

PROJECT SUMMARY

Mongolia

PROJECT NAME

Sustainable Cities and Climate Services

GRANT OBJECTIVE AND ACTIVITIES

The project is aligned with Mongolia's NDC Partnership Plan which was developed as part of the [NDC Partnership](#) process. It seeks to strengthen the capacity of the Government to deliver on its goals for climate resilience and support implementation of its NDC priorities. The project is focused on developing a roadmap to modernize hydromet and climate services. Likewise, it conducts technical studies to help enhance disaster risk reduction preparedness and city resilience. Through technical deep dives and sharing of international best practices, the project provides extensive support to help inform follow-up investment operations.
