Fiji government welcomes villagebased lockdown measures

2:01 pm on 15 April 2020

Share this 💟 🕤 🔁 🧒 💼

Fiji's government has welcomed moves by villagers to implement their own lockdown measures within their communities due to the Covid-19 threat.

Since the first coronavirus case was confirmed on 19 March, some village heads had imposed restrictions to monitor movement within their districts.

3. Support : Whole of Government & Society Approach

(Simultaneous PH response & Vaccination campaigns)

- Whole of Government: Coordination of knowledge, skills, experiences to optimise resources
- Whole of Society: Inclusivity
- Resilient Health System includes making the community resilient

- RCCE
- a) RCCE Working group
- b) Action oriented meetings and coordinated efforts led to harmonized communication and course correction
- c) Social listening, tiles, radio, talk back shows, targeted webinars- **produced real time and quick turn around time**
- d) Social listening allowed a 2 way communication
- ✓ Accessibility vs confidence

Build Back Better Resilient Health System
