

PROJECT SUMMARY

Ecuador

PROJECT NAME

Mainstreaming Climate Change in Governance to Support NDC Implementation

GRANT OBJECTIVE AND ACTIVITIES

The World Bank will assist Ecuador, a member of the [NDC Partnership](#), in integrate climate change and climate finance considerations in national development planning and budgeting, incorporate climate risk into macro-fiscal and budget analysis systems, and incorporate climate risk in public investment management (PIM). In addition, the project may also provide support through the Economic Advisors for Greening COVID-19 Recovery Measures initiatives. Through this program, a short-term adviser will be embedded in the Ministry of Finance to assist with the inclusion of climate change and NDC priorities into COVID-19 recovery measures. This project is being supported through the NDCP Climate Action Enhancement Package (CAEP).
