

Task Force on Country Operational Guidelines and Procedures

Rolling Price Survey Approach

Recommendations from 47th Session of UN Statistical Commission

- **Reduce interval between benchmarks to 3 years**
- **Implement Rolling Price Survey Approach**
- **2020 to be the next benchmark year**

David Roberts has prepared a position paper on the implementation of RPSA at the global level

Recommendations/Decisions needed from TAG

1. **What should be the next ICP benchmark year?**
 - **2020 or 2023 or 2021?**

2. **What is the recommended approach?**
 - Option 1: Standard benchmark approach**
 - Option 2: Implement Rolling Price Survey Approach described in David Roberts paper**
 - Option 3: Explore a different model for price surveys**
 - **Collect prices for all HH items but split surveys over two years (Q3 & Q4 in 2020; Q1&Q2 in 2021)**
 - **Other items – price surveys in 2020 as per current practice**
 - Option 4: Leave it to regions to decide between Options 2 and 3 or consider some other variations**
