

PROJECT SUMMARY

Morocco

PROJECT NAME

Scaling-up Support to NDC Implementation

GRANT OBJECTIVE AND ACTIVITIES

This project in the [NDC Partnership](#) member country Morocco is focused on scaling up and increasing the coverage of the World Bank Group's technical capacity building and policy work on NDC implementation. Project activities include identifying reforms and incentives to improve the energy performance of buildings, assessing policy options for carbon pricing and building the capacity of the Ministry of Economy and Finance to use CGE models (computable general equilibrium) for climate policy analysis.
