MANAGEMENT'S ASSERTION REGARDING EFFECTIVENESS OF INTERNAL CONTROLS OVER FINANCIAL REPORTING OF THE MODIFIED CASH BASIS TRUST FUNDS

The International Bank for Reconstruction and Development ("IBRD"), the International Development Association ("IDA"), the International Finance Corporation ("IFC"), and the Multilateral Investment Guarantee Agency ("MIGA") (collectively referred to herein as "the Bank"), as administrators for the modified cash basis trust funds, are responsible for establishing and maintaining effective internal control and procedures over financial reporting for trust fund activities which are designed to provide reasonable assurance to the Bank's Management and Board of Directors regarding the preparation of reliable trust fund financial reports prepared on the cash receipts and disbursements basis of accounting modified to record the share in pooled cash and investments at fair value ("modified cash basis of accounting").

Assertions as of June 30, 2010 made by Management in this document pertain to the specific control objectives relevant to the effectiveness of internal control over financial reporting of trust fund activities using the modified cash basis of accounting (the "modified cash basis trust funds"). The specific management assertions are set forth below:

1. Contributions from Donors are recorded in the appropriate trust fund on a timely basis.
2. Assets underlying funds held in trust are segregated from funds of the Bank and are in the form of cash and investments managed by the Bank.
3. Transactions recorded in the underlying financial records and the financial reporting of each trust fund are valid and complete.
4. Investment income is earned and credited to the appropriate trust fund in accordance with the terms and provisions of the trust fund agreements.
5. Disbursements follow relevant Bank policies and procedures.
6. Fees for administering each trust fund are charged in accordance with the terms and provisions of the trust fund agreements.
7. Financial reporting is in compliance with the requirements set forth in the legal agreements entered into with the donors.

MANAGEMENT'S ASSERTION REGARDING EFFECTIVENESS OF INTERNAL CONTROLS OVER FINANCIAL REPORTING OF THE MODIFIED CASH BASIS TRUST FUNDS (Cont'd)

The Bank's internal control and procedures over financial reporting of the modified cash basis trust funds contain self-monitoring mechanisms, and actions are taken to correct deficiencies as and when identified. Even an effective internal control system, no matter how well designed, has inherent limitations, including the possibility of human error and the circumvention or overriding of controls, and therefore can provide only reasonable assurance with respect to financial report preparation. Such human error, circumvention, or overriding of controls may, among other things, result in ineligible expenditures charged to a trust fund that systems of internal control cannot always detect at the time of recording. Management does not perceive this to be indicative of an overall ineffective system of internal control given that procedures for ex-post compliance review are in place.

The Bank assessed its internal control over financial reporting of the modified cash basis trust funds as a whole as of June 30, 2010. This assessment was based on criteria established in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this assessment, the Bank has maintained effective internal control over financial reporting for the modified cash basis trust funds as of June 30, 2010.

INDEPENDENT AUDITORS' REPORT ON MANAGEMENT'S ASSERTION REGARDING EFFECTIVENESS OF INTERNAL CONTROLS OVER FINANCIAL REPORTING OF THE MODIFIED CASH BASIS TRUST FUNDS

KPMG LLP
2001 M Street, NW
Washington, DC 20036-3389

Independent Auditors' Report

International Bank for Reconstruction and Development,
International Development Association,
International Finance Corporation, and
Multilateral Investment Guarantee Agency; together
As Administrators for the Modified Cash Basis Trust Funds

We have examined management's assertion, included in the accompanying *Management's Assertion Regarding Effectiveness of Internal Control over Financial Reporting of the Modified Cash Basis Trust Funds*, that the International Bank for Reconstruction and Development, the International Development Association, the International Finance Corporation and the Multilateral Investment Guarantee Agency (together referred to as the Administrators) maintained effective internal control over financial reporting for the modified cash basis trust funds as listed in note 13 as of June 30, 2010 (Modified Cash Basis Trust Funds), based on criteria established in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Management of the Administrators is responsible for maintaining effective internal control over financial reporting, and for its assertion of the effectiveness of internal control over financial reporting, included in the accompanying *Management's Assertion Regarding Effectiveness of Internal Control over Financial Reporting of the Modified Cash Basis Trust Funds*. Our responsibility is to express an opinion on management's assertion based on our examination.

We conducted our examination in accordance with attestation standards established by the American Institute of Certified Public Accountants and the International Standards on Assurance Engagements as issued by the International Auditing and Assurance Standards Board. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our examination included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our examination also included performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

An entity's internal control over financial reporting is a process effected by those charged with governance, management, and other personnel, designed to provide reasonable assurance regarding the preparation of reliable financial statements in accordance with an applicable financial reporting framework, which in the case of the Modified Cash Basis Trust Funds' combined statement of receipts, disbursements and fund balance prepared by the Administrators is the modified cash basis of accounting as described in note 2, a comprehensive basis of accounting other than generally accepted accounting principles. An entity's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with the applicable financial reporting framework of the modified cash basis of accounting described in note 2, and that receipts and expenditures of the entity are being made only in accordance with authorizations of management and those charged with governance; and (3) provide reasonable assurance regarding prevention, or timely detection and correction of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the Modified Cash Basis Trust Funds' combined statement of receipts, disbursements, and fund balance.

INDEPENDENT AUDITORS' REPORT ON MANAGEMENT'S ASSERTION REGARDING EFFECTIVENESS OF INTERNAL CONTROLS OVER FINANCIAL REPORTING OF THE MODIFIED CASH BASIS TRUST FUNDS (Cont'd)

Because of its inherent limitations, internal control over financial reporting may not prevent, or detect and correct misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, management's assertion that the Administrators maintained effective internal control over financial reporting of the Modified Cash Basis Trust Funds as of June 30, 2010, is fairly stated, in all material respects, based on criteria established in *Internal Control – Integrated Framework* issued by the Commission of Sponsoring Organizations of the Treadway Commission.

We have also audited, in accordance with auditing standards generally accepted in the United States of America and International Standards of Auditing, the combined statements of receipts, disbursements and fund balance of the Modified Cash Basis Trust Funds for each of the years in the two-year period ended June 30, 2010, and our report dated September 21, 2010, expressed an unqualified opinion on those financial statements.

KPMG LLP

INDEPENDENT AUDITORS' REPORT ON THE COMBINED STATEMENTS OF RECEIPTS, DISBURSEMENTS AND FUND BALANCE

KPMG LLP
2001 M Street, NW
Washington, DC 20036-3389

Independent Auditors' Report

International Bank for Reconstruction and Development,
International Development Association,
International Finance Corporation, and
Multilateral Investment Guarantee Agency; together
as Administrators for the Modified Cash Basis Trust Funds

We have audited the accompanying combined statements of receipts, disbursements and fund balance of the Modified Cash Basis Trust Funds listed in note 13 for each of the years in the two-year period ended June 30, 2010. These combined statements of receipts, disbursements and fund balance are the responsibility of the management of the Administrators, consisting of the International Bank for Reconstruction and Development, the International Development Association, the International Finance Corporation and the Multilateral Investment Guarantee Agency. Our responsibility is to express an opinion on these combined statements of receipts, disbursements and fund balance based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and International Standards on Auditing. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the combined statements of receipts, disbursements and fund balance are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the combined statement of receipts, disbursements and fund balance. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the combined statement of receipts, disbursements and fund balance. We believe that our audits provide a reasonable basis for our opinion.

As described in note 2, the combined statements of receipts, disbursements and fund balance were prepared on the modified cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles.

In our opinion, the combined statements of receipts, disbursements and fund balance referred to above present fairly, in all material respects, the cash receipts, disbursements and fund balance of the Modified Cash Basis Trust Funds for each of the years in the two-year period ended June 30, 2010, on the basis of accounting described in note 2.

We also have examined, in accordance with attestation standards established by the American Institute of Certified Public Accountants and the International Standards on Assurance Engagements issued by the International Auditing and Assurance Standards Board, the assertion prepared by management of the Administrators that the Administrators maintained effective internal control over financial reporting of the Modified Cash Basis Trust Funds as of June 30, 2010, in accordance with the criteria established in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission, and our report dated September 21, 2010, expressed an unqualified opinion on management's assertion.

NOTES TO THE COMBINED STATEMENTS OF RECEIPTS, DISBURSEMENTS AND FUND BALANCE

June 30, 2010

Note 1 - Organization and operations

The International Bank for Reconstruction and Development (IBRD), the International Development Association (IDA), the International Finance Corporation (IFC), and the Multilateral Investment Guarantee Agency (MIGA), in these financial statements collectively referred to as “the Bank”, enter into administration agreements, individually or jointly, with various external donors for funding trust funds. The Bank is the Administrator of such trust funds.

Trust funds provide funds to meet diverse development needs, including project preparation, technical assistance, advisory services, debt relief, post conflict transition, climate change and co-financing of lending projects.

Basis of combination

Individual trust funds which are accounted for and reported using the modified cash basis of accounting, as described in note 2, are included in the combined statements of receipts, disbursements and fund balance (Combined Financial Statements). The list of trust funds that are combined in the financial statements is provided in note 13. These trust funds are referred to in these financial statements as “modified cash basis trust funds”. Transactions between trust funds included in these statements are eliminated.

IBRD performs certain administrative, accounting, financial reporting and treasury services related to trust fund activities on behalf of the Bank. IBRD, IDA, IFC, and MIGA are members of the World Bank Group, which also includes the International Centre for Settlement of Investment Disputes.

Activities of the modified cash basis trust funds are carried out in the following ways:

Recipient-executed activities

Recipient-executed trust funds involve activities carried out by a recipient third-party executing agency (Recipients). The Bank enters into agreements with and disburses funds to those recipients, who then exercise spending authority to meet the objectives and comply with terms stipulated in the agreements, including the submission of progress and financial reports for these activities to the Bank.

NOTES TO THE COMBINED STATEMENTS OF RECEIPTS, DISBURSEMENTS AND FUND BALANCE

June 30, 2010

Note 1 - Organization and operations (continued)

Bank-executed activities

Bank-executed trust funds involve the execution by the Bank of activities as described in the relevant administration arrangement with donors which define the terms and conditions for use of the funds. Spending authority is exercised by the Bank, under the terms of the administration agreements. The Bank prepares the terms of reference, procures goods and services from suppliers, makes payment, and submits progress and audited financial reports for these activities to donors.

Financial intermediary funds

Financial intermediary funds comprise a heterogeneous mix of trust funds not covered by either Bank-executed or Recipient-executed trust funds. They include funds with complex financial schemes, or arrangements in which the Bank provides specific administrative or financial services with a limited fiduciary or operational role. Arrangements include the administration of a variety of debt service trust funds, fiscal agency services funds and other more-specialized limited fund management roles. Financial intermediary funds are held and disbursed in accordance with instructions from donors, or in some cases governance bodies operating on behalf of donors.

Note 2 - Significant accounting policies

Basis of Presentation

The accompanying Combined Financial Statements have been prepared on the cash receipts and disbursements basis of accounting, modified to record the share in pooled cash and investments at fair value (modified cash basis of accounting). Accordingly, net investment income includes realized and unrealized investment income (loss).

The modified cash basis of accounting is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America (U.S. GAAP) or International Financial Reporting Standards (together, generally accepted accounting principles). Receipts, with the exception of net investment income as described above, are recorded when collected (i.e., when credited to the modified cash basis trust funds) rather than when pledged/earned, and disbursements are recorded when paid (i.e., when debited from the modified cash basis trust funds).

In accordance with the modified cash basis of accounting, as described above and with the policies adopted for the administration of the modified cash basis trust funds, certain transactions are reported in the Combined Financial Statements in the period in which the transaction is credited/debited to the modified cash basis trust funds, rather than in the period to which they relate. These may include

NOTES TO THE COMBINED STATEMENTS OF RECEIPTS, DISBURSEMENTS AND FUND BALANCE

June 30, 2010

Note 2 - Significant accounting policies (continued)

donor contributions not credited to a modified cash basis trust fund at the financial statement dates due to timing or other reasons, reposting of disbursements in the ordinary course of business as deemed necessary, and any refunds of previous disbursements deemed by the Bank not to be eligible in accordance with the relevant administration agreements.

The Combined Financial Statements are not intended to be a presentation in conformity with generally accepted accounting principles; however, certain information pertaining to the fair value of financial instruments is presented in accordance with the pertinent U.S. GAAP pronouncements as described below.

U.S. GAAP defines fair value, establishes a consistent measurement framework and establishes a fair value hierarchy, which is based on the quality of inputs used to measure fair value and requires fair value measurement disclosures. It also requires that the valuation techniques used to measure fair value maximize the use of observable inputs and minimize the use of unobservable inputs. Note 10 on fair value of financial instruments provides further details on the fair value measurement of the pooled cash and investments.

The Combined Financial Statements are expressed in U.S. dollars, the reporting currency. Fund balances, consisting of the modified cash basis trust funds' share in pooled cash and investments, denominated in currencies other than U.S. dollar are translated into the reporting currency at market exchange rates in effect at the financial statement dates.

Further, for reporting purposes, contributions received and disbursements made in currencies other than U.S. dollar are translated at market exchange rates in effect on the transaction date.

Translation adjustments as well as any transaction gains or losses are reported in the Combined Financial Statements as foreign currency adjustments. However, transaction gains or losses arising on disbursements, if any, are borne by IBRD.

In addition to the modified cash basis trust funds, the Bank administers a number of other trust funds which are accounted for and reported under generally accepted accounting principles, a special purpose basis of reporting, or another basis. These trust funds administered by the Bank are excluded from the Combined Financial Statements. Transfers between trust funds included in the Combined

NOTES TO THE COMBINED STATEMENTS OF RECEIPTS, DISBURSEMENTS AND FUND BALANCE

June 30, 2010

Note 2 - Significant accounting policies (continued)

Financial Statements are eliminated; however, transfers to/from trust funds that are not included in the Combined Financial Statements are reported as transfers.

The preparation of the Combined Financial Statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect the reported amounts of fund balances and related disclosure at the financial statement dates and the reported amounts of receipts and disbursements during the reporting period. Actual results could differ from these estimates. Significant judgments have been used in the valuation of certain financial instruments.

Share in pooled cash and investments and net investment income

Amounts paid into the modified cash basis trust funds, but not yet disbursed, are managed by IBRD which maintains an investment portfolio (the Pool) for all of the trust funds administered by the entities of the World Bank Group. IBRD maintains all trust fund assets separate and apart from the funds of the World Bank Group. The Pool is divided into sub-portfolios to which allocations are made based on fund specific investment horizons, risk tolerances and/or other eligibility requirements for trust funds with common characteristics as determined by IBRD. Generally, the Pool is invested in cash and liquid financial instruments such as money market instruments, government and agency obligations, mortgage-backed securities and other high-grade bonds. The Pool may include securities pledged as collateral under repurchase agreements with counterparties and receivables from resale agreements for which it has accepted collateral. Additionally, the Pool may also include derivative contracts such as currency forward contracts, currency swaps and interest rate swaps.

The Pool is a trading portfolio and is reported at fair value with all gains/losses included in net investment income. The share in pooled cash and investments represents the modified cash basis trust funds' allocated share of the Pool's fair value at the end of the reporting period.

Net investment income consists of the modified cash basis trust funds' allocated share of the following: interest income earned by the Pool, realized gains/losses from the sales of securities and unrealized gains/losses resulting from recording the securities held by the Pool at fair value.

NOTES TO THE COMBINED STATEMENTS OF RECEIPTS, DISBURSEMENTS AND FUND BALANCE

June 30, 2010

Note 3 - Contributions

Contributions represent funds provided by donors, including the Bank, in support of various trust fund activities. Donors provide cash contributions either directly or against unconditional promissory notes made payable to the Administrator upon demand. Contributions are recognized in the modified cash basis trust funds upon receipt of funds and receipt of the signed and countersigned administration agreements. Contributions for the year ended June 30, 2010 include amounts contributed by the Bank to the modified cash basis trust funds amounting to \$208.1 million (June 30, 2009: \$343.4 million).

Note 4 - Other receipts

Other receipts consist primarily of receipts by the trust funds for advisory services, service fees and repayments of credits disbursed by the Trust Fund for Gaza and West Bank, refunds from closed projects, reimbursement of administrative fees, and reimbursements of expenses not deemed to be eligible disbursements.

Note 5 - Project-related disbursements

Project-related disbursements represent amounts incurred for trust fund activities consistent with the terms of the administration agreements. These include:

- a. Disbursements from Bank-executed trust funds to support: (i) the Bank's own work program, including analytical and advisory activities, (ii) trust fund administration activities, and (iii) other project-related activities. The disbursements for these activities include amounts reimbursed to the Bank for estimated direct staff costs, related benefits and overhead costs totaling \$262.9 million for the year ended June 30, 2010 (June 30, 2009: \$230.0 million).
- b. Disbursements from Recipient-executed trust funds to third-party recipients for carrying out development activities and financing the investment and recurrent needs of service delivery, capacity building and technical assistance. These disbursements also include payments to IBRD and IDA from debt service trust funds amounting to \$224.5 million for the year ended June 30, 2010 (June 30, 2009: \$131.7 million).
- c. Disbursements from Financial intermediary funds in accordance with instructions from donors or governance bodies operating on behalf of donors.

NOTES TO THE COMBINED STATEMENTS OF RECEIPTS, DISBURSEMENTS AND FUND BALANCE

June 30, 2010

Note 5 - Project-related disbursements (continued)

As part of its regular control framework, the Bank performs various compliance reviews of trust fund activities, which may result in the identification of certain matters which could result in ineligible expenditures related to the modified cash basis trust funds. In the event that disbursements are identified which are deemed not to be eligible in accordance with the relevant agreements for the modified cash basis trust funds, the Bank will consult with the donors to determine the appropriate remedy and account for them pursuant to the established policy.

Note 6 - Administrative fees

To assist in the defrayment of the costs incurred for the administration, supervision and oversight of modified cash basis trust funds, the Bank deducts fees pursuant to the legal agreements with donors. In exceptional arrangements, the Bank is not compensated for the services provided to administer the funds.

Note 7 - Refunds to donors

Refunds to donors primarily represent the return of undisbursed fund balances upon completion of individual trust fund activities. Refunds to donors also include remittances to IDA in the amount of \$4.9 million for the year ended June 30, 2010 (June 30, 2009: \$5.5 million) for the repayment of funds previously disbursed to recipients of the Trust Fund for Gaza and West Bank as credits. These repayments are first credited to the Trust Fund for Gaza and West Bank and then remitted to IDA - see also note 4.

Note 8 - Advances received from and repaid to the Bank

Advances received from the Bank represent amounts temporarily granted by the Bank to the modified cash basis trust funds in anticipation of receipt of contributions committed by donors. Advances repaid to the Bank represent repayment of such advances by the modified cash basis trust funds to the Bank.

Note 9 - Transfers from/to other trust funds

Transfers from/to other trust funds represents transfer of funds between the modified cash basis trust funds included in the Combined Financial Statements and other trust funds excluded from the Combined Financial Statements.

NOTES TO THE COMBINED STATEMENTS OF RECEIPTS, DISBURSEMENTS AND FUND BALANCE

June 30, 2010

Note 10 - Fair value of financial instruments

As discussed in note 2, cash and investments of all trust funds administered by the World Bank Group are managed in a pooled investment portfolio. The Trust Funds' share in the pool is not traded in any market; however, the underlying assets within the Pool are traded and reported at fair value. All investment decisions are made and performance monitored at the Pool level. The disclosure on fair value measurement and fair value hierarchy is therefore at the Pool level. The fair value amount of the modified cash basis trust funds' share in the pooled cash and investments at the end of the reporting period also is disclosed.

Fair value measurements

IBRD has an established and documented process for determining fair values. Fair value is based upon quoted market prices for same or similar securities, where available. Financial instruments for which quoted market prices are not readily available are valued based on discounted cash flow models. These models primarily use market-based or independently-sourced market parameters such as yield curves, interest rates, volatilities, foreign exchange rates and credit curves, and may incorporate unobservable inputs. Selection of these inputs may involve some judgment. To ensure the valuations are appropriate where internally-developed models are used, IBRD has various controls in place, which include both internal and periodical external verification and review.

The techniques applied in determining the fair values of financial instruments are summarized below.

Investment securities

Where available, quoted market prices are used to determine the fair value of investment securities. The Pool may include investment securities such as government and agency obligations, money market securities, and corporate and asset-backed securities. For instruments for which quoted market prices are not readily available, fair values are determined using model-based valuation techniques, either internally-generated or vendor-supplied, that includes the standard discounted cash flow method using market observable inputs such as yield curves, credit spreads, and prepayment speeds. Unless quoted prices are available, money market instruments are reported at face value, which approximates fair value.

NOTES TO THE COMBINED STATEMENTS OF RECEIPTS, DISBURSEMENTS AND FUND BALANCE

June 30, 2010

Note 10 - Fair value of financial instruments (continued)

Securities purchased under resale agreements and securities sold under agreements to repurchase

Securities purchased under resale agreements and securities sold under agreements to repurchase are reported at face value which approximates fair value.

Discount notes and plain vanilla bonds

Discount notes and plain vanilla bonds are valued using the standard discounted cash flow method, which relies on market observable inputs such as yield curves, foreign exchange rates, basis spreads and funding spreads.

Derivative contracts

Derivative contracts include currency forward contracts, currency swaps and interest rate swaps. Derivatives are valued using the standard discounted cash flow methods using market observable inputs such as yield curves, foreign exchange rates, basis spreads and funding spreads.

Fair value hierarchy

Financial instruments are categorized based on the priority of the inputs to the valuation technique. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1), the next highest priority to observable market-based inputs or inputs that are corroborated by market data (Level 2) and the lowest priority to unobservable inputs that are not corroborated by market data (Level 3). When the inputs used to measure fair value fall within different levels of the hierarchy, the level within which the fair value measurements is categorized is based on the lowest level input that is significant to the fair value measurement of the instrument in its entirety. Thus, a Level 3 fair value measurement of the instrument may include inputs that are observable (Level 2) and unobservable (Level 3).

NOTES TO THE COMBINED STATEMENTS OF RECEIPTS, DISBURSEMENTS AND FUND BALANCE

June 30, 2010

Note 10 - Fair value of financial instruments (continued)

The following tables present the Pool's fair value hierarchy for financial instruments measured at fair value on a recurring basis as of June 30, 2010 and June 30, 2009. The modified cash basis trust funds' allocated share of the Pool's financial instruments may hold varying proportions among the three levels.

In millions of U.S. dollars

NOTES TO THE COMBINED STATEMENTS OF RECEIPTS, DISBURSEMENTS AND FUND BALANCE

June 30, 2010

Note 10 - Fair value of financial instruments (continued)

In the Pool, the carrying value of securities pledged as collateral under repurchase agreements as of June 30, 2010 and June 30, 2009 were \$316 million and \$685 million, respectively. During the years ended June 30, 2010 and June 30, 2009, neither transfers between levels nor securities in level 3 were significant. Therefore, no further disclosures on them are included.

As of June 30, 2010 and June 30, 2009, the Pool does not have any financial instruments measured at fair value on a non-recurring basis.

Modified cash basis trust funds' share of the cash and investments in the Pool

The modified cash basis trust funds' share of the cash and investments in the Pool, which was allocated based on the specific investment horizons, risk tolerances and other eligibility requirements pursuant to the agreements, has a fair value of \$9,355 million as of June 30, 2010 (June 30, 2009: \$8,215 million). Net investment income in the amount of \$124 million was credited to the modified cash basis trust funds for the year ended June 30, 2010 (June 30, 2009: \$306 million) based on their allocated share of the cash and investments in the Pool.

Financial risks related to the Pool

IBRD, on behalf of the Bank, invests the Pool's assets generally in liquid instruments such as money market securities, government and agency obligations, mortgage-backed securities and derivative contracts. IBRD's policy limits investments in the Pool to financial instruments with minimum credit ratings as follows:

- Money market securities: issued or guaranteed by financial institutions with senior debt securities rated at least A-.
- Government and agency obligations: issued or unconditionally guaranteed by government agencies rated at least AA- if denominated in a currency other than the home currency of the issuer, otherwise no rating is required. Obligations issued by an agency or instrumentality of a government, a multilateral or any other official entity require a minimum credit rating of AA-.
- Mortgage-backed securities and Asset-backed securities: minimum rating must be AAA.
- Derivatives: counterparties must have a minimum rating of A+.

NOTES TO THE COMBINED STATEMENTS OF RECEIPTS, DISBURSEMENTS AND FUND BALANCE

June 30, 2010

Note 10 - Fair value of financial instruments (continued)

Modified cash basis trust funds' financial risks

The modified cash basis trust funds are exposed to credit risk on its share in the cash and investment in the Pool. As of June 30, 2010, the Trust Funds' share in the Pool is invested in a sub-portfolio of which approximately 64% (June 30, 2009: 67%) of the securities are rated at least AA and 100% (June 30, 2009: 98%) of the securities are rated at least A+. As of June 30, 2010, this Pool sub-portfolio is invested in the following types of instruments: 41% (June 30, 2009: 33%) in money market securities, 57% (June 30, 2009: 65%) in government and agency obligations and the remaining 2% (June 30, 2009: 2%) in mortgage-backed securities and asset-backed securities.

Note 11 - Guarantees

There are four investment guarantee trust funds, which are administered by MIGA, included in the combined statements of receipts, disbursements and fund balance. MIGA, on behalf of these trust funds, issues guarantees against loss caused by non-commercial risks to eligible investors on qualified investments in the countries specified in the trust fund administration agreements. These guarantees expire between June 2012 and March 2015. At June 30, 2010, the maximum potential amount of future payments of the guarantees is \$2.5 million (June 30, 2009: \$2.7 million).

Note 12 – Subsequent Events

Management has evaluated subsequent events through September 21, 2010, the date the financial statements were available to be issued.

Note 13 - List of trust funds included in the Combined Financial Statements

This note provides the listing of individual trust funds which are accounted for and reported using the modified cash basis of accounting, as described in note 2, and therefore are included in the Combined Financial Statements. Certain trust funds are included in 2009, but not in 2010 primarily because they were closed during the year ended June 30, 2009. Similarly, certain trust funds are included in 2010 but not in 2009 primarily because they were created and activated during the year ended June 30, 2010.
