2. Application of Mexican Light and Power Company, Ltd.

## (a) SLC/O/1 was approved, subject to:

(i) The addition to para. 3(b) of the words,  
"and of its subsidiaries, and that the Bank's loan  
would not be jeopardized by other outstanding junior  
issues".

(ii) The amendment of para. 3(c) to indicate that the  
proposed survey should cover the economic and  
marketing, as well as the engineering aspects of the  
Company's operations, and that the survey should be  
made at the Company's expense.

(iii) The amplification of para. 4 to indicate that, among the points which the Bank would wish to take up later, the question of the earning power of the Company would be prominent.

(b) The Committee recommended that:

(1) In view of the fact that Sofina might be able to carry through a rapid reorganization on the lines suggested, the preliminary survey by the Bank's engineer should not be long delayed.

(ii) The Bank should keep the Export-Import Bank informed as to its position.

2. Dutch Shipping Application

(a) The Committee considered what guarantee fee, if any, in addition to the statutory guarantee commission, should be paid by the Dutch to the Bank, and recommended that:

- (i) In principle, a charge over and above the statutory commission ought to be made by the Bank for its guarantee;
- (ii) That in the particular case under consideration, though not necessarily in subsequent cases, the amount of such additional charge to be added to the one percent statutory guarantee commission should be at the rate of one-sixteenth of one percent per annum.

(b) The Committee then considered the Annexes to SLC/O/2 and

- (1) APPROVED Annex 1, subject to the insertion in para. 3, sentence 2 after the words "fully paid for", of the additional words "by means of interim finance".

(11) APPROVED Annex 2, on the understanding that the question of whether it should be incorporated in the prospectus or otherwise dealt with would be taken up with Mr. McKittrick of the Chase National Bank.

(111) TOOK NOTE of Annex 3.

Mr. A. Stevenson

2. Danish Loan

The Committee considered the Danish request for changes in the list of goods and for an extension of the closing date in connection with Loan No. 3 De, as set out in SLC/0/3, and

(a) AGREED:

That the Danish request, by proposing that the period of disbursement of a loan should be considerably extended, and that the loan proceeds should be applied to purposes substantially different from those contemplated when the loan was made, raised an important question of principle, which called for a thorough investigation of the reasons for departure from the original program, and

DECLASSIFIED  
JUN 13 2014  
WBG ARCHIVES

(b) APPROVED:

The recommendation to send a representative of the Bank to Denmark immediately to conduct such an investigation.

3. Dollar Payments Between European Countries.

The Committee considered Mr. D. Crena de Jongh's memorandum (SLC/O/4) on the above subject, raising the questions:

(i) Whether the Bank should supply dollars to a European borrower to finance purchases from another European country, instead of the currency of the latter, and

(ii) Whether the Bank should provide a certain local currency to reimburse a borrower for its purchases regardless of the fact that the borrower has sufficient amounts of such currency at his disposal, and

(a) RECOMMENDED:

That, in view of the complexity of the issues raised, these questions should be deferred for further study.

4. I.M.F. Decision on Use of Its Resources by ERP Countries.

The Committee considered the notes on the above subject by Messrs. Rist and Iliff in SLC/O/5, and

(a) RECOMMENDED:

That, without challenging the Fund's decision, further enquiry into the reasons on which it had been based was desirable.

## AMENDMENT

Please amend conclusion of item 3 (Dollar Payments between European Countries) as follows:

" (a) AGREED

That, as regards the first question, it was generally undesirable for the Bank to supply U.S. dollars to a borrower to finance purchases from a country other than the United States, although such a course might be justified in exceptional cases.

" (b) RECOMMENDED

That, in view of the complexity of the issues raised, the second question be deferred for further study. "

2. Pending loan application from the Philippine Republic

The Committee considered SLC/O/6 and the accompanying report of the Bank mission to the Philippine Republic, and

RECOMMENDED

That, in the light of the views expressed during the discussion, the Loan Department should consider:

- (a) Whether the Philippine Republic has at present any need of a loan;
- (b) What general position the Bank should assume towards the development of the Philippine Republic,

and make appropriate recommendations to the Committee.

3. Conversion of service charges on proposed loan from Brazilian 18% subscription.

The Committee considered SIC/O/7 and

(a) AGREED

That, in the absence of further details of the proposed loan, no definite decision could be reached, and

(b) RECOMMENDED

That, pending receipt of such details, members should give further study to the questions of principle raised during the discussion.

2. Pending Loan Application from the Philippine Republic

The Committee considered the Loan Director's recommendations and draft letter as in SLC/O/8, and

RECOMMENDED:

- (a) That the draft be amended as seemed appropriate in the light of the discussion.
- (b) That the views expressed therein be discussed with Mr. Elizalde, the Philippines Ambassador, but that no substantial concession be made, and, finally,
- (c) That these views be then embodied in a formal letter to Mr. Elizalde, with a request that he transmit them to the Philippine Government.

### 3. Treatment of Local Currency Counterpart of Grants Made Out of EEP Funds.

The Committee considered the draft letter from Mr. McCloy to Mr. Hoffman, SLC/O/9, and

#### APPROVED:

the draft, subject to:

- (a) Its form being changed to that of a memorandum from the Economic Director to the President;
- (b) The President being informed that the Committee was divided on the question of whether any proposal for use of the counterpart by any one of the participating countries should be transmitted to RCA only through OEEC and be accompanied by the recommendations of OEEC, some members being of the opinion that RCA should deal directly with the country concerned.
- (c) Appropriate revisions being made in recognition of the possibility that the sterilization of a major portion of local currency counterparts, or their use for retirement of government debt to the central bank, may not in all cases be desirable, in view of possible serious deflationary effects.
- (d) Minor textual changes.

### 4. Terms for Eximbank Loans.

The Committee considered the memorandum SLC/O/10 on this subject, and, while the consensus of opinion was against the advisability of the IBRD's making representations on the subject,

#### APPROVED:

the memorandum, subject to minor textual changes, as appropriately representing the arguments in favour of raising the Eximbank rate to equality with that of the IBRD, should the President decide to advocate this course.

2. IBRD's Attitude Towards Possible Loan Applications from Peru.

The Committee considered SLC/O/11 and the accompanying reports on the Bank mission to Peru, and

AGREED:

That, in view of the fact that both the present discussion and that on the Philippines had revealed a divergence of opinion on an important question of principle, viz. to what extent, if any, the Bank should furnish advice and assistance to a member country in planning and executing the financial and economic reforms which appeared to be necessary before the country could be considered by the Bank to be an appropriate field for development loans, a further meeting, at which the President would be present, be held to determine this question.

2. Belgium: Limalux Project

The Committee considered the questions on the agenda SEC/A/9,  
and

RECOMMENDED

- (a) That the Belgians be asked as a first step whether they would care to release a portion of their 18% subscription to the Bank's capital, which could in turn be lent to Limalux in order to permit them to buy the francs and sterling from the National Bank to finance necessary imports of equipment from France and the U.K.
- (b) That, in the event of a negative reaction from the Belgians, the Bank's policy would be reconsidered in the light of their reply.

2. Proposed Brazilian Traction Loan

The Committee considered the questions raised in the Legal Department Memorandum SLC/0/18, and

RECOMMENDED:

(a) That in view of the course of current negotiations, the bonds be sinking fund bonds, although as a general rule serial bonds were preferable from the Bank's standpoint;

(b) That the Bank reserve the right to ask for bonds bearing interest at a rate lower than the rate specified for the loan, being paid the difference by way of service charge; and that, if necessary, the Bank agree to bear any additional expense to the Company arising out of the Bank's exercise of this right;

(c) That as the Bank would not wish to sell the bonds except on a private basis, the question of registration need not be considered;

(d) That the question as to whether the Canadian Government might release interest payments to non-resident bondholders other than the Bank from any possible present or future liability to Canadian taxation or foreign exchange restrictions be discussed with the Canadian Alternate Executive Director;

(e) That the Company's proposals for a variation of the suspension provisions of the draft Loan Agreement be not accepted;

(f) That the provisions of the draft Loan Agreement giving the Bank a right to premature the loan on a default in the performance of those covenants in the Loan and Guarantee Agreements which are additional to those in the Trust Indenture be retained;

(g) That the Bank be willing to make disbursements in advance of completion of the setting up by the Company of all required security devices, but that any decision as to the amount to be so disbursed and agreement with the Company in this respect be deferred until all major problems which might prevent the signing of the Agreement were disposed of;

2. Mexico: Proposed loans for electric power development

The Committee considered SLC/O/39 and,

APPROVED:

the Loan Director's proposals contained therein, subject to the following qualifying or supplementary recommendations:

(a) Proposed Loan of \$21 million to Federal Electricity Commission

- (i) that both the Federal Electricity Commission and the Compania Financiera be required to be obligors in respect of the bonds as well as the contract, unless adequate reason to the contrary be given.
- (ii) that further study be given to the Mexican law empowering the Compania Financiera to guarantee the loan on behalf of the Mexican Government, with special reference to the question of power to give the negative pledge.
- (iii) that the term of the loan correspond with that of the Eximbank loan to the Commission, unless adequate reason be given for a longer term.

- (iv) that security take the form of a lien on the Commission's tax revenue ranking pari passu with the liens of Eximbank and Westinghouse, and that the lien be coupled with a negative pledge in respect of the Commission's other revenues.

(b) Proposed Interim Loan of \$11.5 million to Federal Electricity Commission for the benefit of Mexican Light and Power Company

That the prospective earning power of the Commission be studied in order to ascertain whether the term of the loan could be reduced to some period less than 20 years, but not less than five years.

(c) Proposed Loan of \$26 million to Mexican Light and Power Company

That the Company be permitted to incur first mortgage obligations beyond those already existing, together with the Bank's proposed mortgage, to the extent of a fixed percentage of the cost of fresh construction.

3. Brazil: Bank policy with regard to immigration schemes

The Committee considered SLC/O/40, and

(a) AGREED:

that the Bank ought not entirely to exclude the possibility of loans in aid of immigration schemes;

(b) RECOMMENDED:

that, pending the submission of a more concrete proposal by Brazil, the Economic Department should assign a member of its staff to collate the experience of immigration acquired by governments and other bodies.

4. Procedure for coordination of Bank and ECA activities in Europe

The Committee considered SLC/O/41, and

AGREED:

to defer the matter until the Committee had had an opportunity of considering the Italian loan application in the light of the report of the Bank mission to Italy.

5. Paraguay: Financial assistance to Mennonite Community

The Committee considered SLC/O/42, and

RECOMMENDED:

that a Bank mission be sent as soon as possible to study conditions in Paraguay, and that Mr. Snyder be advised to extend his option for the purchase of land in Paraguay in order to await a Bank decision which would be made in the light of the report of this mission.

2. Chile:

The Committee considered SLC/O/44 and

RECOMMENDED:

- (a) that the Bank maintain its right to be consulted when the borrower proposes to incur further external debt, and its right to be given information on the financial situation of the borrower.
- (b) that Chile be informed that, while the Bank did not at the moment propose to exercise its option of cancelling the loan after the expiry of the time limit for ratification, it would be obliged seriously to consider this course after December 31, 1948.
- (c) that Chile be informed that, while study of the railway electrification and forest industry projects would continue, the Bank could not enter into further loan negotiations until the present loan became effective.
- (d) that Chile be informed that, until the loan became effective, any certification by the Bank that goods ordered were in accordance with the approved list and that prices were reasonable could only be made in a form which would make clear that the Bank was under no commitment to finance such purchases unless and until the loan became effective.

3. Belgium

The Committee considered SLC/O/45 and

2. Philippines

The Committee considered SLC/O/48 and Report, "Preliminary Conclusions from the Discussions with the Philippine Economic Mission", and

RECOMMENDED:

(a) that the Philippine Economic Mission be informed:

- (i) that the Bank regarded as potentially sound development possibilities the Philippine hydro-electric and fertilizer projects;
- (ii) that these projects (with the possible exception of the small Lumot Diversion) were not yet ready for active consideration;
- (iii) that urgent need for foreign exchange to finance these or other projects would not arise for two or three years;
- (iv) that if the Philippine Government carried through a program of fiscal reform and management of its foreign exchange resources and if the engineering and other surveys of these projects indicated satisfactory possibilities, the Bank would be prepared to give active consideration to the granting of a loan to cover their foreign exchange requirements; and

2. Timber Equipment Project

The Committee considered SLC/O/49 and

APPROVED:

the Loan Director's recommendations contained therein, subject to:

- (a) As regards Recommendation 2C, the proviso that further inquiries of the Timber Committee confirmed Yugoslavia's capacity to fulfill the recently increased pledge of "additional" exports.
- (b) As regards Recommendation 4 (ii), the understanding that, even though delivery of equipment were expected to be completed by early 1949, repayment could be extended through 1950 in order to link more closely the life of a loan with the period of "additional" export obligations.

**2. Proposed Loan to Mexican Light and Power Company, Ltd.**

The Committee considered EIC/O/50 and

**APPROVED:**

the Loan Director's recommendations contained in paragraphs 7 and 8 thereof, subject to:

- (a) As regards para. 7 (1), consultation between the Bank on the one hand, and the U. S. Treasury, the Export-Import Bank and the International Monetary Fund on the other hand, on the subject of the attitude towards the exchange value of the peso implied in the draft letter.
- (b) the amendment of para. 7 (2) to read:  
"that the compensatory rate increase already authorized, and such further increase as would permit a return of 10% on the existing rate base, as already accepted in principle by the Mexican authorities, be put into effect prior to the making

of the loan, and that the Mexican Government give the Bank satisfactory assurances that further rate increases or rate base adjustments will be made as required to put the reorganized Company on a sound financial basis which would facilitate the Company's access to further financing; such assurances to include a formula for ensuring adjustment of the Company's rates to recent and future fluctuations in the value of the peso".

- (c) Submission of the proposals to the Executive Directors of the Bank before the giving of any commitment to the Mexican Light and Power Company.

The Committee also

RECOMMENDED:

that it be made clear to the Mexican authorities that the Bank could not treat the proposed loan to the Federal Electricity Commission as a matter entirely separate from the proposed loan to the Mexican Light and Power Company.

## 2. Mexico

The Committee considered SLC/0/51 and

### RECOMMENDED:

- (a) that the Bank be prepared to extend the proposed interim credit for the benefit of the Mexican Light and Power Company, subject to:
- (i) the compensatory rate increase having been made effective;
  - (ii) the Mexican Government having given an assurance satisfactory to the Bank on the rates to be allowed the Company;
  - (iii) the Mexican Government having given satisfactory assurances on its future financial and economic policy;
- (b) that the questions:

Whether the Bank preferred the obligation of the Company to the Federal Electricity Commission and Nacional Financiera in respect of the above interim credit to be in terms of dollars or pesos, and whether it should seek to have effect given to its preference in this matter,

SIC/M/29

be the subject of further consideration.

- (c) that a decision on the advisability and form of the proposed long term loan on behalf of the Company's projects need not be taken until a later date, and that First Boston Corporation be accordingly informed in writing that the Bank regarded the purpose of the present discussions of reorganization as the creation of a situation in which the Bank might be able to make such a long term loan for the benefit of the Company;
- (d) that the question of whether such a long term loan should be made directly to the Company or to the Federal Electricity Commission for re-lending to the Company be deferred until the Bank was able to take a decision as to whether or not a loan should be made at all.
- (e) that the Mexican authorities be informed that, if the Bank ultimately found itself unable to make the proposed long term loan to the Company, it would be prepared to fund the interim credit, provided that such inability to make the long term loan were not due to any failure on the part of the Mexican Government to carry out its assurances on rates and financial and economic policy.

The Committee also

AGREED:

that, in the light of Recommendation (a) above, the question put forward in SIC/O/51, para. 6 b, did not at present arise.

**2. Proposed Belgian Loan**

The Committee considered SLC/O/54, and

**RECOMMENDED:**

- (i) that the proposed \$16.8 million Belgian loan take the form of a direct loan to the Belgian Government;
- (ii) that if the Belgian Government so desired, the loan be set up in such form as to facilitate resale of the bonds;
- (iii) that no objection be raised to the participation of Morgan, Stanley and Co. in the negotiations in the capacity of advisors to the Belgian Government, should the latter so request; and
- (iv) that, if the Belgian Government should so request and on the understanding that any commission payable to Morgan, Stanley and Co. should be paid by it, the Bank would give Morgan, Stanley and Co. the opportunity of marketing such of the Belgian bonds as the Bank might decide to resell, provided that they were willing to meet any bids received from others.

3. Subordination of Economic Cooperation Administration Loans to those of the Bank.

The Committee considered SIC/O/55 (General Counsel's draft letters on this subject), and

RECOMMENDED:

that the letter be redrafted in the light of the discussion.

4. Earnings in Currencies other than Dollars.

The Committee considered SIC/O/52, and

AGREED:

to defer decision until the issue was presented in a more substantial and clearly defined form.

5. Mexican Legislation.

After hearing a statement by the General Counsel on the present legal powers of Nacional Financiera to negotiate and guarantee loans on behalf of the Mexican Government, the Committee considered whether any further enabling or ratificatory legislation on the part of the Mexican Government was necessary, and

RECOMMENDED:

- (i) that such further legislation be requested only if the existing legislation were construed as not giving Nacional Financiera power to guarantee a Bank loan on behalf of the Mexican Government; and
- (ii) that if such further legislation were requested, the suggestion be made that it be drafted in general rather than specific form.

2. Insurance of Ships Mortgaged under Netherlands Shipping Loans

The Committee considered SLC/O/56 and

AGREED:

that the problems presented should be resolved administratively by the Treasurer.

3. Proposed Extension of Danish Letters of Credit

The Committee considered SLC/O/59, and

RECOMMENDED:

that Count Ahlefeldt should be notified as follows:

- (a) that the Bank would be prepared to extend the currency of the Danish loan to March 31, 1949;
- (b) that in no circumstances would any further extension be considered; and
- (c) that full interest, less the rate of annual discount on U. S. Treasury Bills for the period, would be payable from December 31, 1948, on the undisbursed portion of the loan.

4. Ecuadorian Loan Application

The Committee considered the Report on the Economy of Ecuador and the Report on the Ecuadorian Loan Application, and

AGREED:

to defer making recommendations until the conclusions of the reports had been co-ordinated, more precisely defined and re-submitted.

5. Development of Electric Power in Brazil

The Committee considered SIC/O/57, and

RECOMMENDED:

- (1) that no action be taken without confirmation by the Brazilian Government that it would sponsor and guarantee the loans in question; and
- (11) that it be suggested to the companies which had approached the Bank that they request such confirmation from the Brazilian Government.

6. Financing the Transportation Costs of European Immigrants to Brazil.

The Committee considered SIC/O/58, and

RECOMMENDED:

that the Loan Department indicate to the Brazilian Government its interest in the project but request more precise information concerning the details of the project and the part the Bank would be expected to play.

7. Philippine Hydro-Electric Projects.

The Committee considered a statement on recent developments in connection with the proposed Philippine loan, and

RECOMMENDED:

that the Philippine representatives be informed that the Bank would consider making a loan of \$10-15 million to finance part of the foreign exchange costs of the Lumot, Ambuklao and Itogon hydro-electric projects.

**2. Proposed Mexican Loans**

The Committee considered SLC/O/61, and

**RECOMMENDED:**

- (1) that there was no objection in principle to part of the money lent being devoted to the reimbursement of approved expenditures made prior to the granting of the loans, provided that the Bank supervised the use of the proceeds of such reimbursement;
- (11) that the Mexican authorities be asked to resubmit their assurances on the rates to be allowed to Mexlight in a form revised in the light of the discussion; and
- (111) that, subject to such resubmission, a letter, in the form of the draft before the meeting, amended as suggested by the Committee, be sent to Nacional Financiera.

The Committee considered SLC/0/64, and

**RECOMMENDED:**

- (i) that the date of Lord Trefgarne's projected visit to Washington be ascertained in order that it may be determined whether Mr. Bayne should be sent to London and Paris before or after such visit; and
- (ii) that if Mr. Bayne were sent before Lord Trefgarne's visit, the draft terms of reference, as modified in the light of the discussion, be utilized.

**3. Proposed Timber Equipment Loan**

The Committee considered SLC/0/63, as well as the draft Loan Agreement dated October 28, 1948, and advices from Mr. Hurick concerning the reluctance of the purchasers to make commitments as to the amounts of timber which they would buy, and

**RECOMMENDED:**

- (1) that, if it proved necessary in order to obtain the adherence of the purchasers, the Bank should not insist on the inclusion of a price formula or of quantitative purchase commitments if the purchasers agreed to pay for whatever timber they bought, up to an agreed amount,

in dollars, even though this would mean that no commitment could be obtained from E. C. A. before the signing of the Loan Agreement; and

Mr. D. W. Bayser  
Mr. E. G. Burland  
Mr. A. Waterston

### 2. Mexico: Provisions of Draft Loan Agreement

The Committee considered SIC/O/63, and

#### RECOMMENDED:

- (i) that the commitment charge should run from the Effective Date, rather than from the date of the Loan Agreement, but that the period within which the Agreement would have to be ratified if it were not to be in formal danger of termination be reduced to thirty days from the date of signature; and
- (ii) that the end-use of pesos, which Mexlight would obtain from the \$2.8 million designed to reimburse it for expenditures made before the granting of the loan, should not be specifically supervised. The Loan Department should, however, satisfy itself that the fees charged Mexlight by Sofina were not excessive.

### 3. Brazilian Traction Light and Power Company, Ltd., Loan

The Committee considered whether the Bank should ask the Brazilian Government to make representations concerning its foreign debt and guarantees, and

2. Netherlands; Herstelbank Loan

The Committee discussed the proposed loan to the Herstelbank, and

RECOMMENDED:

- (i) that the loan not be made conditional on the easing of the burden of the service of the Netherlands debt to the Eximbank or of the service of the War Debt Settlement with the United Kingdom;
- (ii) that the loan be made only if an agreement were reached with ECA concerning a satisfactory relationship between ECA loans and Bank loans to the Netherlands;
- (iii) that a large measure of reliance be placed upon the Herstelbank in its selection and prior investigation of projects;
- (iv) that although the Bank should not exclude textile projects from the program, it should have some reservations in financing the textile industry at this time in view of world outlook for this industry, and fuller information concerning this industry and the projects operating in this industry should be requested;
- (v) that unless the Belgian Government liberated some of its 18%

subscription for this purpose, the Belgian francs should be made available only if no objection to the purchase of such currency were made by BCA and OREO;

- (vi) that the companies should not be brought in as co-obligors;
- (vii) that no lien or other security be requested from the companies, but that it be left open;
  - (a) whether arrangements should be made for the Bank to share in the securities and liens taken by the Herstelbank; and
  - (b) whether the Bank should retain a right to recapture goods in transit to the Netherlands in case of emergency;
- (viii) that the loan be in the amount of approximately \$15 million, with a term of 12 years, the first two to be free of amortization, and amortization to start on a reduced scale in the third and fourth years should it be thought necessary.

### 3. Colombia: Report and Recommendations

The Committee considered the Report and Recommendations on Colombia, and

#### RECOMMENDED:

- (i) that the Colombian representatives be informed that if measures were taken to effect needed fiscal and exchange control reforms, the Bank would enter into negotiations for a loan to cover the foreign exchange costs of the agricultural machinery and power plant projects;
- (ii) that a mission be sent as soon as possible to investigate the engineering feasibility of these projects;
- (iii) that in the absence of much more convincing evidence of its soundness, the project for a soda ash plant should not be approved;
- (iv) that the Bank should at the same time ascertain whether the Colombian Government would agree to the Bank's sending an economic mission to Colombia to prepare a long-range development program; this mission would work closely with Colombia over an extended period, would report frequently, and its recommendations would be reviewed and revised at frequent intervals; this plan would serve as an experiment in long-range, closely supervised, development programming.

2. Costa Rica: Report of Bank Mission

The Committee considered the Economic and Projects Reports and the Conclusions and Recommendations of the Mission, and

RECOMMENDED:

that the Bank investigate the possibility of procuring a qualified person who would serve as an overall advisor to the Costa Rican Government, if that Government would agree, in order that its management might be placed on a more efficient basis, with a view to making Costa Rica a more credit-worthy field for lending by the Bank.

3. Mexico: Interim Credit

The Committee considered SIC/O/67, and

RECOMMENDED:

- (1) that the Mexican representatives be informed that if, through no fault of the Mexican Government, the Bank were unable to make a long-term loan for the benefit of Mexlight, it would be prepared to negotiate the funding of the interim credit on reasonable

terms;

- (ii) that the Bank should charge, for the interim credit, a rate of interest appropriate to the long-term loan contemplated for the ultimate financing of the Mexlight projects;
- (iii) that the Bank should not object to Nacional Financiera and the Federal Electricity Commission charging Mexlight an interest rate higher than that which they would pay the Bank; a spread of the order of one-half per cent was regarded as reasonable.

2. Proposed Mexican Loan

The Committee considered SEC/O/69 and an appended Table, "Estimated Interest and Sinking Fund Charges and Principal Revenues of the Mexican Federal Electricity Commission", and

RECOMMENDED:

- (1) that, instead of seeking a pledge of revenues, the Bank should:
  - (a) require the Federal Electricity Commission to give a negative pledge; and
  - (b) limit further borrowing by the Commission without the Bank's consent, by the application of an earnings ratio formula of  $1\frac{1}{2}$  to 1;
- (11) that the Bank be prepared to acquiesce in the present Westinghouse

prior lien;

(iii) that the amount of the loan to the Commission not be reduced by an amount corresponding to that portion of the orders to be placed with Westinghouse which would be manufactured or assembled in Mexico by the Westinghouse Mexican subsidiary (Industria Eléctrica), but:

- (a) that this decision should be regarded as a reflection of the exceptional circumstances of the case and not construed as a general withdrawal from the Bank's position on local currency financing; and
- (b) that the Bank would supervise the use of pesos contemplated for financing such expenditures in Mexico;

(iv) that, in the light of revised estimates of foreign exchange expenditures to be made by December 31, 1949, the amount of the proposed short-term loan be reduced to \$10 million.

### 3. Proposed Belgian Loan

The Committee considered SLC/6/63, and the Draft Agreement dated December 13, 1948, and

#### (i) RECOMMENDED:

- (a) that the aforementioned Draft Agreement be approved, as modified to provide that the proposed bonds be delivered within sixty days after the signing of the Agreement;
- (b) that if the Belgians objected to this provision for delivery of bonds before corresponding parts of the loan had been drawn down, the Bank should not press the proposal;
- (c) that the Bank should not necessarily regard itself as bound by an agreement made with the Belgians in connection with a prior application to the effect that it would not exclude from the loan amounts corresponding to expenditures in currencies plentiful in Belgium; and

#### (ii) AGREED:

to obtain more facts and give further consideration to the question of exclusion from the loan of amounts referred in paragraphs (3) (i) (c), supra.

### 4. Consultation Provisions: Payments Agreements

The Committee considered the question of the extent to which the Bank should, in its Loan or Guarantee Agreements, provide for consultation on the terms

of bilateral payments agreements which would thereafter be entered into by the borrowing or guaranteeing government, and

RECOMMENDED:

that the General Counsel appoint a committee to give the matter further study.

5. The meeting recessed at 12:30 p.m. and reconvened at 2:30 p.m.

6. Proposed Mission to India

The Committee considered SEC/0/70, and

RECOMMENDED:

- (i) that the Loan Director's recommendations be followed;
  - (ii) that Mr. Gilmartin of the Economic Department be included in the mission as its agricultural expert;
  - (iii) that the reply to the Indian Government make clear that the Bank regarded the suggested projects and amounts as merely tentative.

2. India: Proposed Mission

The Committee considered the "Summary Study of the Economy of India" and the Appendix thereto; SLC/O/71 (Terms of Reference for Proposed Mission to India); and the "Schedule of Important Questions on Indian Economic Problems for the Use of the Mission", and

RECOMMENDED:

- (i) that the "Summary Study of the Economy of India", and the "Schedule of Important Questions on Indian Economic Problems" be approved;
- (ii) that the "Terms of Reference" be approved, with the following modifications:
  - a. that there be added to the last sentence of Paragraph 1 (b) of the "Terms of Reference": "and their influence on the economy and balance of payments of India";
  - b. that it should be left to the discretion of the chief of the mission while in India whether to seek an invitation to visit the Dominion of Pakistan;

- c. that the last sentence in Paragraph 6 be deleted;
- (iii) that it be sought to induce the Indian Government to pay for the salaries and expenses of any outside experts who might be engaged in connection with the proposed Indian loans, only in cases where the services of such experts would work to the benefit of India rather than to that of the Bank.

### 3. Belgium: Proposed Loan

The Committee considered advices on the current status of negotiations with the Belgian representatives, and

#### RECOMMENDED:

that the Bank be willing to accept either of the following methods of drawing down the money to be lent:

- a. an account would be set up in the Federal Reserve Bank of New York, in the name of the National Bank of Belgium; when withdrawing funds, the National Bank would certify to the IBRD the uses to which such funds would be put; or
- b. the National Bank would buy from the Belgian Government the dollars lent by the IBRD, and in turn would sell those dollars to the companies. The companies would keep the dollars in accounts which could be drawn against only with the permission of the IBRD.

### 4. Belgium: Suggested Additional Loan

The Committee considered a proposal that a loan of the order of \$50 million be made to Belgium, the dollars to be deposited in the National Bank, thereby to serve immediately as a currency reserve which would enable the Belgian Government to issue francs for a public works program without inducing a corresponding inflationary effect, but the dollars to be drawn down only for such specific projects proposed from time to time as met the approval of the IBRD, and

#### AGREED:

to give further consideration to the justification for and possible consequences of such a loan, with particular study of the extent to which Belgium's relatively fortunate balance-of-payments position was the result of its own efforts rather than of fortuitous circumstances, and with a view to suggesting such conditions on the loan as would appear advisable.

### 2. Belgian Loan Proposal

The Committee considered the suggestion of a loan of the order of \$50-100 million for the purpose of enabling Belgium to finance an internal modernization program without inducing an inflationary effect, and

### RECOMMENDED:

- (i) that the Belgian situation be regarded as one of "exceptional circumstances", under Article IV, Section 3 (b) of the Articles of Agreement, warranting consideration of a loan to be devoted principally to the financing of internal expenditures;
- (ii) that the Bank be willing to give active consideration to the possibility of lending to Belgium for such purpose, if it were determined that:
  - (a) the proceeds would be devoted to productive projects;
  - (b) there was no practicable alternative method whereby the money might be raised; and
  - (c) Belgium was sufficiently creditworthy.

DECLASSIFIED

JUN 13 2014

WBG ARCHIVES

- (iii) that the proposal not be put forward until discussions on the \$16.8 million loan now being negotiated were sufficiently advanced as not to be confused or prejudiced by it;
- (iv) that, subject to paragraph (iii), the Bank ask M. Frere whether he would be interested in such a loan, and, if so, explore with him the uses to which it would be put and suggest to him that the Bank send a mission to make a careful technical study of both the Belgian situation and the possible benefits to be derived by the rest of Western Europe from the loan.

2.

The Committee heard the President's impressions of his visit to Central America and discussed the general question of the Bank's approach to the development problems of Central America, and

RECOMMENDED:

(1) that, as to the area in general:

- (a) the Economic Department bring its country studies to the point where the Bank would be in a position to form a preliminary view of the credit-worthiness of each of the Central American Republics;
- (b) those countries which appeared to be unsuitable lending risks be given suggestions, if they desired, designed to assist them in undertaking measures to improve their credit-worthiness;

DECLASSIFIED

JUN 13 2014

WBG ARCHIVES

- (c) there would be sent to those countries which appeared to be possible borrowers various experts who would go from country to country, in whatever sequence appeared most appropriate, examining development possibilities in their respective fields;
  - (i) an agricultural expert, preferably to be obtained through FAO;
  - (ii) a farm credit expert, to study the local mortgage banks, preferably to be obtained through the U.S. Department of Agriculture or FAO;
  - (iii) a power expert, who would, before departing for Central America, consult with American and British companies serving that area;
  - (iv) a transportation expert, to survey highway and railroad possibilities;
- (d) Mr. Console devote his full time to serving as coordinator of all measures taken by all departments of the Bank in connection with Central American development, and to supervising and stimulating their progress, with special reference to the matters mentioned in (a), (b) and (c) above;
- (e) drafts of enabling legislation authorizing borrowing from the Bank or guaranteeing of Bank loans be sent to all member governments in Latin America, adapted to meet local practices insofar as possible, but with the caveat that constitutional lawyers of the particular countries should be consulted to determine whether in fact local requirements had been met;
- (ii) that, as to Guatemala:
  - (a) technical assistance in connection with transportation and agriculture (including storage facilities) be sent as soon as possible;
  - (b) the Bank consult with American & Foreign Power Company with reference to the Guatemalan power situation before sending a power expert to Guatemala;
  - (c) the J. C. White report on irrigation be studied and brought up to date if necessary before sending a mission to investigate irrigation possibilities in Guatemala;
  - (d) general discussions concerning Guatemala be undertaken with the United Fruit Company;
- (iii) that, as to Honduras:
  - (a) general discussions concerning Honduras be undertaken with the United Fruit Company;

- (b) missions not be sent to Honduras before the installation of the newly elected government;
  - (c) the President-elect be informed of the Bank's readiness to take further steps as soon as informed of the government's desire for it to do so;
- (iv) that, as to El Salvador:
- (a) no mission be sent to El Salvador until requested by the new government;
  - (b) a letter be sent immediately to the President of the Central Bank, informing him that if the new government desired, the Bank would be willing to take further measures, such as the sending to El Salvador of farm credit and power experts;
  - (c) the President of the Central Bank also be given the names of several engineering firms recommended by the Bank for the contemplated water supply project survey;
- (v) that, as to Costa Rica:
- (a) the Bank keep its information up-to-date, but take further active measures only when the constitutional government had been installed;
  - (b) the Costa Rican government be informed of the Bank's continued interest and intention to pursue the matter further when possible;
- (vi) that, as to the Dominican Republic:
- (a) the Bank consult with the Bethlehem Steel Company in respect to iron mining possibilities;
  - (b) no mission be sent until a promised memorandum had been received from the government;
  - (c) the Bank inform the government of its intentions and of the fact that it was most interested in agricultural, railroad and mining projects;
- (vii) that, as to Nicaragua:
- (a) a letter be sent, informing the government of the Bank's interest, especially in agricultural (including irrigation) and transportation projects, and requesting confirmation of Nicaragua's intentions to seek assistance in those directions and indications as to its wishes concerning further action by the Bank;

- (b) that irrigation studies in the possession of I.B.E.C. be obtained;
- (viii) that, as to Panama:
  - (a) conversations be held with U.S. meat packing firms concerning the possibilities of expanding the Panamanian cattle industry;
  - (b) U.S. Department of Agriculture surveys of agriculture in Panama be studied;
  - (c) a mission be sent to Panama to investigate the agricultural and cattle raising possibilities of the country, and perhaps the fisheries as well;
  - (d) a letter be sent to the Minister of Finance setting forth the Bank's intentions;
  - (e) no concrete steps be taken by the Bank until Panama had returned to good standing with the International Monetary Fund.

### 3. Colombia

The Committee considered suggestions concerning the proposed mission to Colombia to prepare long-range development plans, and

#### RECOMMENDED:

that the mission be headed by an expert obtained from outside the staff of the Bank.

### 4. Content of Guarantee by the U.K. Government for Colonial Loans

The Committee considered ELS/0/72, and

#### RECOMMENDED:

- (i) that the U.K. Treasury be informed, through the Executive Director for the U.K., that:
  - (a) to be at all satisfactory, any guarantee would have to cover not only principal and interest, but "other charges" as well;
  - (b) the Bank would accept an opinion of counsel for the U.K. that the legislation authorized the Government to enter into the usual covenants required by the Bank of guarantors to implement Guarantee Agreements entered into by them;

- (c) the Bank would not now venture an opinion as to whether or not a guarantee by the U.K. Government of payments but not of other obligations of the borrower would in general be satisfactory to the Bank, but would indicate its views at appropriate times in connection with each concrete loan proposal under discussion;
- (d) the aforementioned views apply to legislation guaranteeing loans made not only to colonial governments, but to government development corporations as well;
- (11) that the General Counsel and the Loan Director draft a telegram in conformance with the foregoing recommendations.

5. The meeting recessed at 1:15 p.m., reconvened at 3:00 p.m., recessed at 4:30 p.m., reconvened at 5:30 p.m., and adjourned at 6:45 p.m..

### 2. Uruguay

The Committee considered SLC/0/74, SLC/0/75, and the Economic Department Reports on Uruguayan External Credit and Appraisal of the Development Projects, and

### RECOMMENDED:

- (1) that the Bank inform the Government of Uruguay that the Bank was willing to consider, in principle, the making of a loan to U.T.E., to be guaranteed by the Government of Uruguay, for the purpose of financing such part of the foreign exchange costs of the electric power and telephone expansion program of U.T.E. as U.T.E. was obliged to borrow, and that the Bank will proceed forthwith to try to work out with the Uruguayan authorities the details of this loan after such further examination of the projects and of the financial position and structure of U.T.E. as the Bank may think necessary;
- (11) that it should be pointed out to the Uruguayan authorities that although U.T.E. would be free to place its contracts in such countries as offered the best facilities by way of price, delivery, suitability of equipment, etc., the fewer dollars they were obliged to borrow the less would be the dollar burden of repayment;

DECLASSIFIED

JUN 13 2014

WBG ARCHIVES

- (iii) that the Bank recommend to the Uruguayan authorities that if they decided to place orders in a particular country of which Uruguay was a substantial creditor on current account they should endeavor to obtain the needed equipment by using their available resources of that country's currency and so avoid the necessity of borrowing to finance that portion of their expenditures;
- (iv) that if the Uruguayan authorities decided to place contracts in any member country other than the United States of America and if they were unable to finance such purchases out of their available resources of that country's currency, the Bank should make efforts to secure the consent of the member government concerned to the use of its eighteen per cent subscription as part of the loan;
- (v) that the Bank inform the Uruguayan authorities that at first sight it inclined to the view that the scale of the telephone project to be financed initially might be somewhat reduced, but a final determination on that point would be made after the technical study had been completed;
- (vi) that the rate of local currency earnings of the projects would be no criterion of the term of the loan;
- (vii) that the Bank inform the International Monetary Fund of its intentions with respect to Uruguay.

2. Central American Countries

The Committee considered the Memorandum of the Economic Department, "Central American countries", and

a. RECOMMENDED:

(1) that a letter be sent to the Costa Rican authorities, setting forth the Bank's attitude towards financing Costa Rican development projects, substantially as follows:

- (a) the Costa Rican economy was basically appropriate for such financing;
- (b) the Government had recognized that it would probably not be able to carry through fiscal and other necessary reforms without outside assistance;
- (c) Costa Rica required not only experts in separate fields but an overall advisor on economic administration;
- (d) the Bank would endeavor to assist by recommending such an advisor and other experts;
- (e) Bank financing would depend on and be timed by the formulation and execution of appropriate policies of reform;

- (f) at the present time, and in the absence of adequate documentation, projects covering warehousing facilities, milk processing, fisheries, and agricultural processing equipment, seemed to offer the best opportunities for financing by the Bank;
- (11) that the President, when visiting Cuba in February, 1949, discuss with the Cuban authorities the possibilities of Bank financing of agricultural diversification projects and of the sale of Bank securities in Cuba;

b. AGREED:

to defer consideration of the measures to be taken with respect to the other Central American and Caribbean countries until answers had been received in response to communications sent to them.
