FY77 Research: Description and Resources

1. For the annual Board presentation on Bank research we shall need to prepare estimates of the costs of various research activities undertaken in the Bank, not merely the "external" costs financed through the Research Committee. Staff time spent on all research will shortly be available from the time reporting records, which, together with expenditures on Research Committee-approved projects, will provide a nearly complete picture. A missing element is the "in-house" or Departmental funds associated with research other than that financed from Research Committee resources. You will find attached a list of such activities. I would be grateful if the Administrative Officer could provide us with figures on the amounts spent in FY77 from Departmental funds on each of these activities.

2. As with the present edition, the next annual report on research will give an account of ongoing research under selected headings, whether the activity is funded by the Research Committee or not. To this end we would appreciate receiving a brief, one-paragraph description of the projects on the attached list. The paragraphs should describe why the study was undertaken and briefly explain its objectives.

3. I would be grateful if this information could reach us by Friday, August 19 at the latest. Thank you.

2. As with the present edition, the next annual report on research will give an account of ongoing research under selected headings, whether the activity is funded by the Research Committee or not. To this end we would appreciate receiving a brief, one-paragraph description of the larger projects on the attached list. "Larger" applies to studies which have expended at least four weeks of staff time (professional plus assistant), at least \$2,500 in Departmental funds, or both. The paragraphs should describe why the study was undertaken and briefly explain its objectives.

3. I would be grateful if this information could reach us by Friday, August 19 at the latest. Thank you.
