

# PROJECT SUMMARY

Chile

## PROJECT NAME

Local Action to Support NDC Implementation

## GRANT OBJECTIVE AND ACTIVITIES

The project is helping the Chilean government, an [NDC Partnership](#) member, develop a strategy to facilitate energy efficiency retrofits and emissions reductions in the building sector. It focuses on four key objectives: standardizing energy efficiency measures for retrofits in buildings in prioritized areas of the country, developing a Monitoring, Reporting and Verification system for energy efficiency retrofits in buildings and developing business models to promote private sector participation.

## COUNTRY FOCAL POINTS

Ministry of Energy, Ministry of Housing and Urbanism, Ministry of Environment, Chilean International Cooperation Agency, Council of Ministers for Sustainability and Climate Change

## WORLD BANK GROUP PRACTICE

 Energy & Extractives
