<https://www.adb.org/publications/international-comparison-program-2017-summary-report>

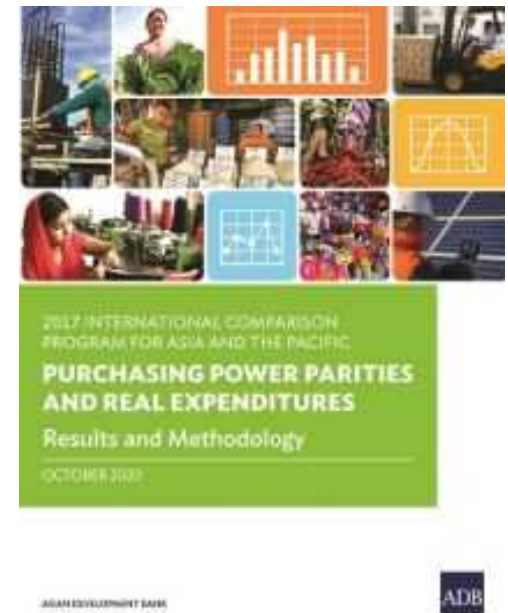

2017 ICP results release

Main Report *(released on 8 October 2020)*

2017 International Comparison Program for Asia and the Pacific: Purchasing Power Parities and Real Expenditures — Results and Methodology

- Provides in-depth analyses of purchasing power parities and real expenditures in 44 expenditure categories for 22 participating economies

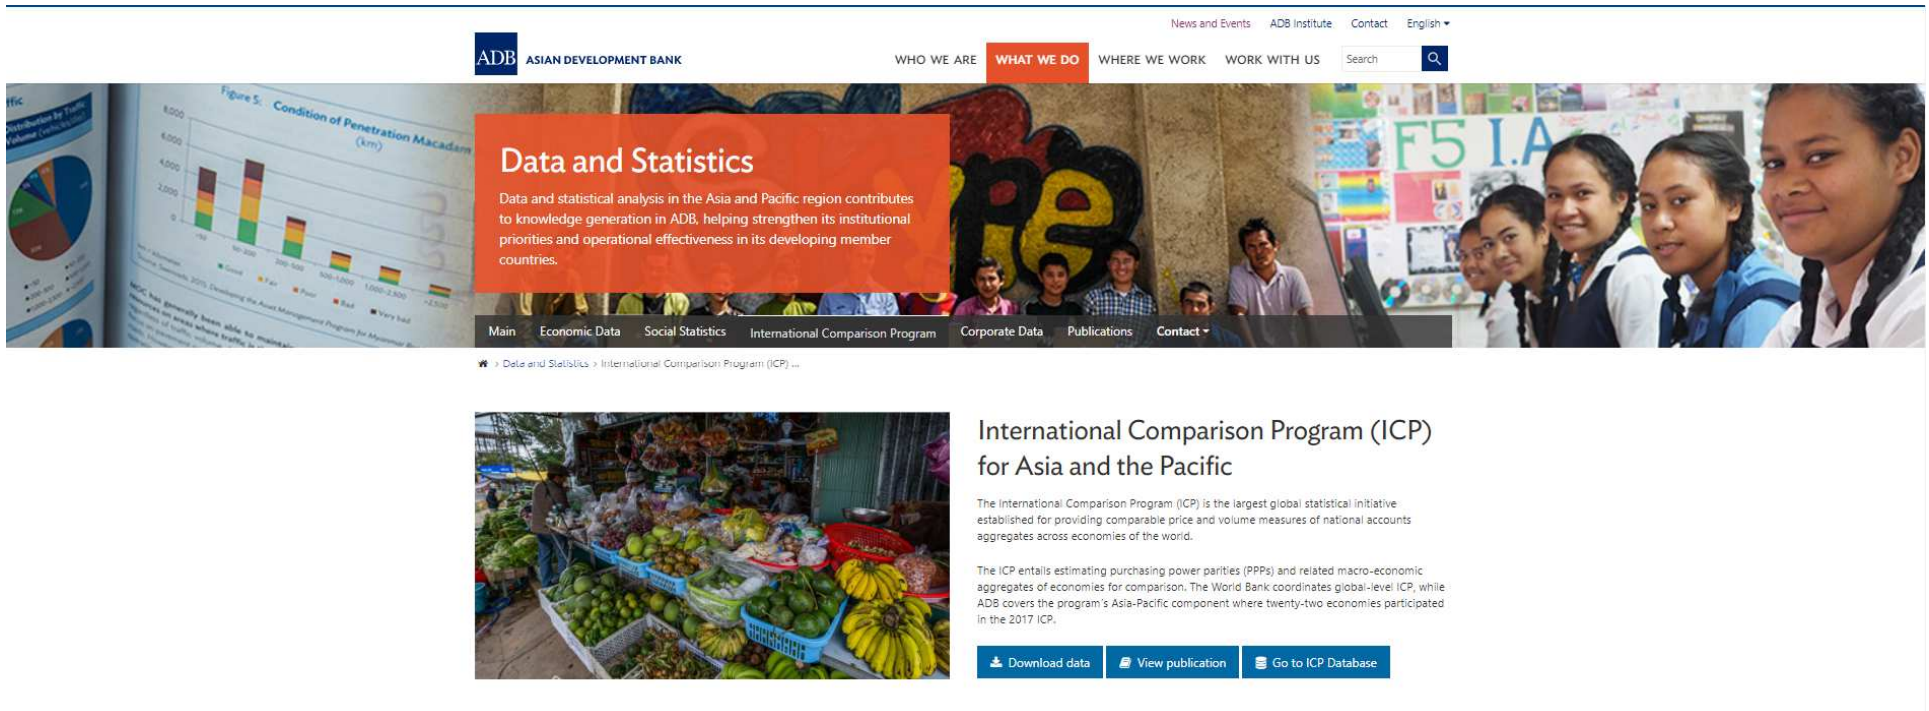

<https://www.adb.org/publications/international-comparison-program-2017-results-methodology>

2017 ICP post-release results activities

- Launched ICP website under the economic data page of ADB

<https://www.adb.org/what-we-do/data/economic-data/icp>

The screenshot displays the ADB website's navigation and content for the International Comparison Program (ICP). At the top, the ADB logo and name are visible, along with navigation links for 'WHO WE ARE', 'WHAT WE DO', 'WHERE WE WORK', and 'WORK WITH US'. A search bar is also present. Below the navigation, a large banner features a photograph of students in a classroom. Overlaid on this banner is a red box with the text 'Data and Statistics' and a brief description of ADB's data and statistical analysis efforts. Below the banner is a horizontal menu with options: 'Main', 'Economic Data', 'Social Statistics', 'International Comparison Program', 'Corporate Data', 'Publications', and 'Contact'. A breadcrumb trail indicates the current page: 'Data and Statistics > International Comparison Program (ICP)'. The main content area features a photograph of a fruit market stall. To the right of the image is the title 'International Comparison Program (ICP) for Asia and the Pacific', followed by two paragraphs of text describing the ICP's purpose and scope. At the bottom of the content area are three buttons: 'Download data', 'View publication', and 'Go to ICP Database'.

Data and Statistics > International Comparison Program (ICP)

International Comparison Program (ICP) for Asia and the Pacific

The International Comparison Program (ICP) is the largest global statistical initiative established for providing comparable price and volume measures of national accounts aggregates across economies of the world.

The ICP entails estimating purchasing power parities (PPPs) and related macro-economic aggregates of economies for comparison. The World Bank coordinates global-level ICP, while ADB covers the program's Asia-Pacific component where twenty-two economies participated in the 2017 ICP.
