The Diaspora of Data Governance

Global Table of Countries with Data Privacy Laws

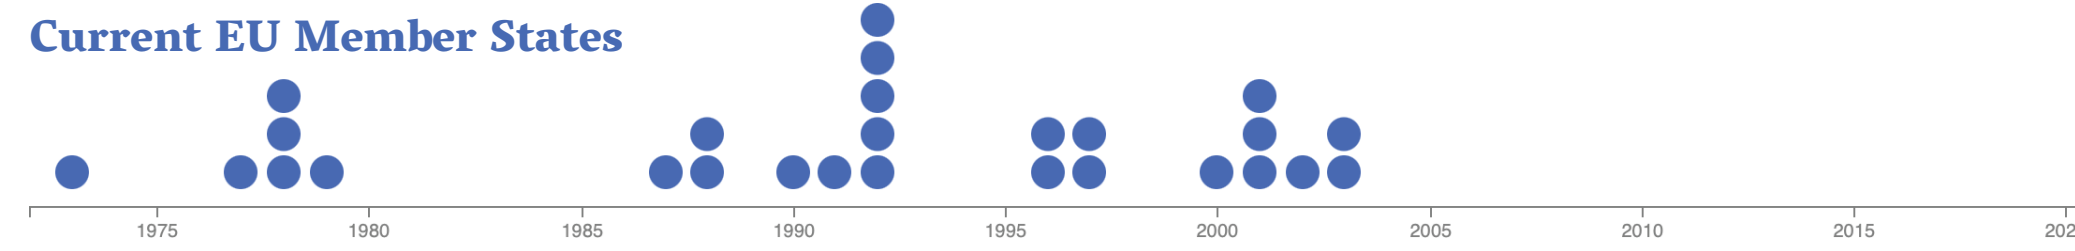

(as known at 31 January 2021)

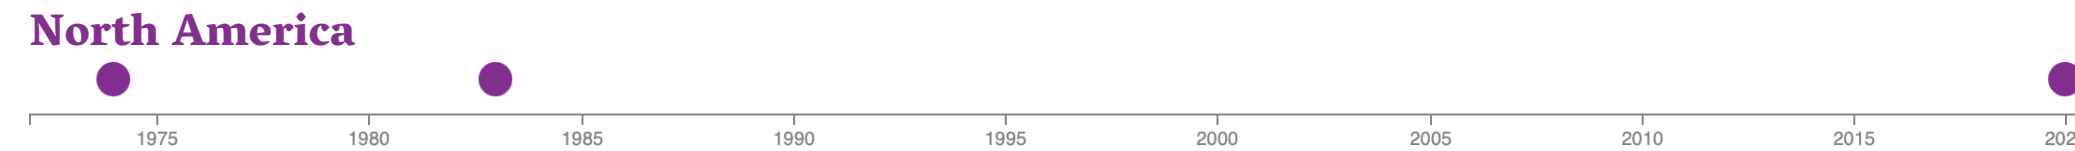

Countries with Data Privacy Laws

Regional Trends

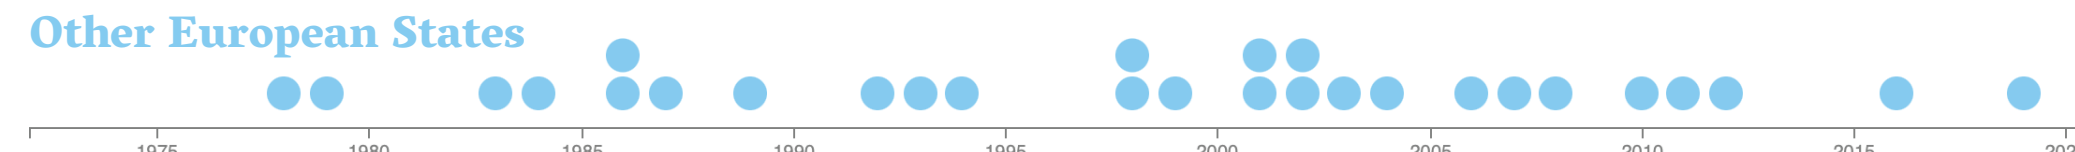

Current EU Member States

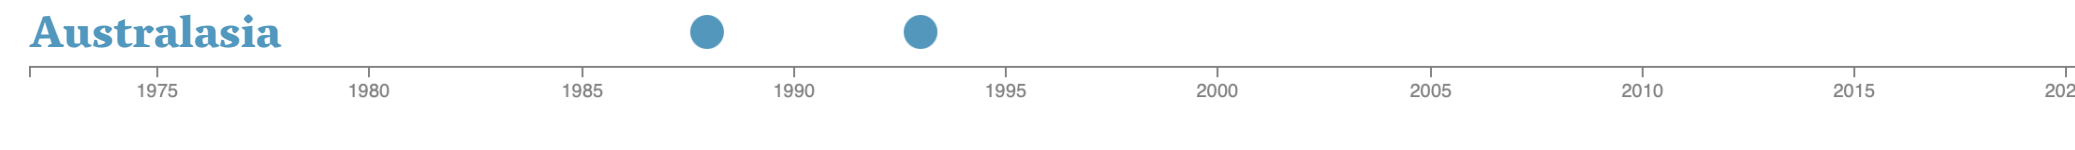

North America

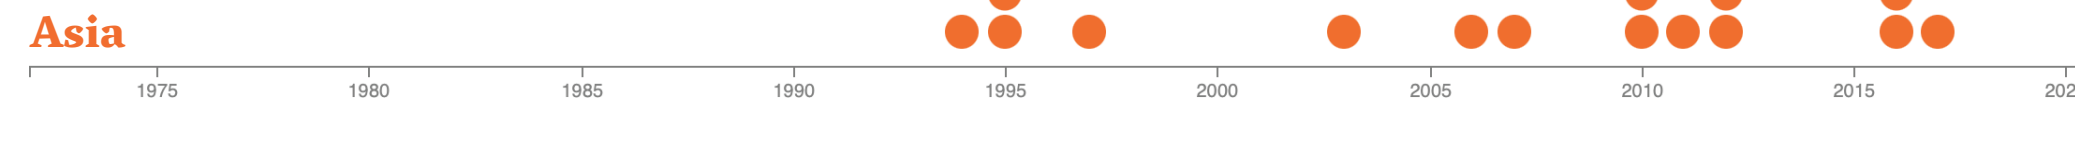

Other European States

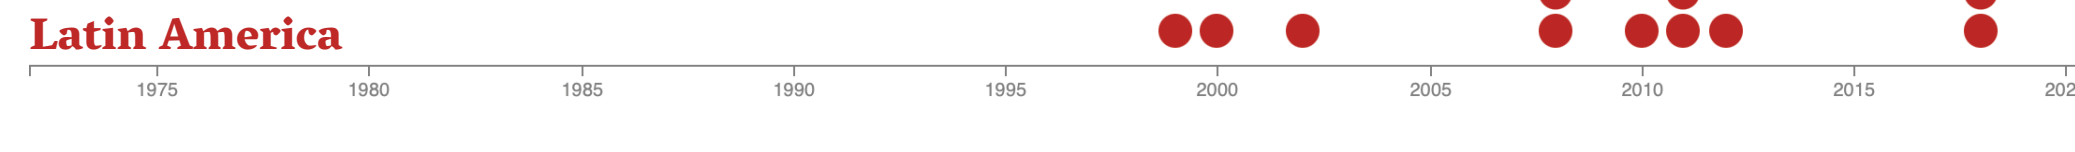

Australasia

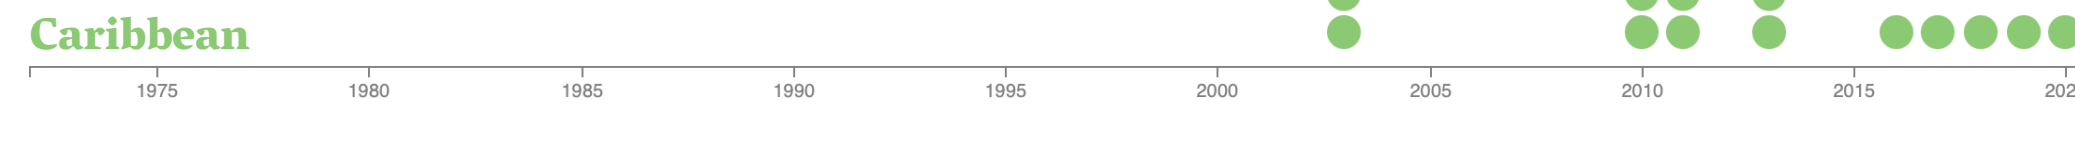

Asia

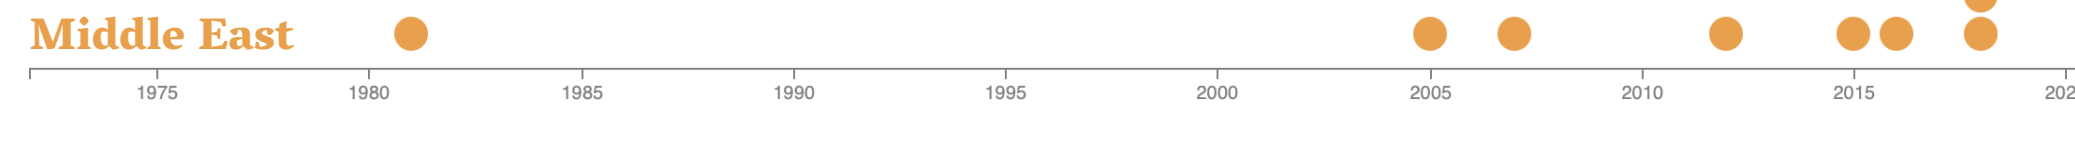

Latin America

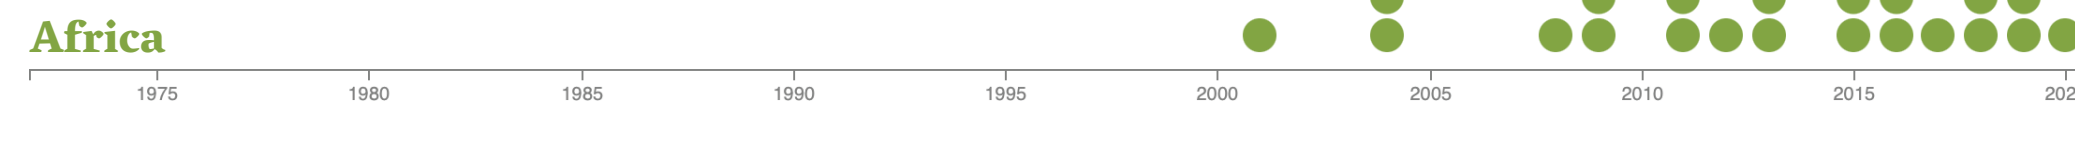

Caribbean

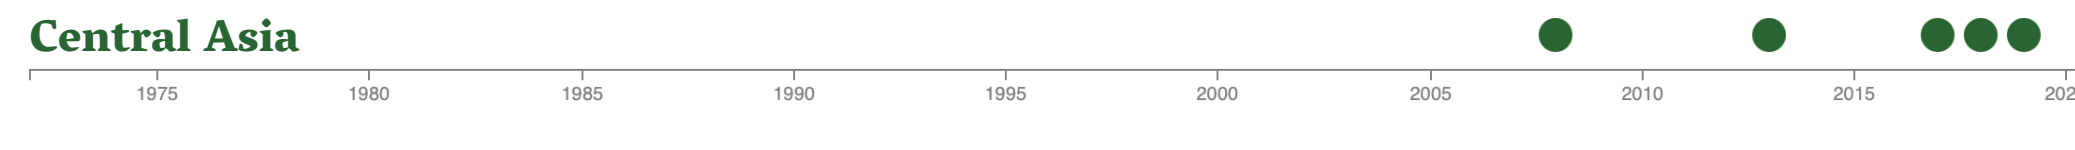

Middle East

Africa

Central Asia

Ecosystems Theory: It's not just about the data or about the privacy of individuals any more. It's also about how entire digital ecosystems of *knowledge* intersect and interact with each other.

PETs live in digital knowledge ecosystems and interact dynamically with them, to varying effects

**We have lost control of data, to varying degrees.
(Ecosystems theory)**

Perfect control of data flow is not coming back

**Trust is in crisis due to imperfect control at scale
and capacity limits of current models of digital
governance**

Defining PETS: The past

Defining PETS: Today

Please click on counts for Detailed Report

S.No	Name of the Hospital	Number Of Cases Registered in Last 3 Months	InPatient Conversion Cases Count	Average time taken from Registration to IP Conversion per case(HH:MM)	Average Time taken between IP conversion to Preauth raised per case(HH:MM)	Average Time taken between PTD pending to pending updation per case(HH:MM)	Average Time taken between Preauth Approved to Surgery Start Time per case(HH:MM)
