

IDA20 SPECIAL THEME

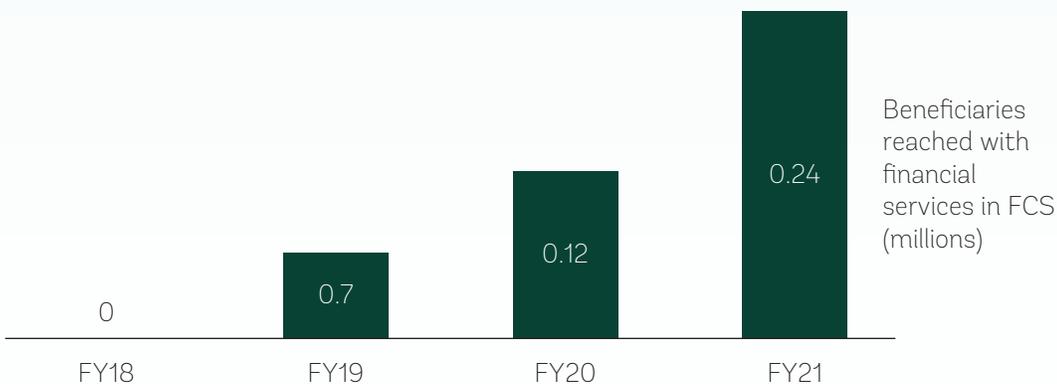

FRAGILITY, CONFLICT, AND VIOLENCE

Fragility, Conflict, and Violence (FCV) has been an IDA Special Theme since IDA15, with increasing ambition over subsequent replenishment cycles. IDA20 places FCV issues front and center in both the immediate and longer-term development response, including IDA’s response to broader conflict prevention and peacebuilding approaches, to ensure a green, inclusive, and resilient future, both for IDA countries in fragile and conflict affected situations (FCS) and other countries.

Under IDA20, country programs will directly tackle FCV drivers and sources of resilience based on Risk and Resilience Assessments (RRAs) and other diagnostics. Addressing crisis preparedness remains a critical part of IDA20 engagement for IDA FCS facing multiple, simultaneous crises. Partnerships are central to IDA’s work in FCS.

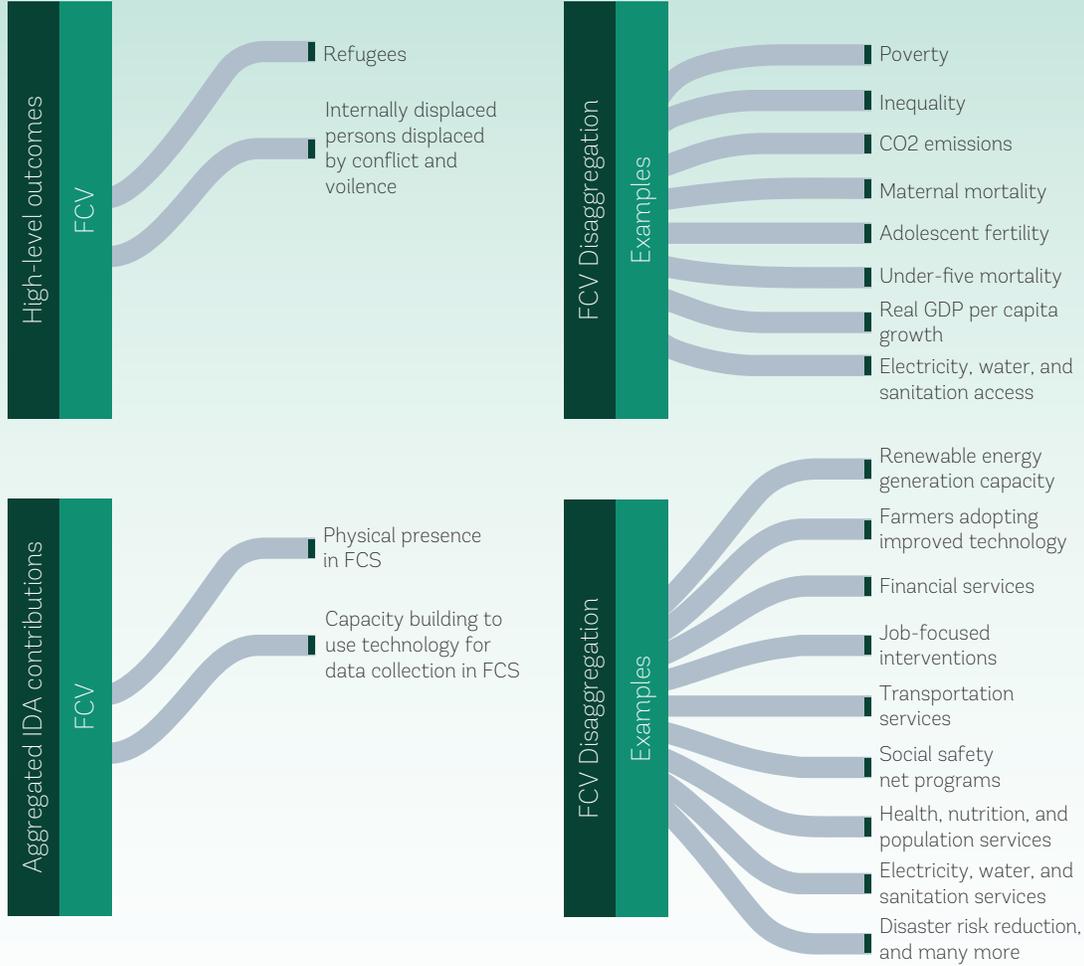

Reaching More People In Fragile And Conflict-Affected Situations

How Will FCV Outcomes Be Measured?

Each Special Theme focuses on key development outcomes. Policy commitments identify actions taken together by IDA and clients to set a course toward high-level outcomes. Indicators in IDA's Results Measurement System (RMS) track progress in achieving these outcomes and intermediate outcomes from IDA support..

Policy Commitments

1 Operationalizing the FCV Strategy through better tailored country engagement:

engagement: Reinforce implementation of the WBG FCV Strategy, by ensuring that all country engagement products in IDA FCS demonstrate how the WBG program, in collaboration with relevant partners, help address FCV drivers and sources of resilience, based on FCV diagnostics and FCV sensitive portfolio analysis undertaken in RRAs or other FCV assessments. An FCV lens will continue to be integrated into relevant joint World Bank-IFC Country Private Sector Diagnostics in IDA FCS.

2 Leveraging outcomes for both refugee and host communities:

Work with government counterparts and other partners to ensure that, by the end of IDA20, at least 60 percent of the countries eligible for the Window for Host Communities and Refugees (WHR) will have implemented significant policy reforms related to the WHR purposes, as identified through the Refugee Policy Review Framework.

3 Strengthening core governance institutions:

Support 40 percent of IDA countries in FCS (with active portfolios) to establish and/or strengthen core government functions that facilitate effective, inclusive, and responsive public services, enhance transparency and accountability, and promote resilience and trust, including by partnering with key national and international stakeholders.

4 Addressing transboundary drivers of FCV and recovering from crisis:

Implement regional initiatives in the Sahel, Lake Chad, the Horn of Africa, and Central Asia to help address transboundary drivers of FCV, support transboundary resilience, and/or strengthen regional crisis risk preparedness and mitigation together with key relevant partners. IFC will commit to leverage its local presence to scale up upstream and advisory service activities in these areas, leading to enhanced private sector opportunities.
