

KOPERNIK HAS THREE PILLARS OF ACTIVITIES, THROUGH WHICH INNOVATIVE APPROACHES ARE TESTED, COMPARED AND PROMOTED.

1: Private sector collaboration to find effective solutions

2: Public sector collaboration to find effective solutions

3: Technology distribution in the last mile

- Solar lights
- Water filter
- Clean Cookstove etc

EXAMPLES: EXPERIMENTING WITH AFFORDABLE WATER FILTER, DIY AIR FILTER TO PROTECT CHILDREN FROM PEATLAND HAZE, AND DECENTRALIZED PLASTIC UPCYCLING.

Example 1 : Affordable water filter testing for low income households

Example 2 : DIY air filter to protect children from peatland haze

Example 3 : Decentralized upcycling of plastic waste
