Background: WBG Supplier Diversity & Inclusion program

Supplier diversity & inclusion is a highly valued strategic initiative at the WBG. We are committed to promoting, increasing, and improving the business participation of underrepresented diverse business enterprises in our procurement processes and across our supply chain. Adopting a phased approach, the WBG's program efforts concentrate on women-owned businesses (globally) and businesses owned by minority groups (US) or ethnically and/or racially disadvantaged individuals in specific countries (currently: Australia, Brazil, Canada, China, UK, South Africa).

As part of the tier 2 program objectives, the WBG actively motivates prime vendors to support its supplier diversity & inclusion commitments and encourages them to directly contract with diverse suppliers to broaden their participation in the WBG's business. In compliance with the WBG Vendors Code of Conduct requirements, we expect our vendors to provide annual reporting detailing their contribution to supplier diversity and inclusion.

It is important to note that the WBG subscribes to the globally recognized definition of a diverse business, defined as one that is at least 51% owned, operated, and controlled (all three conditions must apply) by one or more individuals of a diverse background. WBG currently requests our prime vendors to provide spend data with regards to the below diverse supplier groups only:

Diverse Supplier Group	Geographic Scope
Women-Owned Business Enterprises (WBEs)	Global
Minority-Owned Business Enterprises (MBEs) ⁺	USA
Minority-Owned Business Enterprises (MBEs)/Ethnically or Racially Disadvantaged Business Enterprises outside the US ⁺	Australia, Brazil, Canada, China, UK, South Africa
Disability-Owned Business Enterprises (DOBEs)	Global
LGBT Business Enterprises (LGBTBEs)	Global
Micro-, small- and medium-sized enterprises (MSMEs)	Global

⁺Groups of suppliers that qualify as Minority-owned Businesses/Ethnically or Racially Disadvantaged Business Enterprises are defined in each country context. Currently, this umbrella definition includes the following diverse classification groups in each targeted country: minority-owned businesses ([USA](#)); aboriginal and minority-owned businesses ([Canada](#)); ethnic minority-owned businesses ([UK](#), [China](#)); Indigenous-owned businesses ([Australia](#)), black-owned businesses ([South Africa](#)), Afro-descendants and indigenous-owned businesses ([Brazil](#)).
