

JAPAN

Region: East Asia and Pacific
Income Category: High Income

Human capital – knowledge, skills, and good health – empowers people to achieve their potential and drives economic growth. This brief tracks progress by Japan in building and using human capital. The Human Capital Complementary Indicators offer a snapshot of human capital investments at four stages of the lifecycle. The brief uses the latest available data. It is benchmarked against regional averages and reports progress over the previous 5 years.

EARLY CHILDHOOD

- **Neonatal mortality rate.** The neonatal mortality rate is **1** per 1,000 live births (2023). This remains unchanged since 2018. The indicator is lower than the regional average.
- **DTP vaccination rate, third dose.** In 2024, **99%** of infants received the third dose of the diphtheria, tetanus and pertussis vaccine, compared to 98% in 2019. The indicator is above the regional average.
- **Net enrollment rate, early childhood education.** In 2022, **95%** of children at the official age were enrolled at early childhood education, compared to 91% in 2017. The indicator is higher than the regional average.

SCHOOL AGE

- **Child mortality rate.** The mortality rate for children ages 5-14 is **1** per 1,000 children aged 5 (2023). This remains unchanged since 2018. The indicator is lower than the regional average.
- **Learning poverty.** In 2019, **4%** of children could not read and understand a simple text, by age 10, compared to 3% in 2015. The indicator is below the regional average.
- **Out of school children.** In 2022, **0%** of primary-school-age children were out of school. This remains unchanged since 2017. The indicator is lower than the regional average.

YOUTH

- **Adolescent fertility rate.** The number of births for every 1,000 women ages 15-19 is **2** (2023), compared to 3 in 2018. The indicator is lower than the regional average.
- **Youth not in employment, education or training.** In 2024, **3%** of youth (ages 15-24) were not in employment, education or training. This remains unchanged since 2019. The indicator is below the regional average.
- **Gross school enrollment rate, tertiary.** Tertiary school enrollment as a percentage of people ages 18-24 is **65%** (2022), compared to 62% in 2017. The indicator is higher than the regional average.

ADULTS

- **Life expectancy at birth.** Life expectancy at birth is **84** years (2023). This remains unchanged since 2018. The indicator is higher than the regional average.
- **Female labor force participation rate.** Female labor force participation as a percentage of the female working-age population (ages 25+) is **56%** (2024), compared to 54% in 2019. The indicator is below the regional average.
- **Adult unemployment rate.** Unemployed adults as a share of the adult labor force (ages 25+) is **2%** (2024). This remains unchanged since 2019. The indicator is lower than the regional average.
