

PROJECT SUMMARY

Brazil

PROJECT NAME

Development of NDC Implementation Strategy

GRANT OBJECTIVE AND ACTIVITIES

The project informs Brazil's NDC Implementation and financing strategy by supporting the government in conducting technical studies and broad-based stakeholder dialogue to define specific actions aligned with NDC targets for inclusion in the Brazilian multi-annual budgetary and operational plan. It also provides technical support for the regulation, implementation and monitoring of the Sustainable Development Mechanism under Article 6 of the Paris Agreement. Project activities include CGE modeling work to evaluate and quantify macro-socioeconomic indicators associated with Brazil's NDC targets and monitoring and evaluation of existing policy tools to promote forest recovery and sustainable forest management at scale. Brazil is a member of the [NDC Partnership](#).
