MANAGEMENT'S ASSERTION REGARDING EFFECTIVENESS OF INTERNAL CONTROL OVER FINANCIAL REPORTING OF THE MODIFIED CASH BASIS TRUST FUNDS

The International Bank for Reconstruction and Development ("IBRD"), the International Development Association ("IDA"), the International Finance Corporation ("IFC"), and the Multilateral Investment Guarantee Agency ("MIGA") (collectively referred to herein as "the Bank"), as administrators for the modified cash basis trust funds as listed in Annex 1 to the combined statements of receipts, disbursements and fund balance, are responsible for establishing and maintaining effective internal control and procedures over financial reporting for trust fund activities which are designed to provide reasonable assurance to the Bank's Management and Board of Directors regarding the preparation of reliable trust fund financial reports prepared on the cash receipts and disbursements basis of accounting modified to record the share in pooled cash and investments at fair value ("modified cash basis of accounting").

Assertions as of June 30, 2012 made by Management in this document pertain to the specific control objectives relevant to the effectiveness of internal control over financial reporting of trust fund activities using the modified cash basis of accounting (the "modified cash basis trust funds"). The specific management assertions are set forth below:

1. Contributions from donors are recorded in the appropriate trust fund on a timely basis.
2. Assets underlying Trust Funds' fund balance are segregated from funds of the Bank and are in the form of cash and investments managed by the Bank.
3. Transactions recorded in the underlying financial records and the financial reporting of each trust fund are accurate and complete.
4. Investment income is earned and credited to the appropriate Trust Fund in accordance with the terms and provisions of the legal agreements entered into with the donors.
5. Disbursements follow relevant Bank policies and procedures.
6. Fees for administering each Trust Fund are charged in accordance with the terms and provisions of the legal agreements entered into with the donors.
7. Financial reporting is in compliance with the requirements set forth in the legal agreements entered into with the donors.

MANAGEMENT'S ASSERTION REGARDING EFFECTIVENESS OF INTERNAL CONTROL OVER FINANCIAL REPORTING OF THE MODIFIED CASH BASIS TRUST FUNDS (CONTINUED)

The Bank's internal control and procedures over financial reporting of the modified cash basis trust funds contain self-monitoring mechanisms, and actions are taken to correct deficiencies as and when identified. Even an effective internal control system, no matter how well designed, has inherent limitations, including the possibility of human error and the circumvention or overriding of controls, and therefore can provide only reasonable assurance with respect to financial report preparation. Such human error, circumvention, or overriding of controls may, among other things, result in ineligible expenditures charged to a trust fund that systems of internal control cannot always detect at the time of recording. Management does not perceive this to be indicative of an overall ineffective system of internal control.

The Bank assessed its internal control over financial reporting of the modified cash basis trust funds as a whole as of June 30, 2012. This assessment was based on criteria established in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this assessment, the Bank has maintained effective internal control over financial reporting for the modified cash basis trust funds as of June 30, 2012.

Independent Auditors' Report

International Bank for Reconstruction and Development,
International Development Association,
International Finance Corporation, and
Multilateral Investment Guarantee Agency; together
as Administrators for the Modified Cash Basis Trust Funds

We have examined management's assertion, included in the accompanying *Management's Assertion Regarding Effectiveness of Internal Control over Financial Reporting of the Modified Cash Basis Trust Funds*, that the International Bank for Reconstruction and Development, the International Development Association, the International Finance Corporation, and the Multilateral Investment Guarantee Agency (together referred to as the Administrators) maintained effective internal control over financial reporting for the modified cash basis trust funds listed in Annex 1 to the combined statements of receipts, disbursements and fund balance (the Statements) as of June 30, 2012 (modified cash basis trust funds), based on criteria established in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Management of the Administrators is responsible for maintaining effective internal control over financial reporting, and for its assertion on the effectiveness of internal control over financial reporting, included in the accompanying *Management's Assertion Regarding Effectiveness of Internal Control over Financial Reporting of the Modified Cash Basis Trust Funds*. Our responsibility is to express an opinion on management's assertion based on our examination.

We conducted our examination in accordance with attestation standards established by the American Institute of Certified Public Accountants and the International Standards on Assurance Engagements as issued by the International Auditing and Assurance Standards Board. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our examination included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our examination also included performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

An entity's internal control over financial reporting is a process effected by those charged with governance, management, and other personnel, designed to provide reasonable assurance regarding the preparation of reliable financial statements in accordance with an applicable financial reporting framework, which in the case of the Statements prepared by the Administrators is the modified cash basis of accounting as described in note 2 of the Statements, a comprehensive basis of accounting other than generally accepted accounting principles. An entity's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with the applicable financial reporting framework of the

modified cash basis of accounting described in note 2 of the Statements, and that receipts and expenditures of the entity are being made only in accordance with authorizations of management and those charged with governance; and (3) provide reasonable assurance regarding prevention, or timely detection and correction of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the modified cash basis trust funds' Statements.

Because of its inherent limitations, internal control over financial reporting may not prevent, or detect and correct misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, management's assertion that the Administrators maintained effective internal control over financial reporting of the modified cash basis trust funds as of June 30, 2012 is fairly stated, in all material respects, based on criteria established in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We also have audited, in accordance with auditing standards generally accepted in the United States of America and International Standards on Auditing, the combined statements of receipts, disbursements and fund balance of the modified cash basis trust funds for the fiscal years ended June 30, 2012 and 2011, and our report dated September 28, 2012 expressed an unqualified opinion on those financial statements.

Independent Auditors' Report

International Bank for Reconstruction and Development
International Development Association,
International Finance Corporation, and
Multilateral Investment Guarantee Agency; together
as Administrators for the Modified Cash Basis Trust Funds

We have audited the accompanying combined statements of receipts, disbursements and fund balance (the Statements) of the modified cash basis trust funds listed in Annex 1 for the years ended June 30, 2012 and 2011. The Statements are the responsibility of the management of the Administrators, consisting of the International Bank for Reconstruction and Development, the International Development Association, the International Finance Corporation and the Multilateral Investment Guarantee Agency. Our responsibility is to express an opinion on the Statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and International Standards on Auditing. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the Statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the Statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the Statements. We believe that our audits provide a reasonable basis for our opinion.

As described in note 2, the Statements were prepared on the modified cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles.

In our opinion, the combined statements of receipts, disbursements, and fund balance referred to above present fairly, in all material respects, the cash receipts, disbursements, and fund balance of the modified cash basis trust funds for the years ended June 30, 2012 and 2011, on the basis of accounting described in note 2.

Our audits were conducted for the purpose of forming an opinion on the Statements as a whole. The supplementary information included in Annex I is presented for purposes of additional analysis and is not a required part of the Statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the Statements. The information has been subjected to the auditing procedures applied in the audits of the Statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the Statements or to the Statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the Statements as a whole. The supplementary information included in the Supplemental Schedules is presented for purposes of additional analysis and is not a required part of the Statements. Such information has not been subjected to the auditing procedures applied in the audits of the Statements and, accordingly, we do not express an opinion or provide any assurance on it.

We also have examined, in accordance with the attestation standards established by the American Institute of Certified Public Accountants and the International Standards on Assurance Engagements issued by the International Auditing and Assurance Standards Board, the assertion prepared by management of the Administrators that the Administrators maintained effective internal control over financial reporting of the modified cash basis trust funds as of June 30, 2012, in accordance with the criteria established in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), and our report dated September 28, 2012, expressed an unqualified opinion on management's assertion.

NOTES TO THE COMBINED STATEMENTS OF RECEIPTS, DISBURSEMENTS AND FUND BALANCE

June 30, 2012 and 2011

All amounts expressed in millions of U.S. dollars unless otherwise noted

Note 1 - Organization and operations

The International Bank for Reconstruction and Development (IBRD), the International Development Association (IDA), the International Finance Corporation (IFC), and the Multilateral Investment Guarantee Agency (MIGA), herein collectively referred to as “the Bank”, enter into legal agreements, individually or jointly, with various external donors for funding trust funds. The Bank is the Administrator and/or Trustee of such trust funds. IBRD, IDA, IFC, and MIGA are members of the World Bank Group, which also includes the International Centre for Settlement of Investment Disputes (ICSID).

Trust funds generally provide grants to meet diverse development needs, including project preparation, technical assistance, advisory services, debt relief, post conflict transition, disaster recovery, climate change and co-financing of lending projects.

IBRD performs certain administrative, accounting, financial reporting and treasury services related to trust funds’ activities on behalf of the Bank.

Basis of combination

Individual trust funds, which are administered by the Bank and are accounted for and reported using the modified cash basis of accounting, as described in Note 2, are included in the Combined Statements of Receipts, Disbursements and Fund Balance (the Statements). The list of trust funds that are included in the Statements is provided in Annex 1. These trust funds are referred to as “modified cash basis trust funds” and are combined for purpose of presenting the Statements.

In addition to the modified cash basis trust funds, the Bank administers a number of other trust funds, which are accounted for and reported under accounting principles generally accepted in the United States of America (U.S. GAAP), International Financial Reporting Standards (IFRS), special purpose basis of reporting or another basis as defined and disclosed in the applicable trust fund financial statements. These trust funds are separately audited and excluded from the Statements. Transfers between trust funds included in the Statements are eliminated; however, transfers to/from trust funds that are not included in the Statements are reported as transfers.

Activities of the modified cash basis trust funds are carried out primarily in the following ways:

Recipient-executed activities

Recipient-executed trust funds involve activities carried out by recipient third-party executing agencies (Recipients). The Bank enters into agreements with and disburses funds to those Recipients, who then exercise spending authority to meet the objectives and comply with terms stipulated in these agreements, including submission of progress and audited financial reports to the Bank.

NOTES TO THE COMBINED STATEMENTS OF RECEIPTS, DISBURSEMENTS AND FUND BALANCE

June 30, 2012 and 2011

All amounts expressed in millions of U.S. dollars unless otherwise noted

Bank-executed activities

Bank-executed trust funds involve activities executed by the Bank, as described in the relevant administration arrangements with donors, which define the terms and conditions for use of the funds. Spending authority is exercised by the Bank. The Bank prepares the terms of reference, procures goods and services from suppliers, makes payment, and submits progress and financial reports for these activities to donors.

Financial intermediary funds

Financial intermediary funds comprise a heterogeneous mix of trust funds not covered by either the Bank-executed or Recipient-executed categories. They include trust funds with complex financial structures or arrangements in which the Bank provides specific administrative or financial services with a limited fiduciary or operational role. Arrangements include the administration of a variety of debt service trust funds, fiscal agency services funds and other more specialized limited fund management roles. Financial intermediary funds hold and disburse funds in accordance with the instructions from donors, or in some cases the governing bodies operating on behalf of the donors.

Note 2 - Significant accounting policies

Basis of presentation

The Statements have been prepared on the cash receipts and disbursements basis of accounting, modified to record the modified cash basis trust funds' share of the pooled cash and investments at fair value (modified cash basis of accounting). Accordingly, net investment income includes realized and unrealized gains/losses.

The modified cash basis of accounting is a comprehensive basis of accounting other than U.S. GAAP or IFRS. Therefore, the Statements are not intended to be a presentation in conformity with U.S. GAAP or IFRS. Receipts, with the exception of net investment income as described above, are reported when collected (i.e., when credited to the modified cash basis trust funds) rather than when pledged/earned, and disbursements are reported when paid (i.e., when debited to the modified cash basis trust funds) rather than when incurred.

In accordance with the modified cash basis of accounting, as described above, and with the policies adopted for the administration of the modified cash basis trust funds, certain transactions are reported in the Statements in the period in which the transactions are credited/debited to the modified cash basis trust funds, rather than in the period to which they relate. These may include contributions not credited to the modified cash basis trust funds by the period end date due to timing or other reasons; repostings of disbursements in the ordinary course of business, as deemed necessary; and any refunds of previous disbursements deemed by the Bank to be ineligible in accordance with the relevant legal agreements.

NOTES TO THE COMBINED STATEMENTS OF RECEIPTS, DISBURSEMENTS AND FUND BALANCE

June 30, 2012 and 2011

All amounts expressed in millions of U.S. dollars unless otherwise noted

The Statements are presented in U.S. dollars, the reporting currency. Transactions in currencies other than U.S. dollars are reported at the market rates of exchange in effect on the date of the transaction. At the end of each reporting period, fund balances that are not denominated in U.S. dollars are revalued at the market rates of exchange prevailing at the end of the respective reporting period. Any adjustment resulting from currency exchange rate changes is recognized as foreign currency adjustments in the Statements.

Project-related disbursements made from the Bank's resources, on behalf of the modified cash basis trust funds (refer to Note 5), are reimbursed to the Bank by those trust funds on a regular basis. To the extent that disbursements are made in currencies other than U.S. dollars, the Bank may be reimbursed a different amount due to the difference in exchange rates on various dates. Transaction gains or losses on disbursements, if any, are borne by IBRD, on behalf of the Bank.

The preparation of the Statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions based upon information available as of the date of the Statements. Actual results could differ from these estimates. Areas in which management makes estimates and assumptions in determining the amounts to be recorded include the fair value of financial instruments.

Share in the pooled cash and investments and net investment income

Amounts received by the modified cash basis trust funds, but not yet disbursed, are managed by IBRD, on behalf of the Bank, which maintains an investment portfolio (the Pool) for all of the trust funds administered by the entities of the Bank. The Pool also includes funds in ICSID's escrow accounts. IBRD maintains all trust fund assets separate and apart from the funds of the World Bank Group.

The Pool is divided into sub-portfolios to which allocations are made based on fund specific investment horizons, risk tolerances and/or other eligibility requirements for trust funds with common characteristics as determined by IBRD, on behalf of the Bank, in accordance with the legal agreements entered into with the donors. These sub-portfolios may hold all or a portion of the instruments held by the Pool.

Generally, the Pool includes cash and liquid financial instruments such as government and agency obligations, time deposits, money market securities, and asset-backed securities. The Pool may also include securities pledged as collateral under repurchase agreements and derivatives with other counterparties, and receivables from resale agreements as well as derivatives for which it has accepted collateral. Additionally, the Pool includes derivative contracts such as currency forward contracts, currency swaps, interest rate swaps, and contracts to purchase or sell Mortgage-Backed Securities To-Be-Announced (TBAs). Payables and receivables associated with the investment activities are also included in the Pool.

NOTES TO THE COMBINED STATEMENTS OF RECEIPTS, DISBURSEMENTS AND FUND BALANCE

June 30, 2012 and 2011

All amounts expressed in millions of U.S. dollars unless otherwise noted

The Pool is a trading portfolio and is reported at fair value, with gains/losses included in net investment income. The share in the pooled cash and investments represents the modified cash basis trust funds' share of the Pool's fair value at the end of each reporting period.

Net investment income consists of the modified cash basis trust funds' allocated share of the following: interest income earned by the Pool, realized gains/losses from the sales of securities, and unrealized gains/losses resulting from recording the instruments held by the Pool at fair value.

Note 3 - Contributions

Contributions represent funds provided by the donors, including the Bank, in support of various trust fund activities. Contributions are recognized by the modified cash basis trust funds upon receipt of funds and the countersigned legal agreements.

NOTES TO THE COMBINED STATEMENTS OF RECEIPTS, DISBURSEMENTS AND FUND BALANCE

June 30, 2012 and 2011

All amounts expressed in millions of U.S. dollars unless otherwise noted

Contributions received from various donors during the fiscal years ended June 30, 2012, and June 30, 2011, are as follows:

All amounts expressed in millions of U.S. dollars unless otherwise noted

Other receipts also include receipts by the modified cash basis trust funds for certain advisory services and service fees, as well as repayments of credits by recipients of amounts previously disbursed by the Trust Fund for Gaza and West Bank, refunds from closed projects, and reimbursements of ineligible disbursements.

Note 5 - Transfers from/to other trust funds

Transfers from/to other trust funds represents the transfer of funds between the modified cash basis trust funds included in the Statements and trust funds excluded from the Statements upon receipt of instructions from donors or relevant governing bodies.

Note 6 - Project-related disbursements

Project-related disbursements represent amounts disbursed for trust fund activities based upon the terms of the legal agreements entered into with the donors. Project-related disbursements by execution type during the fiscal years ended June 30, 2012 and June 30, 2011, are as follows:

Execution type	2012	2011
Recipient-executed trust funds ^a	\$3,493	\$3,083
Bank-executed trust funds ^b	1,040	1,089
Financial intermediary funds ^c	652	399
Total Project-related disbursements	\$5,185	\$4,571

- Represents disbursements from Recipient-executed trust funds to Recipients for carrying out development activities and financing the investment and recurrent needs of service delivery, capacity building and technical assistance. These disbursements include payments to IBRD and IDA from debt service trust funds amounting to \$45 million (2011: \$34 million) primarily for repayment of loans and credits, on behalf of beneficiaries.
- Represents disbursements from Bank-executed trust funds: (i) to support the Bank's own work program, including analytical and advisory activities, (ii) for trust fund administration activities, and (iii) for other project-related activities. These disbursements include \$328 million (2011: \$299 million) towards direct staff costs, related benefits and overheads, which were reimbursed to the Bank for its estimates of costs incurred for executing activities consistent with the legal agreements entered into with the donors of the modified cash basis trust funds.

- c. Represents disbursements from financial intermediary funds in accordance with instructions from donors or governing bodies operating on behalf of the donors.

As part of its internal control framework, the Bank performs various compliance reviews of trust fund activities, which may result in the identification of ineligible expenditures related to the modified cash basis trust funds. In the event that disbursements which are deemed not to be eligible in accordance with the relevant agreements for the modified cash basis trust funds are identified, the Bank will consult with the donors to determine the appropriate remedy and account for them pursuant to the established policy.

Note 7 - Refunds to donors

Refunds to donors primarily represent the return of unused fund balances upon completion of individual trust fund activities. Refunds to various donors during the fiscal years ended June 30, 2012 and June 30, 2011, are as follows:

Donor	2012	2011
Sovereign countries and European Commission		
Canada ¹	\$179	\$ 75

All amounts expressed in millions of U.S. dollars unless otherwise noted

Note 8 - Administrative fees

To assist in the defrayment of the costs incurred by the Bank for the administration, supervision and oversight of modified cash basis trust funds, the Bank charges administrative fees as applicable, pursuant to legal agreements with donors.

Note 9 - Advances received from/repaid to the Bank

Advances received from the Bank in the amount of \$6 million represents interest-free advances provided by the Bank to the modified cash basis trust funds during the fiscal year ended June 30, 2012 (2011: \$6 million) in anticipation of receipts of contributions previously committed by donors. Advances previously made amounting to \$6 million were repaid by the modified cash basis trust funds to the Bank, during the fiscal year ended June 30, 2012 (2011: \$7 million).

Note 10 - Fair value of financial instruments

The modified cash basis trust funds' share in the Pool is not traded in any market; however, the underlying assets within the Pool are reported at fair value. All investment decisions are made and performance is monitored at the Pool level. The disclosure on fair value measurement and fair value hierarchy is therefore at the Pool level. The fair value amount of the modified cash basis trust funds' share in the pooled cash and investments at the end of the reporting period is also disclosed.

Fair value measurements

IBRD, on behalf of the Bank, has an established and documented process for determining fair value. Fair value is based upon quoted market prices for the same or similar instruments, where available. Financial instruments for which quoted market prices are not readily available are valued based on discounted cash flow models. These models primarily use market-based or independently-sourced market parameters such as yield curves, interest rates, volatilities, foreign exchange rates and credit curves, and may incorporate unobservable inputs. Selection of these inputs involves judgment. The Pool may include financial instruments such as time deposits, money market instruments, government and agency obligations, asset-backed securities, securities purchased under resale agreements and securities sold under repurchase agreements, and derivatives.

NOTES TO THE COMBINED STATEMENTS OF RECEIPTS, DISBURSEMENTS AND FUND BALANCE

June 30, 2012 and 2011

All amounts expressed in millions of U.S. dollars unless otherwise noted

The techniques applied in determining the fair values of financial instruments are summarized below:

Government and agency obligations and asset-backed securities

Where available, quoted market prices are used to determine the fair value of government and agency obligations and asset-backed securities. For securities for which quoted market prices are not readily available, fair values are determined using model-based valuation techniques, either internally-generated or vendor-supplied, that include the standard discounted cash flow method using market observable inputs such as yield curves, credit spreads, prepayment speeds, foreign exchange rates, and funding spreads.

Time deposits and money market securities

Unless quoted prices are available, time deposits and money market securities are reported at face value, which approximates fair value.

Securities purchased under resale agreements and securities sold under repurchase agreements

Securities purchased under resale agreements and securities sold under repurchase agreements are reported at face value, which approximates fair value.

Derivative contracts

Derivative contracts include currency forward contracts, currency swaps, interest rate swaps and contracts to purchase or sell TBA securities. Derivatives are valued using model based valuation techniques which include the standard discounted cash flow method with market observable inputs such as yield curves, foreign exchange rates, basis spreads, and funding spreads.

NOTES TO THE COMBINED STATEMENTS OF RECEIPTS, DISBURSEMENTS AND FUND BALANCE

June 30, 2012 and 2011

All amounts expressed in millions of U.S. dollars unless otherwise noted

Fair value hierarchy

Financial instruments representing the pooled investments for all of the trust funds administered by the World Bank Group are recorded at fair value and are categorized based on the inputs to the valuation techniques as follows (in order of priority placed on the inputs):

- Level 1: Financial instruments whose values are based on unadjusted quoted prices for identical instruments in active markets.
- Level 2: Financial instruments whose values are based on quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; or pricing models for which all significant inputs are observable, either directly or indirectly, for substantially the full term of the instrument.
- Level 3: Financial instruments whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement.

When the inputs used to measure fair value fall within different levels of the hierarchy, the level within which the fair value measurement is categorized is based on the lowest priority level input that is significant to the fair value measurement of the instrument in its entirety. Thus, a Level 3 fair value measurement of the instrument may include inputs that are observable (Level 2) and unobservable (Level 3).

As of June 30, 2012 and June 30, 2011, the Pool does not have any financial instruments measured at fair value on a non-recurring basis.

Risk management related to the Pool

The modified cash basis trust funds are exposed to credit risk on its share of the cash and investments in the Pool. IBRD, on behalf of the Bank, limits investments to those financial instruments with minimum credit ratings in the U.S. markets or equivalent as follows:

- Government and agency obligations - issued or unconditionally guaranteed by government agencies rated at least AA- if denominated in a currency other than the home currency of the issuer, otherwise no rating is required. Obligations issued by an agency or instrumentality of a government, a multilateral organization or any other official entity require a minimum credit rating of AA-;
- Time deposits and money market instruments - issued or guaranteed by financial institutions whose senior debt securities are rated at least A-;
- Asset-backed securities - minimum rating must be AAA; and
- Derivatives - counterparties must have a minimum rating of A+.

IBRD, on behalf of the World Bank Group, may require collateral in the form of cash or other approved liquid securities from individual counterparties in connection with resale agreements as well as derivatives. This collateral serves to mitigate IBRD's exposure to credit risk. The risk is also mitigated through the application of eligibility criteria and volume limits for transactions with individual counterparties and through the use of mark-to-market collateral arrangements for derivatives.

Under resale agreements, IBRD, on behalf of the World Bank Group, has received securities as collateral with a fair value of \$75 million and nil as of June 30, 2012 and June 30, 2011, respectively and is permitted to sell or repledge these securities. No securities have been sold or repledged as of June 30, 2012. As of June 30, 2012 and June 30, 2011, the carrying amount of securities pledged as collateral under repurchase agreements was \$45 million and \$751 million, respectively.

The fair value of collateral received related to derivatives was \$128 million and \$1 million as of June 30, 2012 and June 30, 2011, and IBRD, on behalf of the World Bank Group, is permitted to repledge the entire amount. As of June 30, 2012 and June 30, 2011, no collateral received related to derivatives has been repledged. The carrying amount of collateral paid to the counterparties was nil and \$0.9 million as of June 30, 2012 and June 30, 2011, respectively.

Modified cash basis trust funds' share of cash and investments in the Pool

The modified cash basis trust funds' share of cash and investments in the Pool, which was allocated to sub-portfolios based on the specific investment horizons, risk tolerances and other eligibility requirements pursuant to the legal agreements entered into with the donors, has a fair value of \$11,737 million as of June 30, 2012 (2011: \$10,364 million).

The following table presents investment holdings at fair values in the sub-portfolios of the pool in terms of the counterparty credit risk exposure and investment categories as of June 30, 2012 and June 30, 2011:

Counterparty credit ratings	2012	2011
AA or greater	65%	53%
A- or greater	100%	100%
Types of financial instruments		
Government and agency obligations	57.42%	52.50%
Time deposits and money market securities	40.21%	49.20%
Asset-backed securities	1.90%	1.87%
Securities purchased under resale agreements and securities sold under repurchase agreements, net	0.16%	(2.51%)
Derivatives, net	0.31%	(1.06%)
Total	100.00%	100.00%

Note 11 – Guarantees

There are three investment guarantee trust funds, which are administered by MIGA, included in the Statements. MIGA, on behalf of these trust funds, issues guarantees against loss caused by non-commercial risks to eligible investors on qualified investments in the countries specified in the trust fund legal agreements entered into with the donors. These guarantees expire between September 2012 and June 2022. At June 30, 2012, the maximum potential amount of future payments of the guarantees, which are fully backed by the funds of the respective trust funds, is \$15 million (June 30, 2011: \$2.5 million).

Note 12 - Subsequent events

Management has evaluated subsequent events through September 28, 2012, the date the Statements were available to be issued and there are no subsequent events that would require adjustment to or disclosure in the Statements.

Note 13 - List of Trust Funds included in the Statements

Annex 1 provides the listing of individual trust funds, which are administered by the Bank and are accounted for and reported using the modified cash basis of accounting, as described in Note 2, and therefore are included in the Statements. Certain trust funds are included in the fiscal year ended June 30, 2011, but not in the fiscal year ended June 30, 2012 because they were closed during the fiscal year ended June 30, 2011. Similarly, certain trust funds are included in fiscal year 2012 but not in fiscal year 2011 because they were created and activated during the fiscal year 2012.
