These project tables should be read in conjunction with the FY23 World Bank (IBRD) Sustainable Development Bonds and Green Bonds Impact Report at https://treasury.worldbank.org/en/about/unit/treasury/impact/impact-report

These project tables have been prepared by the World Bank (International Bank for Reconstruction and Development, IBRD) for information purposes only, and the World Bank makes no representation, warranty or assurance of any kind, express or implied, as to the accuracy or completeness of any of the information contained herein. All information relating to the projects presented in these tables should be read in conjunction with the relevant project documentation and any discrepancy between the tables and such project documentation, the latter shall prevail.

The net proceeds from the sale of any World Bank bonds are not committed or earmarked for the lending to, or financing of, any particular projects, programs or activities. Returns on World Bank bonds are not linked to the performance of any particular projects, programs or activities.
World Bank (IBRD) Sustainable Development Bonds (SDB) | FY23 Impact Report | Projects Tables

The SDB project portfolio includes also Green Bond projects because they are part of the whole IBRD-financed project portfolio. For impact reporting purposes, SDB investors can filter out the projects included in the Green Bond program by using the Green Bond filter in the SDB project tables. The tables contain active and closed projects in FY23. Active projects are #2-583 and closed projects are #DBA-690.

</table>
10. Angola Food Grid, resilient, inclusive Growth and Diversification Development Policy Financing (FY12 | P127981): The development objective is to support the Government of Angola to improve resilience, and inclusive growth by (i) reducing economic distortions and strengthening fiscal and financial sector resilience by (ii) improving market and structural resilience to fuel climate resilience.

22.5. Angola Financial Sector

11. Human resources capacity for Universal Health Coverage in Angola (FY12 | P110031): The Project Development Objectives is to improve the capacity and availability of human resources for health in Angola.

22.5. Angola Health Health

12. Accelerating Economic Diversification and Job Creation Project (FY13 | P120703): To increase private investment and climate-related growth of micro, small and medium enterprises in areas of value chains, particularly in the Lobito corridor.

25. Angola Industry, Trade and Services Governance

13. Second Water Sector Institutional Development Project (FY17 | P120134): The Project Development Objective is to strengthen the institutional capacity of selected water sector agencies and (i) increase water a service coverage in target cities.

14. Angola Commercial Agriculture Development Project (FY16 | P115081): The proposed Project Development Objective is to increase productivity and market access for selected beneficiaries in the project area.

35. Angola Industry, Trade and Services Food security and sustainable food systems

15. Angola Health System Performance Strengthening Project (HSISP) (FY19 | P150981): The Project Development Objective is to increase the utilization and the quality of health care services in target provinces and municipalities.

37. Angola Health Health

25. Angola Agriculture, Fishing and Forestry Food security and sustainable food systems

17. Angola - Electricity Sector Improvement and Access Project (FY21 | P155835): The Project Development Objective is to improve the operational performance of the electricity sector utilities and increase electricity access in selected cities in the Republic of Angola.

30. Angola Energy and Extractives Power

18. Regional Disease Surveillance Systems Enhancement Project (REDISSSE) Phase IV (FY20 | P157677): The project development objectives are (1) to strengthen national and regional cross-sectoral capacity for collaborative disease surveillance and epidemic preparedness in the Participating Countries; and (2) to the event of an Eligible Crisis or Emergency, to provide immediate and effective response to said Eligible Crisis or Emergency.

30. Angola Health Health

19. USD 70M in Climate mitigation and adaptation investments facilitated by the project;

70 provinces that have established provider to provider telemedicine.

20. At least 15% of provincial utilities adequately reporting service levels and water quality data, from a baseline of 0%.

21. At least 50% of legal persons registered, and 75% of high-risk legal persons verified, from a baseline of 0%.

22. At least 1.6 million and at least 60% female-headed families receiving updated benefit amount, from a baseline of 0.6 million.

23. At least 50% of legal persons registered, and 75% of high-risk legal persons verified, from a baseline of 0%.

24. At least 1.6 million and at least 60% female-headed families receiving updated benefit amount, from a baseline of 0.6 million.

25. At least 70% of legal persons registered, and 75% of high-risk legal persons verified, from a baseline of 0%.

26. At least 22% of hydrometric stations supported by the project, providing information to INRH (National Institute for Water Resources).

27. At least 20% increase in the number of health care workers with certified post-graduate level training from accredited facilities, from a baseline of 0%

28. At least 12% of provincial utilities adequately reporting service levels and water quality data, from a baseline of 0%.

29. At least 1.6 million and at least 60% female-headed families receiving updated benefit amount, from a baseline of 0.6 million.

30. At least 50% of legal persons registered, and 75% of high-risk legal persons verified, from a baseline of 0%.

31. At least 20% increase in the number of health care workers with certified post-graduate level training from accredited facilities, from a baseline of 0%.

32. At least 50% of legal persons registered, and 75% of high-risk legal persons verified, from a baseline of 0%.
19. Girls Empowerment and Learning for All Project (FY21 | P168896): To empower Angolan youth, especially girls, and to improve learning quality for all.

20. Strengthening the National Social Protection System Project (Cash Transfer) (FY20 | P197977): The objectives of the project are to provide temporary income support to poor households in selected areas of Angola, and to strengthen the delivery mechanisms for a permanent social safety net system.

21. Angolan Covid-19 Strategic Preparedness And Response Project (FY22 | P219638): The Project Development Objective (PDO) is to prevent, detect and respond to the threat posed by COVID-19 and strengthen national systems for public health preparedness in Angola.

22. Climate Resilience and Water Security in Angola-RECLIMA (FY22 | P217704): The Project Development Objective is to improve water supply services and strengthen water resources management for climate resilience in selected areas of the Angolan territory.

23. Smallholder Agricultural Transformation Project (FY22 | P177305): To increase agricultural productivity and to promote climate resilience for smallholder farmers in selected areas.

25. DECIS-MPE Guarantee Facility Project (FY23 | P177715): The development objective is to facilitate additional financial intermediation for MSMEs by supporting the establishment of a regional partial guarantee corporation.

26. Innovation Program for Smart Growth (PINCRI) (FY23 | P175153): The project development objective is to increase innovation-led sustainable growth by strengthening the national innovation system and facilitating access to capital.

27. Social Safety Net for Vulnerable Populations in the Province of Buenos Aires (FY22 | P170290): Support the transition of the electricity ST scheme from the federal to the Buenos Aires provincial level, and the delivery of social safety net programs targeting the vulnerable population in the PBA, as part of the COVID-19 emergency response.
Strengthening data infrastructure to close the digital gap in Argentina Project (FY23 | P178590): The project is to strengthen the data infrastructure foundations, to increase digital resilience, to foster digital uptake in Argentina, and to respond effectively in case of an Eligible Crisis or Emergency.

Argentina Information and Communications Technologies Access to technology 17% N 200.0 200.0 100% 0.0 0.0 N ☑ 2000 civil servants and government employees trained in digital skills and knowledge areas supported under the project; 2000 individuals utilizing advanced digital skills to secure new employment opportunities or receive promotions or additional responsibilities as a result of training received under the project; 1500 new rural schools connected to broadband; 15,000 individuals trained through digital 4.0 programs (basic and advanced); 10,000 women that completed digital skills training programs (basic and advanced); 1000 women utilizing advanced digital skills to secure new employment opportunities or receive promotions or additional responsibilities as a result of training received under the project; 150,000 people provided with new or enhanced access to broadband Internet.

Second Habitat and Urban Land Project (FY23 | P178334): The proposed Project’s Development Objectives are to (i) promote formal and planned urban growth in selected cities; (ii) improve living conditions for households in selected precarious urban settlements; and (iii) respond effectively in case of an eligible crisis or emergency.

Argentina Public Administration Governance 24% N 150.0 150.0 100% 0.0 0.0 N ☑ 4000 plots in urban areas provided with access to improved water sources under the Project; 3000 civil servants and government employees trained in digital skills and knowledge areas supported under the project; 123,000 people with reduced flood exposure as a result of project interventions; 28.8 linear kilometers of the Left Bank collector completed.

Improving Inclusion in Secondary and Higher Education (FY19 | P168911): The objectives of the Operation are to (i) reduce dropout rates in basic and higher education among the most vulnerable; and (ii) strengthen the Borrower’s education evaluation systems.

Argentina Education Education 9% N 641.0 300.0 9% 345.0 158.0 N ☑ 5% of average dropout rate of ASISTIRE (an early dropout prevention program) schools in selected provinces; 17% of persistence in the first two years of higher education for the most vulnerable youth; Academic certification system for basic education scholars implemented; 3 large-scale primary/secondary learning assessments completed.

Clean Energy for Vulnerable Households and Communities Project (FY23 | P178553): The objective of the Project is to increase energy access and energy efficiency in vulnerable households and communities and to respond promptly and effectively in case of an Eligible Crisis or Emergency.

Argentina Water, Sanitation and Waste Management Water / Sanitation 80% N 200.0 200.0 100% 0.0 0.0 N ☑ 332,000 people provided with new or improved electricity service; 5,000,000,000 mega joules (MJ) projected energy in fuel savings; 12,000 people provided with increased energy efficiency; 10,170,000,000 mega joules (MJ) projected energy or fuel savings; 45,700 people provided with new or improved energy access through mini grids; 500 people provided with new or improved energy access through solar PV systems; 24,300 people provided with new or improved energy access through solar thermal systems; 10,000 people provided with access to energy for productive uses; 10,400 metric tons/year greenhouse gas (GHG) emissions.

Program for Effective Universal Health Coverage and National Health System Integration (FY23 | P178586): To support improvements in (a) the equitable and effective coverage of public health services, and (b) the efficiency of the health system.

Argentina Health Health 12% N 300.0 200.0 10% 0.0 0.0 N ☑ 686,110 population with outpatient mental health visits to primary healthcare; 3,000 survivors of gender-based violence (GBV) with public health coverage that receive healthcare services for Gender-Based Violence; 1,500 primary healthcare facility certified as a facility committed to quality, which includes climate standards; 34 Mamography Centers certified with a quality label in breast cancer diagnostics; 60% of funds transferred by Provincial Ministries of Health (MSP) to healthcare providers to strategically purchase an essential health service package.

Matanzas-Rachuelo Basin Sustainable Development Project (FY19 | P205680): The overall development objective of the proposed APL project is to increase energy access and energy efficiency in vulnerable households and communities and to respond promptly and effectively in case of an Eligible Crisis or Emergency.

Argentina Water, Sanitation and Waste Management Water / Sanitation CC8 not available / project approved before FY21 N 122.0 0.0 77% 115.0 143.0 N ☑ 376,432,000 cubic meters of annual discharge of sewage adequately treated downstream of the Rachuelo System; 12,437 tons per year of COD pollution load reduction achieved under the project; 38.8 km of kilometers of the Left Bank collector completed; 12.6 km of kilometers of the Rachuelo outfall completed.

</table>
| 35 | Argentina Renewable Energy for Rural Areas Project (FY15 | P132326): The project's development objective is to provide and enhance access to modern energy services in selected rural areas of Argentina. | 40 | Argentina | Energy and Extractives | Power | 100% | N | 240.4 | 0.0 | 82% | 91.0 | 27.7 | N | 1,037 electricity connection points constructed.  
• 1,000 people that obtain a daily and constant electricity service (through mini-grids).  
• 150,133 project beneficiaries that obtained enhanced access (daily hours and quality of service) to modern energy services (electricity, water pumping, productive uses, solar thermal applications).  
• 6.64 MW of generation capacity of hydro power constructed or rehabilitated.  
• 88,200 people that obtained access to modern water heating systems.  
• 14.75 MW of generation capacity of renewable energy (other than hydropower) constructed. |
| 36 | AF Flood Risk Management Support Project for the City of Buenos Aires (FY16 | P145686): Strengthen the Autonomous City of Buenos Aires to efficiently manage flood risk and improve the drainage systems in the Chideno Basin in Malabrado Basin, and Vega Basin. | 29 | Argentina | Water, Sanitation and Waste Management | Water / Sanitation | 100% | N | 200.0 | 0.0 | 61% | 178.0 | 14.0 | N | 2,400,000 project beneficiaries, 20,205 of which belong to vulnerable population.  
• Increase by 60% in the drainage capacity in the targeted areas from infrastructure out of place.  
• 1,680 km protected from flooding after rainfall events with an intensity. |
| 37 | Metropolitan Buenos Aires Urban Transformation Project (FY17 | P159843): The Development Objectives are to improve housing conditions and access to selected basic services and infrastructure in selected disadvantaged neighborhoods in the Buenos Aires Metropolitan Area (AMBDA), and strengthen the institutional capacity for urban management at the metropolitan level. | 25 | Argentina | Industry, Trade and Services | Affordable Housing | 19% | N | 300.0 | 0.0 | 82% | 181.5 | 26.0 | N | 5,490 people provided with improved housing,  
• Metropolitan Information System (AMBDA-DATA) developed and operational.  
• 68,700 people provided with improved access to selected basic services. |
| 38 | Integrated Habitat and Housing Project (FY17 | P159809): The proposed Project’s development objectives are to: (i) increase access to formal housing for eligible households; and (ii) improve living conditions for households in selected precarious urban settlements. | 40 | Argentina | Public Administration | Governance | 19% | N | 200.0 | 0.0 | 97% | 101.2 | 28.7 | N | 17,000 eligible households with access to formal housing.  
• 10,000 households with improved living conditions in precarious urban settlements, 5,100 of which are female.  
• 75,000 project beneficiaries, 51% of which are female.  
• 4,000 housing subsidies allocated to female headed households.  
• 17,300 people in urban areas provided with access to improved water sources.  
• 4,200 urban people provided with access to improved sanitation facilities.  
• 11.30 km of roads constructed or rehabilitated. |
| 39 | Salado Integrated River Basin Management Support Project (FY17 | P201790): The Project Development Objective is to (a) enhance flood protection and strengthen the capacity of the institutions responsible for integrated water sources monitoring and management in the Salado River Basin; and (b) support improved living conditions for Selected Beneficiaries in the Province of Buenos Aires as part of the COVID-19 pandemic recovery. | 34 | Argentina | Water, Sanitation and Waste Management | Water / Sanitation | 98% | N | 300.0 | 0.0 | 80% | 129.0 | 11.0 | N | 75,000 people benefiting from reduced flood risk.  
• 635 km under enhanced flood protection  
• 54 km of river channel enhanced.  
• 97 hydroelectric stations installed and operational. |
| 40 | Integrated Risk Management in the Rural Agroindustrial System (FY18 | P202166): The objective of this project is to improve the management of agricultural risks by eligible beneficiaries and selected public institutions. | 40 | Argentina | Agriculture, Fishing and Forestry | Food security and sustainable food systems | 78% | N | 150.0 | 0.0 | 80% | 31.2 | 13.6 | N | 9,000 additional users accessing new and/or improved agricultural risk information systems.  
• 12,000 farmers with access to improved infrastructure for agricultural risk mitigation and natural resources management, 2,480 of which are female.  
• 5,300 farmers adopting improved agricultural technology, 1,060 of which are female.  
• 6,300 farmers covered under an improved agricultural emergency mechanism, 1,470 of which are female. |
| 41 | Supporting Effective Universal Health Coverage in Argentina (FY18 | P203545): The Development Objective of the proposed Project would be: (i) increase effective and equitable coverage of key health services provided to the eligible population; and (ii) increase the institutional capacity of the MNS and MSHPs to implement mechanisms for an integrated delivery system. | 39 | Argentina | Health | Health | 0% | N | 500.0 | 0.0 | 69% | 438.6 | 30.3 | N | 12.3% increase in eligible population with effective health coverage.  
• 13% increase in eligible population enrolled and assigned to a health facility, for continuous care ("empaneled").  
• 10.3% increase in eligible pregnant women with early antenatal care.  
• 40% increase in health facilities with service delivery capacity strengthened for key lines of care, through medical equipment provision. |
| 42 | Buenos Aires Water Supply and Sanitation with a Focus on Vulnerable Areas Program (FY17 | P132368): The Program Development Objectives are to increase access to safely managed water and sanitation services with a focus on vulnerable areas of Buenos Aires, and improve AySA's efficiency and capacity to respond to water and sanitation emergency needs. | 39 | Argentina | Water, Sanitation and Waste Management | Water / Sanitation | 49% | N | 300.0 | 0.0 | 52% | 73.9 | 58.1 | N | 15,000 households gaining access to safely managed water services (equivalent to 14,000 beneficiaries).  
• 76,199 households gaining access to safely managed sanitation services (equivalent to 105,000 beneficiaries).  
• 2,426 of emergency response mechanisms strengthened.  
• 2,426 of emergency response mechanisms strengthened.  
• 410 km of water supply pipes replaced. |
| 43 | Digital Inclusion and Innovation in Public Services in Argentina (FY17 | P132484): To improve the efficiency of and access to selected digital administrative services. | 39 | Argentina | Information and Communications Technologies | Access to technology | 9% | N | 80.0 | 0.0 | 56% | 21.7 | 17.5 | N | 12,000,000 users registered on the argentina.gob.ar portal with a Citizen Digital profile.  
• 779 digital service centers at the subnational level.  
• 200 government digital procedures with reduced resolution times.  
• 500,000 visitors to digital service centers located in vulnerable or remote areas.  
• 500,000 persons trained in gender-focused activities, both implemented as part of the Open Government National Action Plan and in digital service centers.  
• 10 services that are specifically targeted to, and consider, women's specific needs. |

52. Armenia Education: Education Project (FY16 | P146199): The proposed project development objective (PDO) is to improve the quality of education and to increase access to education at all levels. The project aims to increase the number of students enrolled in primary and secondary education, improve the quality of education, and enhance institutional capacity.

53. Armenia Energy and Extractives: Electricity Transmission Network Improvement Project (FY12 | P146199): The proposed project development objective (PDO) is to improve the reliability of the power transmission network and to reduce power losses. The project aims to upgrade and expand the transmission network to increase the country's energy connectivity and security.

54. Armenia Industry, Trade and Services: Trade Promotion and Quality Infrastructure Project (FY13 | P146199): The proposed project development objective (PDO) is to strengthen the government's capacity to promote trade and investment, attract and retain quality management services, and support export-oriented industries.

55. Armenia Social Protection: Social Protection and Local Development Project (FY15 | P144700): The proposed project development objective (PDO) is to improve vulnerable people's access to social protection services. The project aims to increase the coverage and quality of social assistance programs and to strengthen institutional capacity.

56. Armenia Health, Public Administration: Local Economy and Infrastructure Development Project (FY16 | P150327): The proposed project development objective (PDO) is to improve infrastructure services and institutional capacity for increased tourism contribution to local economy in selected regions of Armenia. The project aims to upgrade and expand the infrastructure in selected regions to attract more tourists.

57. Armenia Public Administration: Fourth Public Sector Modernization Project (FY22 | P174379): The proposed project development objective (PDO) is to improve the efficiency and access to selected public services for businesses and citizens. The project aims to streamline public service delivery and improve the quality and efficiency of public service delivery.

58. Azerbaijan Public Administration: Judicial Services and Small Infrastructure Project (FY12 | P144170): The proposed project development objective (PDO) is to improve the access, transparency, and efficiency of delivery of selected justice services. The project aims to improve the institutional capacity of the judiciary and to increase access to justice services.

59. Azerbaijan Social Protection: Employment Support Project (FY20 | P171200): The proposed project development objective (PDO) is to improve the reach of social protection services and to increase the access of vulnerable people to employment. The project aims to increase social protection benefits and to support employment programs.

60. Azerbaijan Transportation: Regional Connectivity and Development Project (FY21 | P174279): The proposed project development objective (PDO) is to improve transportation infrastructure and to increase market accessibility. The project aims to upgrade and expand the transportation network to connect remote areas and to support economic development.

61. Barbados Public Administration: Barbados Green and Resilient Recovery DFL (FY22 | P179112): The proposed project development objective (PDO) is to promote low-carbon economic development and resilience to the deepening global climate change. The project aims to increase the use of renewable energy and to support climate resilience initiatives.

Information

Brazil | 27 States where at least 80 percent of vulnerable schools have implemented the New Curriculum.
5% increase in the Basic Education Development Index (IDEB) in targeted Full-time Schools.
27 States where the average absolute gender gap of enrollment in formative itineraries is less than 5%.
1,400,000 students benefiting from direct interventions to enhance learning.

IBRD Major
4,000 Unified Health System hospital beds available to treat COVID19 patients during the peak of the pandemic.
33% reduction in the amount of non-revenue water reduced annually.
2 million m3 of wastewater removed from the Guarapiranga basin sent to treatment annually.
350 km of water distribution mains rehabilitated.

27,500 People benefited by the mitigation of geological and geotechnical risks in selected areas.
22,500 Sq. M. Area with absence and/or impairment of drainage network recovered;
2,500 meter Extension of water supply network replaced and/or supplemented;
6,771,527 Minutes Reduction in total time spent by women in their daily commute;
20,000 People provided with improved urban living conditions;
200 households with water reuse systems implemented for agricultural production.
390 subprojects for strengthening organizations for enhanced market access and enabling sustainability.
13,000 farmers reached with agricultural assets or services.
13,000 farmers adopting improved agricultural technology.
7,000 farmers benefiting from interventions to improve market access and enabling sustainability.
5,250 household sanitary kit implemented.
400 beneficiaries’ organizations strengthening existing market and/or accessing new marketing channels.
4,000 United Health System hospital beds available to treat COVID19 patients during the peak of the pandemic in the state.
6 Small hospitals converted into Multi-professional Care Units.
5 Integrated Health Information System operating.
Environmental monitoring, monitoring and control environment: systems updated and available for environmental officers.
4 air monitoring stations, 15 hydrological monitoring stations and 94 piezometers installed and operational.
80% of courtiers disputes system awareness of hydrological events.
Public Investment Management System deployed in support of post COVID economic recovery.

Improving Mobility and Urban Inclusion in the Amazonas Corridor in Belo Horizonte (FY20 | P167455): The Project Development Objective (PDO) is to improve the quality of service and accessibility to opportunities for public transport users in the area of influence of the Amazonas Express; and (ii) the urban living conditions of the poor in selected areas and rural settlements.

127. Forest Ecosystem Improvement in the Upper Reaches of Yangtze River Basin Program (FY22 | P246467): To improve sustainable forest ecosystem management in support of Large-Scale Greening Sichuan Program.

- 75% of pilot subnational governments have increased local tax collection by at least 10%.
- 120,000 Ha Area under 3S (safe, sustainable smart) GAP (Good Agricultural Practices) production.

128. Huble Smart and Sustainable Agriculture Project (FY20 | P218061): The PDO is to promote integrated environmentally sustainable and climate-smart agriculture, and agri-food quality and safety, in 111 global value chains and landscapes in Huble Province.

- Food security and sustainable food systems.

129. Human Subnational Governance and Rural Public Service Delivery Program for Results (FY21 | P217256): To enhance financing mechanisms for more equitable and efficient public service delivery of rural roads maintenance and compulsory education in the pilot counties and scale up selected practices across Hubei Province.

- Education: Transportation
- Transport

130. China Plastic Waste Reduction Project (FY21 | P174267): The project development objective is to improve plastic waste management at the national and sub-national level, and to reduce plastic pollution from municipal solid waste.

- Water, Sanitation and Waste Management
- Water / Sanitation

131. Colombia Green and Resilient COP (FY23 | P180333): The development objective is to accelerate climate action by (i) advancing the low-carbon energy transition; (ii) promoting sustainable land use; and (iii) building resilience and adaptation to climate change.

- Colombia Public Administration
- Governance

132. Equitable and Green Path Development Policy Financing (FY23 | P280566): The development objective of the proposed operation is to support measures that promote (i) more equitable and green fiscal policies; (ii) productive and social inclusion for vulnerable groups; and (iii) inclusive and green private sector development.

- Colombia Public Administration
- Governance

133. Subnational Institutional Strengthening (FY14 | P132875): The objectives of the project are to (i) improve SIGs’ performance in core public management areas; and (ii) strengthen the Borrower’s central government’s capacity to manage the Decentralization and Territorial Management Framework.

- Colombia Public Administration
- Governance
134 [http://projects.worldbank.org/P177786/null]
Enhancing Waterway Connectivity and Water Service Provision in Colombia's Pacific Coast (FY22-23): The Project Development Objective (PDO) is to improve: (i) waterway transport; (ii) coverage and quality of water supply and sanitation services; and (iii) productivity of the agro-industry.

135 [http://projects.worldbank.org/P177468/null]
• 35,000 hectares (Ha) area under sustainable and resilient agriculture practices
• 13.3% increase in women with breast cancer detected in early stage.

136 [http://projects.worldbank.org/P176650/null]
IBRD Major
• 1,500,000 hectares within project municipalities with cadastral and property information updated.
• Hectares affected by deforestation reduced to 100,000.
• 30% Cumulative percentage of physical works for rail yard; 40% of the National Cadastre System redesigned and in operation.

137 [http://projects.worldbank.org/P176905/null]
Support to the Bogota Metro Link 1 Section 3 Project (Series 1) (FY23 | P177468): The Development Objective of the Program is to establish the multipurpose cadaster in the selected municipalities to: (a) strengthen tenure security, and (b) provide access to cadastre information.

138 [http://projects.worldbank.org/P176908/null]
• 350,000 beneficiaries that have access to infrastructures (built and/or rehabilitated by the project)
• 35% of MSMEs reporting an increase in profit of 20% or more from grants supported by the project.

139 [http://projects.worldbank.org/P177655/null]
• 1,176,000 hectares (Ha) land area under sustainable landscape management practices
• 15% of non-oil domestic revenue as a percentage of non-oil GDP, from a baseline of 20%

140 [http://projects.worldbank.org/P177786/null]
• 32 subnational health entities that report public health risk maps for dengue and/or malaria, and 75% of public contracts awarded through competitive processes, from a baseline of 45%

* 95.4% of children under 5 years of age provided with a basic package of nutrition specific services.
* 70% of adolescents served or reached with quality sexual and reproductive health services.
* 80% of health facilities that meet a minimum standard of quality as measured by the Health Facility Quality Index.
* 60% of pregnant women receiving at least 4 Antenatal Care visits that meet defined quality standards.
* 107,882 people who have received essential health, nutrition, and population services.

186. Strengthening Early Childhood Development and Basic Education Systems to Support Human Capital Development in Eswatini Project (FY22 | P173151): To strengthen education service delivery and management systems in the early years and junior secondary education

30. Eswatini Education Education 4% N 27.4 0.0 85% 0.1 0.1 N

* 58,303 students benefiting from school interventions to enhance learning.
* 800 grade 1 – 3 teachers trained and supported in the delivery of the early grade reading and mathematics program.
* 36% of junior secondary schools applying technology-based mathematics and science education in targeted areas (the total number of junior secondary schools was 275 in the 2018 Education Management Information System).
* Developed learning assessment systems and completed at least one measurement of each of the following: (a) child development outcomes and (b) early grade reading and mathematics outcomes in Grades 1-3.

187. Eswatini Covid-19 Emergency Response Project (FY20 | P173883): The Program Development Objective is to prevent, detect and respond to the threat posed by COVID-19 and strengthen national systems for public health preparedness in Eswatini.

35. Eswatini Health Health 0% N 11.0 0.0 79% 0.3 1.3 N

* 95% of suspected cases reported that are tested according to national guidelines.
* Implementation plan for developing and piloting/testing impact-based multi-hazard early warning systems established.
* Developed learning assessment systems and completed at least one measurement of each of the following: (a) child development outcomes and (b) early grade reading and mathematics outcomes in Grades 1-3.

188. FijI Transport Infrastructure Investment Project (FY15 | P150028): The development objective is to improve the resilience and safety of land and maritime transport infrastructure for users of project roads, bridges, and rural jetties and wharves.

30. Fiji Transportation Transport 100% N 50.0 0.0 10% 37.1 16.7 N

* 100 km of FRA (Fiji Roads Authority) roads constructed to revised standards for resilience and safety.
* Increase by 40km in the length of roads with minimum 3-Star rating for vehicle occupants based on iRAP (International Road Assessment Program) assessments.
* 325,000 people at a reduced risk of bridge failures.
* 13% decrease in the number of rural jetties/wharves requiring high priority attention (equivalent to 40 jetties/wharves).

189. Fiji Recovery and Resilience Second Development Policy Operation (FY22 | P175412): The development objective is to: (i) promote private sector-led economic recovery; (ii) enhance climate, disaster and social resilience; and (iii) strengthen debt, public financial and fiscal management.

23. Fiji Public Administration Governance 29% N 50.0 0.0 50% 50.0 50.0 Y

* US$27.9 million of foreign investment commitments.
* 6 jetties/wharves).
* 38,233 People provided with access to improved sanitation services;
* 8,000 People provided with access to improved sanitation services;
* 32 Schools provided with improved water access;
* 4 Health centers provided with improved water access;
* 30 km Length of water pipeline constructed;
* Develop and implement a drought monitoring and early warning system;
* 2,000 Household containment facilities constructed (for Improved sanitation access);
* 32 Sanitation facilities constructed in schools;
* 4 Sanitation facilities constructed in health centers;
* 2,800 Girls who benefited from having school sanitation with adequate handwashing facilities;

* 25% increase in households using electricity services in targeted areas.
* Annual power outages in HV/MV network at Hluthu and Ngunyane decreased to 736.
* 87 km of transmission lines constructed.
* 134,932 people provided with new or improved electricity services.
* 4 transmission substations constructed or expanded.
* 20 distribution feeders or lines constructed or rehabilitated.
* Technical losses in targeted areas reduced by 2%.

210 - Regional Development Project (FY17 | P164963): The Project Development Objective is to improve infrastructure services and institutional capacity to support increased tourism in the local economy of the Sameba-Saburtalo and Mshveta-Mtkvari regions.

- 30% Enterprises whose sales increase at and around improved tourism sites;
- 45,000 beneficiaries of State Employment Support Agency Active Labor Market Programs.

211 - Georgia Q2: Innovation, Inclusion and Quality (FY19 | P188444): The project development objectives are to (i) expand access to preschool education and (ii) improve the quality of education and learning environments.

- 3 National strategic tourism plans under implementation;
- 30% Enterprises whose sales increase at and around improved tourism sites;
- 45,000 beneficiaries of State Employment Support Agency Active Labor Market Programs.

212 - Energy Supply Reliability and Financial Recovery (FY19 | P189117): The objectives of the Project are to improve electricity supply reliability in the western part of Georgia, achieve the financial viability of GSE, and help it access long-term commercial financing.

- 45% of 5 to 6-year-old children enrolled in School Readiness Programs.
- 116,000 beneficiary students with access to improved learning environments in project-supported schools.
- 265,047 students benefiting from direct interventions to enhance learning.
- 3 large-scale primary/secondary learning environments completed.
- 62 rehabilitated general education schools.

213 - Log-in Georgia (FY21 | P169698): To increase access to affordable broadband and internet, and to promote its use by individuals and enterprises in selected rural settlements.

- 45% of the population in the poorest quintile who are receiving the COVID-19 pandemic related social assistance programs.
- 70,000 vulnerable households receiving temporary cash benefit.
- 2,000 COVID-19 patients treated per Social Services Agency reimbursement guidelines.

214 - Kakheti Connectivity Improvement Project (FY12 | P173972): The Project Development Objective (PDO) is to improve the accessibility and safety of road transportation in the Kakheti region along the Sagarejo-Badiauri section of the Tbilisi-Bakurtsikhe-Lagodekhi highway.

- 4 designated public hospitals with isolation capacity.
- 4 designated public hospitals with fully equipped and functional ICUs for COVID-19 patients.
- 70,000 vulnerable households receiving temporary cash benefit.

215 - Georgia Emergency Covid-19 Response Project (FY19 | P173911): The project development objective is to prevent, detect, and respond to the threat posed by the COVID-19 pandemic and strengthen national systems for public health preparedness in Georgia.

- 45% of the population in the poorest quintile who are receiving the COVID-19 pandemic related social assistance programs.
- 70,000 vulnerable households receiving temporary cash benefit.

216 - Georgia Relief and Recovery for Micro, Small, and Medium Enterprises (FY18 | P173973): The Project Development Objective (PDO) is to provide credit to micro, small, and medium-size enterprises and support their recovery, including by strengthening the enabling environment for access to finance.

- 70,000 vulnerable households receiving temporary cash benefit.
- 4 designated laboratories with COVID-19 diagnostic equipment, test kits, and reagents per MoILHSA guidelines.

217 - Georgia Human Capital Program (FY22 | P174005): To make the human capital delivery system in Georgia more efficient and inclusive.

- 4 designated public hospitals with fully equipped and functional ICUs for COVID-19 patients.
- 4 designated public hospitals with isolation capacity.

218 - OECD Regional Tourism Competitiveness (FY17 | P152317): The project development objective is to increase income at and around improved tourism sites, and strengthen institutional capacity to support the regional recovery from COVID-19.

- 15% Increase in tourism spending at and around improved tourism sites;
- 30% Increase in income at and around improved tourism sites, and strengthen institutional capacity to support the regional recovery from COVID-19.

---

**Projected/Achieved Results:**

- **Social Protection**
  - Social inclusion for the disadvantaged: 0% N 60.0 0.0 80% 47.6 44.0 N
  - 301,187 increase in annual number of visitors.
  - 17,063 jobs created by activities linked to support tourism industry.
  - 1,280 people in urban areas provided with access to all season roads within a 500 meter range.
  - Increase by 150 hours per day of piped water services.
  - 333,001 project beneficiaries.
  - 13 additional tourism-related enterprises.
  - 820 piped household water connections that are benefiting from rehabilitation works.
  - 140 houses restored and 760 street lighting posts and bulbs replaced.

- **Health Care**
  - Annual out-of-pocket spending on health care that is allocated to medicines decreased to 40%.
  - Decreased to zero the number of end-user outages caused by failures of 500 kV OHLs in the western part of Georgia.
  - Average annual duration of end-user outages decreased to 0 minutes in the western part of Georgia.
  - Georgia State Electrosystem rehabilitation regime ended.
  - $10,100,000 of long-term commercial financing mobilized.

- **Telecommunication**
  - 300,000 people provided with broadband internet coverage.
  - 50% reduction in unit price of broadband in connected rural settlements.
  - 5,000 km of fiber optic network cable deployed.

- **Roads and Transportation**
  - 17,623 jobs created by activities linked to support tourism industry.
  - 600 schools that meet minimum quality standards.
  - 50% of individuals and enterprises in connected rural settlements using the Internet for specific purposes.
  - 5,000 km of fiber optic network cable deployed.

- **Electricity**
  - 300,000 people provided with broadband internet coverage.
  - 50% reduction in unit price of broadband in connected rural settlements.
  - 5,000 km of fiber optic network cable deployed.

- **Education**
  - Average Annual Daily Traffic of 1,275 freight vehicles on the corridor.
  - 820 piped household water connections that are benefiting from rehabilitation works.
  - 1,280 people in urban areas provided with access to all-season roads within a 500 meter range.
  - 17,623 jobs created by activities linked to support tourism industry.
  - 600 schools that meet minimum quality standards.

- **Financial Sector**
  - 265,647 students benefiting from direct interventions to enhance learning.
  - 300,000 people provided with broadband internet coverage.
  - 300,000 people provided with broadband internet coverage.
  - 300,000 people provided with broadband internet coverage.

- **Information and Communications Technology**
  - National average student teacher ratio in public schools increased to 12.
  - 600 schools that meet minimum quality standards.
  - 50% of individuals and enterprises in connected rural settlements using the Internet for specific purposes.
  - 5,000 km of fiber optic network cable deployed.

- **Governance**
  - 45% of the population in the poorest quintile who are receiving the COVID-19 pandemic related social assistance programs.
  - 70,000 vulnerable households receiving temporary cash benefit.
  - 4 designated laboratories with COVID-19 diagnostic equipment, test kits, and reagents per MoILHSA guidelines.

- **Climate Change**
  - 70,000 vulnerable households receiving temporary cash benefit.
  - 4 designated laboratories with COVID-19 diagnostic equipment, test kits, and reagents per MoILHSA guidelines.
  - 70,000 vulnerable households receiving temporary cash benefit.

- **Social Protection**
  - 70,000 vulnerable households receiving temporary cash benefit.

### Project Name (Number | Year/s Loans Approved) and Description

- **Innovative Startups Fund Project (FY17 | P101505):** The project's development objectives is to increase private early stage equity finance for innovative small and medium enterprises (" SMEs ") in Jordan.
- **Jordan Education Reform Support Program (FY18 | P164247):** The Program is to expand access to early childhood education, and to introduce student assessment and health and learning conditions for Jordanian children and Syrian refugee children.
- **Jordan Emergency Health Project (FY17 | P101638):** The Project development objective (PDO) is to support the Government of Jordan in maintaining the delivery of primary and secondary health services to poor uninsured Jordanians and Syrian refugees at Ministry of Health facilities.
- **Jordan Youth, Technology, and Jobs Project (FY20 | P100690):** Improve digitally-enabled income opportunities and expand digital government services in Jordan.
- **Jordan Covid-19 Emergency Response (FY20 | P179072):** The Project Development Objective is to prevent, detect and respond to the threat posed by COVID-19 and strengthen the national health system for public health preparedness.
- **Jordan Emergency Cash Transfer Covid-19 Response Project (FY20 | P179074):** The project development objective is to provide cash support to poor and vulnerable households and workers affected by the COVID-19 pandemic in Jordan.
- **Jordan Support to Private Sector Employment and Skills (FY22 | P177094):** To increase private sector employment post COVID-19 with emphasis on youth and women.
- **Jordan Support for Industry Development Fund (FY22 | P178120):** To promote investments and exports by project beneficiary firms in the manufacturing sector and to operationalize the Industry Development Fund.
- **Second Irrigation and Drainage Improvement Project (FY13 | P108390):** The Project development objective is to improve irrigation and drainage service delivery to support farmers in the Project area. It's will be achieved through rehabilitation and modernization of irrigation and drainage systems; improved management, operation and maintenance of these systems; and more efficient use of associated irrigated lands; all with improved participation of users in developing and managing the rehabilitated / modernized systems.

• 715 tourism HMEs that are established or transformed in line with NEC pathway for development through Society of Tourism Engineering’s incubator program in targeted areas.  
• 14 aquaculture farms established and operational in targeted areas.  
• 78,270 ha of marine and coastal areas under climate resilient and sustainable integrated management in targeted areas.  

Improving Early Childhood Development outcomes in rural Morocco (FY21 | P173776): Improve access to selected quality ECD services in rural areas of Morocco and establish mechanisms to strengthen monitoring, evaluation and coordination of ECD services.  

36 Morocco Education Education 14% N 450.0 0.0 87% 220.7 111.1 N  
• 40,000 beneficiaries receiving at least one health or nutrition service offered by the community-based health and nutrition model.  
• 116,000 children aged 4-6 enrolled in preschool units in Rural Areas, that are equipped and operational according to the Early Childhood Education Quality Standards.  
• 18,000 children enrolled in new preschool units whose early learning outcomes are measured each semester.  
• 2,200 preschool units created in the Rural Areas, that are equipped and operational according to the Early Childhood Education Quality Standards.  
• 2,200 preschool educators recruited and trained on appropriate pedagogical practices, as per the Early Childhood Education Quality Standards.  

Resilient and Sustainable Water in Agriculture (FY22 | P175747): The project development objectives (POD) are to: (i) enhance the governance of water in agriculture; (ii) improve quality of irrigation services; (iii) increase access to advisory services and to resilient on-farm irrigation technologies in the Project Areas.  

30 Morocco Agriculture, Fishing and Forestry Food security and sustainable food systems 93% Y 180.0 0.0 100% 0.0 0.0 N  
• 32,463 ha provided with new/Improved irrigation or drainage services.  
• 16,460 beneficiaries from modernization of irrigation services.  
• 33,570 farmers reached with agricultural assets or services.
407 [Link to More Information](http://projects.worldbank.org/P170343/null) Project Name (Number | Year/s Loans Approved) and Description: Power Sector Recovery Performance Based Operation (FY20 | P164001): The objectives of the Operation are to improve the reliability of electricity supply, achieve financial and fiscal sustainability, and enhance accountability.

408 Building Effective, Transparent and Accountable Public Financial Management Institutions Project (FY25 | P176366): To improve the efficiency, transparency and sustainability of public expenditure and increase the effectiveness of revenue administration.

409 Road Upgrading and Development Project (FY16 | P149955): The Project Development Objectives are to improve transport connectivity for road users along Corridor VIII between Skopje and Develi, and to improve the asset management and planning functions of Public Enterprise for State Roads.

410 North Macedonia Public Sector Energy Efficiency Project (FY18 | P168014): The Project Development Objectives are to: (i) reduce energy consumption in the public sector; and (ii) support the development and implementation of a sustainable financing mechanism for energy efficiency in the public sector.

411 Western Balkans Trade and Transport Facilitation (FY18 | P168014): The Project Development Objectives are to: (i) reduce the trade costs and increase transport efficiency in Albania, North Macedonia, and Serbia; and (ii) improve transport connectivity to the rest of Europe.

412 Social Services Improvement Project (FY19 | P192246): To expand access to and improve the quality of social services, including preschool services, for vulnerable groups.

413 Agriculture Modernization Project (FY21 | P170164): Improve competitiveness in targeted agricultural sub-sectors and strengthen agricultural public sector readiness for EU accession.

414 North Macedonia: Local Roads Connectivity Project (FY21 | P170168): The project development objectives are: 1) to improve government capacity to manage local roads and increase access to markets and services; and 2) to provide immediate and effective response to an eligible crisis or emergency.

415 Social Insurance Administration Project (FY19 | P170142): Improves the quality of services in administering social insurance and strengthens the regulatory framework for people with disabilities and hazardous occupations.

416 Planned/Achieved Results:

- 3% decrease in General government arrears as a percent of total general government expenditures.
- 100 Roma employed in project works of whom 40% are Roma women.
- 450 km of roads rehabilitated.
- National policy adopted for local roads.
- 4 Centers for professional rehabilitation of persons with disabilities developed.
- 101 buildings renovated with energy performance certificates of class C or higher.
- 69,997 metric tons of associated PM emission reductions.
- 10,000 ha of leased agriculture land recorded in the project-supported state agriculture land management information system.
- 46% of preschools with improved process quality as measured by the quality assessment tool.
- 600 firms benefit from reformed customs/border services.
- Average time to import and export decreased, respectively, to 27 hours and 25 hours.
- Cost to export and import decreased, respectively, to US$ 261 and to US$ 338.
- 96,892 direct project beneficiaries.

---

World Bank (IBRD) Sustainable Development Bonds (SDB) | FY23 Impact Report | Projects Tables

# Link to More Information

• 175,000 farmers reached with agricultural assets or services.

Projected/Achieved Results

• 2,160 MW of generation capacity of hydropower constructed.

Country

• 2,820 MW of generation capacity of hydropower constructed or rehabilitated.

IBRD Major

• 2,000,000 persons provided with access to drinking water uncontaminated by fecal coliforms.

http://projects.worldbank.org/P162446/null

• Renewable energy generation increased to 1,100 GWh.

http://projects.worldbank.org/P160626/null

• US$ 185,000,000 mobilized of commercial financing.

http://projects.worldbank.org/P164704/null

• 400,000 ha under high value agriculture.

http://projects.worldbank.org/P166572/null

• 165,000 farmers adopting climate-smart agriculture packages.

• 4,825 GWh of energy supply.

http://projects.worldbank.org/P161402/null

• 240 beneficiaries reached with financial services.

http://projects.worldbank.org/P163461/null

• Enhanced school improvement plans that use performance data and monitoring tools for improving student learning.

• 131 km of transmission lines constructed or rehabilitated.

• 2,630 MW of generation capacity of hydropower constructed or rehabilitated.

• 255 MW of generation capacity of energy constructed or rehabilitated (of which 245 MW hydropower generation capacity).

- 70% of districts achieving minimum standards for Disaster Risk Reduction.  
- 50% of operational budget expenditure processed through a procurement.  
- 50 services provided to citizens and firms online, through a single identity platform. |
| 428 | http://projects.worldbank.org/P170303/null |Solid Waste Emergency and Efficiency Project (FY21 | 2021-2023) | Pakistan | Water, Sanitation and Waste Management | Water / Sanitation | 80% | Y | 100.0 | 0.0 | 55% | 3.7 | 2.1 | N | - 100,000 people with reduced exposure to flood risk and pathogens, including COVID-19 through cleanup of drainage channels.  
- 50,000 residents with improved urban living conditions due to better SWM services.  
- 5,000 metric tons of solid waste collected and safely disposed daily.  
- 1,000 SWM workers provided PPE and training to mitigate COVID-19 transmission risks.  
- 5,000,000 tons of available capacity for safe disposal of solid waste collected from the population of Karachi.  
- 75% female workers, in the formal and informal sectors, provided with stable and sustainable opportunities for paid work or skills development training. |
| 429 | http://projects.worldbank.org/P170521/null | Support to Panama PPP Program Development for Recovery Project (FY21 | 2021-2025) | Panama | Transportation | Transport | 12% | N | 7.5 | 7.5 | 100% | 0.0 | 0.0 | N | - 20 staff trained in planning, instruments for infrastructure and service provision;  
- 55 staff trained in preparing and executing PPP projects in line with the new operational Guidelines;  
- 20 of which are women;  
- 70% of beneficiaries consulted - disaggregated by gender and ethnicity who report their feedback has been reflected in the Projects activities and outputs. |
| 430 | http://projects.worldbank.org/P170511/null |Panama Climate Resilience and Green Growth DPL (FY21 | 2021-2025) | Panama | Energy and Extractives | Power | 66% | N | 150.0 | 150.0 | 100% | 0.0 | 0.0 | N | - 17 charging stations per 10 km of the primary and secondary road network;  
- 55 electric buses acquired; under procurement by the Panama City public operator;  
- 124,000 air conditioners with improved Minimum Energy Performance Standards (MEPS);  
- 117,000 refrigerators with improved Minimum Energy Performance Standards (MEPS);  
- 50 Conservatorias Colonias (flood towns) with implemented energy access interventions;  
- 50,000 female-headed households electrified;  
- 200 indigenous women with skills to perform installation and maintenance tasks of isolated photovoltaic systems in their communities. |
| 431 | http://projects.worldbank.org/P170537/null | Support for the National Indigenous Peoples Development Plan (FY21 | 2021-2026) | Panama | Education, Health, Social Protection, Water, Sanitation and Waste Management | Social inclusion for the disadvantaged | 18% | N | 80.0 | 0.0 | 94% | 11.4 | 6.0 | N | - 83% of water and sanitation systems within beneficiary Indigenous communities reported in the Information System on Rural Water and Sanitation as operational and sustainable.  
- 80% of patients provided treatment in accordance with intercultural care protocols for 4 risk areas within beneficiary areas.  
- 176 schools in Indigenous Territories implementing the new or expanded Intercultural Bilingual Education;  
- Presidential Decree drafted that establishes the National Indigenous People Roundtable as a permanent structure for dialogue and development planning.  
- 2 Indigenous ethnics that have intercultural health protocols established.  
- 4 regulations drafted and consulted for key Indigenous laws.  
- 100 trainings delivered to communities, service providers, and local authorities in water, sanitation, and hygiene.  
- 50,000 beneficiaries from infrastructure investments supported by the Project. |

486 [Project Name (Number | Year | Loan Approved) and Description] First Serbia Green Transition Programmatic Development Policy Loan (FY23 | P177410): The objective of the First Serbia Green Transition Programmatic Development Policy Loan is to support the Government of Serbia’s efforts to: 1) better align fiscal management with the climate change agenda; 2) accelerate the clean energy transition, and 3) align with European Union standards on environment and climate action.

16 Serbia Public Administration Governance 60% N 160.0 160.0 100% 0.0 0.0 N
- 23% increase in customer satisfaction with respect to project management and project delivery.

487 [Project Name (Number | Year | Loan Approved) and Description] Serbia - Real Estate Management Project (FY25 | P147700): To improve the efficiency, transparency, accessibility and reliability of Serbia’s real property management systems.

19 Serbia Information and Communications Technologies Governance 0% N 66.9 66.9 100% 57.2 72.7 N
- Increase by 44% in the average number of days needed to complete recordation of purchased real property and transfer of ownership

488 [Project Name (Number | Year | Loan Approved) and Description] Inclusive Early Childhood Education and Care (FY17 | P171712): The PDO is to improve access to quality Early Childhood Education and Care (ECCE) services, in particular for children from socially disadvantaged backgrounds.

36 Serbia Education Education 0% N 50.0 50.0 100% 27.0 27.0 N
- Increase by 60% in the national preschool enrollment rates for children ages 3 and 5 years
- 779 additional classrooms built or rehabilitated at the preschool level resulting from project interventions
- 1,300 primary school pedagogical staff trained in new preschool curriculum
- 4,500 Family Social Assistance beneficiary children ages 3 to 5 years enrolled in preschool free of charge
- 12,000 additional qualified preschool teachers resulting from project interventions.
489  http://projects.worldbank.org/P173892/null

Tax Administration Modernization Project (FY20 | P170873): To improve effectiveness of tax collection and lower the compliance burden for taxpayers.
20 Serbia Public Administration Governance 0% N 52.0 0.0 100% 6.1 0.0 N + 143% per reduced to 6%.
• Time required to comply with taxes (WB Doing Business Paying Taxes subindicator) reduced to 202.9 hours.
• Increase by 10% in additional net taxes assessed per audit.
• Tax arrears decreased to 40%.

490  http://projects.worldbank.org/P170185/null

Enhancing Infrastructure Efficiency and Sustainability (FY16 | P167960): The Program Development Objective is to improve the management and sustainability of select public infrastructure by strengthening government capacity and systems, upgrading assets, and increasing expenditure efficiency.
25 Serbia Transportation Transport 45% N 116.6 0.0 16% 77.1 5.0 N + 7,000 km of improved pavement conditions of the Serbian National Road Network as measured by (I) International Roughness Index) <2.5.
• 356,000 MWh Projected (life-time energy savings in renovated public buildings);
• 10 renovated buildings that meet Class C (or 2 classes higher) energy performance certificate;
• 4,000 km length of national roads maintained;
• 14,894 km - Completion of road asset survey;
• 1,000 km - Road safety inspection carried out and safety measure implemented;
• 14,280 Tonne CO2e Reduction of associated CO2 emissions from energy saved in renovated buildings;
• 1,080 additional direct project beneficiaries.

491  http://projects.worldbank.org/P167634/null

Enabling Digital Governance Project (FY19 | P164824): To improve access, quality, and efficiency of selected administrative e-Government services.
30 Serbia Information and Communications Technologies Governance 7% N 50.0 0.0 92% 14.0 12.4 N + 720,000 citizens and businesses accessing e-services disaggregated by gender and size of businesses.
• 50% increase in user satisfaction with selected e-services provided.
• 36 services digitized and available online targeted at businesses and citizens.
• 10 entities connected to the Interoperability Platform.

492  http://projects.worldbank.org/P164824/null

Serbia Competitive Agriculture Project (SCP) (FY20 | P170763): Improve agri-food market linkages of targeted beneficiaries.
15 Serbia Industry, Trade and Services Food security and sustainable food systems 42% N 50.0 0.0 100% 28.1 11.0 N + 1,230 new formal contracts signed between beneficiaries and buyers of their products/services.
• 20% increase in the value of beneficiaries’ products.
• 5,300 farmers reached with agricultural assets or services.
• 1,520 beneficiaries reached with financial services.

493  http://projects.worldbank.org/P167634/null

Sava and Drina Rivers Corridors Integrated Development Program (FY21 | P168862): The Objective of the Project (Phase I of the Program) is to improve flood protection and enhance transboundary water cooperation in the Sava and Drina Rivers Corridors.
39 Serbia Water, Sanitation and Waste Management Water / Sanitation 80% Y 153.0 0.0 100% 14.5 1.1 N + 20 km of embankments or dykes constructed or rehabilitated.
• 300,000 tones of freight throughput at the Sava river port of Sremska Mitrovica in Serbia annually.

494  http://projects.worldbank.org/P170185/null

Serbia Accelerating Innovation and Growth Entrepreneurship (FY20 | P170185): The project’s development objective is to improve (i) the relevance and excellence of scientific research, and (ii) innovative online pre-acceleration and access to finance for enterprise growth, as a way of contributing to Serbia’s growth and competitiveness.
15 Serbia Industry, Trade and Services Governance 1% N 48.0 0.0 63% 26.5 17.9 N + 1,100 scientific publications in top 10% of internationally recognized journals annually.
• 1,100 scientific publications in top 10% of internationally recognized journals annually.
• 25,000,000,000 MJ of projected energy or fuel savings.
• 356,000 MWh Projected (life-time energy savings in renovated public buildings);
• 10 renovated buildings that meet Class C (or 2 classes higher) energy performance certificate;
• 4,000 km length of national roads maintained;
• 14,894 km - Completion of road asset survey;
• 1,000 km - Road safety inspection carried out and safety measure implemented;
• 14,280 Tonne CO2e Reduction of associated CO2 emissions from energy saved in renovated buildings;
• 1,080 additional direct project beneficiaries.

495  http://projects.worldbank.org/P170065/null

Serbia Railway Sector Modernization (FY19 | P170065): Phase I (Project Development Objective): To enhance the efficiency and safety of existing railway assets and improve governance and in attributional capacity of the railway sector.
15 Serbia Transportation Transport 93% Y 62.5 0.0 50% 3.4 2.1 N + Increase national freight rail market share by 10% (ton-km).
• Increase the national passenger rail market share by 20% (pass-km).
• Reduce fatality rates on the rail network by 33% (fatalities per train-kilometers).
• Safety risk assessment operationalized and implemented.
• Increase network utilization by 5 percent.
• Average train speeds on rehabilitated sections increased to 100 km/h.
• 37-20 km of tracks rehabilitated.

496  http://projects.worldbank.org/P170065/null

Serbia Emergency Covid-19 Response Project (FY20 | P170760): The Project Development Objective is to respond to the threat posed by COVID-19 and to strengthen the national health system for public health preparedness in Serbia.
15 Serbia Health Health 0% N 100.0 0.0 100% 81.0 50.2 N + 50 additional acute health care facilities with isolation capacity.
• 5 designated laboratories with COVID-19 diagnostic equipment, test kits, and reagents.
• Personal and community non-pharmaceutical interventions to reduce the spread of COVID-19.
• 19% of health staff trained in infection prevention and control per Ministry of Health approved protocols.

497  http://projects.worldbank.org/P170065/null

Scaling-Up Residential Clean Energy (SURE2) Project (FY22 | P176798): The project development objective is to increase the uptake of energy efficiency, sustainable heating, and rooftop solar photovoltaics (PV) by households in participating local self-government units (LSGUs) in Serbia.
15 Serbia Energy and Extractives Power 100% N 50.0 0.0 100% N + 20,000,000,000 MJ of projected energy or fuel savings.
• 25,000 households that have implemented energy efficiency and sustainable heating investments.
• 4 MW of renewable energy generation capacity (other than hydropower) constructed or rehabilitated.
• 130,000 metric tons per year of net GHG emissions.

USD 10,000,000 of energy costs savings annually. 50,700 beneficiaries (including users and employees) in renovated buildings. |
| 542 | [http://projects.worldbank.org/P170532/null](http://projects.worldbank.org/P170532/null) | Rail Logistics Improvement Project (FY20 | P170532): The project development objectives (PDO) is to reduce transport costs in selected rail freight corridors and to strengthen rail traffic capacity at the Ministry of Transport and Infrastructure (MO) to deliver rail freight connectivity and manage rail-enabled logistics centers. | 16 Türkiye |  | Transportation | Transportation | 89% | N | 350.0 | 0.0 | 100% | 5.9 | 2.1 |  | Transport costs in selected rail freight corridors reduced by 30% between Karabuk Province and Fiyanspor and between Osmanyay Organized Industrial Zone and Ikienderen Port in constant 2020 prices. Uniform rail technical standards adopted by Ministry of Transport and Infrastructure. |
Turkey Emergency Covid-19 Health Project (FY20 | P173988): The project development objective is to prevent, detect, and respond to the threat posed by COVID-19 in Turkey.

- 179 ha prepared for climate-smart agricultural planning/management.
- 42,500 farmers adopting improved agricultural technology.
- 300,000 people tested for COVID-19 identification per approved protocol.
- 90,000 health staff equipped with PPEs procured under the Project.
- 3,500 ICU beds equipped with mechanical ventilators procured under the Project.
- 90,000 people provided with access to resilient infrastructure services.
- 10 OIZs certified as Green OIZs.
- 29,200,000 m3 of wastewater treated annually in new/upgraded facilities.
- 18,434 metric tons of CO2 emissions reduced annually due to OIZ green infrastructure investments.
- 6,628,000 m3 of annual water savings from OIZ green investments.

Turkey Climate Smart and Competitive Agricultural Growth Project (TUCSAP) (FY22 | P175011): Strengthen capacity for sustainable and competitive agricultural growth and promote the use of climate-smart agricultural technologies in targeted regions in Turkey.

- 55% improved irrigation efficiency.
- 41 km of resilient roads rehabilitated.
- 55% of diagnosed cases treated per approved protocol.
- 32,000 farmers reached with agricultural assets or services.
- 130 female owned businesses or associations supported by the Project.

Formal Employment Creation Project (FY20 | P171766): The project development objective is to enhance the conditions for formal job creation by firms operating in provinces with high incidence of 5y under Temporary Protection (TUP), for the benefit of Turkish citizens and refugees.

- 6,470,000 beneficiaries in areas serviced by disaster and climate resilient and energy efficient infrastructure services.
- 380,870 tCO2e. per year of projected lifetime emission reduction.
- 5.58 MW of renewable energy generation capacity constructed under the project.
- 3,500 government staff and technical professionals trained in the design and implementation of building retrofitting and renovation.
- 55% improved irrigation efficiency.
- 45 km of resilient roads rehabilitated.

Seismic Resilience and Energy Efficiency in Public Buildings Project (FY22 | P175846): The proposed Project Development Objective (PDO) is to improve the disaster resilience and reduce energy use in selected Central Government Buildings, and to strengthen the policy framework and institutional capacity to develop, finance and implement resilient and sustainable public buildings in Turkey.

Project Name (Number | Year/s Loans Approved) and Description

• Risk-based internal audit ecosystem for Gram Panchayats (GPs) to strengthen the state's governance systems, with mentoring in each Gram Panchayats (GPs) and performance assessment of the mentors deployed.

• Around 480 mentors every year deployed by the program with an average of 19 days of onsite mentoring to each Gram Panchayats (GPs) performance in real time, achieving target.

Updated with achieved results from ICR

• 11,150 new household sewer connections constructed.

Updated with achieved results from the latest available ISR

• 70% of states with sufficient COVID-19 testing capacity within 4 weeks of project implementation, from a baseline of 0%.

Updated with achieved results from ICR

• 70% of states issuing school closures with state-level distance learning strategies for primary and secondary school students, from a baseline of 0%.

Updated with achieved results from the latest available ISR

• 100% of top 1,000 listed companies complying with enhanced ESG disclosure requirements.

Updated with achieved results from ICR

• 70% of states with Emerging Infectious Disease Contingency Plans in place with dedicated institutionalized response systems.

Updated with achieved results from the latest available ISR

• 110,100 district hospital doctors and nurses who are trained on WHO standards of clinical treatment for COVID-19 by March 2021.

Updated with achieved results from ICR

• 70% of states with sufficient COVID-19 testing capacity within 4 weeks of project implementation, from a baseline of 0%.

Updated with achieved results from ICR

• 667.0 (female) children under 3 years in project districts reached by Integrated Child Development Services (ICDS) nutrition services.

Updated with achieved results from ICR

• 12,099 (female) children under 3 years in project districts reached by Integrated Child Development Services (ICDS) nutrition services.

Updated with achieved results from ICR

• 1,383,103 applications submitted on-line for Right to Public Services (RTPS) services.

Updated with achieved results from the latest available ISR

• 70% of states with Emerging Infectious Disease Contingency Plans in place with dedicated institutionalized response systems.

Updated with achieved results from ICR

• 1,000 tax inspectors trained on tax audit based on the Audit training module prepared.

Updated with achieved results from ICR

• 16,777,559 project beneficiaries, 49% of which are female.

Updated with achieved results from the latest available ISR

• 12,099 (female) children under 3 years in project districts reached by Integrated Child Development Services (ICDS) nutrition services.

Updated with achieved results from ICR

• 12,099 (female) children under 3 years in project districts reached by Integrated Child Development Services (ICDS) nutrition services.

Updated with achieved results from ICR

• More than 300 internal auditors trained by the program.
12 subprojects receiving RIDF loans.

Value: 

- Added Tax and Luxury Goods Sales Tax revenue increased to 3.4% of GDP.
- 70% of specific priority populations fully vaccinated, from a baseline of 5%.
- 5 enterprises received support for air pollution, and all of them reduced their emission levels of
- 109,825 direct project beneficiaries, of which 15% are female.
- Us$13,080,000 in sub-loans were issued to nine enterprises for pollution reduction.
- 197 people were trained on environmental compliance/monitoring/enforcement and awareness.
- Included the preparation of Environmental Impact Assessments, environmental audits,
- 77 enterprises benefitted from the project’s technical assistance (Environmental services
- 30,000 Improved latrines constructed.
- 89,500 handwashing facilities established in schools;
- 19,100 toilets constructed in schools;
- KPSPAMs (Management Boards for Water Supply Services) established, and training provided;
- 117,000 Piped household water connections benefited from rehabilitation works undertaken;
- Capacity factors/Plans (CAPs) developed in target villages;
- KPSPAMs (Management Boards for Water Supply Services) established, and training provided;
- 19,100 toilets constructed in schools;
- 80,500 handwashing facilities established in schools;
- 30,000 improved latrines constructed.

### Project Name (Number | Year/s Loans Approved) and Description

#### Project Name (Number | Year/s Loans Approved) and Description

**Third Water Supply and Sanitation for Low-Income Communities / Community Based Water Supply Project**

- **Country: Indonesia**
- **Project Description:** To improve access to urban infrastructure and services in targeted slums in Indonesia and to reconstruct and strengthen public facilities and settlements in selected disaster-affected areas.

- **Benefits:**
  - Water, Sanitation, and Waste Management
  - Water / Sanitation
  - CCB not available / project approved before FY11

</table>
Notes: Amounts may not add up due to rounding.

a Project Life generally indicates the financial life of the project, intended as the sum of the project’s loan term and its grace period.

b IBRD Major Sector/s imply that the highest share of project components fall under the respective IBRD Sector/s that have been tagged.

c ICMA SBP Major Category implies that the highest share of project components fall under the respective ICMA Social Bond Principle project category/ies that have been tagged.

d IBRD climate co-benefits over total IBRD commitment. Climate co-benefits refer to the share of financing dedicated to climate change adaptation or mitigation in operations financed by the World Bank. The amounts shown in the table correspond to the climate co-benefits assessment at project approval. If a project receives additional financing over the project life, changes to the project’s climate co-benefits may not be reflected in this document. The World Bank Group has been tracking and publicly reporting climate co-benefits since 2012.

e The Green Bond tag signifies that the respective project is included in the World Bank Green Bond portfolio.

f The total net committed amount is the cumulative World Bank loan net of cancellations reported in equivalent US$ millions as of the year ended June 30, 2023. Loans denominated in other currencies are converted to US$ equivalents using the exchange rate as of the month end prior to the negotiation date. Similarly, cancellations of loans denominated in other currencies are converted to US$ equivalents using the exchange rate on the value date of the cancellation.

g The FY23 committed amount is the World Bank loan net of cancellations reported in equivalent US$ millions during the year ended June 30, 2023 reported in equivalent US$ millions. Loans denominated in other currencies are converted to US$ equivalents using the exchange rate as of the month end prior to the negotiation date. Similarly, cancellations of loans denominated in other currencies are converted to US$ equivalents using the exchange rate on the value date of the cancellation.

h The percentage shows the share of the total financing that is provided by World Bank loans. When a project is co-financed, this share could be used to apportion total results to the World Bank.

i The total disbursement amount is the amount of cumulative World Bank bond proceeds allocated as of the year ended June 30, 2023, to support the financing of disbursements to eligible projects reported in equivalent US$ millions. Disbursements of loans denominated in other currencies are converted to US$ equivalents using the exchange rate on the value date of the transactions under the loan.

j The FY23 disbursement amount is the amount of World Bank bond proceeds allocated to support the financing of disbursements to eligible projects reported in equivalent US$ millions during the year ended June 30, 2023.

k The Biodiversity theme tag indicates that the project has components financed under this theme.

l Target results are expected results based on estimates developed at the time of project approval and expected to materialize at the end of the project implementation period (5 years in most cases). The indicators shown are normally a subset of the development impacts contained in project documentation available in the World Bank project website (http://www.worldbank.org/projects). Results reported are based on the entire project, with the percent shown next to the loan amount corresponding to the proportion of the total financing that is financed by World Bank loans. Actual impacts may be different from these estimates and do not represent the actual results in a specific year. Quantitative estimates are intended to be indicative of the scale of impacts and qualitative results aim to inform about the nature of changes that will be achieved as a result of projects once they are completed and at full capacity.

m Projects specifically designed to provide a response to COVID-19 effects.

n Projects specifically designed to address the challenges of Fragile and Conflict-Affected Situations.

* Discrepancies between committed and allocated amounts may be due to the different exchange rates used to convert loans denominated in other currencies to US$ equivalents.
