

CHAD

Region: Sub-Saharan Africa

Income Category: Low Income

Human capital – knowledge, skills, and good health – empowers people to achieve their potential and drives economic growth. This brief tracks progress by Chad in building and using human capital. The Human Capital Complementary Indicators offer a snapshot of human capital investments at four stages of the lifecycle. The brief uses the latest available data. It is benchmarked against regional averages and reports progress over the previous 5 years.

EARLY CHILDHOOD

- **Neonatal mortality rate.** The neonatal mortality rate is **31** per 1,000 live births (2023), compared to 34 in 2018. The indicator is higher than the regional average.
- **Children who are developmentally on track.** In 2019, **45%** of children (ages 36-59 months) were developmentally on track in health, learning and psychosocial well-being. The indicator is below the regional average.
- **DTP vaccination rate, third dose.** In 2024, **68%** of infants received the third dose of the diphtheria, tetanus and pertussis vaccine, compared to 53% in 2019. The indicator is lower than the regional average.

SCHOOL AGE

- **Children engaged in child labor.** The share of children (ages 5-17) who are engaged in economic activities is **31%** (2019). The indicator is higher than the regional average.
- **Learning poverty.** In 2019, **94%** of children could not read and understand a simple text, by age 10. The indicator is above the regional average.
- **Child mortality rate.** The mortality rate for children ages 5-14 is **21** per 1,000 children aged 5 (2023), compared to 24 in 2018. The indicator is higher than the regional average.

YOUTH

- **Adolescent fertility rate.** The number of births for every 1,000 women ages 15-19 is **135** (2023), compared to 145 in 2018. The indicator is higher than the regional average.
- **Youth not in employment, education or training.** In 2024, **37%** of youth (ages 15-24) were not in employment, education or training. This remains unchanged since 2019. The indicator is above the regional average.
- **Youth literacy rate.** The share of youth (ages 15-24) who are literate is **36%** (2022), compared to 31% in 2016. The indicator is lower than the regional average.

ADULTS

- **Female labor force participation rate.** Female labor force participation as a percentage of the female working-age population (ages 25+) is **56%** (2024), compared to 57% in 2019. The indicator is lower than the regional average.
- **Life expectancy at birth.** Life expectancy at birth is **55** years (2023), compared to 52 in 2018. The indicator is below the regional average.
- **Adult unemployment rate.** Unemployed adults as a share of the adult labor force (ages 25+) is **1%** (2024). This remains unchanged since 2019. The indicator is lower than the regional average.

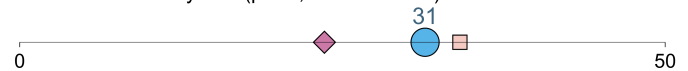

HUMAN CAPITAL COMPLEMENTARY INDICATORS

● Latest available data for Chad (TCD)

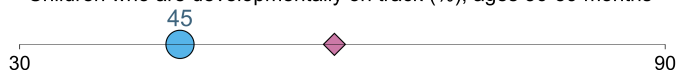

■ TCD approx. 5 years before ◆ Average for Sub-Saharan Africa

EARLY CHILDHOOD

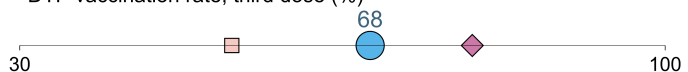

Neonatal mortality rate (per 1,000 live births)

Children who are developmentally on track (%), ages 36-59 months

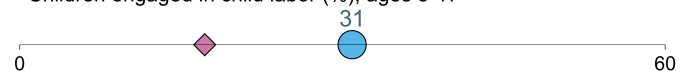

DTP vaccination rate, third dose (%)

SCHOOL AGE

Children engaged in child labor (%), ages 5-17

Learning poverty (%)

Child mortality rate (per 1,000 children aged 5), ages 5-14

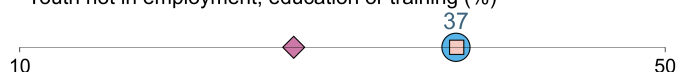

YOUTH

Adolescent fertility rate (births per 1,000 women), ages 15-19

Youth not in employment, education or training (%)

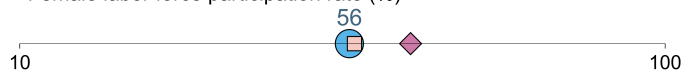

Youth literacy rate (%), ages 15-24

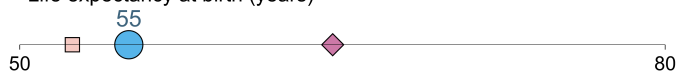

ADULTS

Female labor force participation rate (%)

Life expectancy at birth (years)

Adult unemployment rate (%)
