two groups of 4 and 2 members in different terms may be considered for reappointment in even years. Thus a maximum of 6 members will be considered for reappointment in any year. The probable numbers of new members will be binomially distributed as follows:
 - (a) Odd Years: the distribution is $B(6, 0.8)$ and each set is influenced by the previous set.
 - (b) Even Years: the two distributions $B(4, 0.8)$ and $B(2, 0.8)$ must be combined and again each set is influenced by the previous set.

2/3 Scheme

6. Composition 12 members
7. Conditions Each member is appointed for 2 years with possible extension for 3 years. Probability of reappointment at end of first term is taken as 0.8. No third term is permissible.
8. Time of Appointment Appointments are made in December of each year.
9. Present Position
 - (a) 6 members finish second term in 1976
 - (b) 4 members finish second term in 1977
 - (c) 2 members finish first term in 1976

10. This puts constraints on the numbers of replacements as follows:

1976 Group (a) must be replaced and group (b) must be considered for reappointment. The 6 - 8 replacements will be distributed as $B(2, 0.8)$

1977 Group (b) must be replaced.

1978 Groups (a) and (c) must be considered for replacement. The maximum number of replacements is 8. The probabilities will be a combination of $B(6, 0.8)$ and $B(2, 0.8)$ distributions and will be affected by the number of replacements in 1976.

1979 Groups (b) and (c) must be considered. The maximum number of replacements is 6. The probabilities will be a combination of $B(4, 0.8)$ and $B(2, 0.8)$ distributions and group (c) will be affected by the replacements in 1976.

1980 Groups (a) and (c) must be considered. The maximum number of replacements is 8 and the probabilities are affected by the replacements in 1978.

1981-84 All three groups must be considered and since the members are in different terms the probabilities will be affected either by the replacements of 2 or 3 years before.

11. The attached tables show the probabilities of each number of replacements for the 10 years 1975-84 for each scheme. These probabilities have been rounded to 2 decimal places.

The third table shows the most probable number of replacements each year for each scheme.

Frances MacNally

25th April, 1975

Dear

... I refer to my letter of the 17th March 1975 (copy attached) to which some Centres have responded already and would appreciate it if the request from China could be met at your earliest convenience.

Our own stocks of literature on the Centres are also becoming rapidly depleted so I should be equally grateful if the request in the third paragraph could be met as well.

Thank you for your cooperation.

Michael L. Lejeune

TAC - Procedure for Appointing Members

1. This procedure is to be codified. A first step is my letter of January 9, 1975 to Gram. Gram replied January 23 making some suggestions. There was some discussion in Rome February 12 and a summary of this was made by the TAC Secretariat dated March 5.

2. Two things now need to be done:

(a) My letter of January 9 should be revised and converted into a memorandum for the record to guide everyone in the future. The revision should take into account the question of selection of alternates and the proposal not to ask the CG membership for approval of extension of appointments. It should also make clear that approval of new appointments by CG is on a "no objection" basis (see Portilla precedent). Incidentally, the March 5 memorandum is in error on one point. We never agreed that appointments should be "cleared" with the TAC chairman - only that he should be consulted.

(b) The question of the length of the renewal of appointment was raised at the last TAC meeting. The Co-Sponsors agreed on 2 years plus 2 years renewal. TAC for some reason seemed to think 3 years renewal was more manageable. John Coulter knows about this discussion. Crawford will raise this issue when here. Before he gets here, we should analyse the effects of one system versus the other. Please discuss with John and Carlos and have something ready by April 30 which can be shown to Warren Baum at that point preliminary to having it in shape to show to Crawford.

MLejeune:ia

cc: Mr. Coulter
Mr. Cavino

Files: F-1

1. Mr Coulter

You will have
seen my cable to
Oram on next steps,
the form of which
is consistent with
Crawford. For this
purpose I suggest we
send Baum a copy
of his CV with a
note saying three
co-sponsors agree, ~~and~~
~~that~~ Crawford should
be consulted, after which
I will notify Germans.
We then believe laid
down procedure. Please draft
the note to Baum. ac

Dear Mr. Lejeune,

Further to our telephone conversation yesterday afternoon, with you and Mr. Yudelman, I am pleased to inform you formally that UNDP supports the nomination of Dr. J. G. ten Houten of the Netherlands to fill the vacancy created by Dr. Bommer on the Technical Advisory Committee of the Consultative Group on International Agricultural Research. I hope that his appointment can be made final as soon as possible so that Dr. ten Houten may be able to attend the forthcoming meeting of the TAC in July.

With best personal regards.

Dear Mike:

Dr. Dieter Bommer has just communicated to us that he is still receiving CG documentation to his old address in Germany. As you will recall, Dr. Bommer is no longer a member of TAC, and has taken up the position of Assistant Director-General of the Agriculture Department here in FAO. In that capacity he will serve as FAO observer to TAC. Would you please therefore change his address on your mailing list but continue to send him all CG documentation.

FROM: Michael L. Lejeune

SUBJECT: (a) TAC Replacements
(b) TAC - Documents for Centers Week

1. Oram phoned from Rome April 10. He said they had cabled regarding TAC replacements. The cable covered three points. First, the nomination list circulated by the Secretariat had not contained the names submitted by FAO last year. I explained that the list purported only to be a compilation of responses to our circular to the CG and neither FAO nor the Bank had responded. Oram said they would resubmit. (Note: As a next step we should amend the list sent to the co-sponsors in two respects: (i) add the names which have come in since the list was composed, including the names submitted by the Bank after the Bank has winnowed the lists provided by the Bank's Regional Offices, and (ii) add in a separately designated section names on the books from previous submissions). Second, for admittedly political reasons FAO's first choice for Bommer's replacement was Abou Khaled, but this appointment also had merit because of his discipline (water management) and because he was from the Middle East, which was an advantage when establishing ICARDA. They recognized that this would go against maintaining the balance between developed and underdeveloped countries but the other advantages could outweigh this disadvantage. Third, if, however, we felt the balance was the more important consideration, they would propose Jensen (U.S.) or Chandler (U.S.) or Swindale (who Oram is sure was a New Zealander when he worked for FAO).

2. I said I thought, other things being equal, we should choose a European rather than have two Americans and no German, Dutchman or Swede. Among the Europeans Oram thought ten Houten (Dutch) and Aberg (whom he says is a Swede, though he is listed as Swiss on our list) appear good. He knows Aberg, but not well, He undertook to make checks on both and report. He also suggested Mathys (Swiss), a plant pathologist.

3. Despite the choices named in the cable (which arrived subsequently and is attached), it was obvious that Oram saw the logic of choosing a European and was going to set about identifying a good candidate.

4. Oram, partially responding to my letter about Centers Week Documentation, said TAC members would welcome receiving the Program and Budget Papers of the Centers and the Secretariat's Commentaries. (Note: We should check this question with Crawford when here and then inform Center Directors of the outcome.)

ICARDA - TAC Review

TAC, of course, has been reviewing ICARDA in one form or another for a couple of years. Now, however, is the first time we have a specific proposal on paper. Do you think it should be put to TAC for review and if so, at what stage? The present prospectus is really for general information as a basis for deciding whether to go forward with the proposal rather than being a specific program, establishment and budget for the Center. It would be up to the Director-General and his Board to work up a firm program. Perhaps, therefore, the time to put something before TAC is when ICARDA has a Board and Management which can be responsive to TAC's views. What do you think? Should we discuss this with Crawford when he is here, or is it better to wait until we have made further progress?

Communications between TAC and Centers

I see from a note you sent me containing the Center Directors' views on the Channel of Communication that they recommend that all communications, including those on TAC matters, go through the C.G. Secretariat. This clearly is not happening. Have you heard any more about this since last summer?

TAC

In the course of a conversation with Mashler about TAC, he expressed his views on the quality of the members. He thought the following were articulate and constructive:

- Pereira
- Ruttan
- Swaminathan
- Camus
- Hopper
- Sauger

He thought Portilla would be good.

He thought Yamada, Mariithi and El Togby did not contribute much to the discussions.

Sir John Crawford
32 Melbourne Avenue
Deakin, Canberra, A.C.T. 2600
AUSTRALIA

Dear Sir John,

We are looking forward to seeing you in Washington early in May. We have quite a lot of things to talk about.

Warren Baum and I have been invited to go to Saudi Arabia and Kuwait to discuss their becoming members of the CGIAR. We are leaving the evening of Wednesday May 7. We hope, therefore to book you for a morning or afternoon well before we leave. I understand that you have a meeting of the Trustees of the Food Policy Research Institute on Monday the 5th, but Dale Hathaway tells me he thinks you will have finished that *by* lunch time. If you are not here on the preceding Friday (our information on your date of arrival is not clear as I write this, though I know that Graham Donaldson has cabled you for specifics) we would like to reserve Monday afternoon as there is a Board Meeting on Tuesday.

Graham will carry this to you, but I would appreciate a telex after you receive it confirming that you could reserve Monday afternoon for us or alternatively that you will be here in time to have rested up and have a meeting on Friday.

Best wishes,

Sincerely,

Michael L. Lejeune
Executive Secretary

To: Mr. Coulter
Mr. Gavino ✓

1. I have been forwarding to you names received from the Bank Regions. Here is another batch. Have we now heard from all six Regions?
2. Darnell has sent these forward without any evaluation or screening. None have any very deep biographical information.
(a) Should we get Yudelman/Darnell to evaluate the list - i.e. give us their views as to which are the 1/2 dozen best? (b) Give us any additional names on their own account?
3. When we have got the Bank's considered submission, we should forward it to FAO and UNDP along with other stragglers.
4. We then have to move on to the question of the Bank's (and our own) choice for the Bommer replacement. When we know what we want, we then have to figure out how to get FAO to agree with us.

OFFICE MEMORANDUM

TO: Files

DATE: April 8, 1975

FROM: Michael L. Lejeune

SUBJECT: TAC Membership

We should keep in mind Dr. Sterling Wortman as a possibility for TAC some day. He might well be considered as Chairman to succeed Sir John Crawford.

cc: Mr. Coulter
Mr. Ritchie

MLLejeune:ia

Files: F-1

File - 3-1

Mr. Lejeune

April 8, 1975

John Coulter

TAC

I have your memoranda of March 7, March 31 and April 3 concerning the above.

Replacements

In your memo of December 6, 1974 to Mr. Baum, you suggested that a Swede could be considered as a replacement for Bommer. Do you wish to pursue this?

The reason given at the February meeting of TAC for a 2+3 year appointment being better than a 2+2 year appointment rests on a mathematical fallacy that it would operate as a mechanism for spreading appointments; this would be so only if a significant number of members were not reappointed after the initial two-year assignment. Thus I would suggest that we retain the 2+2 appointment.

As regards the Hopper reappointment, I would suggest that we can only await the outcome of the election to FAO in November.

Terms of Reference

The terms of reference for TAC are written in general terms and have been interpreted by the Chairman and members of TAC as they think fit. I do not have any suggestions as to how these terms of reference could be amended during the tenure of the present Chairman.

Quinquennial Reviews

This is discussed in two TAC Secretariat notes, "Review Procedures, Agenda Item 15, CG Meeting, July 1974" and Agenda Item 23, Ninth TAC Meeting, Rome, 1975." The Center Directors responded to the TAC proposals and I attach a copy of their response. (Annex I.)

The TAC has decided to do the quinquennial review of IRRI in November-December 1975 and plans to review CIMMYT and CIP in 1976. I believe the TAC plans to do two centers per annum thereafter. You are correct in assuming that TAC has not given consideration to discharging its responsibility by participating in the centers' own reviews.

My impression is that TAC is not prepared to accept other reviews but will insist on conducting its own. For example, I have been told that the

April 8, 1975

IRRI mechanization program has had three reviews in the recent past, but nevertheless TAC is initiating another review this year. During my visit to IRRI, IDRC staff were present to review their support for a restricted core project; the U. K. had had two experts about two weeks previously and I believe that USAID and German representatives had visited fairly recently. These donors are, of course, aware that the TAC is making a major review this year.

The kind of review and its major purposes were discussed at the Ninth Meeting of TAC. A list of possible consultants was circulated and the Chairman asked TAC members to indicate their availability for participation in the review; Sir John Crawford may participate for part of the time. It was also suggested that one or more members of the review mission visit the outreach programs in Thailand and Indonesia. I did not get a clear feeling from the meeting as to how the review would be conducted; last year I prepared a memo on this for the Chairman of TAC (Annex II). I have had no response to this.

Neither the TAC Secretariat nor its members have participated on a regular basis in the centers' program reviews. I believe that there has been some participation on occasion but I have not seen any reports on these. As you are aware, there is no regular exchange of reports on visits to the centers between the two secretariats -- something which I hope can be remedied in the future.

JKCoulter:apm

Comments of Center Directors on Reports
from CGIAR

1. Review Procedures

The Center directors are in general agreement with the proposed "Review Procedures" for Center programs as outlined in the May 1974 report of the TAC (DDR:IAR/74/20 restricted). We welcome and appreciate the setting up of an orderly and systematic program review system. For comprehensive reviews, the 5 year interval is in our judgment most appropriate. The interval is sufficiently long as to not overburden Center staffs with excessive reviews. At the same time, it is frequent enough to assure for the Centers and the Consultative Group adequate external evaluation of overall program quality.

We will be pleased to work with the TAC in arranging for and implementing ad hoc reviews of major changes in our additions to Center programs. We assume that such reviews will be made in harmony with the recommendation of the Bell Subcommittee on review procedures.

We assume that both the comprehensive and ad hoc reviews have two major functions: first, to assist the Centers improve their programs and second to assure the Consultative Group donors of program quality. In keeping with these two functions and with the spirit of the Bell Committee report on Center Reviews by the TAC, we recommend that a given review be worked out in consultation with the center director and that the selection of review team members be made in consultation with him. He is better aware than anyone else of the proposed program thrusts and is thereby in a position to suggest competent outside reviews for these program thrusts. We are not

suggesting that the director dictate the selection of outside reviewers but that he be permitted to participate in this selection.

2. Channel of Communications

The center directors are appreciative of the informal working relationships which have evolved among the centers and the CG, its Secretariat and associated groups. This informality has generally contributed to efficiency of operations and has made it easier for all to gain a better understanding of the Centers' objectives, programs and problems.

Our working relations with the CG Secretariat have necessitated some formalization of procedures on budgeting, auditing, etc. which we welcome and have found useful. There are other areas of interaction, however, on which we suggest somewhat more formal procedures be established. For example there is the interaction between the TAC and the Centers which is considerable now and which will likely increase in the future. There is some uncertainty as to the appropriate channel for communication and discussions on matters of concern to both the TAC and the CG Secretariat. We find this to be unsatisfactory.

To simplify procedures and to provide for more effective communication we recommend that the CG Secretariat be the channel for communication with the Center directors on all matters of mutual concern, including those involving the TAC.

3. Date for Audit Report Submission

With reference to the document on accounting procedures and practices, the Directors wish to record that it will not be feasible to get the audit report prepared by March 1 as suggested. April 1 would be the very earliest that such reports could be available, as a rule.

4. Requirements for Notification of Changes in Budget Allocation

The Center directors agree that actual budget expenditures should be within projected totals and should correspond as closely as feasible to original budget allocations. At the same time sufficient flexibility must be given in managing center fiscal resources to accommodate changes in fiscal needs during a given year. To permit this flexibility we recommend that directors not be required to refer to the CGIAR Secretariat in advance within year changes in budget allocation unless such changes are major in amount, have significant program implications or have implications for continuing budgetary commitments in future years.

5. Copies of documents required

The directors wish to point out the large costs of printing and air-mailing the large numbers of annual reports, budget proposals and audited accounts suggested by the CGIAR Secretariat. A careful review of the list of recipients and the numbers of copies suggested would be desirable.

W. J. McC. to J. C. J. C. July 1974

ANNEX II

Review Procedures for the Centers

As the Bell report points out this must be a continuously evolving process and it is not possible, at this time, to predict the optimum outcome though some of the objectives could be discussed.

The work of the centers obviously concerns the beneficiaries (LCDs mostly), the staff of the centers, their Boards of Trustees, the Consultative Group, the donors and TAC, and it is the reconciliation of all these interests which presents problems, problems which will increase as funds become tighter, as disillusionment inevitably sets in, when some programs do not provide the expected answers in the expected time, and where 'vested' interests of one form or another bring pressures to bear on the system.

Boards of Trustees have, as I understand the system, a major function either on their own or through their research committees, of deciding the program of the institute; they presumably comprise people who are best qualified to define the mission of the center and to suggest the staffing to carry out such a mission.

Whilst the Board (with the staff of the institute) must be accepted as the competent authority to define the objectives of the center - and they should also define how progress towards those objectives is to be assessed, they should not be both judge and jury, i.e., they should not be asked to assess the diligence of the scientists and scientific quality of the program directed towards those objectives. This would seem to be the function of the external reviewers ('the visiting group').

It is not clear to me how the Boards appraise objectives (if they do) at the short intervals (6 months or 1 year) at which they meet. Ideally one might say that programs set in year 1 should be reviewed in year 2- $\frac{1}{2}$, re-set in year 5 and reviewed in year 7- $\frac{1}{2}$, etc.

The interested party on one hand thus consists of the recipient countries, the staff and the Board of Trustees of the center; on the other side, are the donors and TAC. The recipient countries are the customers and the centers are the contractors whilst the donors pay on the customers' behalf. The donors therefore require proof that their money is well spent.

The major function of TAC in the past seems to have been to overlook broadly the whole field of agricultural research in the LDCs, to identify gaps and to suggest the best ways of filling these. When TAC becomes more closely involved in assessing the work of the centers, then this will constitute a major commitment. It would mean that their attention will include the broad strategies of agricultural research in the LDCs and the assessment of mechanism and tactics used in following those strategies.

If one accepts that the Boards of Trustees define the missions of the centers, that the 'visiting groups' assess the scientific quality and rate of achievement of these missions, that TAC concerns itself with the broad strategy of agricultural research and will review missions; then we are left with questions on the most appropriate functions of the Secretariat of the Consultative Group (apart from the obvious ones).

Perhaps the functions should be to ensure that in the intervening periods between visiting groups the programs are being followed, that

early warnings of deviations or serious gaps in the planned achievement of such programs is given to TAC and the donors.

To be realistic one must assume that in future, funds will be scarce both within centers and between centers. When centers know that little additional money is available will they continue to bring forward new and possibly very good projects knowing that it will mean dropping something else? When centers cease to grow, few new staff will be recruited and resident staff are likely to have something of a vested interest in maintaining the status quo of their research projects.

Scientific staff may react in a hostile fashion to suggestions of accountability, yet when requesting funds for a particular project they find little difficulty in justifying it both in terms of cost and probable achievements. Scientists need full freedom to decide on the best way of achieving an agreed objective, but this does not mean that they do not know or cannot inform others whether that objective is likely to be achieved.

OFFICE MEMORANDUM

W Lejeme.

F 1

TO: Mr. George Darnell

DATE: April 7, 1975

FROM: John Blaxall

SUBJECT: Technical Advisory Committee to CGIAR

You asked for suggestions for new members of the Technical Advisory Committee. Let me pass on two names put forward by the staff. The first is Mr. Wellhausen, whom I am sure you know, and the second is Mr. Al Moseman. Both of them are former staff of the Rockefeller Foundation; perhaps this might affect their relationship to the institutions sponsored by CGIAR since they were no doubt involved with them in earlier days, but I doubt whether that should present a serious problem.

Dear Mr Lejeune

NOMINATIONS FOR MEMBERSHIP OF THE TECHNICAL ADVISORY COMMITTEE

With reference to the memorandum of 23 January from the Secretariat of the Group I am writing on Will Mathieson's behalf to suggest the following names for consideration:

C C Webster, CMG, BSc, PhD, AICTA, formerly Chief Scientist, Agricultural Research Council of the UK. General agricultural research with much tropical experience.

✓ A F Posnette, ScD, PhD, AICTA, FIBiol, FRS, Director, East Malling Research Station (mainly supported by Agricultural Research Council of the UK). Plant Pathologist with much tropical experience.

D S Thornton, PhD, BScAgr, BA, Reading University. Agricultural Economics in developing countries.

W M Henderson, DSc, MRCVS, Secretary, Agricultural Research Council of the UK.

M N Menon, FRCVS, Animal Husbandry Commission, Central Government of India, New Delhi.

N N Raditapole, OBE, BSc, MRCVS, DAP & E, Chief Planning and Coordinating Officer, Ministry of Agriculture, Lesotho.

2. I am sorry that we are a little behind your deadline, and that even now full curricula vitae are not available. We thought it best to send names and brief details without further delay, and follow-up with the CVs when they can be assembled, in which connection it would be helpful to know if you would wish us to concentrate on any of our suggestions in particular.

3. I am sending a copy of this letter to Mr Oram at Rome.

Yours sincerely

April 4, 1975

Dear Denis:

Mr. Lejeune has passed your letter of 21 March to me. I gather from the cable of April 2 that we will receive a CV on C. C. Webster. We would also be interested in having one on Dr. Posnette. Whilst I have the very highest regard for Dr. Henderson, I doubt very much whether he would have sufficient time to attend TAC meetings. However, if you think he could be available, perhaps you could send his CV also.

As you know from our original memo, we are interested in scientists from the developing countries, so we would also be glad to get CVs of Menon and Raditapole. If you have these we would be glad to receive them, otherwise could you let us know where to write for them?

As all the U. K. nominations are well known to me, I do not think we need anything in the nature of referee reports. However, neither of the other nominees are known to me but are probably known to Ralph Melville. Perhaps you could confirm this so that we can speak to him as necessary.

With best regards,

Yours sincerely,

TO: Mr. H. Vergin

DATE: April 3, 1975

FROM: R. Milford

SUBJECT: Technical Advisory Committee to CGIAR

With reference to your request for suggested candidates for the Technical Advisory Committee to CGIAR I propose:

- (i) Dr. K. L. Blaxter
Director
Rowett Research Institute
Bucksburn, Aberdeen
Scotland

Dr. Blaxter is a leading world figure in Animal Production Research. I have known him for some 20 years. Not only is he an outstanding scientist but also he has a sound practical agricultural background and is a good administrator. I consider he would be a valuable asset to the TAC advisory committee.

- (ii) Dr. Anuwar bin Mahmud
Vice Chancellor
National University
Kuala Lumpur
Malaysia

Wor

Dr. Anuwar has recently moved to the post of Vice Chancellor from the head of the Malaysian Agricultural Research and Development Institute. This institute is concentrating on commodity oriented research with particular reference to the small farmer and is perhaps one of the foremost institutes of its kind in the developing world. In his capacity as immediate past Director of MARDI, Dr. Anuwar would be able to make a significant contribution to the TAC committee.

April 3, 1975

Mr. Peter A. Oram
Secretary
Technical Advisory Committee
Food and Agriculture Organization
of the United Nations
Via delle Terme di Caracalla
Rome 0100
Italy

Dear Peter:

I enclose for your information copies of memoranda sent to CG Members and Center Directors about the distribution of documents for Centers Week.

We propose that copies of all documents (except the Auditor's Report) be sent to the TAC Chairman and to the TAC Secretariat. I assume that one set will be enough for Sir John (and probably more than he can carry anyhow!). How many sets do you want in Rome? For your and Sir John's convenience I suggest we hold here one set for Sir John and as many as you want for the Secretariat.

I have discussed with Harold Graves the question of distribution of papers to TAC members. We feel that the Centers should send each TAC member a copy of its Annual Report, but not, of course, the Auditor's Report. We are not sure how useful it is to provide TAC members automatically with each Center's Program and Budget Paper and the Secretariat's Commentary. I would like your opinion on this and meanwhile have given the Center Directors no instructions. Also what about the Agenda and agenda documents? We cannot undertake to give TAC members everything since some items will be solely for CG Members, but there will be some which will be of interest to TAC members. We shall, I feel, have to be selective. I would like your advice on this, too. You may wish to consult Sir John. He will, incidentally, be here in early May and I can discuss it with him.

If you expect to provide TAC documents to the CG Members, we should agree on how and when it is to be done.

Mr. Peter A. Oram

- 2 -

April 3, 1975

This is quite a bundle of questions. Please let me have your views as soon as you can. I propose to issue instructions to the Center Directors in early May.

As ever,

(signed) Michael L. Lejeune

John Coulter

Meeting with Sir John Crawford (in early May)

Items for discussion:

- 1) TAC Agenda -- Scheduling of open sessions so that donors attending CG meeting can be present.
- 2) Use of Secretariat reviews by TAC Chairman and TAC members.
- 3) Secretarial and office needs of Chairman of TAC for July meeting.
- 4) Replacement for Dr. Bommer; co-sponsors proposals.
- 5) Reports on ILCA (discussions between Sir John Crawford and Dr. Tribe in Australia).
- 6) Membership of Boards of Trustees of Centers and membership of TAC. Chairman's views on any conflicts of interest.
- 7) ICARDA?
- 8) Revision of TAC's terms of reference (your memo of March 31).

From: Executive Secretariat

April 3, 1975

Subject: Distribution of Documents for
International Centers Week

1. Attached for your information is a copy of a memorandum sent to each CG Member about the distribution of documents for Centers Week. We are also asking the TAC Secretariat about the distribution of documents for TAC. When the Secretariat has in hand the responses from the CG Members and the TAC Secretariat, we shall supply you with a mailing list, a list of numbers of copies to be sent to each addressee, and labels ready to use for mailing.
2. As you know, we aim this year to have all documents pertaining to Centers Week in the mail by June 20.
3. We assume that Centers routinely exchange Annual Reports among themselves and the Secretariat need take no action respecting this distribution. We also assume each Center Director will be providing Centers Week documentation to the Chairman of his Board.
4. The Secretariat plans to provide each Center Director with three copies of the Centers Week Agenda and those agenda documents of general interest. It will also provide you with as many copies of the Secretariat Commentary as you may wish. Please let me know your needs by April 25.
5. As usual, we plan to have extra copies of all documentation available at Centers Week. In the past, Centers have provided about 50 copies each of their Annual Reports and their Program and Budget Papers for this purpose.

CONSULTATIVE GROUP ON INTERNATIONAL AGRICULTURAL RESEARCH

1818 H St., N.W. Washington, D.C. 20433 U.S.A.
Telephone (Area Code 202) 477-3592
Cable Address - INTBAFRAD

To: Consultative Group Members
From: Executive Secretariat April 3, 1975
Subject: Distribution of Documents for International
Centers Week

1. The Secretariat is presently making plans for the distribution of documents for International Centers Week (July 23 - August 1, 1975).
2. Each Center will be responsible for distributing direct to the addressees three documents:
 - (a) its Annual Report (covering 1974),
 - (b) its Program and Budget Paper for 1976, and
 - (c) its Auditor's Report for 1974.

The first two documents will be sent to all members of the Consultative Group. The Auditor's Report will be sent only to those donors making contributions to the Center for its 1974 or 1975 programs.

3. The Secretariat will be responsible for distributing:
 - (a) its commentary on the program and budget of each Center and
 - (b) the Agenda for Centers Week and the agenda papers, including the Integrative Paper.
4. It will greatly simplify the mailing process if all documents for each member of the Group are sent to one addressee who will then be responsible for making any internal distribution. It would be appreciated if you would advise the Secretariat of the name and address of the person to whom all documents should be sent by the Secretariat and the respective Centers.
5. Printing and airmailing large numbers of documents - particularly the Centers' Annual Reports - is expensive. In the interests of economy, the Centers have asked that the distribution of copies not be excessive. We plan to send to the addressee named by you the numbers of copies shown below.

<u>Document</u>	<u>Number of copies</u>
Center Annual Report	
Center Program and Budget Paper	
Center Auditor's Report	
Secretariat Commentary	
Agenda and Agenda Papers	

These numbers are in line with those supplied in the past and we expect they will suffice. If you can do with less, it would be appreciated. If you need more, we shall endeavor to accommodate you. In either case, please let us know. Extra copies will, of course, be available at Centers Week.

6. Please provide the Secretariat by April 25 with the information requested in the foregoing paragraphs.

7. A separate memorandum will be issued shortly about up-dating the CGIAR mailing list for routine memoranda and papers as distinct from the documents pertaining to Centers Week.

3 April 1975

Dear Mike,

I am writing with reference to your letter of 27 March, and further to our telephone conversation yesterday, concerning the selection of members of the Technical Advisory Committee.

As I indicated to you verbally, our first choice is Dr. Robert Chandler, who we believe to be uniquely qualified by virtue of professional competence and temperament to serve on the TAC. We believe that he would bring to that body a wealth of experience and a personal reputation which is so very important at this time. I sincerely hope that the three co-sponsors agree on this excellent candidate to fill the vacancy created by Dr. Bommer's departure.

Our second choice would be Dr. A.A. Bishop, whose C.V. I expect to receive within the next day or so and will forward to you immediately. We also had considered Professor Odhiambo as a possible candidate, but have come to the conclusion that in view of the fact that the ICIPE question is now before the TAC, his candidature would create a conflict of interest. Nevertheless, we might keep his name on the list, pending the outcome of TAC's consideration of the ICIPE item.

As I mentioned to you on the phone yesterday, I believe we might now wait until we receive further nominations from stragglers and be prepared to consider the filling of vacancies which will be created at the end of this year at the next co-sponsors meeting this summer. At that time, we should also discuss the question whether persons serving on the Board of Trustees of an Institute within the CGIAR system should be disqualified from serving on the TAC. We should, in addition, address ourselves to the question whether it might not be advisable to have a closer look at the manner in which the Board of Trustees of the Institutes are selected. In particular, we might wish to consider whether the Boards should be composed exclusively of scientists, or whether, as we feel, at least one person with budget experience and an economist should be represented on each of them.

Mr. Michael L. Lejeune
Executive Secretary
Consultative Group on International
Agricultural Research

TAC Quinquennial Reviews

1. TAC Quinquennial Reviews, like a number of other administrative matters are covered in the report of the Bell Committee which was sent as a draft (dated November 20, 1973) to members of the Consultative Group and was, in effect, adopted in accordance with the circular from the Secretariat to the Group dated January 9, 1974. The Bell report speaks of the "requirements" and one of these is "assurance from reliable external reviewers that the scientific and technical aspects of the Center's work, both current and prospective, are soundly based." On page 3 they go into more detail on how to satisfy this requirement. They cover first the need of the CG to have an independent assessment of any major change proposed in any Center in the year in which the change is proposed, i.e. they are talking of an annual TAC assessment of major changes. On this they say that TAC's review can normally be accomplished by sending one or more of its members or consultants to visit the Center, quite possibly in conjunction with some stage of the Center's own consideration of the proposal. They go on to say if a more elaborate review process is desired by the TAC, that can be laid on to fit the circumstances of a particular case. They recommend that a regular procedure for reviewing major changes be established.

2. In this connection, has it been the practice of TAC to make arrangements to participate in the annual in-house review of each Center? If not, do they plan to do this in the future? Do you think that this is a good way for TAC to carry out its responsibility for annual reviews of major changes?

3. The Bell report then goes on to discuss the need for periodic independent external assessment of the overall scientific quality and effectiveness of each Center, and what continuing need for its work, with special emphasis on the need to ensure that activities are not continued longer than necessary, and that activities of lower priority are replaced by those of higher priority. From this the idea of a quinquennial review is developed. It is interesting however, that they conclude by saying that "it would seem feasible for the TAC to meet its responsibility in most cases by (1) assuring itself that the Center's own assessment process is adequate and (2) participating in the Center's assessment process by mutual agreement with the Center's director." This is considerably short of laying on a full external review by TAC on its own. The report does however go on to say "if the TAC considers it necessary, it can lay on a special assessment process separate from that organized by the Center for its own purposes."

4. From what you have seen or heard of the discussions about quinquennial reviews, has the above statement been modified or elaborated by CG action and is it your understanding that TAC proposes to make its own full scale external review on every occasion or only in special circumstances? I must say that my own impression is that no consideration has been given by TAC to carry out its quinquennial responsibilities by participating in a review arranged by the Center itself, far less by merely satisfying itself that the Center is conducting an appropriate review.

5. It would like to review with you at some point whatever we may know

Mr. John Coulter

April 3, 1975

about TAC's thinking about the whole quinquennial review process.

c.c. Mr. Ritchie

OFFICE MEMORANDUM

TO: Mr. George F. Darnell, through R. Frank
FROM: Horst von Oppenfeld *HO*
SUBJECT: Nominations for Technical Advisory Committee to CGIAR (your memo of 3/27)

DATE: April 2 1975

The following is a very tentative list of possible candidates for nomination:

1. For discipline of genetics (replacing El Togby): Dr. D. Umali, formerly Vice-President, University of the Philippines, College of Agriculture, Los Banos, Philippines. Presently Deputy Regional Director, FAO, Bangkok. *2 know this man. he is very articulate and lovely.*
2. For discipline of water use: Omar Abdallah Dokhgan of the Jordan Valley Commission, Amman, Jordan.
3. For discipline of horticulture: Mr. Murat Octar (present position unknown), citrus expert (PhD Riverside, California), formerly Director of Agricultural Research, Ministry of Agriculture, Ankara, Turkey.
4. For a discipline not specified: (but knowledgeable and experienced in the field of public administration, agricultural extension services and training) Akhtar Hamid Khan, formerly Vice-Chancellor, East Pakistan Academy of Rural Development, Comilla, East Pakistan. Presently holding a similar position with the Academy of Rural Development in Peshawar, Pakistan. *All know*
5. For discipline of economics (replacing David Hopper) Dr. Kurt Hendrikson, presently head of consulting firm, Hendrikson Associates Consultants, 6 Frankfurt 20, Gartenstrasse 56. Retiring from this firm within twelve months, and thereafter intending to devote full time to research on rural development, especially concerned with development of viable farmer organizations and their role in extending technology and improved management.
6. For discipline of soils science and water use: Dr. Robert Chandler, first director of IRRI (retired since 1971) and Taiwan-based Vegetable Research Institute (retiring June 1975).

I do not know the current addresses of some of the above nominees, but I could obtain them without much difficulty if so required.

31 March 1975

Dear Mike,

Thank you for your letter of 20 March, concerning the TAC membership. In my view, we should not wait for further nominations at this stage, but use the names which have been submitted by various members of the CG and select immediately a replacement for Bommer. I believe this is a matter of great urgency because (a) the person to be selected must attend the July meeting of the TAC, and (b) in view of that, the new member will at best have only two months, after the selection process has been completed, to acquaint himself with the substance of the issues before the Committee.

Any stragglers from among the CGIAR members wishing to submit candidates, can be accommodated when we consider those members of TAC whose term expires at the end of the present calendar year.

OFFICE MEMORANDUM

TO: Mr. Michael L. Lejeune

FROM: Harold Graves *HGW*

SUBJECT: Nominees to TAC

DATE: March 31, 1975

Of the individuals that occur to me as possible members of TAC, none, I think, could be a candidate on the next round of nominations, because the specialties or the regions from which they are drawn will already be represented on TAC at that time. Nevertheless, here are some names:

Guy Vallaeys, scientific director of IRAT, the French institute for research on tropical agriculture. He is junior to Camus in the French scheme of things, but obviously knows the French research establishment overseas thoroughly. He understands English very well, although my impression is that he does not speak the language fluently. I met him first in 1972, when Ralph Cummings and I went to Paris to get advice about persons who might serve on the ICRISAT Governing Board (Vallaeys' boss, Francis Bour, was chosen for reasons of protocol); and I saw him again at the 1974 meetings of WARDA in Ibadan, where Vallaeys presided over the meetings of the WARDA technical committee. He appears to be in his late 40s or early 50s.

Marcel Lacroute, a Frenchman who was one of the better members of the Consultative Group's African Livestock Subcommittee. He impressed other members of the Subcommittee with his common sense and his ability to identify and articulate issues. He appears to be somewhere in his 50s, and his English is reasonably good. I do not remember what part of the French research establishment he is from, but the Livestock Subcommittee minutes would show (he was at the first Washington meeting of the Subcommittee and at the group's Paris meeting). In any case, he is more of a policy and administrative person than a research scientist.

Arthur Mosher, an American who retired from the presidency of the Agricultural Development Council (a Ford Foundation subsidiary) in 1973; he is now in the middle of a 2-year technical assistance assignment in Sri Lanka. It would be my guess that Mosher knows more about the real on-the-farm problems of outreach, or technology transfer, or whatever you want to call it, than any present member of TAC. His chief experience, I believe, has been in India, where he lived in villages and taught at the University of Allahabad. He is the author of a book, "How To Get Agriculture Moving." By virtue of his work at the Agricultural Development Council, he has an extensive knowledge of scientists in developing countries, particularly in Asia. (Vernon Ruttan, the present President of the ADC, would have the same kind of knowledge, but more recent and less extensive.) Mosher is in his latter 60s, but is in good health and is still mentally keen.

March 31, 1975

When it becomes necessary to replace Sir John Crawford, Sterling Mortman ought to be a leading candidate. He is a good leader and chairman who has the respect of the whole CG system. He has seen from almost every point of view the operation which the CG supports: as scientist, as a Center manager (he was associate director of IRRI), as a Center trustee, and as a donor.

More generally, I know, you are considering the question of resources on which the CG might draw for nominations to TAC and other organizations in the CG system. Some resources of this kind already exist. As a result of the Ford Foundation's leadership in the search for three Center directors (of ICRISAT, IRRI and IITA), that Foundation (and, more particularly, Frosty Hill) has a list of names and biographical data of scientists and research directors. While the lists were compiled with the selection of Center managers in mind, these individuals might also be qualified for other kinds of role in the system, including membership in TAC. The Rockefeller Foundation also has undertaken a similar search for the purposes of ILRAD, and their lists and biographical data, while limited to the livestock sector, might also be useful. A couple of ILRAD lists, without biographical particulars, were circulated by Dr. John Pino in 1972 and 1973, and are attached to this memorandum.

Consideration ought to be given whether the interests of the Consultative Group and the Secretariat would justify more systematic treatment of the problem of recruiting personnel for TAC, Center directorships and Center Trusteeships (of which only the first is a Secretariat responsibility now). If more systematic treatment seems to be justified, then one possible course is to turn a qualified person (preferably someone not English and not American, who would be free of the Anglo-Saxon bias displayed in the CG up to now) loose for some considerable length of time (not less than six months) to survey the available resources. The surveyor would not be looking for nominees to anything; he would be looking for individuals and, more especially, institutions to whom the Secretariat could turn for advice and suggestions. No doubt the World Bank has some resources of this kind; and James Fransen and others should be consulted about how to approach the problem.

Michael L. Lejeune, CGIAR Secretariat

TAC Terms of Reference

I was reading today the Summary of Proceedings of the first meeting of the CGIAR, dated May 19, 1971. Annex 3 to these Proceedings contains what might be described as the terms of reference for the CGIAR. This is divided into three sections (A) Objectives, (B) Composition, (C) Supporting Services and (D) Financial Arrangements. TAC is covered under Supporting Services. Paragraph 8 of this Annex gives TAC's terms of reference. They conclude with the statement "these terms of reference may be amended from time to time by the Consultative Group."

Four years have now gone by and perhaps we are coming close to the time when we should consider whether TAC's terms of reference need revising. Could you please look at them and let me have your views? As a practical matter, if we propose to revise TAC's terms of reference, we would need to put a proposal to the CG at either its July meeting or the one in November, unless of course we decided to leave this alone until next year. If we were to wish to do something this year, I think probably we should start by taking the matter up with the Co-sponsors at their meeting in July. The procedure would therefore be a memo provided to the Co-sponsors enough in advance of their meeting in July for them to digest it and consider their views, discussion at the Co-sponsors' meeting, and then a paper for the CG for its November meeting.

Let me know what you think soon so that we may decide whether to do anything this year or not.

Rome 0100, ITALY

Dear Juan Felipe:

JAN. 23 1975
I have been in touch with Bill Mashler and Peter Oram about candidates for appointment to the Technical Advisory Committee. As you may remember the CG Secretariat circulated the membership on January 23, 1975 (a copy of the circular is attached) asking for suggestions by March 15. We have had somewhat incomplete responses. However, I now enclose copies of all the communications which have come in to the Secretariat in response to that circular.

The first thing to be done is for the co-sponsors to decide on a replacement for Dr. Bosmer. Even though we have not received replies to our circular from all members of the CG, we may now have enough nominations from which to make a choice. You may remember that at an earlier stage the Germans had recommended Dr. Oslage as a replacement for Dr. Bosmer on the assumption, I believe, that Dr. Bosmer should be replaced with another German. However, the co-sponsors have agreed among themselves that it is undesirable habitually to replace a retiring candidate with another of the same nationality and therefore it would be better on this occasion to choose a candidate from another country. Since we have a number of vacancies coming up at the end of 1975, we can, if we wish, select a German among others at that time.

I suggest that we proceed immediately to select a replacement for Dr. Bosmer, but defer until our meeting in July the consideration of a slate of candidates to fill the vacancies occurring at the end of the year. If you agree, could you please choose three candidates for Dr. Bosmer's replacement and send them to me indicating your order of preference among them and giving a brief evaluation of the suitability of each one as a member of TAC. I am asking Mr. Mashler and Mr. Yudelman, as the representatives of the other two co-sponsors, to do the same. You will remember that to preserve the balance

Mr. Juan Felipe Yriart

- 2 -

March 27, 1975

we need to select someone from a developed country. When I have the choices of each of the three co-sponsors in hand, I will get in touch with you again to suggest how we should proceed to reach agreement.

Some of the members in submitting nominations have neglected to provide curricula vitae. Perhaps FAO has biographical information on these candidates. If so, could you please supply it to me and to each of the other two co-sponsors so they may take it into account in making their choices?

Some of the members of the CG who have not yet replied may have useful suggestions to make. I will remind them to let us have their suggestions in time for us to take them into account in our deliberations in July.

Best wishes,

Yours sincerely,

(signed) Michael L. Lejeune

Suggestions for New Members of TAC

You will remember that the Secretariat circulated members of the CG on January 23, 1975 asking for suggestions of candidates for TAC. We have had only a partial response, but given the urgency of finding a replacement for Dr. Bommer, I suggest we proceed to select Dr. Bommer's successor using the nominations at hand. I have written Juan Felipe Yriart suggesting how we should proceed and I enclose a copy in lieu of writing to you separately. I hope you will find my suggestions to him a practicable way to proceed.

No. EA-3650.

March 21, 1975.

Dear Mr. Lejeune:

With reference to the executive secretariat memorandum of January 23, 1975, concerning the election of members to the Technical Advisory Committee, I have the honor to advise you of the Netherlands Government interest in the election of a Dutch expert to T.A.C. The following candidates are suggested:

1. Dr. J.G. ten Houten (plant pathologist and entomologist);
2. Dr. C.T. de Wit (plant-ecology production specialist);
3. Dr. P. Buring (soil scientist).

./.

The order of this nomination reflects the preference of my Government. Enclosed you will find curricula vitae of the three candidates.

In case the co-sponsors wish to make enquiries the following persons can be approached. For Dr. Ten Houten:

- Dr. G. de Bakker; director agricultural research, Ministry of Agriculture and Fisheries, The Hague;
- Prof. Oswald; President, University of Pennsylvania, College Park, Pennsylvania;

Mr. M.L. Lejeune
Executive Secretariat
Consultative Group on
International Agricultural Research
1818 H Street N.W.
Washington D.C. 20433.

(-2-)

- Prof. R.K.S. Boot; department of plant pathology, Imperial College, London University, London;
- Mr. L. Chiarappa; plant production and protection division (A.G.P.), F.A.O., Rome.

For Dr. Buring:

- Dr. G. de Bakker, director agricultural research, Ministry of Agriculture and Fisheries, The Hague;
- Dr. A. Boerma, FAO, Rome
- Prof. Johnsson, director American Soil Conservation Service, Washington D.C.

For Dr. de Wit no persons can be listed; however, his curriculum vitae lists several institutions which can provide information about this candidate's expertise.

Sincerely yours:

M. Patijn,
Economic Secretary.

March 21, 1975

Dear Mike:

This is in reference to the memo from the Secretariat, dated January 23, on the subject of election of members to the TAC. We are submitting the names of two individuals who might be considered for membership on the TAC.

Dr. Saburo Okita - He is President of the Overseas Economic Cooperation Fund, Iino Bldg., Tokyo 100, Japan. (Cable address - Cooperationfund, Tokyo) He work with the Foreign and Finance Ministry and was instrumental in getting the School of Economics' request for \$1 million for its building in the forthcoming budget and in getting the grant to IRRI raised from about \$250,000 to \$670,000 in the coming year budget.

Dr. M. M. El Gabahy - He has a Ph.D. in Soils from the University of California; former Minister of Agriculture in Egypt; IRRI trustee.

We will continue to give thought to the TAC membership, and will be pleased to call to the attention of the Secretariat names of outstanding individuals.

Sincerely yours,

John A. Pino

AGENCY FOR INTERNATIONAL DEVELOPMENT
WASHINGTON, D. C. 20523

ASSISTANT
ADMINISTRATOR

MAR 14 1975

Mr. Michael L. Lejeune
Executive Secretariat
Consultative Group on International
Agricultural Research
1818 H Street, N.W.
Washington, D.C. 20433

Dear Mr. Lejeune:

This responds to your communication of January 23, 1975 concerning election of members to the Technical Advisory Committee.

First, among those whose term of appointment is scheduled to terminate December 1975, we recommend that Dr. W. David Hopper and Dr. Guy Camus be reappointed. Dr. Hopper, because of his outstanding contribution to TAC, should be encouraged to continue. Dr. Camus has served only since June 1974 (completing Dr. Pagot's second term). We feel he is highly qualified for TAC membership and should now be reappointed to serve a regular term. We also encourage consideration of a further term of appointment for Dr. L. Sauger.

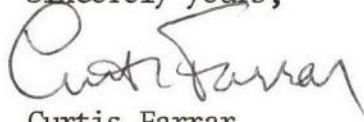

Beyond the foregoing specific suggestions, we list below a number of persons who have been called to our attention as candidates for membership to TAC. Unfortunately, we do not have at this time full biographic data but believe that they possess the basic qualifications sought in TAC members.

1. Dr. Joseph Haraovi (plant scientist)
Director, Agricultural Research Institute
Beirut
2. Dr. Yoash Vaadia
Director, Agricultural Research Organization
Ministry of Agriculture
Volcani Institute
Bet Dagan, Israel
3. Dr. Joseph Madamba
Director
Philippine Council for Agricultural Research

4. Dr. Kim In Hwan
Administrator of ORD
Suwan, Korea
5. Dr. Lung Thai Cong (Soil science)
Former Administrator of Research, Vietnam
Now with ECAFE, Bangkok
6. Dr. Victor Oyenuga
University of Ibadan
Head of Animal Science Department (Former Dean)
(Currently President of AAASA - African
Association for Advancement of Science)
7. Dr. Matthew Dagg
Director
Institute of Agricultural Research
Samaru, Nigeria
(Formerly Head of Soils Division, EAAFRRO, Kenya)
8. Dr. Lewis Mughogho (Plant Pathologist)
Principal Bunda Agricultural College
University of Malawi
(Formerly Head of Crop Science Department
at Bunda)
9. Dr. Thomas Odhiambo
Director, ICIPE
Nairobi
10. Dr. Robert F. Chandler, Jr.
Director, AVRDC
(scheduled to retire in June, 1975)

Finally, it would be helpful to us, and perhaps to other CGIAR members as well, to have a list of persons who earlier served terms as members of the boards of the international centers. Likely among these are several who have the basic qualifications sought in TAC members as well as for centers board membership (e.g., ICARDA).

Sincerely yours,

Curtis Farrar
Acting Assistant Administrator
for Technical Assistance

PR 3/10 Membership

5th March, 1975

Summary Record of discussion between Messrs. Baum, Lejeune, Coulter, Oram and Webster on 12 February, 1975.

1. TAC Membership

a) Rotation of TAC membership - with special reference to 1975, when Dr. Bonner retires in February and five other members in December.

It was suggested that, in order to avoid the loss of five members at the end of the year the tenure of Dr. Yamada, whose initial appointment dated from 1972 (one year later than the others) be extended for a further year. The view of the Chairman of TAC should be sought on this point.

It was also agreed that in future there should be no exceptions to the rotation rule (bearing in mind the fact that any particularly valuable member could be re-appointed following a statutory gap), and that no national lien would be entertained in respect of appointments.

b) Term of office - the TAC had recommended that rather than a two year appointment plus a possible two year extension, the extension be for three years in order to stagger to some degree the retirement dates. This would depend on some members being extended and others not. The TAC Secretariat agreed to work out graphically the implication of a 2 + 3 year system versus the 2 + 2 year arrangement agreed on at the July co-sponsors meeting.

c) Expanded membership - it was agreed not to expand the present membership, but rather to accept the recommendation of the TAC for additional ad-hoc assistance in specific scientific disciplines to participate in the TAC discussions on special problems, provided this did not result in an overall expansion of the TAC budget.

d) New members -

i. It was agreed that a single slate of candidates (i.e. one name for each vacancy) should be prepared by the CG Secretariat on the basis of submissions from the Co-sponsors and CG members; to be presented to the Consultative Group members following agreement by the Co-sponsors and clearance by the Chairman of TAC, and the acceptance of chosen individuals to serve if selected. Nevertheless, in case of any rejections by the CGIAR a list of first alternates (who would not be approached in advance) would also be prepared.

5th March, 1975

FR 3/10 Membership

Summary Record of discussion between Messrs. Bann, Lejeune, Coulier, Oram and Webster on 12 February, 1975.

1. TAC Membership

a) Rotation of TAC membership - with special reference to 1975, when Dr. Bommer retires in February and five other members in December.

It was suggested that, in order to avoid the loss of five members at the end of the year the tenure of Dr. Yamada, whose initial appointment dated from 1972 (one year later than the others) be extended for a further year. The view of the Chairman of TAC should be sought on this point.

It was also agreed that in future there should be no exceptions to the rotation rule (bearing in mind the fact that any particularly valuable member could be re-appointed following a statutory gap), and that no national lists would be entertained in respect of appointments.

b) Term of office - the TAC had recommended that rather than a two year appointment plus a possible two year extension, the extension be for three years in order to stagger to some degree the retirement dates. This would depend on some members being extended and others not. The TAC Secretariat agreed to work out graphically the implications of a 2 + 3 year system versus the 2 + 2 year system agreed on at the July co-sponsors meeting.

c) Expanded membership - it was agreed not to expand the present membership, but rather to accept the recommendation of the TAC for additional ad-hoc assistance in specific scientific disciplines to participate in the TAC discussions on special problems, provided this did not result in an overall expansion of the TAC budget.

d) New members -

1. It was agreed that a single slate of candidates (i.e. one name for each vacancy) should be prepared by the Co-Secretariat on the basis of nominations from the Co-sponsors and Co-members; to be presented to the Consultative Group members following agreement by the Co-sponsors and Co-members by the Chairman of TAC, and the acceptance of chosen individuals to serve if selected. Nevertheless, in case of any rejection by the CGAR a list of first alternatives (who would not be approached in advance) would also be prepared.

ii. CG members should not be involved in any decision to review or replace a member after the first two year term of service.

2. Review of Programmes being financed by the Consultative Group

The question of financing Centres Reviews to be conducted by TAC was discussed at some length. It was questioned whether Centres should be asked to finance these reviews out of their own budget (particularly in the case of IRRI in 1975), the reviews thus forming an indirect charge on donors. It was felt that several of the donors would in any case continue to send their own review Missions and therefore might object to duplication of financing.

Mr. Baum suggested that alternatively the reviews should be financed from the TAC budget and should not constitute a charge on Centres' budgets, as he believed that the 5 year review missions in no way differed fundamentally from the other ad hoc evaluation or review activities conducted by the TAC in respect of other projects, which were financed from the Co-sponsors contributions. It was pointed out; however, that this would necessitate a substantially increased contribution from the Co-sponsors and, quite apart from financial stringencies affecting FAO and UNDP which were likely to impede this, it was questionable whether the Co-sponsors should be required to finance activities which, au fond, were for the benefit of the CGIAR donor members as a whole.

The suggestion was therefore made that contributions might be sought from all donor members of the CGIAR to establish a pool of funds, to be held by the CGIAR Secretariat, for the financing of reviews. Such an arrangement would require quite small individual contributions from donors (\pm 7000 per annum) and was felt to offer a possible compromise.

It was agreed that more thought was needed on the problem, and it should be placed on the Agenda of the Co-sponsors meeting to be held in July with a view to making proposals for a longer-term solution to the Consultative Group.

It was further agreed that an estimate of the anticipated costs of the 1975 Review Mission would be submitted to IRRI by the TAC secretariat in order to give the Director of the Institute an opportunity to seek additional funding from the CGIAR, and that a similar approach would be made to CIMMYT and GIF with respect to their making provision in their 1976 budgets for review of their programmes in that year. The ad hoc review of IRRI's machinery programme would however be charged to the TAC budget in 1975.

3. Secretariat Cooperation

The question of division of responsibilities between the TAC and CG Secretariats in annual pre-Centres' Week Reviews of Centres' programmes was discussed from the point of view of division of labour. It was recognized that TAC's main responsibility was to conduct scientific reviews on a quinquennial basis and to examine proposals for major new thrusts on an annual or ad hoc basis, for which an early warning of new programmes would be required from the Centres well before Centres' Week.

The CGIAR Secretariat would continue to conduct annual programme and budget reviews on the Centres and the TAC Secretariat would undertake scientific comment.

It was agreed that joint CG/TAC Secretariat teams for such annual reviews would be preferable to split teams in the long term, and it was hoped that the strengthened TAC Secretariat would be in a position to cooperate on the technical side in 1976, by agreement with the Chairman and with the C.G. Secretariat and Centres' Directors regarding timing.

It was explained that the CGIAR Secretariat had already organized reviews in 1975 of CIP, CIAT, ICRISAT, IRRI and IITA programmes, and would be sending one representative to CIMMYT. It was agreed that Mr. Webster, who would be representing FAO and the TAC Secretariat at CIMMYT, would consult with the CG representative in Washington on his return journey and would, if necessary, supplement the programme comments to be prepared on CIMMYT.

With respect to the programme of ILCA, the TAC Secretariat agreed to contact Prof. Bommer who had been requested by Sir John Crawford to look into the question of ILCA's programme with Dr. Muriithi.

Note:

Subsequent to the meeting it was ascertained that Sir John Crawford proposed to discuss ILCA's programme with the Chairman of the Programme Committee, Professor Derek Tribe, on his return to Australia, as the discussions of Prof. Bommer and Dr. Muriithi with ILCA's Director of Associated Programmes, Dr. Haché had not led to a clarification of the situation.

March 5, 1975

Mr. William T. Mashler
Director
Division for Global and Interregional Projects
United Nations Development Programme
866 United Nations Plaza
New York, N. Y. 10017

Dear Bill,

In talking to Peter Oram yesterday about new appointments to TAC (including Bommer's replacement) he said that TAC as at present constituted needs strengthening in:

- Water Use
- Horticulture
- Plant Protection
 - Entomology
 - Pathology
- Animal Husbandry.

Peter had thought Portilla was an animal husbandry man but discovered this is not so.

He continues to believe, as we do, that a European (preferably a non-German) would be the best choice for Bommer's replacement. We shall have ample opportunity to bring a German on at the end of the year.

Sincerely,

(signed) Michael L. Lejeune

Dear Dr. Pagot,

I acknowledge with appreciation the receipt of your letter of 30 January, the contents of which were already known to me since I had talked to you when you briefly dropped in at the Technical Advisory Committee meeting in Rome last month.

As I have already explained to you, we are here faced with a rather delicate question of identifying the Mali project in terms of whether it is a special programme or a core programme, and we would like to keep this matter in abeyance until the question has been reviewed and hopefully settled within the TAC and, subsequently, by the CGIAR. We are therefore not turning down the project, but keeping it under review until such time when the situation becomes clearer. I regret that this may cause you some difficulties, but I am sure you will appreciate our concern that we are acting in the best interests of all concerned, particularly in a difficult programme such as ILCA's which is just getting off the ground.

With best personal regards.

Yours sincerely,

William T. Mashler

Dear Mr. Pagan,

I acknowledge with appreciation the receipt of your letter of 30 January, the contents of which were already known to me since I had talked to you when you briefly dropped in at the Technical Advisory Committee meeting in Rome last month.

As I have already explained to you, we are here faced with a rather delicate question of identifying the Malt project in terms of whether it is a special program or a core program, and we would like to keep this matter in suspense until the question has been reviewed and hopefully settled within the IAC and, subsequently, by the CIAID. We are therefore not turning down the project, but keeping it under review until such time when the situation becomes clearer. I regret that this may cause you some difficulties, but I am sure you will appreciate our concern that we are acting in the best interests of all concerned, particularly in a difficult program such as ITRA which is just getting off the ground.

With best personal regards,

Yours sincerely,

27 February 1975

Dear Mike,

I am writing in reply to Bruce Cheek's letter of 27 January, concerning the replacement of Dr. Bommer on the TAC. I have looked over the C.V. of Dr. Oslage, and my first reaction is that since we already have a member of TAC coming from veterinary sciences, in the person of Dr. Muriithi, I do not see a real need for a second member from that discipline. Since Muriithi's term comes to an end on 31 December 1975, we might consider Dr. Oslage's name at that time should it eventuate that Dr. Muriithi were to step down for one reason or another.

I have stated on previous occasions that vacancies as they occur should, in the first place, be filled by persons of high quality, and that nationality should clearly be a secondary consideration. This is particularly applicable in the sense that a specialist on TAC leaving that body should not automatically be replaced by someone of the same nationality. The one consideration that we should take into account in choosing a replacement is that that replacement should come from a developing or developed country depending on the person's area of origin vacating his post.

With this in mind we are putting forward for consideration five candidates, namely:

Dr. James G. Horsfall, Plant Pathology, U.S.A.
Dr. Sylvan Harold Wittwer, Horticulture, U.S.A.
Dr. James Herbert Jensen, Plant Pathology, U.S.A.
Dr. A. A. Bishop, Land and Water, U.S.A.
Dr. L. Swindale, Land and Water, U.S.A.

..... In respect of the first three, I am attaching their C.V.s. Unfortunately, I do not have the C.V.s of Dr. Bishop and Dr. Swindale. Dr. Bishop is at present Professor and Chairman, Department of Agricultural Engineering and Irrigation, Utah State University, Logan, Utah. Dr. Swindale is Chairman, Department of Agronomy and Soil Science, at the University of Hawaii. Of

-2-

the five candidates put forward we consider Dr. Bishop to be an outstanding individual who would make a major contribution to the work of TAC, and would at the same time fill an urgent need in an area which is becoming increasingly important to the work of the TAC which does not at present have a man in that discipline amongst its members. I realize that all candidates put forward are U.S.A. nationals, but since this is a vacancy which needs to be filled immediately, with five further vacancies being created at the end of the year, we could adjust the nationality problem when we consider the filling of the five vacancies a little later in the year.

I would appreciate hearing from you your reactions to these proposals, and in the interest of saving time, I am sending a copy of this letter, together with the C.V.s to Peter Oram for his information.

With best personal regards.

Yours sincerely,

William T. Mashler
Director

Ref. PR 3/10 Membership

25 February 1975

Dear Bruce,

Thank you for your letter of 27 January referring to the election of new members to the TAC. I appreciate your keeping us informed.

As you have probably heard from Mike Lejeune, we had discussions during the visit of Mr. Baum concerning the appointment of new members to TAC and a number of other matters of interest to the Co-Sponsors. I think we were all agreed that there should be no concession on the matter of reserving spots on the TAC for nominees from particular countries, and that in line with this decision the German Government should be informed that we could not consider Dr. Oslage in the immediate future as a replacement for Dr. Bommer, but that we would be prepared to consider either Dr. Oslage or any other appropriately qualified candidate from the Federal Republic of Germany on his merits to fill some subsequent vacancy.

I note from your letter that consideration will be given to appointing a replacement for Dr. Bommer after 15 March. I assume that this will be done in consultation with the other two Co-Sponsors, and we will await with interest the slate of candidates suggested by the members.

With kind regards and best wishes for your new appointment.

Yours sincerely,

Juan Felipe Yriart
Assistant Director-General

25 February 1975

Dear Peter,

I am writing with reference to the October meeting of the Technical Advisory Committee, the dates of which I believe were agreed to be the 27th and 28th. The question of the site of the meeting was agreed to be CIMMYT, and here I believe the decision was firm.

On further reflection, I would like to say now that to hold a two-day meeting in Mexico just prior to the convening of the meeting of the CGIAR in Washington from our point of view would cause us a great deal of inconvenience. Since so many things happened while we were in Rome, I did not inquire why it was that Mexico was decided upon as a meeting site, since I did not get the impression that the Centre Directors would be meeting with the TAC at that time. If this assumption is correct, the only justification I would see for the TAC meeting at CIMMYT will be that they will be exposed to a Centre. My question however is why not expose them to a Centre next year when a new regular schedule of meetings will be instituted, one of which will be with the Centre Directors?

While I cannot speak for the Bank, I am sure they too may find some difficulty in sending their secretariat to the TAC for two days in Mexico when the secretariat will have to be prepared for the meeting of the Consultative Group a few days later. I wonder therefore whether it might not be possible to relocate the site of the meeting of the TAC on 27 and 28 October to Washington. Your advice in this matter would be greatly appreciated.

In closing I would like to take this opportunity to thank you and Brian Webster, and all your staff, for your assistance during my recent visit to Rome and your friendly hospitality.

With best personal regards.

Yours sincerely,

P.M.B. No. 12613
Lagos
NIGERIA

Dear Mr. Shaib:

I am writing to thank you for your two recent letters on CGIAR matters.

One is your letter informing us of the decision by the Board of Trustees of IITA to appoint Dr. Gamble as Director-General in succession to Dr. Albrecht. We look forward to meeting him and working with him.

Secondly, I have your nomination of Dr. Okigbo as a candidate for the Technical Advisory Committee. We shall consider this proposal in conjunction with other nominations expected during the next few weeks.

Yours sincerely,

Bruce M. Cheek
Deputy Executive Secretary

Dear Sir:

Mr. Warren C. Baum, Chairman of CGIAR, has addressed to Mr. Fabian Portilla for an appointment to the Technical Advisory Committee of The Consultative Group on International Agricultural Research. Mr. Portilla is traveling from Ecuador to Washington and he had asked me to express you and Mr. Baum, his satisfaction about the nomination with which Mr. Portilla has been honored.

Mr. Portilla will assist the Nineth TAC Meeting in Rome.

Sincerely,

Maria S. Portilla

30 January 1975

Dear Mike,

I have received the memorandum from the Executive Secretariat, dated 23 January 1975, on the election of members to the Technical Advisory Committee. From the reading of it emerges that we all seem to have skipped an important point, when we looked over the minutes of the co-sponsors meeting last November, namely the point which was made by us, and I believe concurred to by the other members regarding the need for TAC to identify the fields of specialization for which candidates ought to be sought. The point was that in view of the changing needs in an expanded programme of centres, it may be necessary to look further afield for specialists than those at present serving.

Strangely enough, Gordon Havord and myself, who read the memorandum independently, hit upon the same point and when we looked at the minutes of the co-sponsors meeting, alas we found that both of us had missed this obvious omission. I am sure you will agree that this is an important point, and I would suggest that perhaps a further note go to the co-sponsors saying that the specific disciplines in which candidates will be required will be circulated in the not too distant future, since I assume consultations will be held at the forthcoming meeting of the TAC on this question.

This, incidentally, leads me to a further observation, that this letter is merely for the record since it is not likely to reach you before we talk at the forthcoming meeting of the TAC, and conceivably this issue might be aired under the item 31 "Any other business".

Best personal regards.

Yours sincerely,

Mr. Warren C. Baum, Vice President, Projects Staff

January 29, 1975

Bruce M. Cheek, CGIAR Secretariat

CGIAR Secretariat FY75 Budget

1. Mr. Lejeune and Sir John Crawford have agreed that a third TAC meeting is needed in 1975. It will most likely occur in May or June, 1975 and will therefore fall within the Bank's present Fiscal Year. The other meetings would be in February and October, prior to the CG. The meeting will cost some \$50,000 to \$60,000, depending on length (up to a week) and place (probably Rome). The FY75 budget of TAC, which we have just received, allows only for two TAC sessions, the February one falling in our FY75 and the July one in FY76. As a co-sponsor, the Bank pays one third of TAC costs, excepting the Australian contribution. We therefore need to provide up to \$20,000 for the proposed new TAC session in May/June.
2. The time and place of the meeting will be decided at the February TAC meeting and the Chairman of TAC should be informed before that meeting closes on February 27 about the availability of funds from the Bank.
3. I have spoken with Mr. King from whom I understand that it is difficult at this stage to indicate the certainty of Bank funding. Would you please, however, take note of this need on the part of TAC. I expect Mr. King will be in touch with you as a basis for indicating what should be said to Sir John.

TAC Appointments

1. I think you will be interested in these two communications from John Pino. In talking with me on the telephone he reported that those concerned at the Rockefeller Foundation had had quite a discussion on both Sir John Crawford's reappointment and the two-year principle. As to the latter, they wished to be sure that reappointment would not tend to be automatic, thereby leading to the retention of weak members for four years. I assured him that it was definitely the intention to use the two-year term as a means of weeding out the weak members. He also felt four years was not enough for really outstanding members.

2. At your convenience I will report orally on what he had to say about the Chairmanship.

Dear Bill:

We have just sent to members of the Consultative Group a memo dated January 23 concerning the election of new members for TAC in 1975. In this regard, the German Executive Director of the Bank has recently forwarded to us the curriculum vitae of Dr. Hans Oslage, a copy of which is attached for your information. The action was spurred by the fact that Dr. Bommer is stepping down from TAC. As indicated in the last paragraph of the Secretariat's memo, however, we do not plan to make proposals on the replacement of Dr. Bommer until after we have had other suggestions from members, which is to be by March 15.

With best wishes,

Sincerely,

Bruce M. Cheek

Dear Dr. Boon-Long:

Thank you for your letter of January 4 and for your comments
in appointments to TAC.

Your views on the need for TAC members to be able to visit centers
and serve on review teams and survey missions are very much to the point
as are those on appointment of a Chairman-elect.

At the next co-sponsors meeting I hope to have the opportunity to
present these views for discussion.

With best regards.

Sincerely,

January 24, 1975

Dear Dr. El Togby:

This is to confirm the renewal of your appointment to the Technical Advisory Committee of the Consultative Group on International Agricultural Research for one year ending December 31, 1975.

Your contribution to the work of the CGIAR is greatly appreciated. We have made significant progress in broadening the work of the Group in keeping with its aim to increase the production and improve the quality of food in the developing countries. We must now endeavor to ensure that the broadened and strengthened system supported by the Group concentrates its efforts to achieve our aims. In this your advice over the coming year will be greatly welcomed.

Best wishes,

Sincerely,

Warren C. Baum

Dear Dr. Portilla:

This is to offer you official appointment to the Technical Advisory Committee of the Consultative Group on International Agricultural Research for a two-year term ending December 31, 1976.

The system of research and training supported by the CGIAR has been significantly broadened and strengthened in recent years. We must now endeavor to ensure that its efforts are effectively concentrated to achieve the Group's aims of increasing the production and improving the quality of food in the developing countries. Your advice in these endeavors will be greatly appreciated.

The Secretariat of the TAC is communicating with you about the terms and conditions of service and the plans for its upcoming meeting in Rome February 10 and 11.

Could you please confirm to Mr. Lejeune, the Executive Secretary of CGIAR, your acceptance of this appointment?

Best wishes,

Sincerely,

PR 3/10 Membership

23rd January, 1975

Dear Mike,

Many thanks for your letter of 9 January on the subject of appointments to TAC.

In principle I agree with your proposed sequence of events but would like to clarify steps A 3 - 6, particularly from the point of view of the selection of alternates. Specifically, do you propose that the Co-sponsors (A3) select only sufficient names to fill the vacancies, or should the Chairmen of the CGIAR and TAC also have some freedom of choice (A4)? If so, would they also pass on through the C.G. Secretariat, alternative suggestions to the C.G. members (A6)?

Although I consider it most desirable for the Co-sponsors and the Chairman to arrive at a final slate on a one name for each vacancy basis, it is likely that members of the Consultative Group would wish to be given some freedom of choice themselves. This would involve the CG Secretariat in an approach (A5) to more candidates than there were vacancies, which could possibly lead to some disappointment on the part of unsuccessful candidates. This risk seems worthwhile since the alternative to giving CG members a choice would be to present a finalised slate and risk some names being turned down with the consequent need to approach further candidates and thus delay the appointment process.

I believe therefore that the best approach would be for the Co-sponsors and the Chairman to present a final slate to the members, backed up by a list of one alternate for each vacancy.

CONFIDENTIAL - GROUP OF RESEARCHERS AND ASSOCIATED PERSONNEL
PROPOSAL FOR RESEARCH AND ASSOCIATED PERSONNEL
THE NATIONAL ACADEMY OF SCIENCES
FOR THE YEAR 1975
THE NATIONAL ACADEMY OF SCIENCES

23rd January, 1975

In 1/10 membership

Dear Mike,

Many thanks for your letter of 12th Jan on the subject of appointments to
TAC.

In principle I agree with your proposed sequence of events but would like
to clarify steps 1 & 2, particularly from the point of view of the selection
of alternatives. Specifically, do you propose that the co-sponsors (AA) select
only sufficient names to fill the vacancies, or should the Chairman of the
TAC and the also have some freedom of choice? (AA) I think would also
pass on through the O.G. Secretariat, alternative suggestions to the
members (1/10).

Although I consider it most desirable for the co-sponsors and the Chairman
to arrive at a final slate on a one name for each vacancy basis, it is likely
that members of the Consultative Group would wish to be given some freedom of
choice themselves. This would involve the co-sponsors in an approach (AA) to
more candidates than there were vacancies, which could possibly lead to some
disagreement on the part of management candidates. This may occur early
while also the alternative to having 60 names a whole would be to present a
finalised slate and risk some names being turned down with the consequent need
to approach further candidates and thus delay the appointment process.

I believe therefore that the best approach would be for the co-sponsors and
the Chairman to present a final slate to the members, backed up by a list of one
alternative for each vacancy.

.....

Dr. Michael J. Latham
Executive Secretary
O.G.A.R.

INCOMING MAIL UNIT

In respect of the proposals for reappointment my understanding from our Washington meeting is that this question will in future arise only in respect of whether to reappoint a member for a second term of two years, and that at the end of four years no further reappointment will be made. I believe that the procedure should be for the Chairman of TAC to agree on reappointment or otherwise with ~~the~~ three Co-sponsors in July, (thus amalgamating B1 and B2), and not first with the Chairman of the CGIAR and subsequently with the Co-sponsors. I also think the approach proposed is perhaps unnecessarily cumbersome, and that the approval of the CG members should be sought only when it is decided by the Co-sponsors and the Chairman of TAC not to reappoint, or alternatively to find a replacement if a member dropped out ahead of his four years. Hopefully most members would be reappointed automatically, thus obviating the need for further discussion. Where it was decided NOT to reappoint, or an untimely vacancy occurred for any other reason, I believe the same procedure should be followed vis-à-vis the CG as in the A series.

I am perfectly prepared to accept your decision on the above points and would be happy to endorse whatever wording you decide to use in the Secretariat memorandum.

Yours sincerely,

P.A. Oram
Secretary

Technical Advisory Committee

CONSULTATIVE GROUP ON INTERNATIONAL AGRICULTURAL RESEARCH

1818 H St., N.W. Washington, D.C. 20433 U.S.A.
Telephone (Area Code 202) 477-3592
Cable Address - INTBAFRAD

To: Members of the Consultative Group
From: Executive Secretariat January 23, 1975
Subject: Election of members to the Technical
Advisory Committee (TAC)

The terms of about half of the members of TAC will end December 31, 1975. Most will by then have served four years and, except in special cases, be ineligible for reappointment. It is the responsibility of the co-sponsors to recommend to the CGIAR membership candidates to fill the vacancies. The co-sponsors wish to recommend the best available candidates. To that end they agreed at their meeting last November to invite members of the Group to suggest candidates for consideration.

When making suggestions, members will wish to keep in mind the objective that TAC should be "composed of distinguished international experts from developed and developing countries." Thus it is hoped that members will suggest candidates from a wide variety of countries. It would be helpful to the co-sponsors if each suggestion could be accompanied by a curriculum vitae which should indicate the field of expertise of the candidate and list persons who know his work to whom the co-sponsors might address enquiries. It would be best if, in the first instance, the candidate himself were not approached about possible appointment to TAC. At a later stage in the selection process, the co-sponsors will ask those under serious consideration whether they would be available to serve if selected.

To ensure timely selection please send your suggestion to the Secretariat by March 15. Not only will this permit the co-sponsors to deal with this question generally at their meeting in July so as to be able to make recommendations to the Group well before the December deadline, but it will permit them to make an early recommendation on a successor to Dr. Bommer whose term, having been extended, comes to an end after the February meeting of TAC.

Subject: Re-appointment of Sir John Crawford as Chairman of Technical
Advisory Committee (TAC)

Although I advised you by telephone the other day of the Rockefeller Foundation's response to your memorandum concerning the re-appointment of Sir John Crawford as the Chairman of the TAC, I wish to confirm our response in this regard. We are pleased that Sir John has agreed to serve as Chairman for an additional two-year term. We recognize the outstanding service which Sir John has given to the TAC during its first year as an advisory body to the CGIAR, and commend him highly for this.

In the normal course of events it is to be expected that Sir John will be succeeded in this position. We feel that it would be desirable for the Secretariat to consider appropriate steps which might be taken to give adequate consideration to this matter.

Sincerely yours,

John A. Pino

January 22, 1975

Dear Mike:

This will confirm my recent telephone conversation with you concerning your memorandum of December 23 regarding the replacement of certain members of the TAC whose terms have expired or are about to expire. We support the nomination of Dr. F. Portilla as successor to Ing. M. Elgueta. Further, we agree to the recommendation that the terms of Dr. El Togby and L. Sauger be extended for an additional year to complete their second two-year period.

Although we have some questions regarding the change of the period of appointment from three years to two years with the possibility of reappointment for a second two-year term, we do not object to this new arrangement. We do feel, however, that at the expiration of each two-year period careful consideration should be given to each of the members of the TAC whose term expires to determine the desirability for nomination of a successor. Furthermore, in the case of exceptional or extraordinary individuals who have served a second two-year term, we feel that a mechanism must be provided to enable the CG to consider a third two-year term of service. In such cases, however, the decision to do so should be by unanimous consent of the CG members.

Sincerely yours,

John A. Pino
Director

Mr Graves

Dear Mr Graves,

Thank you for your note dated December 20, 1974 on the subject of the chairmanship of the TAC.

UNEP agrees with the recommendation that Sir John Crawford whose term as member and Chairman of the TAC finishes on December 31, 1974 should be re-appointed for a further term of two years. UNEP also agrees with the action taken to fill the other positions falling vacant by appointing Dr H. El Togby and Dr L. Sauger. The proposal that TAC appointments in future be for two years is also agreeable.

With best wishes,

Yours sincerely,

OFFICE MEMORANDUM

TO: Mr. Montague Yudelman

DATE: January 17, 1975

FROM: Michael L. Lejeune

SUBJECT: TAC Membership*Mr Gavino*

1. By now you should have received two memoranda from the CGIAR Secretariat regarding TAC membership.
2. The first memorandum dated December 20, 1974 seeks the Bank's approval of the reappointment of Sir John Crawford as chairman of TAC for a period of two years. The second, dated December 23, 1974 requests its concurrence on : (a) the appointment of Messrs. El Togby and Sauger for a period of one year; (b) appointment of Dr. Portilla; and (c) the recommendation that future TAC appointments be for 2 years.
3. Since the Bank as a co-sponsor shared in making these recommendations to the CG membership, I feel sure we can take it that we have your approval. For the record, however, could you please signify the Bank's agreement by notation on this memorandum and return it to me?

CONSULTATIVE GROUP ON INTERNATIONAL AGRICULTURAL RESEARCH
TECHNICAL ADVISORY COMMITTEE

FOOD AND AGRICULTURE ORGANIZATION OF THE UNITED NATIONS

Via delle Terme di Caracalla, 00100 Rome, Italy
Cables: FOODAGRI ROME - Telex: 61181 FOODAGRI
Telephone: 5797

Rome, 15 January 1975

Dear Mike,

Thank you for your letter of 20 December to Mr. Yriart containing suggestions for simplifying the structure of Centres' Week and the TAC/CGIAR meetings schedule in general. As your letter was received only on 8 January I regret being unable to meet your deadline for reply of 10 January! I have also to acknowledge your letter of 27 December to Mr. Yriart and the final version of the meeting record, and the copy of your letter also of 27 December to Sir John.

We fully agree with the basic proposal regarding Centres' Week, eliminating the parallel TAC meeting, and, after 1975 moving the week to mid-July. As you point out however although in future the second TAC meeting of the year may be in November, it will be necessary in 1975 to hold a second (mid-year) meeting (following the final Centres' Board Meetings), as otherwise TAC will not be able to meet with the Directors, and comment on the Centres' programmes, prior to the proposed October meeting of CGIAR. This has been discussed with Sir John who is also in agreement that TAC will need to hold three meetings in 1975 (the date of the second meeting to be decided during the TAC meeting on 7 February), and to take up its new schedule of May and November meetings only in 1976. The volume of business currently facing TAC would probably require another meeting in 1975 in any case. We should therefore be prepared for a possible revision of the budget already sent to you (our letter of 8 January 1975), which was based on only two meetings in 1975.

The proposal to rotate Centres presentations on a biennial basis also seems sound and is in line with the feeling of the TAC that the programmes of well established Centres need not be subjected to close scrutiny every year and that a longer budgetting period is therefore feasible, subject presumably to Group members being prepared to pledge funds on a longer term basis. The indication of overall funding proposals for 1976 at the July meeting seems reasonable and might be followed in subsequent years by two-year proposals if the longer programming period is adopted.

../.

Mr. Michael L. Lejeune
Executive Secretary, CGIAR
1818 H Street, N.W.
Washington, D.C. 20433
U.S.A.

There are a number of points in your letter to Sir John on which I propose to comment as I should like my queries to be raised in your forthcoming discussion with Sir John.

1. Para 3(i) - You mention holding the November meeting of TAC "in conjunction with the Consultative Group meeting". I take it you are suggesting that this TAC meeting be held in Washington rather than Rome - and presumably immediately prior to the CG, so that any TAC comments of urgency may be relayed to the Group. Although we encounter some logistic problems with our meetings in Washington (mainly over document provision in due time) there does seem to be merit in permitting TAC and CG members to have the opportunity to meet once a year.

(ii) - Whilst you suggest that this November meeting of TAC should occupy itself more with long range problems it will also have to concern itself with new and pipeline proposals of more immediate concern, as the May meeting will be largely, but again not entirely, confined to discussion of existing Centres¹ programmes.

2. Para 6. - We are happy to support the proposal that a regular meeting of the Co-sponsors should follow each November meeting of the CGIAR and that urgent business, for example this year the question of TAC replacements, be dealt with at a meeting to be held as required during Centres¹ Week. We think it would be useful for the Co-sponsors to meet also with the Chairman of the TAC at some time during these meetings, which I assume will continue to be chaired by Mr. Baum, and you might care to discuss this with Sir John.

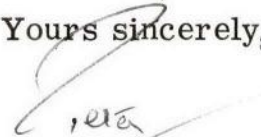

3. Para 7. - Schedule of Meetings. (a) It is clear that if the Centres¹ programmes are to be reviewed by TAC in May they will need to be finalized much earlier than has been the practice so far. I believe it essential that any new initiatives should be notified to the Chairman and Secretariat of TAC immediately on receipt by the CGIAR Secretariat, in order to permit adequate time for preparation of the May TAC meeting.

4. In this connection I think we should clarify the sequence and responsibilities for activities in sub-paras 7(e) and 8(d). Hitherto the TAC has itself benefitted from the CGIAR Secretariat Commentaries (7e) on Centres¹ programmes and I believe these should continue to be made available for the May TAC meeting. TAC comments could then be passed to the CGIAR Secretariat (8d) for distribution along with Centres¹ Week documents. Very close liaison between our Secretariats will be required on this operation and we for our part will do everything possible to make it work smoothly.

I shall let you have our proposals for a replacement of Dr. Bommer very shortly, and a list for discussion in July will follow later when I have the views of my colleagues in FAO. I can foresee some problems in presenting a list of candidates to fill five vacancies on TAC to the November CGIAR meeting, and I believe we will need to discuss very carefully, with the advice of our two Chairmen, how best to handle this. Otherwise the November meeting might require more than two days!

With best regards and good wishes for 1975.

Yours sincerely,

P. A. Oram

10 January 1975

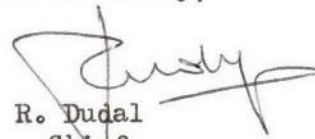

Dear John,

I am writing you hurriedly just before leaving Rome for a period of six weeks. Up to the last minute I have been continuously involved in preparations for a possible follow-up action of the World Food Conference. As a result it has not been possible to prepare the paper on Tropical Soils as a background for the TAC meeting here early February. I have informed Dr. Ruttan, the Chairman of the Sub-Group on Plant Nutrition, and at the same time I have proposed that I prepare this paper as soon as possible after the meeting, at which time I think it will still be useful.

Since you will be coming to the Rome meeting you may wish to call attention to the great variety of tropical soils and the data in response and requirements with regard to fertilization. I am afraid that many who refer to tropical soils have the impression that they can be dealt with in bulk and that their problems are similar throughout. I have tried to stress that if research gaps in the tropics are to be filled programmes will have to be stratified in accordance with major soil regions.

Mr. Peter A. Oram
Secretary
Technical Advisory Committee
Food and Agriculture Organization of
the United Nations
Via delle Terme di Caracalla
Rome 0100, Italy

Dear Peter:

As you know we have been involved recently with appointments to TAC and the experience leads me to suggest that we ought to systematize the proceedings so that the role of the various groups concerned is clear. Consequently I am suggesting the following sequence of events as probably the one to follow.

A. When filling vacancies when the incumbents are not being reappointed:

- (1) CG Secretariat notifies co-sponsors of impending vacancies.
- (2) CG Secretariat solicits names of potential TAC members from members of CG.
- (3) Co-sponsors select slate of candidates to fill vacancies.
- (4) Chairman of CGIAR consults with Chairman of TAC on co-sponsors' proposals.
- (5) CG Secretariat writes to proposed appointees to ascertain their availability for membership.
- (6) CG Secretariat, on behalf of co-sponsors, forwards slate to members of CG for approval.
- (7) After receiving approval of CG members, Chairman of CG informs appointees and CG members of appointments.
- (8) Secretary of TAC informs appointees of terms and conditions of service.

B. When considering reappointment

- (1) Chairman CG consults with Chairman of TAC on whether to reappoint or terminate.
- (2) Co-sponsors decide whether to reappoint or terminate.
- (3) Secretariat ascertains whether member is available for re-appointment.

- (4) CG Secretariat seeks approval of reappointment from members of CG.
- (5) Chairman CG writes to members concerning re-appointment or, alternatively, sends a letter of thanks to members whose services are terminated.
- (6) Chairman TAC writes letter of thanks to members whose services are terminated.

Please let me have your comments on this and we can then finalize it as a memorandum for the record both secretariats can be guided by in the future.

Many thanks.

Sincerely

Michael L. Lejeune
Executive Secretary

Gentlemen:

With reference to the Executive Secretariat's memoranda dated December 20 and 23, 1974, I have the honor to inform the Executive Secretariat that the Japanese Government has no objection to the recommendations made by the cosponsors of CGIAR, namely:

1. The reappointment of Sir John Crawford as chairman of the Technical Advisory Committee.
2. That TAC appointments, in the future, be for two years.
3. That Dr. H. El Togby and Dr. L. Sauger be reappointed and that as a transitional matter, their appointments be for one year.

I avail myself of the opportunity to assure the Executive Secretariat of my high consideration.

Cables: FOODAGRI ROME - Telex: 61181 FOODAGRI

Telephone: 5797

PR 3/6.2

8th January, 1975

Dear Mike,

As you will recall, during the CGIAR Co-sponsors meeting of 31 October - 1 November, 1974, it was agreed that the budget level for 1975 of the Technical Advisory Committee would have to be raised to some \$400,000. This sum would include an agreed contribution from each of the Co-sponsors of \$85,000 and a contribution from the Australian Government probably to be routed to FAO through the CGIAR Secretariat, of \$150,000. To these sums must be added the estimated costs of a TAC Review Mission to IRRI, which amount to some \$54,000 and which will, presumably, be made available by IRRI at the appropriate time.

... On the basis of these agreed contributions we have prepared the attached budget for \$459,000. The operational figures are those prepared for our background note to the Co-sponsors discussion which we based on 1974 expenditures with an addition of approximately 16% for inflation. As travel costs have already risen again and it has subsequently been agreed to hold three meetings in 1975, it may be again necessary to seek additional contributions later in the year, or alternatively to reduce the estimated number of Working Groups or Sub-Committee meetings.

The details given in the Appendix are based on a TAC Secretariat of 3 man/years full time professional service and appropriate secretarial and administrative assistance in Australia to Sir John Crawford.

Subject to your approval of the attached budget I should appreciate it if payment of your contribution for 1975 could be made to the TAC Temporary Account (in one or two installments, as you wish), at the Banca Commerciale Italiana, Agenzia FAO, Rome.

... May I also take this opportunity to refer to the attached documents, Annex III and IV also submitted already to the Co-sponsors, relating to additional requirements for 1974, and seek for your formal approval, as suggested by Mr. Graves, to offset \$13,000 of the \$14,500 already paid by the Bank in 1974 towards 1975 requirements, against the 1974 deficit.

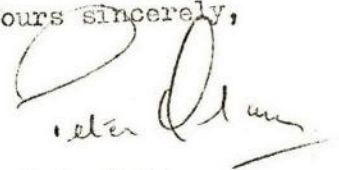

.../...

Mr. Michael L. Lejeune
Consultative Group on International Agricultural Research
1818 H. Street N.W.

2/ To be provided by IRRI

Budgetary Requirements of the TAC (TF 5549) until the end of 1974

The attached statement (Annex 1) on the budgetary situation of the TAC at 12 September, 1974, indicates a deficit balance of \$2,342. This is accounted for in the main by increased printing costs and a \$9,248 deficit at the beginning of the year in respect of 1973 commitments.

Additional unbudgeted activities approved by the TAC at its 7th and 8th meetings, namely the Working Group on the Biology of Yield of Grain Legumes which was held at New Delhi from 30 September - 4 October, 1974, and the establishment of the Sub-Committee on Plant Nutrition Research which held its first meeting at Frankfurt on 28 - 29 September, 1974, make it urgently necessary to seek additional funds.

The Working Group on Grain Legumes has cost \$27,930, excluding the costs of participating from the U.K. and U.S.A. whose expenses were paid by their governments at the request of the German government which agreed to pay up to \$25,000 towards the overall costs, but with first call to cover the participants from developing countries. The costs of participation of International Centres personnel and the Secretariat will be borne on the TAC budget.

The report of the 8th Meeting of the TAC is now completed and funds are required for translation and printing. These are estimated at \$11,000.

The costs of the Frankfurt meeting of the Sub-Committee on Plant Nutrition Research amount to \$6,664. It may be expected that a further meeting of this Sub-Committee will be held before the end of 1974, possibly also in Europe. This has been costed at \$9,000, and is included in this present request.

The total requirement therefore, to the end of 1974, is \$39,000, entailing a request to each Co-Sponsor for an additional sum of \$13,000.

Annex II sets out the costs of these additional activities and funds currently available or anticipated towards meeting them. It will be noticed that receipts and foreseen receipts to date amount to \$164,500, of which \$150,000 represents agreed payment at the end of 1974 at the rate of \$50,000 per annum, per donor, whilst \$14,500 represents a contribution from the World Bank towards 1975. As it has been decided to place TAC budgeting on a calendar year basis from 1 January, 1975, it is proposed that \$13,000 of the World Bank contribution be utilized towards 1974 requirements and that a similar sum be requested from UNDP and FAO, leaving \$1,500 as a balance of the Bank contribution to be transferred to the 1975 budget of TAC (see separate document). Provisional agreement of the World Bank and UNDP has been received in respect of this request.

Cables: FOODAGRI ROME - Telex: 61181 FOODAGRI

Telephone: 5797

PR 3/6.2

8th January, 1975

Dear Mike,

As you will recall, during the CGIAR Co-sponsors meeting of 31 October - 1 November, 1974, it was agreed that the budget level for 1975 of the Technical Advisory Committee would have to be **raised** to some \$400,000. This sum would include an agreed contribution from each of the Co-sponsors of \$85,000 and a contribution from the Australian Government, probably to be routed to FAO through the CGIAR Secretariat, of \$150,000. To these sums must be added the estimated costs of a TAC Review Mission to IRRI, which amount to some \$54,000 and which will, presumably, be made available by IRRI at the appropriate time.

... On the basis of these agreed contributions we have prepared the attached budget for \$459,000. The operational figures are those prepared for our background note to the Co-sponsors discussion which we based on 1974 expenditures with an addition of approximately 16% for inflation. As travel costs have already risen again and it has subsequently been agreed to hold three meetings in 1975, it may be again necessary to seek additional contributions later in the year, or alternatively to reduce the estimated number of Working Groups or Sub-Committee meetings.

The details given in the Appendix are based on a TAC Secretariat of 3 man/years full time professional service and appropriate secretarial and administrative assistance in Australia to Sir John Crawford.

Subject to your approval of the attached budget I should appreciate it if payment of your contribution for 1975 could be made to the TAC Temporary Account (in one or two installments, as you wish), at the Banca Commerciale Italiana, Agenzia FAO, Rome.

... May I also take this opportunity to refer to the attached documents, Annex III and IV also submitted already to the Co-sponsors, relating to additional requirements for 1974, and seek for your formal approval, as suggested by Mr. Graves, to offset \$13,000 of the \$14,500 already paid by the Bank in 1974 towards 1975 requirements, against the 1974 deficit.

ANNEX I

DRAFT TAC BUDGET - 1975^{1/}

	\$	
10. <u>Personal Services.</u>		
(Includes salaries, temporary assistance, contracts, consultants and overtime)	165,000	2/
20. <u>Travel on official business.</u>		
(Includes honorarium and travel for all TAC members and participants in missions)	259,000	3/
30. <u>Contractual services.</u>		
Printing and Xerox contract	25,000	
40. <u>General operating expenses.</u>		
Postage, cables, hospitality, office supplies	10,000	
	\$ 459,000	=====
Source of funds, Government of Australia - through CGIAR	150,000	
FAO	85,000	
UNDP	85,000	
World Bank	85,000	
IRRI	54,000	
	\$ 459,000	=====

1/ See Appendix for breakdown.

2/ Includes \$150,000 contribution from the Australian Government.

3/ Includes \$ 54,000 for evaluation mission to IRRI.

TAC Budget breakdown

10.	<u>Personal services.</u>	\$
01.	Salaries (D2, P4, P3, G6, G2)	125,000
02.	Temporary assistance (interpreters & meeting staff)	14,000
04.	Contracts and consultants (to Crawford Consultants)	25,000
05.	Overtime	1,000
		<hr/> 165,000 <hr/>
20.	<u>Travel on official business.</u>	
	Costs of travel and honoraria, TAC members attending 2 regular meetings, members and non-members attending 4 Working Groups or Sub-committee meetings and individual visits to International Centres.	205,000
	Evaluation mission to IRRI	54,000 ^{2/}
		<hr/> 259,000 <hr/>
30.	<u>Contractual services.</u>	
	Translation and printing costs	<u>25,000</u>
40.	<u>General operating expenses</u>	
	- Postage, cables, hospitality, office supplies	7,500
	- Contribution to purchase of copying machine (to be shared with Secretariat of IBPGR)	2,500
		<hr/> 10,000 <hr/>
	Total	\$ 459,000 =====

1/ Australian contribution of \$150,000 through CGIAR

2/ To be provided by IRRI

Budgetary Requirements of the TAC (TF 5549) until the end of 1974

The attached statement (Annex 1) on the budgetary situation of the TAC at 12 September, 1974, indicates a deficit balance of \$2,342. This is accounted for in the main by increased printing costs and a \$9,248 deficit at the beginning of the year in respect of 1973 commitments.

Additional unbudgeted activities approved by the TAC at its 7th and 8th meetings, namely the Working Group on the Biology of Yield of Grain Legumes which was held at New Delhi from 30 September - 4 October, 1974, and the establishment of the Sub-Committee on Plant Nutrition Research which held its first meeting at Frankfurt on 28 - 29 September, 1974, make it urgently necessary to seek additional funds.

The Working Group on Grain Legumes has cost \$27,930, excluding the costs of participating from the U.K. and U.S.A. whose expenses were paid by their governments at the request of the German government which agreed to pay up to \$25,000 towards the overall costs, but with first call to cover the participants from developing countries. The costs of participation of International Centres personnel and the Secretariat will be borne on the TAC budget.

The report of the 8th Meeting of the TAC is now completed and funds are required for translation and printing. These are estimated at \$11,000.

The costs of the Frankfurt meeting of the Sub-Committee on Plant Nutrition Research amount to \$6,664. It may be expected that a further meeting of this Sub-Committee will be held before the end of 1974, possibly also in Europe. This has been costed at \$9,000, and is included in this present request.

The total requirement therefore, to the end of 1974, is \$39,000, entailing a request to each Co-Sponsor for an additional sum of \$13,000.

Annex II sets out the costs of these additional activities and funds currently available or anticipated towards meeting them. It will be noticed that receipts and foreseen receipts to date amount to \$164,500, of which \$150,000 represents agreed payment at the end of 1974 at the rate of \$50,000 per annum, per donor, whilst \$14,500 represents a contribution from the World Bank towards 1975. As it has been decided to place TAC budgeting on a calendar year basis from 1 January, 1975, it is proposed that \$13,000 of the World Bank contribution be utilized towards 1974 requirements and that a similar sum be requested from UNDP and FAO, leaving \$1,500 as a balance of the Bank contribution to be transferred to the 1975 budget of TAC (see separate document). Provisional agreement of the World Bank and UNDP has been received in respect of this request.

1974
TAC BUDGET - Additional Requirements

ANNEX IV

<u>Contributions.</u>	<u>1974</u> (US\$)	<u>1975</u> (US\$)
IBRD	50,000	14,500

Dear Ing. Elgueta:

Now that the period of your appointment to the Technical Advisory Committee has come to an end, I would like to take this opportunity to thank you, on behalf of the members of the Consultative Group for your services to the Committee and contribution to the work of the Group.

The Center system has gone through a stage of very rapid expansion since the Consultative Group was formed and as a foundation member of the TAC I am sure that you take great satisfaction in the role that the Committee has played in the growth and strengthening of this unique system.

I hope you will continue to maintain your interest in our endeavors. I and others will always welcome any comments or ideas you may feel moved to give us.

Best wishes,

Sincerely,

Warren C. Baum

Dear Sirs,

I refer to your letter of December 23, 1974 concerning the term and election of TAC.

I agree with the change of the 3 year term to 2 year term, but would wish to limit the possible renewal of only 2 out of 3 positions available. This will allow an outstanding new member to come in replacing one member who has not been able to put in enough time on account of pressing normal duties every two years. The availability of time to attend meetings, to serve as member of the review team and survey mission are very important. I am quite sure that as much as half of time of each member could profitably be used for TAC. Actually, a member needs some time to discuss with outstanding agricultural scientists and successful farmers to appreciate the reasons for gaps of communication.

Though you did not ask for the extension of the chairmanship of TAC. I support the extension for Sir John Crawford for a further two years. After one year of this extension, a chairman-elect should be nominated for election. He might have a tenure of two years - and at least one review of a center before he grasps the wishes of the donors and the difficulties of the international research centers in serving developing countries.

I agree to the election of Mr. F. Porilla to membership and the extension of one year service each to Dr. Tobgy and Dr. Sattger.

Yours sincerely,

Siribongse Boon-Long
Inspector-General

OFFICE MEMORANDUM

F-1

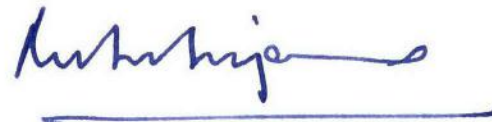

TO: Files

DATE: January 2, 1975

FROM: Michael L. Lejeune

SUBJECT: TAC

Mr. Mashler telephoned me this morning to confirm that UNDP is in full agreement with the proposals to extend the terms of Sir John Crawford, Dr. El Togby and Dr. Sauger, as well as the proposal to appoint Dr. Portilla, all as proposed to the Consultative Group members in our memoranda of December 20 and 23.

MLejeune:ia

OFFICE MEMORANDUM

8
F-1

TO: Files

DATE: January 2, 1975

FROM: Michael L. Lejeune

SUBJECT: TAC

Peter Oram telephoned from Rome this morning. Points covered were:

- (a) Reference my cable to him re Elgueta, he agrees Warren Baum should write Elgueta a "signing off" thank you letter (John Coulter to draft) and Sir John Crawford one as TAC Chairman (Oram to draft). As far as he knows, Elgueta has been given no notice of termination.
- (b) TAC Secretariat, now that Australian money is assured, will comprise Webster full-time in Rome, a new recruit (at, probably, P-4 level) full-time in Rome, McNally full-time in Canberra and "he hopes" himself full-time in Rome. (His phrasing of it left it slightly ambiguous as to (i) whether he would be full or only part-time or (ii) would be continuing at all. I think he meant the former.)
- (c) They do not seem to have received yet copies of my letters to Yriart and Albrecht and Crawford on rationalizing system annual cycle.
- (d) He, together with Bruce Cheek, had a meeting with Crawford in Canberra on TAC matters.
- (e) They are planning a TAC meeting late May or first few days of June - probably latter. This conflicts with follow-up on Bellagio VI and he will take up with McClung at Rockefeller Foundation.

Mr. Lejeune.

Dr. Bommer, according to our records is a soil scientist. He could be replaced therefore by a soil scientist. TAC on the other hand has no one in the plant protection sciences so a replacement could be sought in that field.

Mr. Conner
Please be ready
to advise Mashler
on 1/14/75

Dear Mike,

I merely wish to confirm in writing today's conversation and the one we had earlier last month, concerning the election of members to the Technical Advisory Committee with particular reference to your memoranda of 20 December and 23 December 1974.

UNDP agrees to the extension for a further term of two years of Sir John Crawford to serve as Chairman of TAC beginning with 1 January 1975. We further agree to fill the vacancy created by Ing. M. Elgueta with Dr. F. Portilla. We further agree that Dr. El Togby and Dr. Sauger be continued as members of TAC for another year beginning with 1 January 1975.

Finally, we concur with the proposal that Dr. Bommer continue to serve on the TAC until the end of the forthcoming meeting of the TAC at which time he has to be replaced by a candidate to be named. In this connexion, we would appreciate it if you could let us know the discipline for which a candidate will be required, so that we might consider a potential candidate.

With best personal regards.

Yours sincerely,

A handwritten signature in blue ink, appearing to read 'Mashler'.

Question of responsibility

... As a contribution to our forthcoming Co-Sponsors' discussions I enclose herewith FAO's proposals for filling the vacancies shortly to be created on the TAC should the Co-Sponsors decide to uphold the principle of strict rotation of membership.

We believe that this principle should be maintained, and, whilst not wishing to pre-empt the decision of the Co-Sponsors' meeting, have indicated as our first four choices persons whom we would consider to be suitable replacements for Drs. El Tobgy, Sauger, Elgueta and Bommer. While we recognize that there is a good case for stability and continuity on the Committee, demonstrated by its increasing effectiveness over time, there also comes a point when members tend to become stale and their reactions predictable. We believe therefore that a compromise might be effected between these two viewpoints by appointing members in future for four years and adhering strictly to subsequent rotation.

343

We have attempted in our selection to maintain existing regional, but not national, distribution of membership, by giving first place to four candidates from the Near East, Latin America, Africa and Europe respectively. We have also attempted to select appropriate disciplines, giving especial attention to water use and management and animal production.

... I also enclose a number of tentative budget sheets, based on foreseen requirements under several alternative proposals, including the Chairman's, to consider enlarging the Committee and to hold an additional annual meeting at each International Centre in turn and the new responsibility placed upon the TAC to conduct periodic technical reviews of the international centres' programmes.

Whilst we recognize that the suggestion to enlarge the Committee arose from the acknowledged need for the TAC itself to be represented in review missions we do not believe that even sixteen members could adequately cope with the excessive demands which would be made on their time and a less compact and more costly body could result, without compensatory benefits. We would therefore rather support the compilation of a high level roster of consultants, some of whom could be used on a continuing or repeating basis, especially as this seems in line with the views of the Centres' Directors and the majority of the TAC as expressed at the last meeting.

Mr. William T. Mashler

DECLASSIFIED

APR 14 2022

WBG ARCHIVES

.../...

Questions

I should add in this connection that we firmly believe expenditure on review missions should be a legitimate charge on the budgets of the Centres themselves (and thus on the donors), rather than on the Co-Sponsors, as the benefits of the reviews will be to the Centres in respect of their scientific programmes and to the donors as an indication of the appropriateness or otherwise of the utilization of their contributions. We might together press for a decision on this point by the Consultative Group prior to our Co-Sponsors meeting. It could, I believe, be legitimately raised under "Other Business" as a recommendation to the Group by the Co-Sponsors was foreseen at the Centres' Week meeting (see para. 49 of the Summary of Proceedings). ||?

The suggestion for holding an additional meeting of TAC at the International Centres in turn was based in part on the present volume of TAC business and the difficulties of conducting a satisfactory formal TAC session during Centres' Week, and in part on the expressed wish of some members to have more opportunity to familiarize themselves with Centres' activities. In view of the logistic difficulties involved in holding meetings "away from base" and bearing in mind the now exceedingly high costs of transport, we would oppose the suggestion and would suggest rather that two meetings annually be maintained but with meeting time lengthened from 5 to, say, 7 or 8 working days. This would entail an estimated addition of only \$ 16,000 to the basic budget (Annex I) proposed for existing membership and number of meetings.

With best regards,

Yours sincerely,

Appendix 1

D.Sc.

B.K. Steenberg

*Don't
seem appropriate
unless we get into
forestry - but
then forestry
forestry.*

Born: 6 August 1912 in Stockholm, Sweden

Studies: B.Sc., M.Sc., Ph.D. (1943) Stockholm University
Dr. For.So.h.c. (1969) Swedish Royal College of Forestry

Fellow Royal Swedish Academy of Engineering sciences, Finnish Academy of Technology, International Academy of Wood Science. Royal Swedish Academy of Forestry and Agriculture.

Career: Professor in Physical Chemistry (1943), Paper Technology (1947), Royal Institute of Technology, Stockholm;
Research Director, Swedish Forest Products Laboratory (1944-1968);
President of the Section for Forestry, Forest and Wood Technology Sciences, Swedish Academy of Engineering Sciences;
Chairman, Swedish Packaging Research Institute;
Dean, School of Chemical Engineering, Stockholm (1945-49).

Achievements: In the field of pulp and paper, in particular paper technology, contribution to fundamental knowledge on hydrodynamics of fibre suspensions, beating of pulp, sheet formation on wire screens, dewatering in the paper machine, fibre flocculation, the theory of screening, mechanical pulp production, wet strength of paper and mechanical properties of paper.

Papers written: Approx. 80, dealing with different aspects of paper technology and ranging from enzymatic studies of wood degradation to engineering problems in paper and pulp mills and studies of the mechanical properties of paper.
Dr. thesis: "Adsorption and Exchange of Ions on Activated Charcoal", 180 p. Stockholm, Almqvist & Wicksell, 1943.

Honours: German Mitscherlich Medal - Swedish Ekman Medal - TAPPI Gold Medal.

Present position: Assistant Director-General, Forestry Department, Food and Agriculture Organization of the United Nations (F.A.O.) after having for many years collaborated with various international bodies such as FAO, ILO, ECAFE, ECE, UNESCO and EPTA.

CURRICULUM VITAE

Floribert Albert JURION

Date of Birth: 8.8.1904
Nationality: Belgian
Marital Status: Married - 2 children
Languages: French - mother tongue
English - very good

Education: Graduate in Tropical Agriculture from Louvain University
(a five-year course)

Experience: 34 years' experience in tropical agriculture, mainly in the Congo (Zaire). Has been successively Research Specialist, Director of Research Station (Nioka), Regional Director of Research (Ituri-Kivu, Burundi, Rwanda), Director General of the National Agricultural Research Institute in the Congo. In this last position (for 20 years) he has been responsible for the planning of research programmes and administration of research work of INEAC, which was one of the most important and efficient Research Institutes in Africa. INEAC, with one Research Centre (Yangambi), five main Research Stations and about 30 sub-stations with a total of 400 Research workers was covering the main aspects of agricultural research in plant production (field food crops, industrial and horticultural crops), animal production, forestry and fisheries.

Mr. Jurion is a member of several scientific societies and Academies. He has travelled extensively in Africa, the United States and Europe.

He is presently Adviser to F.E.D.

20 publications in French on industrial, field and horticultural crops, agricultural development in rural areas, soil conservation and modern techniques for intensified agriculture.

Mr. Jurion has been called several times by FAO and the International Bank for Reconstruction and Development (IBRD) as a consultant and Team Leader in joint FAO/IBRD missions, the aim of which was to appraise the agricultural resources and make development plans to be financially supported by the Bank.

*looks old
but if 1961
has employees
we should have
a new on his
energy & up-to-
date news*
