

Ocean Governance Capacity Building Training Program

Online Workshop for the Indian Ocean region

Organized by the World Bank, in partnership with the University of Melbourne Law School, the Division for Ocean Affairs and the Law of the Sea of the Office of Legal Affairs of the United Nations, the International Seabed Authority, the Food and Agriculture Organization of the United Nations, and the Center for Maritime and Oceanic Law at the University of Nantes

CALL FOR APPLICATIONS

The deadline for submitting applications is extended to May 23, 2023, at 11:59 PM EDT

Overview. This online training program provides an introduction to global ocean governance, including a primer on public international law related to the oceans and the international legal framework for the blue economy. It is centered on the United Nations Convention on the Law of the Sea and related instruments addressing fisheries, marine pollution, conservation and biodiversity, climate change, maritime transport and shipping, marine scientific research, and activities in the Area, among other topics. **This training program is tailored to participants from the Indian Ocean region.**

The training program consists of: (i) an e-learning course; (ii) region specific reading materials; (iii) individual participant assignments; and (iv) live online discussion sessions. This training program will be provided in **English and French**. An overview of the course modules is available in the enclosed **Curriculum**.

Audience and objectives of the training. The objective of this training program is to enhance the capacity of government officials, staff of partner organizations, and other stakeholders on ocean governance by providing training on international law related to oceans and the legal framework for the blue economy, including relevant regional instruments. This training is expected to result in a greater understanding of relevant international law and facilitate the development and implementation of national legal frameworks on ocean governance with a view to achieving the sustainable development of blue economies, including by mobilizing public and private financial resources for sustainable development.

A participant who has successfully completed the training will:

- Understand the relevance of international law to the blue economy and identify related sustainable development opportunities, as well as capacity needs;
- Recognize the importance of the United Nations Convention on the Law of the Sea and related instruments;

<https://forms.gle/2jhp2BuNpVEJ7>

- Understand international legal obligations of countries, how these obligations concern the activities of governments, businesses, and community members, and how they can be implemented at the national level to support the blue economy;
- Be able to identify global and regional instruments (and organizational support) relating to, for example, fisheries, marine pollution, marine biodiversity, and climate change;
- Be able to independently examine and assess cross-cutting issues in ocean governance and participate in debates regarding emerging and contemporary issues in the field, such as the impact of COVID-19 on the blue economy.

Workshop dates. The workshop will take place in **English** and **French**. Each workshop takes approximately 24 hours to complete. Participants will complete a mandatory e-learning course in their own time in the four weeks preceding the live sessions. The live sessions will run virtually for three weeks when participants and facilitators meet every business day for 1.5 hours. The mandatory e-learning course takes approximately 8 hours to complete (note that this 8 hour is included in the 24 hour workshop total time).

The English and French live sessions will commence the week of **September 11, 2023** and end on **September 28, 2023**. The English live sessions will start at 6am Washington DC time (03:30pm IST/New Delhi, 5pm WIB/Jakarta, 12pm SAST/South Africa Standard Time). The French live sessions will start at 8am Washington DC time (05:30pm IST/New Delhi, 7pm WIB/Jakarta, 02pm SAST/South Africa Standard Time).

Certificate. Participants who successfully complete the training program requirements will be awarded a certificate and priority consideration to participate in a possible follow-up, in-person workshop events.

Who may apply? The training is designed for non-lawyers and lawyers. To be eligible, participants must meet all the following criteria:

- Be government officials, staff members of partner or collaborating organizations, or relevant stakeholders working directly on issues concerning ocean governance, oceans policy, fisheries, marine pollution, conservation and biodiversity, maritime transport and shipping, marine scientific research, activities in the Area, or related thematic areas.
- Be a national of, or have a direct working relationship with, a developing State in the Indian Ocean region. Applicants with a nominating letter from their employer will be given preferential consideration. A **nomination letter** template is enclosed. Priority will be given to applicants whose work is related to the Indian Ocean.
- Demonstrate a desire to contribute to the implementation of the United Nations Convention on the Law of the Sea and other relevant instruments related to the oceans.
- Have fluency or working proficiency in English **or** in French.

Cost. The training is available at no cost to the participants.

Deadline. The deadline for submitting applications for both English and French workshops is **May 23, 2023**, at 11:59 PM EDT.

Application instructions. Interested individuals who meet the eligibility criteria and are available on the training dates indicated above should submit an application form at the following link: [APPLY HERE](#).¹ For more information, please contact oceangovernancetraining@worldbank.org.

Information Webinar.

Interested applicants are invited to watch the recoding of an **Information Webinar** happened on May 3, 2023 to learn more about the training program, including its scope and modalities. The recording of the webinar is available [here](#) in English and French.

Other online trainings. Additional training events are being planned, with a regional workshop for the Latin America and the Caribbean anticipated for 2024. If you would like to learn more about those future training programs and be informed of the call for applications, or are interested in supporting these initiatives, please contact us at the email address above.

Ocean Governance Capacity Building Training Program

CURRICULUM FOR ONLINE WORKSHOPS

To complete this training program, participants will need to complete the **e-learning course composed of 10 core modules**, a minimum of **3 elective modules** (listed on the next page), and actively participate in live sessions, including one stand-alone individual presentation/assignment of 5 minutes/one page. The e-learning course will take approximately 8 hours to complete, and **must be completed at least four weeks before the first live session (August 13, 2023 deadline for both English and French Workshops)**. Preparation for and participation in the live workshops will take approximately 16 hours to complete and is composed of the following activities:

a. **Class preparation**

- Pre-reading (approximately 5-10 pages per module); questionnaires on expectations, national and regional priorities; independent preparation of an individual class presentation, based on material provided and tailored to the region.

b. **Online Class Discussions and Review of Participant Presentations**

- Asynchronous online activities such as quizzes and discussion boards.
- Viewing of pre-recorded 5-minute presentations by other participants.

c. **Interactive live participation via videoconference (Zoom)**

- Introductions and discussion of learning objectives
- Live synchronous participation of 1 ½ hours per session, including (i) Q&A to facilitators, (ii) engagement with individual presentations by the assigned participant(s) based on materials and guides provided by the facilitators, and (iii) subsequent discussion. The final session will include closing remarks and networking opportunities.

Additional optional resources will be available to participants, including optional readings, summaries of key international conventions, additional optional modules, and opportunities for participants to interact with each other and the trainers via discussion boards.

Curriculum

A. Core Modules

Module	Illustrative Content
1. Introduction	<p>State of the Oceans; Link between science and law</p> <ul style="list-style-type: none"> • Second World Ocean Assessment (UN, 2021) • State of the World Fisheries and Aquaculture (UN FAO, 2020) <p>Primer on public international law; historic and institutional background; current objectives,</p> <ul style="list-style-type: none"> • Legal foundations • Key concepts • Finding solutions to problems • Duty to cooperate
2. Maritime Zones and Institutions under UNCLOS	<p>UNCLOS framework</p> <p>Maritime zones under UNCLOS</p> <ul style="list-style-type: none"> • Baseline and internal waters • Territorial sea and contiguous zone • Exclusive economic zone (EEZ) • Continental shelf • High seas • The Area <p>UNCLOS institutions and their roles</p>
3. UNCLOS and Ocean Governance	Key UNCLOS responsibilities and Ocean Governance principles
4. Operationalizing Ocean Governance and the Blue Economy	Operationalizing principles of ocean governance, including through integrating sustainable ocean-based economies.
5. Climate Change: Mitigation and Adaptation	<p>Links between ocean health and climate change</p> <p>UNFCCC and UNCLOS</p> <p>Mitigation options</p> <p>Adaptation and climate resilience</p>
6. Fisheries	<p>UN Fisheries Agreements and other instruments</p> <ul style="list-style-type: none"> • UNCLOS • Fish Stocks Agreement • FAO Compliance Agreement • Port State Measures Agreement • FAO Code of Conduct for Responsible Fisheries • FAO IPOAs (e.g., FAO-IPOA-IUU) <p>Regional management of fisheries (selected instruments and organizations based on participants' regions)</p>

8. Marine Pollution	Management of land-based sources of ocean waste and pollution Plastics pollution and the marine environment, including relevant international conventions
9. Marine Conservation and Biodiversity	Overview of main conventions Area based management tools
10. Activities in the Area	Part XI of UNCLOS

B. Elective Modules (3 minimum per participant, no maximum)

Module & Content
1. Dispute Settlement under the United Nations Convention on the Law of the Sea (UNCLOS)
2. Marine Scientific Research
3. Advanced Marine Pollution: MARPOL, the London Dumping Convention, and the Ballast Water Management Convention
4. Threatened Species: Convention on Biological Diversity, Convention on the Conservation of Migratory Species of Wild Animals, and Convention on International Trade in Endangered Species of Wild Fauna and Flora
5. Maritime Transport
6. Advanced Blue Finance
7. Sustainable Development Goals and Ocean Governance: Some Considerations for Implementation through MPAs and Ecotourism
8. Marine Biological Diversity of Areas Beyond National Jurisdiction
9. International Regulatory frameworks to combat IUU Fishing

Ocean Governance Capacity Building Training Program

NOMINATION AND RECOMMENDATION FORM

(applicants with a nominating letter from their employer will be given priority consideration)

Instructions:

To be completed by an official employer of the applicant (e.g., nominating Government). A signed copy may be submitted through the [Application Form](#) or sent directly by E-mail to oceangovernancetraining@worldbank.org by the application deadline.

I _____ of _____
(Print name of individual nominating candidate) (Title or Post, of individual nominating candidate)

Hereby nominate/Recommend _____
(Candidate's surname, given name, middle initial)

On behalf of _____
(State, institution or entity)

As a candidate for the Oceans Governance Capacity Building Training Program.

And I also hereby certify that:

1. This candidate will benefit from the Training Program for their work or academic pursuits in support of ocean governance and the blue economy;
2. All information supplied by the candidate is complete and correct;
3. The candidate has adequate knowledge of the English or French language, which can be used for work purposes;
4. The absence of the candidate from their ordinary work during the Training Program period would not have any adverse effect on the status, seniority, salary, pension, and similar rights of the candidate; and
5. Upon completion of the Training Program, the candidate will be employed as:

Title of post or position: _____

Duties and responsibilities: _____

Nominating Employer's Address:

Place and date: _____

(Address line 1)

(City, District/Province)

(Postal Code, Country))

Signature of nominating employer

E-mail (Obligatory): _____

(place official seal above, if relevant)

Instructions: To be completed in detail by the nominating employer, as identified on page 1.

1. Comments on how this training would relate to the candidate's work program or academic pursuits related to ocean governance and the blue economy:

2. Comments on how this training would contribute to the advancement of ocean governance and the blue economy:

3. Comments on the linguistic ability and other skills of the candidate:

Certification of nominating employer as identified on page 1:

Place and Date: _____

Signature of nominating employer

Please note:

This nomination and recommendation form contains two (2) pages.
All fields must be duly completed, and both pages must be signed.

(place official seal above, if relevant)
