Hello,

This comment is regarding "**A Proposed Financial Intermediary Fund (FIF) for Pandemic Prevention, Preparedness and Response Hosted by the World Bank**"

Please be sure to fund educational efforts to teach children and the adult public about One Health. By educating students in elementary, middle and high schools about One Health, we will have more people on the lookout for infectious diseases affecting local populations, thereby preventing a pandemic at its source.

Thank you,

[Deborah Thomson, DVM](#)
