

PROJECT SUMMARY

Vietnam

PROJECT NAME

NDC Implementation through Green Transport

GRANT OBJECTIVE AND ACTIVITIES

The project supports the implementation of Vietnam's NDC by laying the foundation for scaling up clean transportation systems. It does so by providing analysis on the transport sector's mitigation and adaptation opportunities and needs. Likewise, it is helping the country prepare a low-carbon and resilient transport strategy roadmap, conducting an investment gap analysis and identifying potential funding sources. Other project activities include identifying a pipeline of high-priority low carbon and climate resilient transport projects. Vietnam is a member of the [NDC Partnership](#).

COUNTRY FOCAL POINTS

Ministry of Transport, National Climate Change Committee, Ministry of Environment and Resources

WORLD BANK GROUP PRACTICE

-  Transport
-  Environment and Natural Resources
-  Social, Urban, Rural and Resilience
