	Higher	<p><i>Minimum average concessionality requirement applied to external or total public borrowing. For most advanced IDA countries, no concessionality requirements and overall nominal debt limit if needed.</i></p> <table style="width: 100%; border: none;"> <tr> <td style="width: 100%;">Mozambique</td> </tr> <tr> <td>Rwanda</td> </tr> </table>	Mozambique	Rwanda	<p><i>Overall limit on the PV of external or total public debt. For most advanced IDA countries, ceilings on nominal external or public debt.</i></p>																																																		
Mozambique																																																							
Rwanda																																																							

1/ Limited to active IDA-only countries and excludes countries with loans and/or credits in nonaccrual status (Myanmar, Somalia, and Sudan).

2/ Guinea-Bissau's risk of debt distress has improved from "in distress" to "moderate" as a result of full HIPC debt relief as well as beyond HIPC, MDRI and topping-up assistance.

3/ No DSA available. Debt vulnerability assessment based on nominal debt-to-GDP ratio in 2010 (54.6%). Source: IMF (2010), Republic of the Marshall Islands: 2009 Article IV Consultation. Report No. 10/51.
