

JORDAN

Region: Middle East, North Africa, Afghanistan, and Pakistan

Income Category: Lower Middle Income

Human capital – knowledge, skills, and good health – empowers people to achieve their potential and drives economic growth. This brief tracks progress by Jordan in building and using human capital. The Human Capital Complementary Indicators offer a snapshot of human capital investments at four stages of the lifecycle. The brief uses the latest available data. It is benchmarked against regional averages and reports progress over the previous 5 years.

EARLY CHILDHOOD

- **Neonatal mortality rate.** The neonatal mortality rate is **8** per 1,000 live births (2023), compared to 9 in 2018. The indicator is lower than the regional average.
- **Participation rate in organized learning.** In 2018, **56%** of children one year younger than the official primary school entry age participated in an organized learning program. The indicator is above the regional average.
- **DTP vaccination rate, third dose.** In 2024, **96%** of infants received the third dose of the diphtheria, tetanus and pertussis vaccine, compared to 89% in 2019. The indicator is higher than the regional average.

SCHOOL AGE

- **Child mortality rate.** The mortality rate for children ages 5-14 is **1** per 1,000 children aged 5 (2023). This remains unchanged since 2018. The indicator is lower than the regional average.
- **Learning poverty.** In 2021, **62%** of children could not read and understand a simple text, by age 10. The indicator is above the regional average.
- **Primary school completion rate.** The primary school completion rate is **97%** (by the official entrance age of the last grade) (2023), compared to 96% in 2018. The indicator is higher than the regional average.

YOUTH

- **Adolescent fertility rate.** The number of births for every 1,000 women ages 15-19 is **18** (2023), compared to 24 in 2018. The indicator is lower than the regional average.
- **Youth literacy rate.** The share of youth (ages 15-24) who are literate is **99%** (2023), compared to 97% in 2018. The indicator is above the regional average.
- **Youth not in employment, education or training.** In 2024, **32%** of youth (ages 15-24) were not in employment, education or training, compared to 36% in 2019. The indicator is higher than the regional average.

ADULTS

- **Female labor force participation rate.** Female labor force participation as a percentage of the female working-age population (ages 25+) is **16%** (2024), compared to 15% in 2019. The indicator is lower than the regional average.
- **Life expectancy at birth.** Life expectancy at birth is **78** years (2023), compared to 76 in 2018. The indicator is above the regional average.
- **Adult unemployment rate.** Unemployed adults as a share of the adult labor force (ages 25+) is **13%** (2024), compared to 12% in 2019. The indicator is higher than the regional average.
