

Internet Activism.

What is Internet Activism?

A non-profit that develops digital humanitarian tools.

- Based in San Francisco
- Small team of engineers
- Work that spans wars, protests, and pandemics
- Operates globally, wherever crisis strikes
- \$100k~ in funding

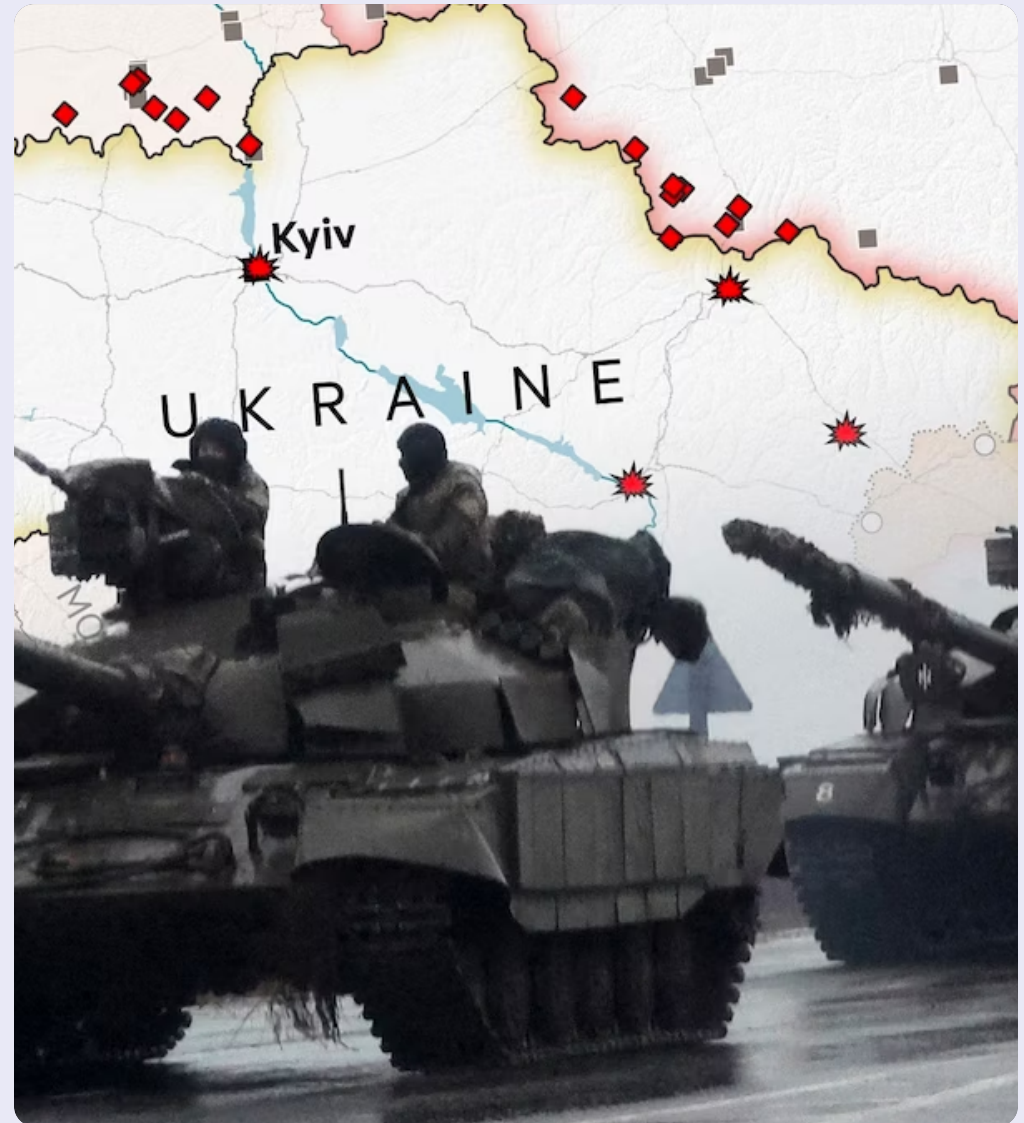

What is Internet Activism?

The internet has opened a new frontier for social good innovation.

- Those in need are online
 - Smartphones and internet access has become cheap
- “Web-based humanitarian tools” can be accessed anywhere, instantly
- It's never been easier to build websites/apps

2022 Ukraine- Russia Conflict

- Over 8,000,000 refugees
- Largest refugee crisis in Europe since WW2
- Relief efforts extremely overwhelmed
- Decentralized housing efforts

What's next?

TakeShelter.org

The screenshot displays the TakeShelter.org website interface. At the top left, the logo reads "Take Shelter" with "By Internet Activism" in smaller text. The top right navigation bar includes a language dropdown set to "English", a search icon, the text "Become a Host", and a blue "Sign In" button. The main content area features a background image of a city with smoke in the sky. The central heading is "Housing for Displaced Sudanese Individuals". Below this are three icons with corresponding text: a location pin icon for "Enter your location.", a telephone icon for "Connect with Hosts.", and a plus sign icon for "Become a host family.". A white search input field with the placeholder text "Enter your closest city" is positioned below the icons. At the bottom, a link "What is TakeShelter?" is visible.

How we're using AI

AI Crisis Hotline

We're prototyping Crisisline, a 24/7 hotline you can text or call to help those in need locate essential resources.

Asylum Paperwork Generator

Filling out and submitting asylum paperwork is often time consuming and difficult. We're using AI to speed up the process in over 100 languages.

Peace Through Code.
