

PROJECT SUMMARY

Regional - Mali, Côte d'Ivoire, Morocco

PROJECT NAME

Adaptation of African Agriculture

GRANT OBJECTIVE AND ACTIVITIES

The project is supporting interventions in Mali, Côte d'Ivoire and Morocco, all members of the [NDC Partnership](#), to operationalize their agriculture sector related NDCs. It is preparing country-level climate-smart agriculture (CSA) investment plans, establishing Monitoring and Evaluation (M&E) systems and working towards operationalizing the 'Adaptation of African Agriculture to Climate Change' (AAA) Initiative. Through a combination of country-level and regional approaches, the project is developing a network of expertise and promoting knowledge exchange on NDC implementation across the African continent.

COUNTRY FOCAL POINTS

Mali – Agency for Environment and Sustainable Development, National Committee on Climate Change

Côte d'Ivoire – Ministry of Environment

Morocco – Department of Sustainable Development

WORLD BANK GROUP PRACTICE
